Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may select the paper therefor."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

Notice to Housekeepers.
Rubber Band Carpet Sweeper.

TRY IT! TRY IT!!

It saves Money; it saves Carpets; it saves Furniture; it saves Labor; it is cheaper than Brooms at five cents apiece.

It gathers up all dust, dirt, and loose lint on the carpets, and raises no dust to settle on the furniture, drapery, or ornaments, or to smother, stifle and irritate the lungs.

It does not wear the carpets half so much as brooms or any other sweeper.

It is the only practicable sweeper made, and the only article fit to sweep a carpet.

With our late improvements it gives universal satisfaction to all who use it according to directions. For sale at No. 13 Market Street by

Local.

☞ Major General Wool passed through this city, by the afternoon train, on Saturday, on his way to Portland. At the depot, he was waited upon by Ex Gov. Goodwin, Mayor Dearborn, and other gentlemen, and expressed his intention to visit our city this (Monday) afternoon. Many of our citizens, who had learned that he would pass thro', were at the depot, and in response to many calls from them, Gen. Wool, accompanied by members of his staff, Ex-Gov. Goodwin, and others, appeared on the platform of the car. He was most enthusiastically received, and in a few words expressed his appreciation of the honor paid him, which he accepted as paid rather to his country than to himself. Their presence manifested the deep interest they felt in the terrible struggle in which she is at present involved; he hoped that this interest was not confined to them alone;—that there was no man in New Hampshire who did not earnestly desire that the Government should put down this accursed rebellion. Again expressing his thanks, he withdrew. He was repeatedly and enthusiastically cheered during the course of his brief remarks. Gen. Wool, as stated above, will arrive in this city this, Monday, afternoon, in the five o'clock train from Portland. He will be received at the depot by the City Authorities and escorted to his hotel. A salute will be fired at the Navy Yard as the train enters the city.

Gen. Wool will of course be the guest of the City, while here; and is expected to be present at the annual supper of the Governor's Horse Guards, this evening—at the Rockingham House.

Our citizens will there have opportunity to pay their respects to the General, from 7 to 9 o'clock; at which hour supper will be served. The Horse Guards will be in attendance during the evening — and the Clerk requests members and invited guests to accept this notice as to time.

He will remain here until to-morrow afternoon; when he will, probably, leave for Concord. During his stay he will visit Forts Constitution and McClary, Portsmouth Navy Yard and other points of interest.

☞ Gen. Benham left this city on Saturday with his usual alacrity, to report for duty with the Army of the Potomac. Gen. Hooker has for some time past expected his services, and will assign him a prominent command. We were gratified to learn that the National Guard very appropriately tendered an escort to the General to the cars. We wish Gen. Benham all success and honor in the discharge of his new duties in the field.

☞ Dr. Gulick, who spoke in the North Church on Thursday evening last, will give one of his interesting addresses on Micronesia to the children of the city, at the same place, on this (Monday) evening at 7 1-2 o'clock. Although he will speak to the children, adults will be equally interested in both the subject of the address and his happy manner of presenting it.

☞ A dispatch from Gen. Marston at Washington, received at the City Rooms, stated that the Second Regiment left Washington on Saturday morning for Concord.

☞ Meshach Bell, Jr., of this city, a member of Co. G, 10th regiment, has been discharged from the service on account of severe sickness, and has arrived home.

☞ We learn that the carriage-shop of Messrs. Beck & Packer, near Greenland Parade, was burnt, with all the contents, on Friday night. Insured in the Piscataqua Fire and Marine Co., $300 on the stock, machinery and tools, and $500 on the building, which belonged to Mr. Wm. Brackett. Mr. Packer had been at work in the shop during the evening.

☞ The track repairers on the Portland & Portsmouth Railroad on Friday morning, found the dead body of a man, dressed in soldiers' pants, under an overhanging bridge just beyond the Biddeford station. It is supposed that he either fell or jumped from the train Thursday evening, and struck the abutment of the bridge, and was instantly killed. Nothing was found upon his body, by which he could be identified.

[Communication.]

☞ A son of Portsmouth, who lived at New Orleans about four years before the rebellion, has recently returned to his native home. He mingled largely with the common people there, and says that a very large majority of them had no desire for the rebellion, but wished to remain citizens of the United States: political adventurers made all the disturbance,—and seizing the arms, forts, &c., overawed the common people, and prevented a full and fair expression of their wishes, up to the time when Gen. Butler went there. And he states further that the large numbers of rebels and traitors who still remain there, co-operate with the rebel forces outside, and keep up a strict watch over those who dare to show any signs of real Unionism now. He thinks there is no way for us to end the war, but to fight it out. U. T.

RECIPROCITY.—As the American ship George Griswold, loaded with food contributed in this country for the starving Lancashiro operatives, was going into the port of Liverpool, the English steamer Dolphin was leaving with a cargo of arms and ammunition for the rebels, via Nassau.

☞ Augustus C. Brodhead who, a few years ago reached Chicago decorated with golden medals for brave and successful service in the British artillery, and with a wealthy baroness for a wife, died there a week ago in abject poverty, following his once accomplished and aristocratic wife to a drunkard's grave.

☞ The present Congress will expire tomorrow night, (i. e. Wednesday forenoon,) by the limit of the Constitution. The business of the session was much more forward on Saturday, than we have ever before known it to be in February.

☞ In New York city, the hoarding of coppers, and the premium on the same, has brought out One Cent Shinplasters, in large numbers; but some people don't like them, and prefer to use One Cent Postage Stamps again.

☞ At a great skating tournament in Chicago last week, a lady (Miss Wheeler) bore off the palm, whether in speed, backward movements, cutting rings, making spread eagles, or sculling. Her chief lady competitor failed on account of her long skirts.

☞ In Chariton county, Missouri, last week, "Uncle Dick," a colored servant of Col. William A. McClur, died at nearly 108 years of age, having been born in Virginia in 1775.

Look not mournfully into the past—it comes not back again. Wisely improve the present—it is thine. Go forth to meet the shadowy future without fear, and with a manly heart.

ANOTHER NEW STOVE!

THE MODEL COOK

FOR WOOD OR COAL.

The *novel—the peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the larger oven, for baking; giving an oven nearly 3 feet long* or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! A check draft is applied to this stove by means of which the consumption of fuel is greatly lessened, and a steady fire can be kept day and night if desired.

THE MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be THE STOVE for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is needed.

We believe the MODEL COOK to be the very best Stove in the Market, and invite every one to examine it whether they wish to purchase or not. It has had a very extensive sale since its introduction. Reference might be made to more than a hundred families in this city or vicinity who are using the Stove, and give it the highest commendation.

We refer to the following individuals who have purchased the Model Cook:—

David Kimball, Thos. F. Burt, John T. French, Rev. Mr. Davies, Wm. Pettigrew, Capt. John Davis, Jeremiah Raitt, Mrs. Ann T. Perkins, James W. Jarvis, Francis C. Jarvis, Thos. L. Tullock, Jacob Wendell, Capt. Jacob Thompson, Gen. J. G. Hadley, G. Melvin Huntress, Jos. D. Akerman, James F. Shores, Wm. C. Newton, Horton D. Walker, Benj. Cheever, John Trundy, Richard L. Randall, Geo. Rice, Benj. F. Cauney, Benj M. Parker, Charles A. Wiggin, George W. Plumer, Noah Dennett, Mark H. Gerrish, John Harratt, Thos Murphy, Capt. Wm. Lambert, Joseph Stiles, John Senter, Wm. Bell, Cyrus Plumer, Freeman Hurd, James M. Locke, Daniel L. Randall, Isaiah Wilson, John E. Roberts—of Portsmouth; Samuel C. Dixon, Daniel I. Fryer, Cushman Fryer, of Tredwell's Island; Geo. N. Dixon, Samuel F. Paul, Elias Remick, Timothy Dame, Elliot; Wm. S. Locke, Benj. Furnald, Mrs. Wm. Locke, Kittery; R. F. Gerrish, Kittery Point; Rob. Clement March, Albert Blaisdell, Stephen M. Weeks, Geo. W. Davis, Greenland; John Smart, Stratham; Mrs. Reuben F. Jenness, David Jenness, Moses Philbrick, Rye.

VICTOR COAL STOVE.

We offer this beautiful coal burner to the public, with full confidence in its merits.

It was brought into market two years since, and has come rapidly into use.

The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation. The arrangement for dumping the ashes is very fine—no dust need escape into the room—a continuous fire may be kept throughout the winter—the coal all burned, and no clinkers made.

The quantity of fuel used is very small indeed. There is in this stove an excellent arrangement for ventilating the room in which it is placed; a feature not possessed by any other parlor stove.

Some of the sizes are provided with an oven and boiling place, making them very desirable for a dining room.

We sold a large number of Victor Stoves in our city last season, and they receive the highest commendation from those who are using them.

We have also the celebrated McGregor Stove, so well known in the market as to need no commendation.

A great variety of cheaper Stoves for coal and wood—Coal-hods—Patent Coal-sifters.

COAL LININGS,

and Repairing pieces for most of the stoves in use. Job Work attended to with dispatch.

BUY CALIFORNIA WINES

They are the Purest!
The Best?
The Cheapest!

The "sunny slopes" of "Los Angelos" have announced to the world that America is a wine-growing country, and as the discovery of gold sent a thrill through the old world, so will the discovery of these Wines startle them again, as it says, "one more link broken which has bound us to Europe." "one more step to independence." Let every man, woman and child who sees Wine, see to it that they buy none other than these.

"The Hock" is a most delicious Wine, and rivals in delicacy its German predecessor.

The "Angelica" and "Muscatel" are melting, luscious and rich, and will take the place of Malaga, Tokay, or other rich Wine.

The Port has a fine flavor and body; and The Port is excellent because it is pure.

Pin Worm Syrup.

JUST received Dr. Gordon's PIN WORM SYRUP—the only safe, sure and effectual remedy ever offered to the public for the removal of Pin Worms. The above valuable medicine for sale at the Medicine Store of B. HUTCHINGS.

Ayer's SARSAPARILLA,

THE WORLD'S GREAT REMEDY FOR

Scrofula and Scrofulous Diseases.

From Rainey Sides, a well known merchant of Oxford, Maine.

"I have sold large quantities of your SARSAPARILLA, and have never heard of one who failed of the desired effect and full satisfaction to those who took it. As far as can people try it, they agree there has been no medicine like it before in our community."

Eruptions, Pimples, Blotches, Pustules, Ulcers, Scald, and all Diseases of the Skin.

From Rev. Robt. Stratton, Bristol, England.

"I only do my duty to you and the public, when I add my testimony to that you publish of the medicinal virtues of your SARSAPARILLA. My daughter, aged 19, had an afflicting humor in her ears, eyes, and hair for years, which we were unable to cure until we tried your SARSAPARILLA. She has been well for some months."

From Mrs. Jane E. Rice, a well-known and much-esteemed lady of Pittsburgh, Penn., writes thus:

"My daughter has suffered for a year past with a Scrofulous eruption, which was very troublesome. Nothing afforded any relief until we tried your SARSAPARILLA, which soon completely cured her."

From Charles P. Gage, Esq., of the widely-known Gage, Marshall & Co., manufacturers of enamelled paper, Pittsburgh, N. Y.

"I had for several years a very troublesome tumor in my face, which grew constantly worse until it disfigured my countenance to an intolerable whether. I tried almost every thing a man could do with advice and medicine, but without any relief whatever, until I took your SARSAPARILLA. It immediately made my face worse, as you told me it might for a time, but in a few weeks the new skin began to form under the blotches, and continued until my face is as smooth as any body's, and I am without any symptoms of the disease that I know of. I enjoy perfect health, and without a doubt owe it to your SARSAPARILLA."

Erysipelas—General Debility—Purity the Blood.

From Dr. Robt. Davis, Houston St., New York.

"DR. AYER. I seldom fail to remove *Erysipelas* and *Scrofulous Humors* by prescribing one of your SARSAPARILLA, and I have just now cured an attack of *Malignant Erysipelas* with it. No alterative we prescribe equals the "Sarsaparilla" you have supplied to the profession as well as to the people."

From J. P. Johnston, Esq., Wadsworth, Ohio.

"For twelve years, I had the yellow Erysipelas on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollars worth of medicines. The doctors were so bad that we could not even relieve, and the doctors decided that my arm must be amputated. I began taking your SARSAPARILLA. Took two bottles, and none of your other medicines, and have cured me. I am now as well and sound as any body. Being in a public place, my case is known to every body in this community, and excites the wonder of all."

From Hon. Henry Moore, M. P. P., of Newcastle, C. W., a leading member of the Canadian Parliament.

"I have used your SARSAPARILLA in my family, for general debility, and in particular I think, with wonderful benefit, and feel confidence in commending it to the afflicted."

St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes.

From Harvey Stoller, Esq., the able editor of the Lowell Vermonter, writes thus:

"Our only child, about three years of age, was attacked by pimples on his forehead. They rapidly spread until they covered his face and left ear, which covered his face, and actually blinded his eyes for some days. A skilful physician applied nitrate of silver and other remedies, without any apparent effect. For fifteen days we guarded his hands, lest with them he should tear open the festering and corrupt sores of which his whole face was covered. We tried every thing else we had any hope from, we began giving your SARSAPARILLA, and applying the iodide of potassium, as you direct. We began to feel as hard when we had given the first bottle, and was well when we had finished the second. The child's eyelashes, which had come out, grew out, and he grew up healthy and fair as any other. The whole neighborhood predicted that the child must die."

Syphilis and Mercurial Disease

From Dr. Hewson Bland, of St. Louis, Missouri.

"I find your SARSAPARILLA a more effectual remedy for the secondary symptoms of *Syphilis* and for syphilitic disease than any other medicine. The profession are indebted to you for some of the best medicines we have."

From A. J. Crook, M. D., an eminent physician of Lawrence, Mass., and a prominent member of the Legislature of Massachusetts.

"DR. AYER. My dear Sir: I have found your SARSAPARILLA an excellent remedy for the secondary and tertiary stages of venereal, and especial, in some cases I feel were not obnoxious to it to other remedies. I do not know what I should do without it, in my practice, particularly at times, where a powerful alterative is required."

Mr. Chas. S. Fox, Lime, of New Brunswick, N. J., had suffered from a severe attack of the secondary stage of mercury, or mercurial disease, which grew more and more aggravated for years, in spite of every remedy yet discovered, until he tried Ayer's Sarsaparilla, and the recovering use of Ayer's Sarsaparilla relieved him. Few cases can be found more inveterate and distressing than his, and it took several dozen bottles to cure him.

Leucorrhœa, Whites, Female Weakness,

are generally produced by internal *Scrofulous Humors*, and are very often cured by the alterative virtues of this SARSAPARILLA. We have, however, in all of the SARSAPARILLA, the skilful application of local remedies.

From the well known and widely-celebrated Dr. Hunt, of Boston, Mass., formerly of New York.

"I have found your SARSAPARILLA an excellent alterative in diseases of females. Many cases of Irregularity, Leucorrhœa, Internal Ulceration, and local debility, arising from the scrofulous diathesis, have yielded to it, and there are few that do not, when the disease is properly aided by local treatment."

A lady, unwilling to allow the publication of her name, writes:

"My daughter and myself have been cured of a very debilitating leucorrhœa of long standing, by two bottles of your SARSAPARILLA."

Rheumatism, Gout, Liver Complaint, Dyspepsia, Heart Disease, Neuralgia,

when caused by *Scrofula* in the system, are rapidly cured by this EXT. SARSAPARILLA.

AYER'S CATHARTIC PILLS

possess so many advantages over the other purgatives in the market, and their superior virtues are so universally known, that we need not do more than to assure the public their quality is maintained equal to the best it ever has been, and that they may be depended on to do all that they have ever done.

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)

75 State Street, opposite Kilby Street,

BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or Inventions; and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting one Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages not possessed by those who employ Agents of reputability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, enable him able, beyond question, to offer superior facilities for obtaining Patents.

All necessary Models, Drawings, &c., to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* to prepare their papers, or more capable of pushing their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided *in his favor*, by the Commissioner of Patents.

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented; for there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be equalled by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects sought by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The answer to this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed, which is the case, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The fire or pipe in the Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 50 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the dome can be made to consume half the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and elbows, which radiate of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron B. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of providing a safe and speedy cure for diseases that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

The Testimonials below give proofs of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers, pain and distress in the regions of pressure, Stricture, Gravel, Inflammation of the Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending the disease, so as to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, rendering the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the Digestive Organs, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Persons who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Advice gratis, if a letter is sent. Cures warranted the best preventive. Order by mail. Three for $1 and a red stamp.

April 7—1y 6taw.

CAUTION

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 Endicott st., Boston, offers his services to all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and Irregularities of the menses, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invaluable certainly is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted persons soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to the office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

April, 1862—1y 8taw

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Teeth on Vulcanized Rubber.

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of solution or adhesion can be obtained by it.

3d. When the gum is lost it can be built up by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easy as a saucer, as when finished it will work present no rough pieces.

6th. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*

No. 5 Daniel St., Portsmouth,

Has had four years of practical experience in making this material, and will guarantee satisfactory in all cases entrusted to his care.

DENTISTRY,

No. **60** CONGRESS STREET, Portsmouth, Jan. 1st, 1863.

DR. GOODALL

Would respectfully inform his patrons and the public, that he has had of late many calls to insert teeth upon VULCANIZED RUBBER, that he has purchased the right of VULCANIZER in the market, and is now prepared to do all work upon RUBBER, or the other bases of GOLD and SILVER plates he has heretofore offered.

The Rubber has several important advantages, viz.: It is very light and elastic, and consequently is perfectly easy to the muscles of the mouth and cheeks. There are no joints or crevices to open joints to collect food, &c.; consequently they can be worn night and day, and are very easily kept sweet and clean.

Beside all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.

Any one who is waiting for their permanent teeth will, I am confident, be perfectly satisfied with the Rubber as a base. The expense is but a little more than for Silver, but you get the same teeth (in blocks) that you would pay $60.00 for an upper or lower set on Gold.

In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by the best Dentists there. It is warrant a perfect fit, and teeth from the best manufacturer in the country, S. S. White.

ALL OTHER OPERATIONS IN DENTISTRY I will do at the usual rates. I will be somewhat less than my price for EXTRACTION is 50 cents.

I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr OLIVER and Dr. BUNKER, for particular success in extracting Teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with **Neatness and Dispatch.** All other operations in Dentistry, I will do at the usual rates.

Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

"Bound to no party—to no sect confined;
The world our home—our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address.*

SOUTHERN CONTEMPT.—The rebels have nothing but scorn and contempt for the peace Democracy of the North, which is very natural. The haughty disdain of the rebels masters every consideration of policy, and has extorted from their would-be-friend and mediator, John Van Buren, the confession that the proposition for a convention "was received with an entire want of cordiality—*with an entire want of respect—indeed.*" A pertinent illustration of "want of respect," is found in the following remarks of the Richmond Enquirer upon a recent speech of Mr. Cox of Ohio, who undertook to bill and coo to South Carolina. It will be seen that the Enquirer's remarks are sweeping in their application:—

"The seductive song of the impassioned swain means, Help us, Carolina, to a Democratic ticket for next Congress, *and you shall have part of the stealings.* Have we not always, Obi, child of the sun! lived and loved and stolen together? How often have our hands met in the pocket of the same innocent public, and fondly pressed one another! *Without our dear South the Democrats can plunder no more!* Without thee that once unstriffed party pines in isolation and despair; it is one blade of a pair of scissors; it is the half of a hook and eye. So sings the swain of Ohio. Will Carolina hearken to the gay seducer?"

☞ The Mayor of New York has signed the ordinance for one million of dollars for the defence of New York harbor. The money is to be raised on 7 per cent. bonds.

☞ The U. S. Provost Marshal at Aquia Creek is cleaning out the gamblers.

☞ ATTENTION, THE WHOLE! ☜

EYE, N.H., Feb. 28, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it; thus I have acted as agent for the sale of it. JOSIAH JENKINS."

PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I. CHESLEY, *Lee, May 31, 1841.*
DR. SWETT: Permit me to testify, and feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our home in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26o

TUESDAY, MARCH 3, 1863.

SUICIDE—*Its causes and its Character.*—An exchange paper gives us the following item, part of which we have given already:

"In Providence, on Wednesday, Mr. Henry Hopkins, 73 years of age, committed suicide by inhaling the gas produced by the combustion of charcoal, which he appeared to have ignited in a small room about four feet by ten. His wife went away at seven o'clock in the morning, and returned in the evening, and found him sitting in the chair dead. Pecuniary embarrassment is said to have been the cause of the deed. He was an industrious man, and had acquired a competency for his declining years, but it was swept away by an act of misplaced confidence, and he was left penniless in his old age. He was to have removed from his old homestead in a day or two, which preyed upon his spirits and led to that act which closed the sad drama of his misfortune."

Is any one disposed to charge this poor old man's suicide upon him as a crime?—Let the humane and christian man rather pity his sorrows and his cowardice, for cowardice it is when any one fears and trembles at poverty, especially such poverty as his. Then again, let us all pity a poor old man who so dreaded the loss of his homestead as to hide himself in the grave;—and while we do this, guard ourselves as best we may, against the folly of setting too high a value on any earthly possession, because thieves break through and steal, "confidence men" swindle, unfortunate men fail us, and wars, revolutions and rebellions destroy property and impoverish thousands.

It is a good thing for every man to own his homestead; and a good thing for him to lay by something for a rainy day; and it is a better thing for him to "possess his soul" in such patience and courage as Paul exhibited when he said "the time is short—it remaineth that they that buy be as though they possessed not—for the fashion of this world passeth away."

In the mean time, the man whose misfortune or misconduct was the occasion of this suicide must have most unpleasant reflections. Of such things there are many, and therefore wordly prosperity is most uncertain. U. T.

THE REBELLION.

It is stated that the President will immediately call for 600,000 men, under the conscription act.

The officers of the British frigate Petrel, from Charleston, report that the rebels have a strong net-work, filled with torpedoes, across Charleston harbor.

The N. Y. Sunday Mercury has a sensational dispatch from Cairo, relative to cut-off at Vicksburg, giving unreliable and contradictory rumors of affairs there.

The N. Y. Herald's Washington dispatch states that Gen. Grant needs but four or five days good weather to complete his arrangements for the attack on Vicksburg.

A company of Stuart's cavalry attacked our pickets near Union Mills March 1, but a few shots from our battery routed them, and they fell back toward the Rappahannock.

A private letter from Port Royal states that Gen. Foster, with 30 men, entered Bull's Bay, landed and marched throug the rebel pickets, within full sight of Charleston and Savannah, returning unharmed and confident that a successful attack on the city can be made from a quarter deemed unavailable.

The rebel pirate Florida on Feb. 12th, burned ship Jacob Bell, from China for New York, where she was owned. She had 1600 tons of tea on board. Her passengers and crew were transferred to a Danish vessel, and arrived at St. Thomas on the 19th. The U. S. steamer Alabama left the latter port, Feb. 20, in search of the Florida.

NAVAL.—Iron-clad steamer Nantucket, Com'r Fairfax, sailed from the Charlestown Navy Yard at 2 o'clock on Saturday afternoon for New York. She was accompanied by the new propeller Charles Pierson.

Iron-clad steamer Catskill, Com'r Geo. W. Rodgers, sailed from New York Sunday morning.

The Navy Department has ordered the iron-clad Sangamon to proceed to Port Royal when the Catskill reaches Virginia waters. Her commander is to report to the flag officer there. The Catskill will also be sent South when relieved, as it is the object of the Department to keep an iron-clad in the neighborhood of Newport News. The Department is advised of the presence at Port Royal of the Weehawken, Nahant, Patapsco, Montauk and Passaic.

☞ It is now said that the report of the McDowell Court of Inquiry censures Gen. McDowell for leaving his command on the evening of the 27th of August, to meet Gen. Pope at Manassas Junction without orders, and during that absence Gen. King's division was attacked by the rebels. The finding of the court is approved by the President.

☞ The prize steamer Princess Royal at Philadelphia has been purchased by the Government for $112,000.

NEW HAMPSHIRE ITEMS.

—— A correspondent of the Boston Courier styles New Hampshire "the very heart of niggerdom," and "the hotbed of niggerism." He invites all conservative republicans to save the country, and democrats to vote for peace—so together, to make a combination to "blot from existence as a *government*, the radical organization, abolitionism."

—— The Commercial Bulletin mentions among new counterfeits, spurious fives on the Weare Bank, Hampton Falls. Vig. Indian seated, &c.; well done.

—— The Second Regiment arrived at New York on Sunday evening. Gen. Marston is not with them. The regiment was most hospitably entertained at Philadelphia. The Second is expected to arrive in Boston this morning, and will march thro' the city.

—— The News Letter contains a list of the soldiers enlisted in Exeter since the commencement of the rebellion. They number 292.

—— Boston is a bad place. One Chas. W. Bradley, of Rochester, visited that crooked city last week, to view the "elephant." He saw him. Two fellows undertook to show him about town. Among other places they took him to the establishment of Harry Jennings, Portland street, where by the game of dice he was swindled out of $1300; leaving but $5 in his depleted pockets. One Charles Steadman was arrested, of whom $350 was recovered. Bradley must be slightly simple.

CONGRESS.

SATURDAY.—In the Senate, Mr. Sumner, from the committee on Foreign affairs, reported a preamble and series of resolutions on the subject of mediation by foreign powers. These resolutions declare that, while Congress may have accepted mediation in international disputes, it cannot receive aid from foreign powers in dealing with domestic troubles, and will regard any proposition looking to foreign interference as unseasonable and inadmissable.

The House passed the bill amending the internal tax bill. The conference committee on the Naval Appropriation bill made a report, which was adopted. It appropriates $700,000 for a floating dry dock at New York. The clause relative to the appointment of midshipmen was stricken out.

☞ The Richmond Enquirer in noticing the efforts of the Illinois and Indiana peacemen for a "Peace" Convention at Louisville says:

"If they repudiate the debt they have contracted; and abandon the Government they have established; and recant the vows and break pledges; and eat dirt—it is well; we shall be charmed; the movement will suit us perfectly; and, although we shall not exactly respect the actors in that affair, yet we shall not be unwilling to trade with them—*holding our noses a little*—and to show them all suitable civilites, but at a proper distance."

☞ The green-house at Mount Vernon was accidentally destroyed by fire on last Wednesday morning. The building was one which in itself had no association with Gen. Washington, having been built by Judge Washington in 1817. The original green house was burned about 1837. The plants were nearly all destroyed or very much injured. It is hoped, however, that the three old plants, the only ones valuable for their association, may survive.

GOOD FOR STARR KING.—The Elders of the Rev. T. Starr King's Society in San Francisco recently wrote him a note, saying that unless he abandoned a certain style of preaching the Church would lose many of its most respectable members. He read it aloud, and said if any more such epistles were sent to him, the Church would lose its most respectable Minister.

☞ Two boys in Boston amused themselves on Saturday afternoon by ordering thirty carriages to attend a pretended funeral at a house on Chauncey street. Eight or ten tons of coal, and numerous articles of furniture also arrived at the house during the afternoon by the same means. The scamps were 18 years old.

☞ The Times' Washington dispatch says:—

"The Senate Naval Committee reported unanimously against the confirmation of Mr. Isherwood as head of the Bureau of Engineering. The Secretary of the Navy will fill the place by another appointment."

☞ Mr. Stevens proposes to complete the Stevens Battery himself, at his own risk, and put her impenetrability, speed, and other qualities claimed for her to the test, provided the Government will then take her at $1,500,000 if she should prove entirely successful.

☞ The friends of Isaac V. Fowler, some time Postmaster of New York city, including prominent public men, are importuning the President to pardon him.

☞ The resignation of Gen. John Cochrane has been accepted by the President, for reasons by himself stated.

☞ The Marquis of Avitable, President of the Neapolitan Bank, was captured by brigands while at his country seat recently taken to the mountains and held until a ransom of $16,000 was paid for him.

ANNA ETHERIDGE,

Of Minnesota, was born in Detroit, Michigan, and is now twenty-three years of age. Her father was once a man of wealth, and her early youth was passed in the lap of luxury, with no wish ungratified and no want uncared for. But misfortune came and swept away his property, and, broken in fortune and depressed in spirit, he removed to the State of Minnesota, where he died, leaving our heroine, at the age of 12 years, in comparative poverty and want. On the breaking out of the rebellion, she was visiting her friends at Detroit. Col. Richardson was then engaged in raising the 2d regiment of Michigan Volunteers, and she and nineteen other females volunteered to accompany the regiment as nurses. Every other one has returned home or been discharged, but she has accompanied the regiment through all its fortunes, and declares her determination to remain with it through its entire term of service. She has for her use a horse, furnished with side-saddle, saddle-bags, &c. At the commencement of a battle, she fills her saddle-bags with lint and bandages, mounts her horse, and gallops to the front, passes under fire, and, regardless of shot or shell, engages in the work of stanching and binding up the wounds of our soldiers. In this manner she has passed through every battle in which the regiment has been engaged, commencing with battle of Blackburn Ford, preceding the first battle of Bull Run, including the battles of the peninsula and terminating with the battle of Fredericksburg. Gen. Berry, the present commander of the brigade to which the regiment is attached, and who highly distinguished himself for bravery and gallantry in these fights, declares that she has been under as hot a fire of the enemy as himself. On one occasion, a soldier was torn in pieces by a shell while she was in the act of binding up his wounds previously received, and on many occasions her dress has been pierced by bullets and fragments of shell, yet she has never flinched and never been wounded. Her regiment belongs to the brigade commanded by the lamented Gen. Kearney till his death, and in consideration of her dauntless courage and invaluable services in saving the lives of his men, Gen. Kearney commissioned her as a Regimental Sergeant. When not actively engaged on the battle-field or in the hospital, she superintends the cooking at the headquarters of the brigade. When the brigade moves, she mounts her horse and marches with the ambulances and surgeons, ministering to the wants of the sick and wounded, and at the *bivouac* she wraps herself in her blanket, and sleeps upon the ground with all the hardihood of a true soldier.

Anna is of Dutch descent, about five feet three inches in height, fair complexion (now somewhat browned by exposure), brown hair, vigorous constitution, and decidedly good-looking. Her dress, on entering into a battle, is a riding-dress so arranged as to be looped up when she dismounts. Her demeanor is perfectly modest, quiet and retiring, and her habits and conduct are correct and exemplary; yet on the battle field she seems to be alone possessed and animated with the desire to be effective in saving the lives of the wounded solders. No vulgar or indelicate word was ever known to be uttered by her, and she is held in the highest veneration and esteem by the soldiers, as an angel of mercy to them. She is indeed the idol of the brigade, every man of which would submit to almost any sacrifice in her behalf. She takes the deepest interest in the result of this contest, eagerly reading all the papers in which she can obtain access, and keeping thoroughly posted as to the progress of the war. She says she feels as if she stood alone in the world, as it were, and desires to do good.—She knows that she is the instrument of saving many lives and alleviating much suffering in her present position, and feels it her duty to continue in so doing.

These facts can be substantiated by testimony of the highest character, and they deserve to go forth to the world to show, that if England can boast of the achievements of a Florence Nightingale, we of America can present a still higher example of female heroism and exalted acts of humanity, in the person of Anna Etheridge.

☞ The British steamer Tamar, which recently left Aspinwall for England, took the largest amount of gold and silver ever taken in one vessel from the Isthmus—*five millions* of dollars. Of this, $3,600,000 was brought from the west coast of Mexico, by H. B. Majesty's ship Clio, over a million from California, and the balance from Peru and Chili.

DEATH OF THE FATTEST MAN IN THE CITY.—The well-known coachman of the United States Hotel, in Fulton street, New York—Thomas Jefferson Shelly—died on Friday, from excessive fatty substances throughout the system. Shelly was a strictly temperate man, and until about eight years ago was a man of ordinary size.—About that time he rapidly grew so large that he weighed 509 pounds. He always enjoyed good health until within a short time.

THE COTTON CROP IN CENTRAL AMERICA.—A letter from Nicaragua, dated Jan. 17, says: "The cotton crop presents a splendid appearance at this time, and the prospect is that four or five thousand bales will be gathered. In the course of two weeks the crop will be ready for picking.—The ruling price at present is five cents per pound for unginned cotton. It takes three pounds of the unginned staple to make one pound of clean cotton, and adding the expense of ginning and baling, which is estimated at five cents per pound, makes the cotton cost here, ready for shipment, about twenty cents per pound. The freight charged on the same to New York, via the Panama Railroad, is two cents per pound.

☞ The President has called an extra Session of the Senate, to meet at noon on Wednesday, to act chiefly on military and civil nominations.

Notice to Housekeepers.

Rubber Band Carpet Sweeper.

TRY IT! TRY IT!!

It saves Money; it saves Carpets; it saves Furniture; it saves Labor; it is cheaper than Brooms at five cents apiece.

It gathers up all dust, dirt, and loose lint on the carpets, and raises no dust to settle on the furniture, drapery, or ornaments, or to smother, stifle and irritate the lungs.

It does not wear the carpets half so much as brooms or any other sweeper.

It is the only practicable sweeper made, and the only article fit to sweep a carpet.

With our late improvements it gives universal satisfaction to all who use it according to directions. For sale at No. 13 Market Street by

GEN. WOOL'S VISIT.

Maj. Gen. John E. Wool, with Col. L. B. Cannon, Col. F. Howe, Capt. Gray, of his Staff, left Portland on Monday afternoon for this city. They were accompanied by Mayor Dearborn and Capt. William L. Dwight, and arrived here at about 5 o'clock. A car had been fitted up for the special accommodation of the General and his party, and everything was done by the managers of the road to make their journey comfortable and pleasant. The interior of the car in which they rode was beautifully decorated with the American flag, U. S. shields, streamers, &c.

A committee of the City Authorities and the citizens met them at the depot, and in behalf of the City Government, tendered the General and his suite the hospitalities of the city. Our citizens had congregated in great numbers in the vicinity of the depot, and as the distinguished gentleman appeared on the platform of the cars, most enthusiastic cheers, at once a grateful ovation to him and a pleasing expression of the popular feeling, welcomed him to our city. Gen. Wool, although weary with the long ride, and the labors which his visit to Portland had necessarily placed upon him, expressed his appreciation of the honor, and urged those who welcomed him to be ready to sacrifice everything, if need be, in aiding the government in carrying through the present struggle to a successful issue. Our country wants aid; she wants patriots; she wants soldiers; and this idea he would impress most strongly on the minds of his hearers. He closed his brief remarks with an allusion to the presence of ladies in the crowd before him, stating that wherever he saw them he was certain that all was right. His remarks were conceived in the happiest spirit, and came evidently from a warm, a true and a patriotic heart. In all that he said, he showed how possible it is for a man to be untrammelled by party ties, unprejudiced by party associations,—honest and sincere, thoughtful of country first, country last, country always and only.

The party then entered the carriages prepared for them, and were taken to the Rockingham House, at which Gen. Wool will stop during his brief stay in our city.

Flags were displayed from the public and many private buildings, and a salute was fired at the Portsmouth Navy Yard as the train entered the city.

Maj. Gen. Wool is commander of the Department of the North East, which embraces all New England, New York and New Jersey, Headquarters at New York City. He is now engaged in inspecting the fortifications of the coast, and visits our city for that purpose.

In performance of this duty, Gen. Wool will this morning visit the Navy Yard, Forts McClary and Constitution. He will leave this afternoon for Concord.

☞ The Annual Supper of Company C, of the Governor's Horse Guards, at the Rockingham House, Monday evening, was rendered the more successful and brilliant affair, by the co-operation of the City authorities, and the attendance of Gen. Wool and staff, and numerous other distinguished guests of the City and the Guards. Our citizens in large numbers called in the early part of the evening, to look in the eye and grasp the hand of the veteran hero of three wars. Supper was served about nine, and was worthy the occasion—but took so much time in the "discussion" thereof, that we have neither time nor inclination for extended remarks concerning it. Among the company we noticed, besides Gen. Wool and staff, Rear Admiral Storer, Com. Pearson of the Navy Yard; Col. Ward Marston, Capt. Reynolds and other officers of the Marine corps; Lt. Paine, U. S. Engineers; Capt. Gerrish, 1st N. H. Battery—all these with the Guards, in full uniform; the City Government, Governor Berry, Ex-Governor Goodwin, and various other official gentlemen and prominent citizens, making up a large and brilliant party, despite the absence of ladies.

Supper being dispatched, Capt. Burleigh of the Guards, who presided, welcomed Gen. Wool as the guest of Portsmouth and the Horse Guards; to which Gen. Wool responded. Alderman Rider was toast-master, and called up Gov. Berry, Col. Frank E. Howe, Ex-Gov. Goodwin, Capt. Gerrish, Judge Advocate A. R. Hatch, Judge Bufford, and others—but the toasts and speeches we can't even refer to this morning—and will conclude by stating that everything passed off successfully, owing in no small degree to the exertions and attention of Mayor Dearborn, among the rest—that the Portsmouth Cornet Band furnished excellent music—and that the feast was, as all those of the Guards have been, served without wines.

☞ We understand that Albert Blaisdell, Esq., of Greenland, in connection with Messrs. Pierce & Bacon of Boston, have made arrangements to cut the ice from Jones' Pond at Raymond, and will commence operations at once. The ice, which is of the best quality, and now fourteen inches thick there, will be brought to Portsmouth over the C. & P. Railroad, and shipped from their wharf to Philadelphia and elsewhere. An ice-house may also be built at the pond.

☞ We are glad to learn that the preparations which were commenced last year, but suspended, for the erection of a new Eastern Railroad Depot in Portsmouth, are being completed; and that the building will be put up this Spring. It is to be of brick, we believe, and will no doubt be an ornament to that part of the city, no less than a benefit to the road, and a satisfaction to all citizens and travellers there, and in better keeping with the good name of the Eastern Road, than the present dingy old rattle-trap. Next should come a City Hall.

☞ The amount of "change" used is enormous. The number of thousands of dollars of the postal currency already in circulation in this city, would astonish most people, if correctly ascertained. Messrs. Jones & Mendum, who were among the first to issue the private currency which has been so convenient, have for some weeks been exchanging the postal for it; and Mr. Oxford has followed suit. But it will be a long time before all the private issues are gathered in. Mr. Tullock has distributed several thousand dollars of the new money for public accommodation; and on Saturday we met him with a roll of $1000 of the same, assorted, for Mr. Bailey; and Mr. Oxford was carrying a similar roll for use in his business.

PUBLIC ADDRESSES.

At the Temple in Portsmouth, at 7 1-2 o'clock, on Thursday, March, 5, by Hon. Charles J. Gilman, of Maine, and Hon. N. B. Bryant.

Saturday, March 7, Ex-Gov. Israel Washburn, of Maine.

Monday, March 9, Hon. Lot M. Morrill, of Maine, Greenleaf J. Prescott, Esq., and others. 6t

☞ Leo Miller will speak in the Temple on Wednesday evening, at the urgent request of some our leading citizens, who heard him on Sunday evening last, when the inclement weather kept many from attending who wished to do so. His lecture will be in part a repetition of the Sunday evening lecture. Mr. Miller is an eloquent speaker, and we bespeak for him a full house. An admission fee of five cents will be taken at the door. 1t

☞ A very benign and courteous gentleman is our old friend N. M. Jewell, Esq., of Exeter, Deputy Collector of Internal Taxes; who condescends to visit Portsmouth occasionally, and receive the people's contributions for Uncle Sam, at his office in the Custom House. Some people don't enjoy paying from $1 to $5000 per month or year; but, in spite of all the grumbling and blowing which was heard some time ago,—not to mention the threats—there is no more difficulty in collecting the taxes by excise, than there will be in enforcing the conscription act. If the people will dance, somebody must pay the fiddler.

☞ The Soldiers' Aid Society, of Greenland, N. H., will give an exhibition at the Academy, on Wednesday evening, March 4th. Tableaux, and Declamation may be expected. Admittance fee 15 cts. Doors open at 6 1-2, exercises commence at 7 o'clock.

☞ 2d Lieut. Nathaniel J. Coffin, of this city, has been promoted to 1st Lieutenant of Co. K, 13th regiment; and Sergt. Maj. William J. Ladd, also of this city, to 2d Lieut. of Co. K.

☞ On Saturday forenoon, Mr. Morrill Pike fell 30 feet, from a staging in a ship yard, at Newburyport, and broke his collar bone and three ribs, and seriously injured his head. He was taken up for dead, but soon came to, and some hopes are expressed that he may survive.

☞ The Cairo correspondent of the N. Y. Times states that the most insidious and persistent efforts are being made by pilots of our own transports, under pay of the government, to weaken our army by crafty appeals to the prejudices of the soldiers against the administration and the "nigger."

ANOTHER NEW STOVE!

THE MODEL COOK

FOR WOOD OR COAL.

The *novel*—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the large oven, for baking, giving an oven nearly 3 feet long; or large enough to take six large plates on the bottom, every part of which will take evenly at the same time! A check draft is applied to this stove by means of which the consumption of fuel is greatly lessened, and a steady fire can be kept day and night if desired.

THE MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be THE STOVE for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is needed.

We believe the MODEL COOK to be the very best Stove in the Market, and invite every one to examine it whether they wish to purchase or not. It has had a very extensive sale since its introduction. Reference might be made to more than a hundred families in this city or vicinity who are using the Stove, and give it the highest commendation.

We refer to the following individuals who have purchased the Model Cook:—

David Kimball, Thos. F. Burt, John T. French, Rev. Mr. Davies, Wm. Pettigrew, Capt. John Davis, Jeremiah Raitt, Mrs. Ann T. Perkins, James W. Jarvis, Francis O. Jarvis, Thos. L. Tullock, Jacob Wendell, Capt. Jacob Thompson, Gen. J. G. Hadley, C. Melvin Huntress, Jos. D. Akerman, James F. Shores, Wm. C. Newton, Horton D. Walker, Benj. Chesver, John Trundy, Richard L. Bell, Cyrus Plumer, Freeman Hurd, James M. Looks, Daniel L. Randall, Isaiah Wilson, John E. Roberts—of Portsmouth; Samuel C. Dixon, Daniel E. Pryor, Cushman Pryor, of Gerrish Island; Geo. N. Dixon, Samuel F. Paul, Elias Remick, Timothy Dame, Eliot; Wm. S. Locke, Benj. Foss, jun, Wm. Wm. Looks, Kittery; R. F. Gerrish, Kittery Point; Hon. Clement March, Alfred Heisdell, Stephen M. Weeks, Geo. W. Davis, Greenland; John Smart, Stratham; Mrs. Reuben P. Jenness, David Jenness, Moses Philbrick, Rye.

VICTOR COAL STOVE.

We offer this beautiful coal burner to the public, with full confidence in its merits.

It was brought into market two years since, and has come rapidly into use.

The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation. The arrangement for dumping the ashes is very fine—no dust need escape into the room—a continuous fire may be kept throughout the winter—the coal all burned, and no clinkers made.

The quantity of fuel used is very small indeed. There is in this stove an excellent arrangement for ventilating the room in which it is placed; a feature not possessed by any other parlor stove.

Some of the sizes are provided with an oven and boiling place, making them very desirable for a dining room.

We sold a large number of Victor Stoves in our city last season, and they receive the highest commendation from those who are using them.

We have also the celebrated McGregor Stove, so well known in the market as to need no commendation.

A great variety of cheaper Stoves for coal and wood—Coal hods—Patent Coal-sifters.

COAL-LININGS,

and Repairing pieces for most of the stoves in use. Job Work attended to with dispatch.

BUY CALIFORNIA WINES

They are the Purest!
The Best!
The Cheapest!

The "sunny slopes" of "Los Angelos" have announced to the world that America is a wine-growing country, and as the discovery of gold sent a thrill through the old world, so will the discovery of these Wines startle them again, as it says, "one more link broken which has bound us to Europe," "one more step to independence." Let every man, woman and child who uses Wine, see to it that they buy none other than these.

"The Hock" is a most delicious Wine, and rivals in delicacy its German predecessor.

The "Angelica" and "Muscatel" are mating, luscious and rich, and will take the place of Malaga, Tokay, or other rich Wine.

The Port has a fine flavor and body; and The Port is excellent, because it is pure.

Money to loan.

$3000 or $4000 to loan, in lots to suit.—Apply at the Chronicle Office. dec31 tf

Morning Chronicle:

☞ A smart Detroit young woman got a report circulated that she had fallen heir to an enormous fortune, and procured a loan of several hundred dollars on the strength of it. Alas, though poor she was by no means honest, and moreover she got intoxicated on the money, and was taken to jail on a day.

☞ A man in South Wheeling, Va., drowned his own son in the river on Saturday night. The son was trying to save his father from suicidal intent, when the old man struck him a stunning blow on the head and he sank. Family quarrels were the cause.

☞ Washington letters say "the ravages of the small pox in what is known as the Contraband Camp are fearful." The rate of deaths there are from twelve to fifteen a day. Medical attendance is almost impossible to be obtained.

Ayer's SARSAPARILLA,

THE WORLD'S GREAT REMEDY FOR Scrofula and Scrofulous Diseases.

From Emery Eiles, a well-known merchant of Oxford, Maine.

"I have sold large quantities of your SARSAPARILLA, but never yet one bottle which failed of the desired effect and full satisfaction to those who took it. As fast as our people try it, they agree there has been nothing like it before in our community."

Eruptions, Pimples, Blotches, Pustules, Ulcers, Sores, and all Diseases of the Skin.

From Rev. Robt. Stratton, Bristol, England.

"I only do my duty to you and the public, when I add testimony to that you publish of the wonderful virtues of your SARSAPARILLA. My daughter, aged ten, had an afflicting humor in her ears, eyes, and hair for years, which we were unable to cure until we tried your SARSAPARILLA. She has been well for some months."

From Mrs. Jane E. Rice, a well-known and much-esteemed lady of Dansville, Steuben Ally Co., N. Y.

"My daughter has suffered for a year past with a scrofulous eruption, which was very troublesome. Nothing afforded her relief until we tried your SARSAPARILLA, which soon completely cured her."

From Charles P. Gage, Esq., of the widely-known Gage, Murray & Co., manufacturers of enamelled Sign Plates, Boston, Ms.

"I had for several years a very troublesome humor in my face, which grew constantly worse despite all the medicine I could procure, until, finally, it became an almost intolerable affliction. I tried almost every thing a man could of both advice and medicine, but without any relief whatever, until I tried your SARSAPARILLA. It immediately made my face worse, as you told me it might for a time; but in a few weeks the new skin began to form under the blotches, and continued until my face is as smooth as any body's, and I am without any symptoms of the disease that I know of. I only regret that I did not find without a doubt owe it to your SARSAPARILLA."

Erysipelas—General Debility—Purify the Blood.

From Dr. Robt. Sparks, Hoaxton St., New York.

"Dr. J. AYER. Your pills fail to remove *Erysipelas* and *Scrofulous Sores* by the persevering use of your SARSAPARILLA, and I have just now cured an attack of *Malignant Erysipelas* with it. No alterative we possess equals the SARSAPARILLA you have supplied to the profession as well as to the people."

From J. E. Johnston, Esq., Wakeman, Ohio.

"For twelve years, I had the worst kind of sores on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollars worth of medicine. The ulcers were so bad that the cords became visible, and the doctors decided that my arm must be amputated. I began taking your SARSAPARILLA with two bottles, and some of your PILLS. Together they have cured me. I am now as well and sound as any body. Being in public place, my case is known to every body in this community, excites the wonder of all."

From Hon. Henry Moore, M. P. P., of Newcastle, C. W., a leading member of the Canadian Parliament.

"I have used your SARSAPARILLA in my family, for general debility, and blood disease, with very beneficial results, and feel confidence in commending it to the afflicted."

St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes.

From Harvey Stebbet, Esq., the able editor of the Tuskaloosa Democrat, Pennsylvania.

"Our only child, about three years of age, was attacked by pimples on his forehead. They rapidly spread until they formed a loathsome and virulent sore, which covered his face, and actually blinded his eyes for some days. A skilful physician applied his mercurial and other remedies, without any apparent effect. For fifteen days we guarded his hands, lest with them he should tear open the festering and corrupt wound which covered his whole face. Having tried every thing else we had any hope from, we began giving your SARSAPARILLA, and applying the lotion of the preparation. Soon an eye opened. The sore began to heal when we had given the first bottle, and was well when we had finished the second. The child's complexion which had become coal, grew again, and he is now as healthy and fair as any other. The whole neighborhood predicted that the child must die."

Syphilis and Mercurial Disease

From Dr. Hiram Sloat, of St. Louis, Missouri.

"I find your SARSAPARILLA a more effectual remedy for the secondary symptoms of *Syphilis* and for syphilitic diseases than any other preparation. The profession are indebted to you for some of the best medicines we have."

From A. J. Bosch, M. D., an eminent physician of Springfield, Mass., who is a prominent member of the Legislature of Massachusetts.

"DR. AYER: My dear Sir:—I have found your SARSAPARILLA an excellent remedy for *Syphilis*, both of the *primary* and *secondary* type, and effectual in some cases that were too obstinate to yield to other remedies. I do not know of any other remedy with more certainty of success, where a powerful alterative is required."

Mr. S. Fine, Editor of New Brunswick, N. J., had dreadful ulcers on his legs, caused by the abuse of mercury, or mercurial disease, which grew more and more aggravated for years, in spite of every remedy or treatment that could be applied, until the persevering use of AYER'S SARSAPARILLA relieved him. Few cases can be found more inveterate and distressing than this, and it took several dozen bottles to cure him.

Leucorrhœa, Whites, Female Weakness, are generally produced by internal *Scrofulous Ulceration*, and are very readily cured by the alterative effect of this SARSAPARILLA. In many cases, however, in aid of the SARSAPARILLA, the skilful application of local remedies is proper.

From the well-known, and widely-celebrated Dr. Jacob Morrill, of Cincinnati.

"I have found your SARSAPARILLA an excellent alterative in diseases of females. Many cases of Irregularity, Leucorrhœa, Internal Ulceration, and local debility, arising from the scrofulous diathesis, have yielded to it, and there are few that do not, when its effect is properly aided by local treatment."

A lady, upwards to allow the publication of her name, writes:

"My daughter and sister have been cured of a very debilitating Leucorrhœa of long standing, by two bottles of your SARSAPARILLA."

Rheumatism, Gout, Liver Complaint, Dyspepsia, Heart Disease, Neuralgia,

when caused by *Scrofula* in the system, are rapidly cured by this EXT. SARSAPARILLA.

AYER'S CATHARTIC PILLS

possess so many advantages over the other purgatives in the market, and their superior virtues are so universally known, that we need not do more than to assure the public that the quality is maintained equal to the best it ever has been, and that they may be depended on to do all that they have ever done.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 8 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrotula, Gonorrhœa, Gleet, Diseased Bladder, Kidneys of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D., devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

April 7—1y 13aw.

CAUTION

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 8 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppressions, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of the genital organs and kidneys, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M., for the most difficult and delicate cases of Diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall Stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top, there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in the city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, it tends to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 50 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the fuel, which pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and elbows, the great collection of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq., Aaron H. Hill, Charles H. Mendum, Henry F. Wendell, John Sise, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. When the arch is irregular we can by building out the deficiency, rendered it better, be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth inserted upon this base can be kept clean and sweet as easy as a saucer, as when finished the work presents one whole piece.

6th. While all ways it has been found in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*

No. 5 Daniel St., Portsmouth,

Has had four years of practical experience in making this material, and will guarantee satisfaction in all cases entrusted to his care.

DENTISTRY.

No. 60 CONGRESS STREET,
Portsmouth, Jan. 1, 1863.

DR. GOODALL

Would respectfully inform his patrons and the public, (having had of late many calls to insert teeth upon VULCANIZED RUBBER,) that he has purchased the right of VULCANIZE in the market, and is now prepared to do all work upon RUBBER, or the other bases of GOLD and SILVER as formerly, if preferred.

The Rubber has several important advantages, viz.: It is very light and elastic, and consequently is perfectly easy to the muscles of the mouth and cheeks. There are no crevices or open joints to collect food, &c.; consequently they can be worn night and day, and are very easily kept clean and sweet.

Beside all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.

Any one who is waiting for their permanent teeth will, I am confident, be perfectly satisfied with the Rubber, as a base. The expense is but a little more than for Silver, and you get the same teeth (in locks) that you would pay $60.00 for an upper or lower set on Gold.

In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and the best Dentists too. I will warrant a perfect fit and teeth from the best manufacturer in the country.

S. B. WHITE.

ALL OTHER OPERATIONS IN DENTISTRY I will do at the usual rates. I will here mention that my price for EXTRACTION is 25 cents.

I take pleasure in referring the public to DR. TREADWELL, DR. BOARDMAN, DR OLIVER and DR. BENNETT, for particular success in extracting Teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention. All whole and partial Sets of Teeth repaired with Neatness and Dispatch. All other operations in Dentistry, I will do at the usual prices.

☞ Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

GRACE'S CELEBRATED SALVE

A SURE RELIEF FOR THE SUFFERER.

This Salve is a vegetable preparation, invented in the 17th century, by DR. WM. GRACE, surgeon in King James's army. Through his agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day, and was regarded by all who knew him as a public benefactor.

Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Flesh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.
Grace's Celebrated Salve cures Scurvy.
Grace's Celebrated Salve cures Callouses.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sores.
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find the Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much trouble, suffering, and money. All it wants is a fair trial to cure old and inveterate Sores.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every law fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address.*

☞ ATTENTION, THE WHOLE!☜
EYE, N. H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it effected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it, since I have acted as agent for the sale of it. JOSIAH JENNESS, Jr.
PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with dizziness at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of Dr. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.
From ELDER I CHESLEY, *Lee, May 31, 1841.*
DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and has previously to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA AND HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine as one of the best that can be found for the disease above named." ISRAEL CHESLEY
☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to.

WEDNESDAY, MARCH 4, 1863.

THE REBELLION.

We now have five grand armies, comprising a total of over half a million of men, and three powerful fleets, all waiting in a condition of complete preparation, for an assault on the rebel territory. Their waiting is suggestive. It seems to indicate that a simultaneous attack is to be made at all points, thereby rendering impossible any attempt of the enemy to reinforce one point of attack by drafts from another. Surely we are on the eve of witnessing battles far eclipsing everything in the past course of the war. Let us hope they may bring the speedy close of this exhausting struggle.

The Washington correspondent of the N. Y. Post says the statement that government has decided to call out six hundred thousand troops is untrue. The government has not come to any conclusion on that point. Some of the best generals in the service assert that while we need men enough to make up the losses by disease and discharges, the great want of the country is the wise management of the army in the field. A draft of 200,000 would keep the present army up all summer. It is said that the census office estimates the number of males in the loyal States, between the ages of 20 and 35, will number 2,300,000, and that at least 1,500,000 are fit for duty.

Col. Sir Percy Wyndham, who was released from military arrest to make a cavalry reconnoissance, has sent ten of the rebel black horse cavalry as prisoners to Washington.

Gen. McDowell has left Washington for Cairo, Ill. It is reported that Gen. Sigel has resigned.

Official dispatches show that the rebels have taken the Indianola, on the Mississippi, using the rams Queen of the West (recently captured from us) and Webb to effect the capture. No particulars are given, except that the disaster may be traced to a non-compliance with orders. The Indianola was a "Monitor" recently built at Cincinnati, measuring 442 tons register, and carrying two guns.

New Orleans advices report that there is no doubt but the Harriet Lane is shut in at Galveston. She has been taken up one of the rivers, and the rebels, it is believed, are making her an iron-clad. The gunboat Essex picked up four torpedoes near Port Hudson, each containing 100 pounds of powder. An order has been issued by Gen. Banks forbidding the taking of negroes from plantations by any officer or person in the service of the United States without authority from headquarters.

A dispatch in the Springfield Republican states that our troops on the 21st of February took Fort McAllisters and about one and a half miles of rifle pits. Beaufort letters to the 25th do not confirm it.

A special dispatch from Murfreesboro says an expedition of 1000 cavalry and 1600 infantry left Murfreesboro on Sunday morning, and encountered the enemy at Bradyville, Tenn. After severe fighting the enemy were driven from the town with a loss of 8 killed and 20 wounded. 80 privates and 9 officers were captured. They also captured 300 new saddles and accoutrements, a large collection of official orders, papers and private baggage. The enemy engaged was a portion of John Morgan's division. Our loss is killed and wounded was about half that of the enemy.

UNION CLUB.—Hon. Edward Everett has been elected President of the Union Club, recently organized in Boston. He has accepted the office. The list of Vice Presidents includes the names of prominent members of the different political parties. Fifteen gentlemen have purchased the well known mansion house of the late Hon. Abbott Lawrence, in Park street, which will be altered for the use of the Club. The price paid for the estate is $55,000.

☞ A post mortem examination on the bodies of Mrs. Frazer and children, supposed to have perished in the destruction of their house by fire at Buffalo, N. Y., has revealed the fact that all had been previously murdered. The Rev. Mr. Frazer is missing, and it is feared that he has been murdered also.

☞ 90 members of Congress have signed a call for a convention at Chicago on the first Tuesday in June in favor of the enlargement of the canals between the Mississippi and the Atlantic.

☞ Commander Woolson has been ordered to the command of the steamer Princess Royal. Lieut. Faircon has been ordered to the command of the steamer Montgomery.

☞ A Murfreesboro' letter says Gen Rosecrans has issued an order prohibiting the Cincinnati Enquirer and Chicago Times from circulating in the army of the Cumberland.

☞ The Surgeon General has recommended that Dr. Morton be paid $200,000 for the use of ether.

CONGRESS.

MONDAY.—The Senate passed the bill for the collection of abandoned property and for the prevention of fraud in the insurrectionary districts: also the bill to promote the efficiency of the engineer corps; and the Internal Revenue bill.

The report of the Committee of Conference on the indemnifying bill was taken up, and a long debate ensued. It was evidently the intention of the opposition members, by filibustering against its passage, to make it necessary to lay it aside, in order to pass the necessary bills. To accomplish this object Senator Powell spoke over four hours after midnight, and Senator Bayard had talked nearly an hour, when he gave way, as he thought, for a moment, to adjourn. But the question was put on the passage of the bill; and it was passed. The Senate adjourned at a quarter to 5 o'clock.

The bill passed for the reorganization of the Engineer corps contains all material provisions of the negro regiment bill.

The House passed the Senate bill authorizing the Paymaster General to take immediate measures for the payment of the sick and wounded soldiers in convalescent camps and hospitals, within sixty days. Also the Senate bill to organize the Signal Corps. The House, 97 against 45, concurred in the report of the Committee of Conference on the disagreeing votes of the two houses to indemnify the President and other persons for suspending the privileges of the writ of habeas corpus. A bill authorizing the acting Governors of Tennessee and Louisiana to issue writs of election for Representatives to Congress according to the laws of those States, was passed, 104 against 28. Also the bill authorizing the appointment of an Assistant Treasurer of the United States. The following bills were passed: One giving to soldiers discharged in consequence of wounds or sickness the same bounty as if they had served two years; the bill from the Chamber of Commerce in relation to the revenue and to punish frauds; the Senate bill authorizing the President to issue letters of marque and reprisal.

Just prior to adjournment the House passed a bill reducing the duty on unsized paper to 20 per cent. Sized paper to pay 35 per cent. as before. The Senate will adopt this, it is said.

FOREIGN.—A Lemberg despatch of the 14th reported the pickets of the insurgent Poles and the Russians in close proximity near Michoro; but one of the 15th said the Russians had withdrawn, and a battle did not take place. The insurgents have captured several places, in one of which 39 Cossacks were killed, out of a garrison of 200.

A Shanghai telegram of Jan. 10th says Bargerine has been dismissed from his command. He was Gen. Ward's successor. The Russian fleet will remain at Manilla. It is expected that the French troops will be withdrawn. It is reported that the siege of Nankin has been abandoned.

The London Times says it is clear the blockade of Charleston has not been raised. There was not even an intermission. The Post takes the same view.

☞ An anonymous letter to Lord Palmerston shows that nearly 50 steamers, some of them of very large tonnage and enormous engine capacity, are building on the Mersey, the Clyde, and other rivers of the kingdom, for the Confederate government, and the writer is sufficiently acquainted with the law of England to be able to show that such a proceeding against a Power with which Great Britain is on terms of amity, is not only illegal, but almost certain to seriously involve the latter. One journal regards the communication of "profound significance," and says "it is clear, that the subject of the letter most shortly command the attention of Parliament."

☞ On Saturday night last, Asa F. Souther, who had been called home to Hingham, Mass., from California, by reports of his wife's infidelity, deliberately discharged a gun, heavily loaded, at a chaise containing two men, against whom he had suspicions, almost killing Mr. Gay Richardson, one of the inmates, 32 years of age, the other, Mr. George A. Clapp, escaping with some slight wounds. The parties had called at his house to see a Mrs. Bates, who was not there, and while starting to drive off, were accosted by Souther who almost instantly fired upon them. Souther had been at home but a few hours, after an absence of three years. He is about 38 years of age, and is an industrious, temperate man, whose principal fault, according to the testimony of those who knew him, is a very quick temper.

☞ It is said that the New Hampshire Second having obtained an order to return home and recruit, thirty-seven other regiments immediately made application for the same favor, much to the disgust of the Secretary of War.

☞ Mrs. Zekiah Kibbe, of Holliston Mass., made a misstep and fell to the bottom of a flight of stairs, one day last week, killing her instantly. Her age was 79 years.

DEATH OF THREE OCTOGENARIANS IN ONE FAMILY.—Two brothers named Joseph and John Fitzwalter, lived together with their sister for a great number of years in Parliament street, Nottingham, England, the sister acting in the capacity of housekeeper. Joseph, the eldest one, was attacked a few days since with bronchitis, and died three weeks ago at the age of eighty-four years. The surviving brother was very much affected by his death, and expired one hour afterward at the age of 80 years. The death of two brothers to whom the sister was devotedly attached, was too great a shock for her frame to withstand, and on the morning fixed for their interment she also expired at the age of eighty-eight years.

RAGGED SCHOOLS.—At the anniversary of the "Original Ragged School of Edinburgh," the Lord Provost, who presided, testified that, owing to the influence of "Ragged Schools," the number of prisoners under 16 years of age in the Edinburgh jail, which had been 812 at the epoch of the establishment of the Original Ragged School (in 1844,) is now only 141. The meeting was a most interesting one.

THE OUTRAGES AT PORT ROYAL.—In view of the recent outrages upon the colored people at Port Royal, Gen. Naglee has issued orders to the effect that the disgraceful outrages committed by some few of the regiments, for which the good name of all others must suffer, must and shall stop. Under no circumstances will any soldier enter any hut or building upon St. Helena Island. Until further orders no soldier will be permitted to leave his regimental encampment except on duty. A general Court Martial was ordered for the trial of Col. F. A. Osborn, 24th Mass. regiment, and such other prisoners as might be brought before it.

☞ It is oftener a cruelty than a kindness to send liquors to friends in camp. A correspondent in a New England regiment relates a circumstance in this connection that illustrates a by no means unfrequent occurrence:—

Why is it that people at home persist in sending spirituous liquors to their friends, husbands and brothers in the army? Barrels of liquors are taken from the boxes sent to soldiers, and immediately given up to the medical purveyor, but occasionally a bottle or two escapes the detection of the examining officer and goes into camp. One poor fellow in a New England regiment was so unfortunate as to receive a small quantity a day or two since, and drinking to excess became beastly drunk while on guard, and in a drunken sleep was carried from his post. The result will be a trial by court martial, and the sentence at least a year at Tortugas with ball and chain and loss of pay.

☞ The disclosures made before the grand jury at Indianapolis prove that the avowed objects of the knights of the golden circle are to promote the desertion of soldiers with their arms, the surrender to the enemy upon parole without conflict, resistance to drafts, interference with enlistments and overthrow of the Government. Prominent politicians were involved in this treasonable affair.

A VISION AS WAS A VISION.—Mr. G. F. Dubiskie, a private in Hawkins' Zouaves, in a letter to his parents, relates the following curious dream:—

"He dreamed that he stood in the centre of a vast level plain, when suddenly he saw two great armies approaching each other, at a furious charge bayonets. He was between them and momentarily expected the furious shock of their meeting, but just as they reached him, they stopped suddenly, grounded arms, and looked up toward Heaven. His eyes followed the direction which theirs took, and he saw the clouds rapidly breaking away as they often do after a severe storm. The sun broke forth gloriously as the heavy masses rolled away, revealing to his enraptured gaze the figures of Washington, Jefferson, Clay, Adams, Webster and Ellsworth on an immense scroll; stretching above the heads of this throng was the sentence,—'Peace, April 23d, 1863.'" Directly under this were two hands clasped, the one marked North, and the other South."

Our old Hampden county miser, Solomon Shaw, just translated, was known up in Troy. The Times thereof says "he was always fearful that he was about to be cheated—even carrying this hallucination so far as to be suspicious of the polite and honorable officers of the Troy city bank. On one occasion he drew out some interest, which was separately "figured up" by each person in the bank. Not satisfied as to its correctness, however, Mr. Shaw applied to a gentleman, who was transacting business at the counter, to compute the amount. He did so, and announced the sum as one cent less than that allowed by the bank clerks and teller. Shaw was in an agony of grief and never ceased to regret that he had appealed from the decision of the financial gentlemen."—*Exchange.*

☞ Capt. Louis O. Cowan, long editor and proprietor of the Biddeford Journal, died at his residence in that place, last Saturday night, after a severe illness, which has affected him since his return from the war,—some two or three months. He was Postmaster at Biddeford, and left that position, as well as his paper, in the charge of members of his family, to take the command of a company in the 1st Maine Cavalry.

FALSE POETS AND TRUE.

Look how the lark soars upwards and is gone,
Turning a spirit up he bears the sky!
His voice is heard, but body there is none
To fix the vague excursions of the eye.
So, poet's songs are with us, though they die
Obscured and hid by Death's oblivious shroud,
And earth inherits the rich melody,
Like raining music from the morning cloud.
Yet, few there be who pipe so sweet and loud,
Their voices reach us through the lapse of space:
The noisy day is deafened by a crowd
Of unrivalled birds, a twittering race;
But only lark and nightingale forlorn
Fill up the silences of night and morn.

—*Hood.*

OLIVER CROMWELL in a speech to Parliment in 1656, the Great Protector, defending his administration, touched upon a doctrine which is popular just now with the friends of secession and the enemies of the national life, and exposed its fallacy, almost as if by anticipation:—

"If nothing should ever be done," said he "but what is '*according to Law*' the throat of the nation may be cut while we send for some to make a Law! Therefore, certainly it is a pitiful, beastly notion to think, though it be for ordinary government to live by law and rule, yet if a government in extraordinary circumstances go beyond the law even for self-preservation, it is to be clamored at, and blattered at. When matters of necessity come then, without guilt, extraordinary remedies may be applied.

"And I must say I do not know one action of this government, no not one, but it hath been in order to the peace and safety of this Nation."

The Berkshire Eagle, Pittsfield, says that some young 'immortals' of the Gordon blood have, for some time past, dealt in old iron, lead pipe, and other junk, which officer Hall, at least, suspects was obtained with an unfortunate disregard of the rights of *meum* and *tuum*. The Messrs. Henry, to whom the young gentlemen had been in the habit of selling their wares, shared in the suspicion, and declined to trade further. A worthy blacksmith, however, became a customer, in good faith, and having bought a number of lots which had proved satisfactory, last week bought 120 pounds of what was represented to be old iron, at half a cent per pound. The juvenile merchants were in a vast hurry to get away—wanted to get to the mail, and vamoused the blacksmith shop in a jiffy. Vulcan proceeded to open the bag, when out popped a younger brother of the dealers—sold, like Joseph into Egypt, at a half-penny a pound. We drop the curtain on the scene which followed, but we doubt if the Gordon family will ever rival the patriarchs in sanctity, and we don't believe that Vulcan will buy pig iron in a poke very soon after this.

Rubber Band Carpet Sweeper.

TRY IT! TRY IT! TRY IT!!

It saves Money; it saves Carpets; it saves Furniture; it saves Labor; it is cheaper than Brooms at five cents apiece.

It gathers up all dust, dirt, and loose lint on the carpets, and gives no dust to settle on the furniture, draperies, or ornaments, or to smother, stifle and irritate the lungs.

It does not wear the carpets half so much as brooms or any other sweeper.

It is the only practicable sweeper made, and the only article fit to sweep a carpet.

With our late improvements it gives universal satisfaction to all who use it according to directions. For sale at No. 42 Market Street by

INSPECTION OF OUR HARBOR DEFENCES.—On Tuesday morning, Gen. Wool and suite, accompanied by Gov. Berry, Ex-Gov. Goodwin, Mayor Dearborn, a committee of the City Government, and other gentlemen, were taken from the Rockingham House in carriages to the Portsmouth Navy Yard.—A salute was fired as the distinguished party approached the yard, and they were received at the bridge by Capt. Pearson, and other officers of the yard, with a file of Marines, and conducted to the various points of interest. After visiting the ship houses, ordnance building, &c., and inspecting the fire-arms, they were conducted to Capt. Pearson's residence, where a bountiful collation had been prepared for them. Paymaster Bleeker and Lieut. Bradford also kept open houses, with their proverbial hospitality.

The party were then embarked in two boats and taken to Fort-McClary, and subsequently to Fort Constitution, being received at each with a salute. After completing the inspection of these, they were again taken in carriages from the latter Fort, and brought to this city. Here they enjoyed the hospitalities of Ex-Gov. Goodwin, Mayor Dearborn, Rear Admiral Storer, Capt. William L. Dwight; and left the city by the afternoon train for Concord.

Heavy clouds and a slight fall of snow rendered the day somewhat disagreeable, but in all other respects the tour of inspection was most gratifying to those who made it. Gen. Wool leaves a most favorable impression on the minds of all in our city who have had the privilege of meeting him. A patriot soldier, who has devoted the strength of his manhood to the service of his country,—a true gentleman, bearing nature's stamp of truth, which is the mark of the truest nobility, he bears with him the heartfelt prayer of each one of our citizens that for many years yet to come he may be permitted to continue to benefit his country by the rare and valuable experience which he has acquired, and the unswerving patriotism which enkindles his soul.

☞ The 2d N. H. Regiment arrived at Boston at 2 o'clock on Tuesday afternoon, and was welcomed most enthusiastically.—"The Sons" were on hand by invitation of a committee, of which Mr. Theodore Harris, formerly of this city, is chairman. The regiment was escorted by them to Faneuil Hall, where they partook of a plentiful collation. Thence they marched to the depot, to take the cars for Concord. An effort was being made to have them remain in Manchester Tuesday night, where a collation was to be prepared for them, and they would be welcomed by the ringing of bells, firing of cannon, &c.

The whole number of men who came home is about 550, of whom about 100 are invalids, and do not march with the regiment. About 20 sick men are left behind, at different hospitals. In the ranks are borne three flags. One, presented by residents of California, is in a good state of preservation. The second was given them by residents of Philadelphia; and the third (of which only a fragment is left) was presented by citizens of New York.

The men are represented to look "rough and ready," as they have always proved themselves to be when duty called. All are comfortably clad, many of them having received new clothing at Washington when they came through that city. Lieut. Col. Bailey is now in command; Col. Marston, who remains in Washington, will soon come home.

As the regiment was originally quartered in this city; as many of our citizens are in its ranks; and as its entire record is so clean and glorious, reflecting the brightest honor upon the whole state, it would be peculiarly gratifying to our citizens if the regiment could return hither and pass its furlough in our city. We hope that at least some of the companies will have permission to do so; we are confident they would receive a most cordial greeting.

B., FOR COMMITTEE.

A PATRIOTIC BISHOP.—Bishop Rosecrans—of the Catholic Church—at the great Union meeting in Cincinnati, last week, made a speech—uttering these patriotic sentiments, which prove him a worthy brother of the victorious General at Murfreesboro:

To abandon our free government because we must wait a year or two to get rulers to suit us, would be unutterable meanness of spirit. To give up our national integrity, our legitimate government, our old flag, disband our army, and wait to see what disposition Gen. Bragg's army will choose to make of us when it comes North again, would be suicidal folly of us.

God keep us from such folly and its disastrous consequences! May the gloom that hangs over us now make us forget all differences of minor importance, and join together heart and soul in giving the cause of order and justice a triumph over both the short sightedness of its friends and the treacherous violence of its enemies.

THE LIFE AND DEATH OF A PATRIOTIC SOLDIER.—A Surgeon in one of the Alexandria military hospitals writes in a private note:—

"Our wounded soldiers bear their sufferings nobly. I have hardly heard a word of complaint from one of them. A soldier from the stern and rockbound coast of Maine—a victim of the slaughter at Fredericksburg—lay in this hospital, his life ebbing away from a fatal wound. He had a father, brothers and sisters, a wife and one little boy of two or three years old, on whom his heart seemed set. Half an hour before he ceased to breath, I stood by his side holding his hand. He was in the full exercise of his intellectual faculties, and knew he had but a brief time to live. He was asked if he had any message to leave for his dear ones whom he loved so well. *'Tell them,'* said he, *'how I died—they know how I lived!'"*

☞ Mr. Amariah Goodwin, of Alfred, Me., was one hundred years old on the 16th ult. The day was celebrated by about forty of his descendants, together with a large company of citizens. Mr. Goodwin's wife died in 1859, after they had lived together seventy-five years, seventy-three of which they lived in one house. Mr. G. served three months in the Revolutionary war, and received for his pay one pair of leather breeches! The soldiers of the Revolution didn't fare quite so well as our troops do now-a-days.

☞ The Brunswick, Me., Telegraph tells the story of two young girls who skated from Bowdoinham to that village, about a week ago. They left at 12 M., arrived at 2 P. M., rested half an hour, and returned. The whole distance probably was not far from 20 miles. There must have been some great attraction at Brunswick.

☞ Mayor Opdyke, of New York, on Monday, vetoed the resolution of the Common Council to give Fitz John Porter a public reception.

☞ The New York Tribune states that Robert Smalls, the famous negro pilot, who brought the Planter out of Charleston harbor, says that 6,000 negroes are behind the batteries at Savannah, and 10,000 in and around the forts of Charleston. He believes that in ten days he can raise a force of 10,000 loyal blacks to fight for the Union.

NOVEL IDEA OF HEAVEN.—An Indian was lately hung in Texas, for the murder of a child. When on the scaffold, he said he was going to Arkansas, and wished the other Indians to send him his gun after he should get there.

☞ Jeff. Davis has appointed a fast throughout the Confederacy in view of impending assaults.

ANOTHER NEW STOVE!

THE MODEL COOK

FOR WOOD OR COAL.

The *novel*—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or (by the removal of a single plate) in connection with the larger oven, for baking; giving an oven nearly 3 feet long; or large enough to take six large plates on its bottom, every part of which will bake evenly at the same time! A check draft is applied to this stove by means of which the consumption of fuel is greatly lessened, and a steady fire can be kept day and night if desired.

THE MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be THE STOVE for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is needed.

We believe the MODEL COOK to be the very best Stove in the Market, and invite every one to examine it whether they wish to purchase or not. It has had a very extensive sale since its introduction. Reference might be made to more than a hundred families in this city or vicinity who are using the Stove, and give it the highest commendation.

We refer to the following individuals who have purchased the Model Cook:—

David Kimball, Thos. F. Burt, John T. French, Rev. Mr. Davies, Wm. Pettigrew, Capt. John Dam, Jeremiah Raitt, Mrs Ann T. Perkins, James W. Jarvis, Francis C. Jarvis, Thos. L. Tullock, Jacob Wendell, Capt. Jacob Thompson, Geo. A. Hadley, M. Melvin Huntress, Capt. D. Akerman, James F. Shores, Wm. C. Newton, Horton D. Walker, Benj. Chesver, John Trundy, Richard A. Randall, Geo. Rice, Benj. F. Cannon, Benj M. Parker, Charles A. Wiggin, George W. Plumer, Nath'l Dennett, Henry F. Gerrish, John Hazell, Thos Murphy, Capt. Wm. Lambert, Joseph Stiles, John Senter, Wm. Bell, Cyrus Plumer, Freeman Hurd, James M. Locke, Daniel L. Randall, Isaiah Wilson, John E. Roberts, of Portsmouth; Samuel C. Dixon, Daniel F. Pryor, Cushman Pryor, of Trefethen's Island; Geo. N. Dixon, Samuel F. Paul, Elias Remick, Timothy Dame, Eliot; Wm. S. Lowe, Benj. Fernald, Mrs. Wm. Locke, Kittery; R. F. Gerrish, Kittery Point; Hon. VICTOR COAL STOVE.

We offer this beautiful coal burner to the public, with full confidence in its merits.

It was brought into market two years since, and has come rapidly into use.

The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation. The arrangement for dumping the ashes is very fine—no dust need escape into the room.—A continuous fire may be kept throughout the winter—the coal all burned, and no clinkers made.

The quantity of fuel used is very small indeed. There is in this stove an excellent arrangement for ventilating the room in which it is placed; a feature not possessed by any other parlor stove.

Some of the sizes are provided with an oven and boiling place, making them very desirable for a dining room.

We sold a large number of Victor Stoves in our city last season, and they receive the highest commendation from those who are using them.

We have also the celebrated McGregor Stove, so well known in the market as to need no commendation.

A great variety of cheaper Stoves for coal and wood—Coal-hods—Patent Coal-sifters.

COAL LININGS,

and Repairing pieces for most of the stoves in use. Job Work attended to with dispatch.

BUY CALIFORNIA WINES

They are the Purest!
The Best!
The Cheapest!

The "sunny slopes" of "Los Angeles" have announced to the world that America is a wine-growing country, and as the discovery of gold sent a thrill through the old world, so will the discovery of these Wines startle them again, as it says, "one more link broken which has bound us to Europe," "one more step to independence." Let every man, woman and child who uses Wine, see to it that they buy none other than these.

"The Hock" is a most delicious Wine, and rivals in delicacy its German predecessor.

The "Angelica" and "Muscatel" are melting, luscious and rich, and will take the place of Malaga, Tokay, or other rich Wine.

The Port has a fine flavor and body; and The Port is excellent because it is pure.

Pin Worm Syrup.

Just received Dr. Gould's PIN WORM SYRUP—the only safe, sure and effectual remedy ever offered to the public for the removal of Pin Worms. The above valuable medicine for sale at the Medicine Store of B. HUTCHINGS.

Ayer's SARSAPARILLA,

THE WORLD'S GREAT REMEDY FOR
Scrofula and Scrofulous Diseases.

From Emery Eliot, a well-known merchant of Cornish, Maine.

"I have sold large quantities of your SARSAPARILLA, but never yet one bottle which failed of the desired effect and full satisfaction to those who took it. As fast as our people try it, they agree there has been no medicine like it before in our community."

Eruptions, Pimples, Blotches, Pustules, Ulcers, Sores, and all Diseases of the Skin.

From Rev. Robt. Stratton, Bristol, England.

"I only do my duty to you and the public, when I add my testimony to the numerous publishs of the medicinal virtues of your SARSAPARILLA. My daughter, aged ten, had an afflicting humor in her ears, eyes, and face for years, which we were unable to cure until we tried your SARSAPARILLA. She has been well for some months."

From Mrs. Jane E. Rice, a well-known and much-esteemed lady of Dansville, Livingston Mag Co., N. Y.

"My daughter has suffered for a year past with a scrofulous eruption, which was very troublesome. Nothing other medicine did her any good. My daughter, aged ten, had an afflicting humor in her ears, eyes, and face for years, which we were unable to cure until we tried your SARSAPARILLA. She has been well for some months."

From Charles P. Gage, Esq., of the widely-known Gage, Murray & Co., manufacturers of enamelled papers in Nashua, N. H.

"I had for several years a very troublesome humor in my face, which grew constantly worse until it disfigured my face, and became an intolerable affliction. I tried almost every thing a man could of both advice and medicine, but without any relief whatever, until I used your SARSAPARILLA. It immediately made my face worse, as you told me it might for a time; but in a few weeks the new skin began to form underneath the blotches, and continued until my face is as smooth as any body's, and I am without any symptoms of the disease that I know of. I enjoy perfect health, and without a doubt owe it to your SARSAPARILLA."

Erysipelas—General Debility—Purify the Blood.

From Dr. Robt. Savin, Houston St., New York.

"DR. AYER. I seldom fail to remove *Eruptions* and *Scrofulous Sores* by the unswerving use of your SARSAPARILLA, and I have just now cured an attack of *Malignant Erysipelas* with it. No alterative we possess equals the SARSAPARILLA. We have supplied to 'be profession as well as to the people.'"

From J. K. Johnston, Esq., Wabenaun, Ohio.

"For twelve years, I had the yellow Erysipelas on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollars worth of medicines. The ulcers were so bad that the cords became visible, and the doctors decided that my arm must be amputated. I began taking your SARSAPARILLA. Took two bottles, and some of your PILLS. Together they have cured me. I am now as well and sound as any body. Being in a public place, my case is known to every body in this community, and excites the wonder of all."

From Hon. Henry Munro, M. P. P., of Newcastle, C. W., a leading member of the Canadian Parliament.

"I have used your SARSAPARILLA in my family, for general debility, and for purifying the blood, with very beneficial results, and feel confidence in commending it to the afflicted."

St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes.

From Harvey Sickler, Esq., the able editor of the Tuscaloosa Democrat, Tuscaloosa, Ala.

"Our only child, about three years of age, was attacked by pimples on his forehead. They rapidly spread, and they formed a loathsome and virulent sore, which covered his face, and actually blinded his eyes for some days. A skillful physician applied nitrate of silver and other remedies, without the apparent effect. For fifteen days we guarded his hands, lest with them he should tear open the festering and corrupt wound which covered his whole face. Having tried every thing else we had any hope from, we began giving your SARSAPARILLA, and applying the iodide of potash lotion as you direct. The sore began to heal when we had given the first bottle, and was well when we had finished the second. The child's eyelashes, which had come out, grew again, and he is now as healthy and fair as any other. The whole neighborhood predicted that the child must die."

Syphilis and Mercurial Disease

From Dr. Hiram Shew, Columbia, Missouri.

"I find your SARSAPARILLA a more effectual remedy for the secondary symptoms of *Syphilis* and *Scrofulous diseases* than any other I possess. The profession are indebted to you for some of the best medicines we have."

From A. J. French, M. D., an eminent physician of Lowell, Mass., who is a prominent member of the Legislature of Massachusetts.

"DR. AYER. My dear Sir: I have found your SARSAPARILLA an excellent remedy in Syphilis, both of the *primary* and *secondary* type, and effectual in some cases that were too obstinate to yield to other medicines. I do not know a case in which I employ with more certainty of success, where a powerful alterative is required."

Mr. Chas. S. Van Liew, of New Brunswick, N. J., had double sloughs on his thigh, caused by the abuse of mercury, or mercurial disease, which grew more and more aggravated for years, in spite of every remedy. Mercurial treatment had made his joints so stiff, that he could not walk without crutches. The persevering use of AYER'S SARSAPARILLA relieved him. Five cases on he found more inveterate and discouraging than this, and it took several dozen bottles to cure him.

Leucorrhœa, Whites, Female Weakness, are generally produced by internal *Scrofulous Corruption*, and are very often cured by the alterative effect of this SARSAPARILLA. Some cases, however, require, in aid of the SARSAPARILLA, the skillful application of local remedies.

From the well-known and widely-celebrated Dr. Jacob Morrill, of Cincinnati.

"I have found your SARSAPARILLA an excellent alterative in diseases of females. Many cases of Irregularity, Leucorrhœa, Internal Inflammation, and local debility, arising from the scrofulous diathesis, have yielded to it, and there are few that do not, when the fluid is properly aided by local treatment."

A lady, unwilling to allow the publication of her name, writes:

"My daughter and myself have been cured of a very debilitating Leucorrhœa of long standing, by two bottles of your SARSAPARILLA."

Rheumatism, Gout, Liver Complaint, Dyspepsia, Heart Disease, Neuralgia,

when caused by *Scrofula* in the system, are rapidly cured by this EXT. SARSAPARILLA.

AYER'S CATHARTIC PILLS

possess so many advantages over the other purgatives in the market, and their superior virtues are so universally known, that we need not do more than to assure the public their quality is maintained equal to the best it ever has been, and that they may be depended on to do all that they have ever done.

Prepared by J. C. AYER, M. D., & Co., Lowell, Mass., and sold by

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrotula, Gonorrhœa, Ulcers, pain and distress in the regions of perspiration, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D.. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, uniting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating marriage, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Three dollars for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

April 7—1y Staw.

CAUTION

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all those delicate complaints incident to Female life, Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon the physiological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that all treated upon the principle laid under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Disease and Female Complaints, acknowledges no superior in the United States.

☞ N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having received unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water, also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable, without much of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache and much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gasses have been compelled to pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which carries them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the best in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the best generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting grate is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. When the arch is irregular we can by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.

4th No bad taste arises in the mouth by its use, as the sections of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easy as any set, when finished the work presents one whole piece.

6th. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*

No. 5 Daniel St., Portsmouth,

Has had four years of practical experience in this branch, and feels confident will guarantee satisfaction in all cases entrusted to his care.

DENTISTRY.

No. 60 CONGRESS STREET,
Portsmouth, Jan. 1st, 1863.

DR. GOODALL

Would respectfully inform his patrons and the public, that he has for sale many sets of teeth upon VULCANIZED RUBBER, that he has purchased the best VULCANIZER in the market, and is now prepared to do all work upon RUBBER, or the other bases of GOLD and SILVER as formerly, if preferred.

The Rubber has several important advantages, viz.: It is warm to the touch, and consequently is perfectly easy to the muscles of the mouth and cheeks. There are no insertions or open joints to collect food, &c.; consequently they can be worn night and day, and are very easily kept neat and clean.

Beside all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the suction is of course much stronger than upon plates of Gold or Silver.

Any one who is waiting for their permanent teeth will I am confident, be perfectly satisfied with the Rubber, as a base. The expense is but a little more than for Silver, and you get the same teeth (in blocks) that you would pay $60.00 for an upper or lower set on Gold.

In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by the best Dentists. It will be warranted a perfect fit and teeth from the best manufacturer in the country.

S. S. White.

ALL OTHER OPERATIONS IN DENTISTRY I will do at the usual rate. I will have mention that my price for EXTRACTION is 25 cents.

I take pleasure in referring the public to Dr. TAKAMIRE, Dr BOARDMAN, Dr BOARDMAN and Dr. BENNETT, for particular success in extracting Teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with **Neatness and Dispatch**. All other operations in Dentistry, I will do at the usual rates.

GRACE'S CELEBRATED SALVE
A SURE RELIEF FOR THE SUFFERER.

This Salve is a vegetable preparation, invented in the 17th century, by Dr. WM. GRACE surgeon in King James's army. Through its agency he cured thousands of most serious sore and wounds that baffled the skill of the most eminent physicians of his day, and was regarded by all who knew him as a public benefactor.

Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Flesh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.
Grace's Celebrated Salve cures Scurvy.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sores
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external disease, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find this Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much trouble suffering, and money. All it wants is a trial to cure old and inveterate Sores.

☞ ATTENTION, THE WHOLE! ☜

EVE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured one ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I CHEELEY, *Lee, May 31, 1841.*

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHEELEY.

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26o

ELECTION RETURNS.

The State election takes place next Tuesday; and as Members of Congress are to be chosen, and as the issue of the contest is national and not local, great interest is felt in the result at home and abroad.

It is therefore very desirable to get early and correct returns of votes, at every point where these returns can be speedily published.

We would respectfully request Town Clerks, Post Masters, and other friends, in the towns of Gosport, New Castle, Rye, Greenland, Newington, North Hampton, Hampton, H. Falls, Seabrook, Stratham, Newmarket, South Newmarket, Kensington, and South Hampton, to send in their returns to us on Tuesday afternoon or evening, as soon as their votes are declared.

Also all towns bordering on the Concord and B. & M. Railroads, that can send us such returns by the evening train of Tuesday.

Lists of town officers also will be gratefully received and published if sent seasonably.

THE REBELLION.

From Vicksburg come various rumors: one that the rebels are evacuating the place; another that a great battle has been fought, with heavy losses on both sides, but without any decided result. Probably both statements are untrue. The gunboat Carondelet and five others are reported to have reached the Tallahatchie river, via the Yazoo Pass. Reports are still favorable from Lake Providence.

Rebel advices state that Gen. Rosecrans had advanced as far as Middleborough, half way between Murfreesboro' and Shelville. General Rosecrans himself reports, under date of Murfreesboro', Feb. 27th, that Gen. Stanley reports from his expedition to Bradyville, that the rebels of Morgan's and Wharton's commands made a stand in Bradyville. Colonels Faramour and Long went in with sabres and whipped them in about three minutes. Stokes cavalry advanced bravely with carbines. We took 70 prisoners, including 8 officers, their camp equipage, tents, saddles, some 70 horses, and Basil Duke's regimental papers. Major Murphy did good service. We lost one man killed, and one captain and seven men wounded.

Rosecrans' army is moving towards Chattanooga. The rebel forces at McMinnville are believed to be a reconnoitering party, attempting a feint on the rear of Rosecrans. The latter is moving forward cautiously, protecting and guarding his rear as he advances.

The rebels, under Van Dorn, on Monday, advanced towards Franklin, Tenn., 2000 strong, with artillery. After manoeuvering awhile, hoping to draw our men into ambush, they returned. His headquarters are 13 miles south of Franklin. No fears are entertained for that town, which is occupied by our troops. By order of Gen. Mitchell our troops have seized Felix Young and Wm. B. Scraggs, notorious guerrillas, who have murdered many Union soldiers in Summer county. They, with two others, have been ordered to close confinement and heavily ironed.

It is reported that a project is on foot in England, superintended by Maury, of the rebel Navy, to capture the United States squadron on the Mediterranean station with iron clad vessels, now said to be nearly ready for sea.

Special despatches from Washington state that the President has received despatches announcing the capture of Fort McAllister, at the mouth of the Ogeechee river, near Savannah, by our iron clads. [Doubtful]

A Hilton Head letter, Feb. 25th, says the troops were under orders to embark, and the next steamer would probably bring the intelligence of the attack on Charleston.—Gen. Stevenson has been restored to his command. He admitted that the language he used was in the heat of debate, without thought of the consequences it entailed.

Capt. Ben. T. Hutchins, of Concord, has been appointed on the staff of Gen. Rousseau.

THE ENGINEER BILL, so called, caused some debate in the Senate of the U. S.

Mr. Davis offered an amendment that no negroes, free or slave, be enrolled in the military, marine or naval service. Rejected—yeas 12, nays 23.

Mr. Powell offered an amendment as a proviso, that no person of African descent shall be commissioned as an officer in the service of the United States. Adopted, 18 to 17.

Mr. Lane offered an amendment to Mr. Powell's proviso so as to make it read that no person of African descent shall be commissioned as an officer except as company officers in companies composed exclusively of persons of African descent. Adopted—yeas, 18 nays 17.

The bill passed—yeas 26, nays 19.

☞ All the general appropriation bills were passed by Congress and signed by the President. These, with other appropriations, amount to about $1,000,000,000. The bills to admit Colorado and Nevada failed in the House. The name of the new Territory which it was proposed to call Montana, has been changed to Idaho.

NEW HAMPSHIRE ITEMS.

—— The 2d regiment was attached to the third corps, under Gen. Sickles. The following complimentary order was issued by Gen. Sickles on the occasion of the departure of the regiment from his command:

HEADQUARTERS THIRD ARMY CORPS, February 23, 1863.

The General Commanding cannot sever, even temporarily, his relations with the Second New Hampshire Volunteers, without expressing his regret that this gallant regiment no longer belongs to his command. Entering the service at the beginning of the war, this regiment has participated with distinction in the combats which have made this army illustrious. Unchanged in loyalty as in valor, this devotion of the 2d New Hampshire to our sacred cause is to-day as unyielding as when the fall of Sumter inflamed the Union. Soldiers! Your patriotic State will soon fill up your ranks.—You will be greeted at home with affectionate welcome by those who appreciate your worth and share your unselfish love of country. You will perhaps encounter not a few who find everything to deplore in the means employed to suppress the rebellion, and nothing to commend except their own exertions to confer authority upon those who apologize for treason and sue for peace with the traitors who spurn them. You have offered your own lives for the Union. You have buried many brave comrades on the bloody fields of the rebellion. You will know how to repel the approach of renegades who would betray the cause for which your flag has been proudly borne in battle. To your commanding officer, Col. GILMAN MARSTON, twice wounded at the head of his regiment, distinguished for gallantry in the field, and for signal ability in the National councils, I desire to acknowledge my obligation for his able and zealous co operation as an officer of this command. Your comrades in those glorious Divisions which are forever inseparable from the names of Hooker and Kearney, will always cherish their recollections of the glorious service in which you have been associated; nor will they cease to look with solicitude to the day which all hope will not be distant, when you will return to the Third Army Corps with renovated ranks and undiminished ardor, eager to share with us the honors of new and eventful campaigns.

By command of Brig. Gen. SICKLES,
O. H. HART, Asst. Adj. Gen.

The Second arrived at Concord at about half-past eleven, Wednesday forenoon, and were welcomed at the depot by thousands of people from all sections of the State.—Flags were displayed everywhere. The bells rang peals of welcome, and salutes were fired from various points. At the depot the regiment was welcomed, in behalf of the citizens, by William L. Foster, and subsequently in behalf of the State by Gov. Berry, after which they passed a countermarching review by Gen. Wool, opposite the Eagle Hotel. The regiment stopped in Manchester Tuesday night, where they received a cordial welcome, and were entertained at Smyth's Hall. They were accompanied to Concord by the Amoskeag Veterans.

—— Gen. Wool had a public reception in Phenix Hall, Concord, on Wednesday morning, where speeches were made by Gov. Berry, Secretary of State Tenny, Gen. Wool and Col. Howe.

—— Senator Hale, who has been confined to his bed for two or three weeks by severe illness, is now pronounced out of danger, and decidedly improving.

—— A house in Windham, occupied by Mrs. Philip Jones, together with the barn, was destroyed by fire on Monday afternoon, the furniture, etc., was saved. The fire was set by children playing with matches in the barn.

CONGRESS.

TUESDAY.—The Senate tabled the bill for the construction of a sub-marine cable from Fortress Monroe to Galveston. The resolutions on the subject of mediation were debated and passed, 31 to 5, the nays being Messrs. Carlisle, Latham, Powell, Saulsbury and Wall. The bill to establish a branch mint in Nevada; the bill incorporating the National Academy of Sciences; and the bill to organize the territory of Idahoe, were passed. A resolution was adopted requesting the President to appoint a day of national fasting and prayer. The bill amendatory of the act establishing the grade of line officers of the navy was amended by striking out the proviso limiting the appointment of Rear Admiral to those who have received the thanks of Congress, and was passed. The bill admitting Nevada as a State was passed. The miscellaneous appropriation bill was variously amended, and at one o'clock, A. M., was passed.

The House concurred in some of the Senate's amendments to the internal revenue bill, and asked a com. of conference on others. The miscellaneous appropriation bill was amended and passed. At the evening session the Senate bill incorporating the Academy of Science was passed. Also, the resolutions against foreign mediation and intervention, 102 against 27; and the bill establishing a Territorial Government in Idahoe. The Senate bill equalizing the grade of naval line officers, and the bill to regulate prize cases, designed to hasten sales and facilitate payment to the captors, were passed. A motion was then made to suspend the rules in order to consider the Missouri emancipation bill, whereupon Mr. Kerrigan, of New York, arose, and with violent gesticulations made a few remarks, the only word heard being "negro." He was placed under arrest, and finally subsided and resumed his seat, and quiet was restored.

Communication

PEACE—AND STATE RIGHTS.

BY UNCLE TOBY.

We hear these words and sometimes read them in the newspapers,—but they do not always convey the same ideas to the mind. We always wish to know who utters any peculiar saying, and under what circumstances he said it, before we can tell exactly what he means by it.

Now it happens that the persons about us, and in the free States generally, who clamor most loudly for peace at any price, for armistice, and for generals who will not fight, but will favor the rebels,—are not those who ever called for peace before, but on the contrary they are those who advocated our former wars of oppression, aggression, and conquest, and who adopted the detestable maxim, "our country, right or wrong;"—[especially wrong!] They are mostly those who sided with the fillibusters, and land-stealers, and man-stealers of the last 40 years, and cheered them on in their attacks on our neighbors. And now where the same class of men, (and mainly the same men,) *make war* on us, on our country, our constitution, and our government,—there is a great cry of peace going up from men who sympathize with the rebellion and the rebels, far more than with the loyal men of the Free States.

Does any one reproach *these* men with inconsistency? We do not: they have generally acted so as to sustain the wrong as much as possible and they do still. But their *followers* have not always done this, wittingly,—and we attribute the action of many honest men who follow them *now*, to their ignorance, prejudice, and mere partisan bias. And we believe also, that there are enough intelligent men, who can be led by them *no longer*, to keep our State on an even keel in spite of the storm.

It happens also, that the men, both South and North, who now make the most hideous outcry about State rights, and State Sovereignty, are the same set of men, who made a great outcry thirteen years ago, because Senator Seward asserted there was a Law [the Divine Law of kindness and humanity and justice] higher than the Constitution of the United States. They told us, then, over and over again, in various forms, that there could be nothing higher, and made the term *higher law* a reproach (as far as they could) on any and every person who adopted it, as being fanatics, hypocrites, or fools.

Yet now, the rebels have claimed that each of their States is *higher* than the United States, that its State Law is *higher* than acts of Congress, and its State Sovereignty is supreme: That each State is a full *sovereignty*, and the United State government is not a sovereignty, but a rope of sand, dissolvable at the pleasure of any State. Mr. Buchanan said he had no constitutional right to *coerce them*,—and their echoes at the North to-day, are making a dismal sympathetic clamor of State Rights! State Rights!!

They misuse the word *Rights*, however; for States, as such, cannot properly be said to have *rights*, but only powers, privileges, or prerogatives. *Men* have rights, and it is only by a bold figure of speech that we speak of rights pertaining to a body corporate or politic.

Now let us see what our fathers, in the days of '76, '78, 87, and years thereabout, thought and said, about the *Rights of men*, and the *powers* of States and of the Union.

In 1776, they declared,

We hold these truths to be self-evident; that all men are created equal; that they are endowed, by their Creator, with certain inalienable rights; that among these are life, liberty, and the pursuit of happiness—That to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed.

Observe here, men have rights: Governments have powers.

In 1778, they made the old Confederation, in which Art. 2, reads thus:

Each State retains its sovereignty, freedom and independence, and every power, jurisdiction and right which is not by this confederation expressly delegated to the United States in Congress assembled.

Here State Rights and Sovereignty are claimed.

In 1787, they formed a more perfect Union, to provide for general welfare, defence, &c., and in the Constitution, Art. 6, they say:—

This Constitution, and the laws of the United States which shall be made in pursuance thereof, and all treaties made, or which shall be made, under the authority of the United States, shall be the SUPREME LAW of the land; and the judges in every State shall be bound thereby, anything in the *constitution* or laws of any *State* to the *contrary* notwithstanding.

Here they give away their State sovereignty, and make the Constitution and the laws of Congress the supreme law of the land.

In 1789 they made several amendments among them the following:—

The enumeration in the Constitution of certain rights, shall not be construed to deny or disparage others retained by the people.

The powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people.

Here observe that the People have reserved Rights,—and States have reserved Powers,—but Sovereignty is not one of them,—for they had given the Supreme Law to Congress,—and they never took it back.

For, said Gen. Washington, in offering the Constitution to the people,—

It is obviously impracticable, in the *Federal Government* of these States, to secure all rights of independent *sovereignty* to *each*, and yet provide for the interest and safety of all. Individuals entering into society must give up a share of liberty, to preserve the rest.

This is conclusive—and our Government is not a sham but a reality—and the Union is not a rope of sand—demagogues to the contrary notwithstanding.

The State of New Hampshire to-day has and exercises all the powers and rights that a state can have under the Constitution and in the Union. Out of it she could have the Right of Revolution, the Power of Rebellion, Anarchy and Suicide. Her good citizens desire PEACE, permanent, honorable peace, and quiet thrifty industry. But we see no prospect of this, except through a vigorous and determined warfare, which shall subdue the rebellion and break down the aristocracy that made it.

The senseless clamor for peace cannot bring the blessing. On the contrary this noise only weakens the nation's arm for the present, and adds a little strength to the Rebellion, thus prolonging the war, making it more bloody and more costly.

Its key note is struck, and its noisy chorus led off by men who have held good fat offices so long that they don't like to do any thing else, and who see no prospect of holding them again unless the government can be put back into the hands of Floyd and Davis, Breckinridge & Co., by whose favor they used to thrive. Every success of the rebels gives them hope,—every success of theirs gives hope to the rebels.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper thereto."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

Notice to Housekeepers.

Rubber Band Carpet Sweeper.

TRY IT! TRY IT!!

It saves Money; it saves Carpets; it saves Furniture; It saves Labor; it is cheaper than Brooms at five cents apiece.

It gathers up all dust, dirt, and loose lint on the carpets, and raises no dust to settle on the furniture, drapery or ornaments, or to smother, stifle and irritate the lungs.

It does not wear the carpets half so much as brooms or any other sweeper.

It is the only practicable sweeper made, and the only article fit to sweep a carpet.

With our late improvements it gives universal satisfaction to all who use it according to directions. For sale at No. 13 Market Street by

REBEL WARFARE.—Gen. Rosecrans has addressed a letter to General Joseph Johnston, informing him of the violation of a flag of truce to Gen. Bragg; the robbery of 38 Union surgeons while attending wounded rebels; the firing upon a hospital steamer by rebel soldiers, and subsequent plunder of the sick and wounded men on board, who were stripped of all their personal property, including in some cases part of the clothing they wore; and other acts of barbarity perpetrated by the rebels,—all of which are indignantly protested against as inhuman and contrary to civilized warfare.

☞ Deserters throughout the North and West had better pack their knapsacks, and hurry back to the Rappahannock. Gen. Hooker is about to issue an order giving just twenty days in which to save themselves from the fate to which he has made up his mind to subject deserters.

☞ Three fathers went up the Cumberland river in the same boat, the other day, with three metalic coffins, to bring away the bodies of their sons who had fallen in the battle of Stone river. As they stepped ashore at Clarksville, they met their boys, all well and hearty. Of course the coffins were dispensed with and there was a supper for six, with "fixins."

☞ A very fascinating young man has just been arrested in Brooklyn, N. Y., for burglary. He mingled in the best society, wore the nicest clothes, and was very much beloved. It took him only three months to steal $40,000 worth of property.

An army sutler recently received a telegraphic dispatch informing him that his daughter's dress had caught fire, and that she had burned to death. He sent a return dispatch saying—"I am very sorry. Send me some stock as quick as you can. I am out of cakes."

☞ Jonathan Ely of Wilbraham, 85 years of age, walked to Springfield, ten miles, and back, a few days since. He returned with a roll of leather under his arm, and walked as smart and erect as most young men of 25.

☞ Feb. 7, a party of 21 aged people met at the house of Ira Tucker, in Bristol, Vt., agreeably to invitation. Such a company has seldom been seen since the days of the patriarchs. The youngest of the guests was sixty-six, and the oldest ninety-five. The average age of the company was seventy-seven, and their united ages 1700 years.

GOLD FALLING.—Gold was quoted in New York on Wednesday at 187 1-2. A despatch says the decline in gold had depressed the markets for all kinds of produce. The price for gold fluctuated from 166 3-4 to 168 1-2.

☞ Rev. Henry Jackson, D. D., pastor of the Second Baptist Church in Newport, R. I., died suddenly in the cars while going from Providence to East Greenwich, on Monday. He was 64 years of age and was formerly settled over Baptist churches in Charlestown and New Bedford, Massachusetts.

☞ The N. Y. Times contains the findings of the Court of Inquiry in the case of Gen. McDowell. His conduct is approved in all, but one single point, viz: His going to Manassas on the evening of the 28th of August to confer with Gen. Pope, while his command was on the march for Centreville.

☞ According to the Paris correspondent of the New York Commercial, only five members of the corps legislatif could be induced to sign an amendment to the address to the Emperor suggesting the recognition of the Confederacy and the raising of the blockade.

☞ Gen. Wool stated before leaving Portland that he hoped to be there again in May, at which time he proposed to extend his visit as far east as Fort Knox and Bangor, taking Fort Popham and Augusta in his way.

☞ At a mass meeting in Salt Lake City, Utah, Mar. 2, Gov. Harding and Associate Justices Waite and Drake were denounced as enemies to the Territory and the General Government. A petition to the President for their removal is in circulation.

☞ William Sprague on Tuesday resigned the office of Governor of Rhode Island, to take his seat in the U. S. Senate. As there is no Lieut. Governor at the present time, Hon. Wm. C. Cozzens, of Newport, President of the Senate, becomes ex-officio acting Governor.

☞ Messrs. Bailey & Co., dealers in wood saws, and frames, have removed their office to No. 53 Kilby Street, Liberty Square, Boston, in order to obtain more commodious apartments, fitted to their increasing business.

☞ The Richmond Examiner of the 29th contains the proclamation of Jeff. Davis, appointing March 27th as a day of fasting, humiliation and prayer.

☞ The supply of salt and food occupies the attention of the Virginia Senate.

☞ It is stated that Mr. Corness, the new Senator from California, is a war democrat of the boldest stripe.

LOST.—Wednesday afternoon, probably in or near Vaughan street, a POCKET MONNAIE, containing about $12. The finder will be rewarded on leaving it with J. B. Wigein, Hill street.

IMMORTELLES.

FLOWERS.

They tremble on the Alpine height;
The fissured rock they press;
The desert wild, with heat and sand,
Shares, too, their blessedness;
And whereso'er the weary heart
Turns in its dim despair,
The meek-eyed blossom upward looks
Inviting it to prayer. —*E. Oakes Smith.*

LIGHT FROM DARKNESS.

The night is mother of the day,
The winter of the spring,
And ever upon old decay
The greenest mosses cling.

Behind the cloud the starlight lurks,
Through showers the sunbeams fall;
For God, who loveth all his works,
Has left his Hope with all. —*Whittier.*

☞ Various stories of the extravagance and gullibility of the late Said Pasha are going about. He used to submit with the most astonishing simplicity to the barefaced impositions of his French favorites and agents. On one occasion he received seven fine mirrors from Paris, the prime cost of which was about twelve hundred dollars apiece; for these he was made to pay, however, *fifty thousand dollars* apiece, or £70,000 for the seven. The same man who pocketed this profit, minus what he had to supply to subordinate rascals, had a contract to supply Said's army with buttons on the occasion of a certain change of uniform. The bill was, of course, infamously large; unfortunately, the Pasha, not having a soul entirely above buttons, and having had a *cart in penchant* for military tailoring, in all its details, knew the proper price of the article, and became enraged. Sending for the French contractor, he pointed to the total of the bill and flung it down exclaiming, "It is a villainous robbery!" On this, the Frenchman coolly replied, "If I don't rob your Highness, who the deuce would you have me rob?" His Highness was so delighted with the man's impudence that he paid the bill.

PUSILLANIMOUS PEACE.—"War never leaves, where it found a nation. It is never to be entered into without a mature deliberation: not a deliberation lengthened out into a perplexing indecision, but a deliberation leading to a sure and fixed judgment. When so taken up, it is not to be abandoned without reason as valid, as fully and as extensively considered. Peace may be made as unadvisedly as war. Nothing is so rash as fear; and the counsels of pusillanimity very rarely put off, whilst they are always sure to aggravate the evils from which they would fly."—*Burke.*

VEGETABLE OILS OF AUSTRALIA.—In Australia there are vast forests of trees which yield several varieties of essential oils. There is one large tree—the Eucalyptus Amygdalina—the leaves and twigs of which yield three pints of essential oil to each 100 pounds. Thirty-five different kinds of essential oils have been distilled from the trees of the Australian forests, and about 12,000,000 acres are covered with such trees. Some of them are aromatic and yield delightful perfumes. They are also solvent of various resins which are employed in making varnishes.—*Scientific American.*

☞ Havana advices of the 25th state that the "reestablishment" of the blockade at Charleston and Galveston is published in the official paper, having been communicated to the Government by the Spanish Minister at Washington.

☞ The Boston Journal says General Hooker has arrested thirty deserters, had them tried by Court Martial, and sentenced to be shot. It is believed he will inexorably enforce the sentence.

☞ A Jackson (Miss.) paper says a Jew was arrested on the charge of offering to spike the guns at Port Hudson for $60,000.

☞ There are at the present time fifteen New Jerusalem (Swedenborgian) churches in Massachusetts.

☞ The Virginia House of Delegates has passed a resolution of thanks to Floyd.

ANOTHER NEW STOVE!

THE MODEL COOK

FOR WOOD OR COAL.

The *novel*—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or fly (the usual use of a simple plate) in connection with the larger oven, for baking; giving an oven nearly 3 feet long; or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! A check draft is applied to this stove by means of which the consumption of fuel is greatly lessened, and a steady fire can be kept day and night if desired.

THE MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be THE STOVE for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is needed.

We believe the MODEL COOK to be the very best Stove in the Market, and invite every one to examine it whether they wish to purchase or not. It has had a very extensive sale since its introduction. Reference might be made to more than a hundred families in this city or vicinity who are using the Stove, and give it the highest commendation.

We refer to the following individuals who have purchased the Model Cook:—

David Kimball, Thos. F. Burt, John T. French, Rev. Mr. Davies, Wm. Pettigrew, Capt. John Davis, Jeremiah Huitt, Mrs. Ann T. Perkins, James W. Jarvis, Francis C. Jarvis, Thos. L. Tullock, Jacob Wendell, Capt. Jacob Thompson, Geo. J. G. Hadley, G. Melvin Huntress, Jos. D. Akerman, Jonathan F. Shores, Wm. C. Newton, Horton D. Walker, Benj. Cheever, John Trundy, Richard L. Randall, Geo. Rice, Benj. F. Canney, Joseph Stiles, John Sexton, Wm. Bell, Cyrus Plumer, Freeman Hurd, James M. Locke, Daniel L. Randall, Isaiah Wilson, John E. Roberts—of Portsmouth; Samuel G. Dixon, Daniel I. Pryor, Cushman Pryor, of Treffethen's Island; Geo. N. Dixon, Samuel F. Paul, Elias Remick, Timothy Dame, Eliot; Wm. S. Locke, Benj. Fernald, Mrs. Wm. Locke, Kittery; R. F. Gerrish, Kittery Point; Hon. Clement March, Albert Blaisdell, Stephen M. Weeks, Geo. W. Davis, Greenland; John Smart, Stratham; Mrs. Reuben P. Jenness, David Jenness, Moses Philbrick, Rye.

VICTOR COAL STOVE.

We offer this beautiful coal burner to the public, with full confidence in its merits.

It was brought into market two years since, and has come rapidly into use.

The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation. The arrangement for dumping the ashes is very fine—no dust need escape into the room—a continuous fire may be kept throughout the winter—the coal all burned, and no clinkers made.

The quantity of fuel used is very small indeed. There is in this stove an excellent arrangement for ventilating the room in which it is placed; a feature not possessed by any other parlor stove.

Some of the sizes are provided with an oven and boiling place, making them very desirable for a dining room.

We sold a large number of Victor Stoves in our city last season, and they receive the highest commendation from those who are using them.

We have also the celebrated McGregor Stove, so well known in the market as to need no commendation.

BUY CALIFORNIA WINES

They are the Purest!

The Best!

The Cheapest!

The "sunny slopes" of "Los Angelos" have announced to the world that America is a wine-growing country, and as the discovery of gold sent a thrill through the old world, so will the discovery of these Wines startle them again, as it says, "one more link broken which has bound us to Europe," "one more step to independence." Let every man, woman and child who uses Wine, see to it that they buy none other than these.

"The Hock" is a most delicious Wine, and rivals in delicacy its German predecessor.

The "Angelica" and "Muscatel" are melting, luscious and rich, and will take the place of Malaga, Tokay, or other rich Wine.

The Port has a fine flavor and body; and The Port is excellent because it is pure.

Pin Worm Syrup.

Just received Dr. Gould's PIN WORM SYRUP—the only safe, sure and effectual remedy ever offered to the public for the removal of Pin Worms. The above valuable medicine for sale at the Medicine Store of B. BTUCHINGS.

Ayer's SARSAPARILLA,

THE WORLD'S GREAT REMEDY FOR
Scrofula and Scrofulous Diseases.

From Emery Eaton, a well-known merchant of Cortland, N. Y.

"I have sold large quantities of your SARSAPARILLA, but never yet one bottle which failed of the desired effect, and full satisfaction to those who took it. As fast as our people try it, they agree there has been no medicine like it before in our community."

Eruptions, Pimples, Blotches, Pustules, Ulcers, Scores, and all Diseases of the Skin.

From Rev. Bold, Methodist, Bridal, Maryland.

"I only do my duty to you and the public, when I add my testimony to that you publish of the medicinal virtues of your SARSAPARILLA. My daughter, aged ten, had an affection of her hair in her ears, eyes, and hair for years, which we were unable to cure until we tried your SARSAPARILLA. She has been well for some months."

From Mrs. Jane E. Rice, a well-known and much esteemed lady of Dennisville, Cape May Co., N. J.

"My daughter has suffered for a year past with a scrofulous eruption, which was very troublesome. Nothing afforded any relief until we tried your SARSAPARILLA, which soon completely cured her."

From Charles P. Gage, Esq., of the firm of Messrs. Gage, Murray & Co., manufacturers of enamelled papers in Nashua, N. H.

"I had for several years a very troublesome humor in my face, which grew constantly worse until it disfigured my features and became an intolerable affliction. I tried everything that I thought could of both advice and medicine, but without any relief whatever, until I took your SARSAPARILLA. It immediately made my face worse, as you told me it might for a time; but in a few weeks the new skin began to form under the blotches, and continued until my face is as smooth as any body's. I am I am without any symptom of the humor that I know of. I enjoy perfect health, and without a doubt owe it to your SARSAPARILLA."

Erysipelas—General Debility—Purify the Blood.

From Dr. Robt. Sayre, Houston St., New York.

"DR. AYER. I seldom fail to remove Eruptions and Scrofulous Sores by the persevering use of your SARSAPARILLA, and I believe you have cured an attack of Malignant Erysipelas with it. No alterative we possess equals the SARSAPARILLA you have supplied to the profession as well as to the people."

From A. E. Johnston, Esq., Wahoo, Ohio.

"For twelve years, I had the yellow Erysipelas on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollars worth of medicines. The ulcers were so bad that the cords became visible, and the doctors decided that my arm must be amputated. I began taking your SARSAPARILLA. Took two bottles, and some of your PILLS. Together they have cured me. I am now as well and sound as any body. Being in a public place, my case is known to every body in this community, and excites the wonder of all."

From Hon. Henry Monro, M. P. P., of Newcastle, C. W., a leading member of the Canadian Parliament.

"I have used your SARSAPARILLA in my family, for general debility, and for purifying the blood, with very beneficial results, and feel confidence in commending it to the unbiassed."

St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes.

From Harvey Sickler, Esq., the able editor of the Tunkhannock Democrat, Pennsylvania.

"One of my children, when three years of age, was attacked by pimples on his forehead. They rapidly spread until they formed a loathsome and virulent sore, which covered his face, and actually bunged his eyes for some days. A skilful physician applied nitrate of silver and other remedies, without any apparent effect. For fifteen days we guarded his hands, lest with them he should tear open the festering and corrupt wound which covered his whole face. Having tried every thing else we had my hope fervently, we began giving your SARSAPARILLA, and applying the iodide of potash lotion, as you direct. The sore began to heal when we had given the first bottle, and was well when we had given the second. The child's eyelashes, which had come out, grew again, and he is now as healthy and fair as any child. The whole neighborhood predicted that the child must die."

Syphilis and Mercurial Disease

From Dr. Hiram Sloat, of St. Louis, Missouri.

"I find your SARSAPARILLA a more powerful remedy in the secondary complaints of Syphilis and for syphilitic disease than any other we possess. The profession are indebted to you for some of the best medicines we have."

From A. J. French, M. D., an eminent physician of Lawrence, Mass., who is a prominent member of the Legislature of Massachusetts.

"DR. AYER. My dear Sir: I have found your SARSAPARILLA an excellent remedy for Syphilis, both of the primary and secondary type, and of Mercurial disease in cases that had resisted all else to yield to other remedies. I do not know what we can employ with more certainty of success, where a powerful alterative is required."

Mr. Chas. S. Van Liew, of New Brunswick, N. J., had described sores on his legs, caused by the abuse of mercury, or mercurial disease, which grew more and more aggravated for years in spite of every remedy or treatment that could be applied, until the persevering use of AYER'S SARSAPARILLA relieved him. Few cases can be more intractable and distressing than this, and it took several dozen bottles to cure him.

Leucorrhœa, Whites, Female Weakness, are generally produced by a scrofulous or impure state of the system, and are often cured by the alterative effect of this SARSAPARILLA. Some cases require, however, in aid of the SARSAPARILLA, the skilful application of local remedies.

From the well-known and widely-celebrated Dr. Jacob Morrell, of Cincinnati.

"I have found your SARSAPARILLA an excellent alterative in diseases of females. Many cases of irregularity, Leucorrhœa, Internal Ulceration, and local debility, arising from the scrofulous diathesis, have yielded to it, and there are few that do not, when its effect is properly aided by local treatment."

A lady, engrossing to allow the publication of her name, writes:

"My daughter and myself have been cured of a very debilitating Leucorrhœa of long standing, by two bottles of your SARSAPARILLA."

Rheumatism, Gout, Liver Complaint, Dyspepsia, Heart Disease, Neuralgia,

when caused by Scrofula in the system, are rapidly cured by the AYER SARSAPARILLA.

AYER'S
CATHARTIC PILLS

possess so many advantages over the other purgatives in their mild but sure and their superior virtues, are so universally known, that we need not do more than to assure the public their quality is maintained equal to the best it ever has been, and that they may be depended on to do all that they have ever done.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never failed to cure, when used according to directions, and that too in the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impotency, Scrofula, Scrofula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, inflammation of the Bladder and Kidneys, Abscesses, Bunnors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr. D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, Loss of memory, Confusion of ideas, Aversion to society, Indecisiveness, &c., &c., and finally the grave produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Dr. Dow has also for sale the French Capotics, warranted the best preventive. Order by mail, inclosing $1 or $1 and a 3cent stamp.

April 7—1y Saw.

CAUTION

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No. 7 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus or falling down of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief afforded, which may have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the upper chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off into the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the concern can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of the building.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert F. Hatch, Esq., Aaron H. Hill, Charles H. Meadum, Henry F. Wendell, John Sise, and others.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would specially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being thicker, heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and and iron broiler combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, more nearly resembling that of a house of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former models, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the upper chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off into the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the concern can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of the building.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

Teeth on Vulcanized Rubber.

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. When the arch is irregular we can by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easy as a saucer, as when finished it has a porcelain or glass surface.

6th. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, Surgeon Dentist,
No. 3 Daniel St. Portsmouth,

Has had four years of practical experience in making this material, and will guarantee satisfaction to any cases entrusted to his care.

DENTISTRY.

No. 60 CONGRESS STREET,
Portsmouth, Jan. 1st, 1863.

DR. GOODALL

Would respectfully inform his patrons and the public, that he had of late many calls to insert teeth upon VULCANIZED RUBBER, that he has purchased the best VULCANIZER in the market, and is now prepared to do all work on RUBBER or the other bases of GOLD and SILVER as formerly, if preferred.

The Rubber has several important advantages, viz.: It is very light and elastic, and consequently is perfectly easy to the muscles of the mouth and cheeks. There are no insertices or open joints to collect food, &c.; consequently they can be worn night and day, and are very easily kept neat and clean.

Beside all this, the most accurate fit is obtained, as the Rubber is vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.

Any one who is waiting for their permanent teeth will, I am confident, be perfectly satisfied with the Rubber, as a base. The expense is but a little more than for Silver, and you get the same teeth (in blocks) that you would pay $60.00 for an upper or lower set on Gold.

In New York and Boston, and throughout the West, Vulcanized Rubber is fast forcing to the exclusion of the other bases, and by the best Dentists too. I will warrant a perfect fit and teeth from the best manufacturer in the country, S. S. White.

ALL OTHER OPERATIONS IN DENTISTRY I will do at the usual rates. I will here mention that my price for EXTRACTING is 25 cents.

I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr OLIVER and Dr. BURNETT, for particular recommendations of my Teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with Neatness and Dispatch. All other operations in Dentistry, I will do at the usual rates.

GRACE'S CELEBRATED SALVE,
A SURE RELIEF FOR THE SUFFERER.

This Salve is a vegetable preparation, invented in the 17th century, by Dr. WM. GRACE surgeon in King James's army. Through it agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day, and was regarded by all who knew him as a public benefactor.

Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Fresh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.

Grace's Celebrated Salve cures Callouses.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sores
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find this Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much trouble, suffering, and money. All it wants is a fair trial to cure old and inveterate Sores.

RYE, N. H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor WASH, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.
PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, MARCH 6, 1863.

THE REBELLION.

Richmond papers of the 2d inst. make no mention of affairs at Vicksburg. Charleston advices state that the steamers Ruby and Douglas ran the blockade with Nassau dates of the 26th. ult. A despatch from Savannah, dated the 1st inst., states that the steamer Nashville ran aground before Fort McAllister, and was destroyed by our iron-clads. The Fort is not taken.

Colonel E. D. Townsend, Assistant Adjutant General, who was sent to Port Royal to adjust the matter of the conflict of authority between Generals Hunter and Foster, has returned to Washington. He reports that everything has been adjusted in a manner to give promise of the best results. The repairs upon the Wechawken have been completed or nearly so, and preparations for a movement are substantially completed.

A Cairo dispatch, 4th, states that a fire at Lake Providence on Monday destroyed nearly the whole town, including a considerable amount of commissary stores.

☞ Rev. Thos. Hill, D. D., was inaugurated President of Harvard College Wednesday, by appropriate and interesting exercises. The occasion called together a large number of the friends of this distinguished seat of learning, and also of the friends of education generally, among them representatives of the various learned professions, of the army and navy, orators and statesmen. Four ex-Presidents of the University were present—Josiah Quincy, sen., Edward Everett, Jared Sparks, and James Walker, all apparently in good health, except the venerable Quincy, whose physical condition is feeble. The Germania Band, and the Glee Club of the Harvard musical association, furnished the music. An impressive prayer was offered by Rev. Dr. Peabody, followed by an oration in latin, by a member of the Senior Class. Gov. Andrew then delivered an address and induction into office. President Hill accepted the office, and delivered an able and scholarly inaugural address, his thesis being, "that the capacity for profiting by special professional studies, and for usefulness in special professional labors is in direct proportion, other things being equal, to the extent and solidity of a student's general attainments."

☞ The tax assessors and collectors under the new tax bill get a handsome increase of pay. They have been largely represented in Washington from New York, Philadelphia, and elsewhere. No officer will receive less than $1500 a year, with $750 for rent. Blanks, paper, postages, &c., are also allowed. When the income is over $200,000 on to a million and more, there is a regular increase of pay allowed, so that, while collectors may receive $10,000, (from which they are to pay clerk hire, &c.,) assessors will receive from $1500 to $4000 or more as the case may be, after the income is $200,000. Some New York assessors will receive four or five thousand per annum. As yet, the machinery of the income tax proper has not been prepared. It goes into operation on the first of May, when taxes on incomes over $600 are expected to be paid in.

☞ It is stated that the late attempt at New Orleans to assassinate Gen. Banks was an entirely accidental affair. A lady, in an officer's room at the hotel, thoughtlessly threw two explosive cartridges from the window, which struck the sidewalk and exploded at the moment that Gen. Banks was stepping into his carriage. From this circumstance arose the report of an attempted assassination.

☞ A New York dispatch states that a meeting of unconditional loyalists will be held in that city to-night, Friday. Gen. Scott presides. Joseph Holt, John Van Buren, James T. Brady and other distinguished gentlemen are to speak for a vigorous prosecution of the war.

☞ Gov. Coburn, of Maine, a bachelor, gave a great ball at a hotel in Augusta on Wednesday night. There was a grand rush of the upper ten from round about, and there was no session of the Court Martial being held in Portland, on Thursday, as most of the members had gone to the Governor's levee.

☞ The Machias, Me., Union says that at a recent auction sale of goods seized by the revenue officers in December last, while one of the traders was bidding on sheeting that sold as high as 39 1-2 cents per yard, purchasers called at his store only a few rods from the auction room, and bought nearly the whole stock of sheeting that he had on hand at 32c per yard.

☞ A sore need is felt at the New England Rooms, in New York city, of men's clothing of all kinds for destitute sick and discharged soldiers en route homeward.—Any donations, large or small, will be heartily appreciated by the soldiers and judiciously distributed to those needing them.

NEW HAMPSHIRE ITEMS.

—— Mr. Samuel Carter, of East Concord, now in his 74th year, cut, split, and piled, one day this winter, *a cord and a half* of wood.'

—— A magnificent silver service was presented in the Hall of the House of Representatives, at the close of the session, to Capt. Goodnow of New Hampshire, (late Doorkeeper of the House) by the retiring Representatives and employees.

—— The degree of M. D. was conferred upon Mary Olive Ann Hunt, of Manchester, at the close of the 15th annual term of the New England Female Medical College in Boston, on Wednesday.

—— The 2d regiment are to be paid four months' pay to-day (Friday.) Majors Marston and Farnsworth having arrived, and will receive short furloughs.

—— The office of Mayor Humphrey, of Concord, was robbed of $500 on Monday while he was at dinner. The office was locked up, and is supposed to have been entered by means of false keys.

NEW TELEGRAPH LINE.—The Philadelphia Press states that upwards of a million dollars have been subscribed in New York for the telegraph line, and subscriptions were about to be received in Philadelphia. The company is to have a capital of three millions, and to extend its wires, which are to be built for cash, and in a most substantial manner, from Halifax via Boston to New York, Philadelphia, Baltimore and Washington, with branches from New York via Albany, Buffalo, Cleveland, Detroit and Chicago to Milwaukee, and from Philadelphia to Harrisburg, Pittsburg, Columbus, Cincinnati, Louisville and St. Louis, and with material branches to all the chief towns in the Western States.

☞ The N. Y. Tribune states that the Engineer bill does not, as has been stated, contain a provision for the organization of African troops. What was in the bill with respect to this matter was finally stricken out in the Senate.

This leaves all the people without regard color, under the operation of the army and conscription laws, so that all troops may be officered in the usual way, by the President and War Department.

BANKS PAYING SPECIE.—The Southwark Bank of Philadelphia pays specie for all the notes of that bank presented at the counter. By the redemption of its circulation, the Southwark will avoid the payment of a large tax, and this is in part the cause of the determination to call in the circulation. There are four banks in Pennsylvania that are now paying specie.

☞ It is stated that the men of a New Jersey regiment having frequently stolen fresh meat from the boys of the 3d Vermont, much to the latters' disgust, some of the Green Mountain chaps killed a dog, dressed it neatly and hung up the quarters in the Quartermaster's department. The "Jerseys," mistaking it for mutton, stole it as usual, and bore it off in triumph. The next day it was served up upon the table of some of the Jersey officers. The "joke" soon became public, and the "Jerseys" are beginning to get weary of the salutation of bow-wow-wow, which everywhere is dinned into their ears.

☞ Gold opened in New York on Thursday morning at 163, but commenced falling soon after, and was sold at 147 a 149, which shows a decline of nearly 20 per cent. from the prices ruling the day previous. Government securities are quoted as follows: Sixes 100 1-2, and Seven Thirties at 104 7-8.

Afterward gold advanced, and at 2 P. M. the price was 56 1-2 a 57 premium.

☞ Lieut. Commander Bushrod B. Taylor has been detached from the Cimerone, and ordered to the screw sloop Ticonderoga. Lieut. George B. White has been ordered to the Ticonderoga. Lieut. Adolphus Dexter has been ordered to the Cimerone.

☞ Gov. Johnson of Tennessee is making Union speeches in Indiana and Ohio with great acceptance. There is no firmer Union man in the country, and he is one of the most deserving and worthy of the Southern men who have stood by the national cause.

☞ The real genuine original sea serpent is said to have been caught on the east coast of South America. He was one hundred and fifty feet long, with a head and tail like a lizard, and it took six men to carry one of his ribs! This story will do, until another is told.

☞ "Perley" telegraphs to the Boston Journal that the two per cent. amendment to the tax bill, on shipbuilding, was carried by the Western members.

☞ The N. Y. Times solemnly hopes that corn dodgers will be introduced into the army—or men, rather.

☞ A report from Memphis says the gunboat Indianola was defended for a long time and with stubborn bravery, nor was she surrendered till in a sinking condition, when she was run ashore to save the lives of the men.

NOTES OF FORMER DAYS.

Collected and Collated — By UNCLE TOBY.

Revolutionary soldiers—and the beginning of Cotton in the U. S.—In the Historical Magazine for February, we find many curious items of the days of 1776 and onward. Among them are the following:

The Historical Society of Pennsylvania possess a manuscript volume, brought from Paris, containing a list of the French officers who served in the American army, or with it, during the Revolution. The following is a translation of the closing paragraph. The writer is speaking of the Vicomte de Fontanges, a Major General at the siege of Savannah:

"According to a note which one of my friends has furnished me, M. de Fontanges commanded, under M. d'Estaing, a legion of free mulattoes and negroes of Saint Domingo. This legion saved the army at Savannah by bravely covering its retreat. Among the blacks who there distinguished themselves were Andre Rigaud, Beauvais, Villatte, *Beauregard*, and Lambert, who afterwards became *generals* under the convention; and also Henri Christophe, the future King of Hayti.

Signed, CHEVALIER DE PREUDHOMME."

Cotton Planting in South Carolina in 1787.—In the Independent Journal, Dec. 26, 1787, is found the following, which is curious, as showing how greatly all has changed. Cotton was not King then; he was but a poor immigrant, seeking a home and culture from those whom he now rules with such an iron rod of despotism. The inducements which may have seemed extravagant to readers then, cause a smile now, from their being so far behind the reality:—

"Charleston, Dec. 6. A correspondent laments that the culture of cotton is so much neglected in this State; it does not require better land than is necessary to raise corn, to produce it. It is said that one acre of land will produce three hundred weight, and that one negro can cultivate three acres and can also gin the cotton in the course of the year; so that one negro will raise besides corn, nine hundred weight per annum, which makes 14,400 ounces, which when spun, they now sell in the Charleston market at 1s. an ounce, but suppose it sold only for 6d. an ounce, it would fetch £360. If it was sold in the wool at 2s. on the pound, it would fetch £90, but machinery might be imported for spinning it, which would enable the planter to sell it when spun very cheap. The Northern States would readily purchase it. Ireland has begun to manufacture cotton, and would buy up all they can; and Great Britain, France and Holland would purchase it with avidity. Respecting our condition in this respect we may justly exclaim: *O cives quæ vos dementia cepit.*"

HORRIBLE MURDER.—The Aroostook Pioneer contains the following particulars of a murder at Fort Fairfield on Thursday morning. A man by the name of Dolly murdered his wife whilst in her bed, by cutting a gash in her breast with a broadaxe, nine inches long, and quite through to the back bone. He then, as he says, attempted to shoot himself, but failing in the attempt, went to the barn and cut his own throat with a razor, not however inflicting a dangerous wound. The story that he tells is that he and his wife agreed that he was to kill her and the children, and then kill himself, but his heart failed him after he had killed his wife, so that he did not harm the children. There are four children, the eldest eight years old.

POLAND.—The *Paris Patrie* represents the insurrection as spreading throughout all parts of Poland. The military commanders in the provinces of Lithuania and Volhagia refused to send the reinforcements demanded from them, considering it impossible to diminish their forces. The insurgents attacked Minchow on the 17th, but were repulsed with 300 killed and 300 wounded. The place was afterwards set on fire. It is rumored that the insurgents under Langievicz had beaten the Russians and captured some cannon.

☞ In his speech at Birmingham, Mr. Bright apologized for the quality of Indian cotton. He admitted, however, that it was very bad indeed for the workmen, and illustrated their excessive distaste by a story, which will offend only those who think that men should never pray for the bread they need: "The other day, while a Methodist clergyman was supplicating the Supreme Being, at a prayer meeting, and asking among other things, for a supply of cotton for the famishing operatives, one man, with a keen sense of what he had suffered, interposed the ejaculation, 'Yea, Lord, but not Surat.'"

☞ The Washington correspondent of the New York Herald says the filibustering in the House on Friday night produced some interesting incidents. A call of the House was made during the small hours, and the Sergeant-at-Arms proceeded to Williard's, where he arrested several members. The party became so boisterous while being conveyed to the Capitol that they fell into the hands of the police.

☞ Mr. Robert P. Parrott, the manufacturer of the celebrated Parrott gun, has paid to the Government under the Internal Revenue Law, since September 1, 1862, taxes to the amount of $17,243.

TOO MUCH READING.—In an amusing article upon the "Physicians and Surgeons of a by-gone Generation," a foreign journal describes Abernethy conversing thus with a certain patient: "'I opine,' said he, 'that more than half your illness arises from too *much reading*.' On my answering that my reading was chiefly history, which amused while it instructed, he replied: 'That is no answer to my objection. At your time of life a young fellow should endeavor to strengthen his constitution, and lay in a stock of health. Besides, too *much reading never yet made an able man*. It is not so much the extent and amount of what we read that serves us, as what we assimilate and make our own. It is that, to use an illustration borrowed from my profession, that constitutes the chyle of the mind. I have always found that really indolent men, men of what I would call *flabby* intellects, are great readers. It is far easier to read than to think, to reflect, or to observe; and these fellows, not having learned to think, cram themselves with the ideas or the words of others. This they call study, but it is not so. In my own profession I have observed that the greatest men were not the mere readers, but the men who observed, who reflected, who fairly thought out an idea. To learn to reflect and observe is a grand desideratum for a young man. John Hunter owed to his power of observation that fine discrimination, that keen judgment, that intuitiveness which he possessed in a greater degree than any of the surgeons of his time."

☞ One Jane P. Thurston, of Portland, publishes an advertisement addressed to the people of the United States, in the Press of that city, in which she offers "to furnish for the sum of five hundred dollars, (which sum shall be given for the relief of the sick and wounded soldiers,) a plan which will close up the rebellion, and unite all the States in six months, or refund the money." The price is low enough—but why not do it for nothing, and rely on the gratitude of the Republic?

☞ Rev. Mr. Fletcher says, in reference to the slave system of Brazil, that it is constantly on the decline since the abolition of the slave trade. While the number of slaves is one million less now than ten years ago, the great staples of the country have increased thirty-three per cent.

GOLDEN SENTENCES.—I thank my Heavenly Father for every manifestation of human love; I thank him for all experiences, be they sweet or bitter, which help me to forgive all things, and to enfold the whole world with a blessing.—*Mrs. Child.*

THE ARAB'S PRAYER.—O God! be kind to the wicked; to the good thou hast already been sufficiently kind in making them good.

A bill has been introduced in the New Jersey Legislature which provides that married women shall be empowered to make wills and dispose of whatever property it may be their good fortune to possess, in like manner with the stronger sex.

☞ A writer in the Portland Press is urging, in a series of articles, the propriety of building a dry dock in that city.

"Punch" suggests the substitution of "No Cake" for "No Cards," after some marriage notices.

The image of a sheep (*pecus*) was on the Roman coin issued by Servius Tullius, and it was on that account called *pecunia*—a term that was applied subsequently to money. The word *money* owes its origin to the fact that the first silver coined at Rome, A. U. C., 582, was produced by the mint in the temple of Juno *Moneta*, (the Reminder.)

☞ St. Patrick's Day is to be celebrated by the Irish Associations in Boston, this month, with greater demonstrations than ever before. It is expected that the procession will number six thousand men, with bands of music and banners suited to the occasion.

☞ The Lawrence Journal says:—

"The City Hall bell was tolled on Sunday afternoon, while the funeral procession of Capt. Yeaton was moving from the Church to the cemetary. We believe this is the first time a funeral knell was ever tolled in Lawrence."

Notice to Housekeepers,

Rubber Band Carpet Sweeper.

TRY IT! TRY IT!!

It saves Money; it saves Carpets; it saves Furniture; it saves Labor; it is cheaper than Brooms at five cents apiece.

It gathers up all dust, dirt, and loose lint on the carpets, and raises no dust to settle on the furniture, drapery, or ornaments, or to smother, stifle and irritate the lungs.

It does not wear the carpets half so much as brooms or any other sweeper.

It is the only practicable sweeper made, and the only article fit to sweep a carpet.

With our late improvements it gives universal satisfaction to all who use it according to directions. For sale at No. 12 Market Street by

SECOND REGIMENT.—Mayor Dearborn, who returned from Concord on Thursday morning, whither he accompanied Maj. Gen. Wool, has effected an arrangement by which three companies of the Second Regiment are to be sent to this city, to remain during the time they pass in the State. These are the Exeter and Hampton, the Dover, and the Portsmouth companies, numbering about one hundred and five men, and known as companies E, D, and K, respectively. The Dover company will garrison Fort McClary; the other two companies will be quartered at Fort Constitution. It is now thought that the soldiers will come to-morrow (Saturday) arriving in the morning train. Lieut. Col. Bailey, who is at present in command of the regiment will accompany them to this city. Capt. Samuel P. Sayles, of Dover, of Co. D, has been appointed commander of the Post, by Gen. Wool.

When Co. K left Portsmouth on the 20th of June, 1861, the whole number of men from this city enlisted in it, was 64. Since that time 24 have been discharged; 4 have deserted; 4 have died from sickness or other causes; 1 has been drowned; 1 killed in battle; and 1 is reported as missing.—There therefore remain with the company, so far as appears from the records at the City Rooms, 29 of the original members of the company.

It was at first understood that the companies would not arrive in this city until Monday; but a telegraphic dispatch from Lieut. Colonel Bailey, received by Mayor Dearborn last evening, renders it almost, if not quite, certain that they will come to-morrow. The City Authorities have already taken initiatory measures for the arrangement and carrying through of such a public reception as shall be at once creditable to the city and a fit testimonial of our citizens' high appreciation of the lofty patriotism, steadfast courage, and prompt obedience, which have marked the Second N. H. Regiment throughout its entire career. It is earnestly desired that our citizens generally will actively co-operate with the City Government, and we feel confident that they will most cordially comply.

Aldermen Nichols, Rider, and Wiggin constitute the committee of arrangements; and Hon. Joseph B. Adams has been appointed Chief Marshal. A procession will be formed on Market Square at 9 o'clock, with the right resting on Congress street. It is expected that the members of the City Government, the National Guard, the Masons, Odd Fellows, the military company at New Castle, the Fire Companies of the city, and other organizations will join in the procession. Former members of the Second Regiment, and Army and Navy Officers at present in the city, are also invited to join it.

The regiment will be received at the depot of the C. and P. railroad, and escorted through Bridge, Islington, Cabot, Middle, Court, Pleasant, Water, State, Middle, and Congress streets to Jefferson Hall, which will be appropriately trimmed, and where a collation will be provided.

The Portsmouth Cornet Band will furnish music. The bells will be rung for one hour, and a salute of 50 guns will be fired. The public schools will have a holiday, and it is hoped that business generally will be suspended. Citizens residing on the streets through which the procession will pass, are requested to decorate their buildings, display flags, &c.

The ladies are invited, by an advertisement in our columns this morning, to lend their assistance in preparing for the reception of the soldiers, and we doubt not they will most willingly respond.

☞ We are glad to notice the arrival home of Mr. Charles H. Rand, formerly of Portsmouth, but now of Kansas, where he has resided for the last eight years. He is connected with the Union army under Gen. Curtis, but is enjoying a brief furlough, and is looking well and rugged. He is a son of the late Bickford L. Rand.

☞ We learn that a whole family in this city were poisoned recently, from eating a boiled dinner. For a time one member was not expected to survive, but they have now all recovered.

☞ In Board of Aldermen, on Thursday evening, Hon. Jonathan Dearborn was elected Street Commissioner, *vice* Ebenezer Haines, resigned.

☞ The side-wheel steamer Patuxet will be launched from No. 1 Ship House at the Portsmouth Navy Yard, on Thursday next.

LEO MILLER will speak in Mercantile Hall, Sunday afternoon, March 8th, at the usual hours; in the Temple same evening at 7 o'clock. Subject for the evening, "The Ministry of Angels." Admission to the Temple 5 cts.

☞ All the emancipation bills, before Congress, failed of passage.

☞ The Privateering Bill has been signed by the President.

STARBING.—On Wednesday afternoon, the barque Annie E. Sherwood (which recently put into this port, having lost her anchor) sailed from Portland for Montevideo, but on the outside of the harbor, a seaman stabbed dangerously the mate, Mr. B. E. Sloan of Kennebunk. It is the old story of a rebellious crew who had taken whiskey as a part of their outfit, and refused to "turn to." His case is dangerous.—The seaman is in custody, and the barque has returned to port.

☞ The resignation of the Hon. Geo. S. Boutwell, as Commissioner of internal revenue took effect on Wednesday, he being a member of the new Congress.

☞ Thursday morning, Mar. 5, was clear and cold. The telegraph reports that at Woodstock, Vt., it was 25° below zero.

☞ There have been 42 lawyers and 40 practising physicians licensed in Portland under the new internal revenue laws requiring such license.

ANOTHER NEW STOVE!

THE MODEL COOK

FOR WOOD OR COAL.

The *novel*—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the larger oven, for baking; giving an oven nearly 3 feet long; or large enough to bake six large loaves on the bottom, every part of which will bake evenly at the same time! A check draft is applied to this stove by means of which the consumption of fuel is greatly lessened, and a steady fire can be kept day and night if desired.

THE MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be THE STOVE for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is needed.

We believe the MODEL COOK to be the very best Stove in the Market, and invite every one to examine it whether they wish to purchase or not. It has had a very extensive sale since its introduction. Reference might be made to more than a hundred families in this city or vicinity who are using the Stove, and give it the highest commendation.

We refer to the following individuals who have purchased the Model Cook:—

David Kimball, Thos. F. Burt, John T. French, Rev. Mr. Davies, Wm. Pettigrew, Capt. John Davis, Jeremiah Raitt, Mrs. Ann T. Perkins, James W. Jarvis, Francis C. Jarvis, Thos. L. Pullock, Jacob Wendell, Capt. Jacob Thompson, Gen. J. G. Bailey, Jr. Melvin Gunness, Jos. D. Akerman, James F. Shores, Wm. C. Newton, Horton D. Walker, Benj. Cheever, John Trundy, Richard Kimball, Geo. Hodgdon, Benj. F. Cairney, Benj M. Parker, Charles A. Wiggin, George W. Plumer, Nath'l Dennett, Henry F. Gerrish, John Harvett, Thos Marphy, Capt. Wm. Lambert, Joseph Stiles, John Sullivan, Wm. H. Cyrus Plumer, Freeman Hurd, James M. Locke, Daniel L. Randall, Isaiah Wilson, John E. Roberts—of Portsmouth; Samuel G. Dixon, Daniel L. Pryor, Cushman Pryor, of Trefethen's Island; Geo. N. Dixon, Samuel P. Paul, Elias Remick, Timothy Dame, Eliot; Wm. S. Dooks, Benj. Furnald, Mrs. Wm. Locke, Kittery; R. F. Gerrish, Kittery Point; Hon. VICTOR COAL STOVE.

We offer this beautiful coal burner to the public, with full confidence in its merits.

It was brought into market two years since, and has come rapidly into use.

The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation. The arrangement for dumping the ashes is very fine—no dust need escape into the room—a continuous fire may be kept throughout the winter—the coal all burned, and no clinkers made.

The quantity of fuel used is very small indeed. There is in this stove an excellent arrangement for ventilating the room in which it is placed; a feature not possessed by any other parlor stove.

Some of the sizes are provided with an oven and boiling place, making them very desirable for a kitchen stove.

We sold a large number of Victor Stoves in our city last season, and they receive the highest commendation from those who are using them.

We have also the celebrated McGregor Stove, so well known in the market as to need no commendation.

A great variety of cheaper Stoves for coal and wood—Coal-hods—Patent Coal-sifters.

COAL LININGS,

and Repairing pieces for most of the stoves in use. Job Work attended to with dispatch.

BUY CALIFORNIA WINES

They are the Purest!

The Best!

The Cheapest!

The "sunny slopes" of "Los Angelos" have announced to the world that America is a wine-growing country, and as the discovery of gold sent a thrill through the old world, so will the discovery of these Wines startle them again, as it says, "one more link broken which has bound us to Europe," "one more step to independence." Let every man, woman and child who love Wine, see to it that they buy none other than these.

"The Hock" is a most delicious Wine, and rivals in delicacy its German predecessor.

The "Angelica" and "Muscatel" are melting, luscious and rich, and will take the place of Malaga, Tokay, or other rich Wine.

The Port has a fine flavor and body; and The Port is excellent because it is pure.

Pin Worm Syrup.

Just received Dr. Boothby's PIN WORM SYRUP—the only safe, sure and effectual remedy ever offered to the public for the removal of Pin Worms. The above valuable medicine for sale at the Medicine Store of B. HUTCHINGS.

Ayer's SARSAPARILLA,

THE WORLD'S GREAT REMEDY FOR
Scrofula and Scrofulous Diseases.

From Emery Atlee, a well-known merchant of Oxford, Maine.

"I have sold large quantities of your SARSAPARILLA, but never put out bottles which failed of the desired effect and full satisfaction to those who took it. As fast as our people try it, they agree there has been no medicine like it before in our community."

Eruptions, Pimples, Blotches, Pustules, Ulcers, Sores, and all Diseases of the Skin.

From Rev. Robt. Stratton, Bristol, England.

"I only do my duty to you and the public, when I add my testimony to that you publish of the medicinal virtues of your SARSAPARILLA. My daughter, aged ten, had an afflicting humor in her ears, eyes, and face for years, which we were unable to cure until we tried your SARSAPARILLA. She has been well for some months."

From Mrs. Jane E. Rice, a well-known and much-esteemed lady of Dunstable, Tyng Stop, N. Y.

"My daughter has suffered for a year past with a scrofulous eruption, which was very troublesome. Nothing described any relief until we tried your SARSAPARILLA, which soon completely cured her."

From Charles P. Gage, Esq., of the widely-known Gage, Abbey & Co., manufacturers of counsellor paper, in Nashua, N. H.

"I had for several years a very troublesome disease in my face, which grew constantly worse until it disfigured my features and became an intolerable affliction. I tried almost every thing a man could of both advice and medicine, but without any relief whatever, until I tried your SARSAPARILLA. It immediately made my face worse, as you told me it might for a time; but in a few weeks the new skin began to form under the old, which kept continued until my face is as smooth as any body's, and I am without any symptoms of the disease that I know of. I enjoy perfect health, and without a doubt owe it to your SARSAPARILLA."

Erysipelas—General Debility—Purify the Blood.

From Dr. Robt. Swain, Houston St., New York.

"DR. AYER. I seldom fail to remove *Erysipelas* and *Scrofulous Sores* by the persevering use of your SARSAPARILLA, and I have just now cured an attack of *Malignant Erysipelas* with it. No alterative we possess equals the SARSAPARILLA you have supplied to the profession as well as to the people."

From J. E. Johnston, Esq., Wakeman, Ohio.

"For twelve years, I had the yellow Erysipelas on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollars worth of medicines. The ulcers would so bad that the arm became useless, and the doctors decided that my arm must be amputated. I began taking your SARSAPARILLA. Took two bottles, and none of your PILLS. Together they have cured me. I am now as well and sound as any body. Being in a public place, my case is known to every body in this community, and excites the wonder of all."

From Hon. Henry Moore, M. P. P., of Newcastle, C. W., a leading member of the Canadian Parliament.

"I have used your SARSAPARILLA in my family, for *general debility*, and for *purifying the blood*, with very beneficial results, and feel confidence in commending it to the afflicted."

St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes.

From Harvey Seelder, Esq., the able editor of the Tuskaloosa Herald, Tuskaloosa, Alabama.

"Our only child, about three years of age, was attacked by pimples on his forehead. They rapidly spread over his face, and then became of a virulent sore, which covered his face, and actually blinded his eyes for some days. A skilful physician applied nitrate of silver and other remedies, without the slightest effect. For fifteen days we guarded his hands, lest with them he should tear open the festering and corrupt sores, and convert his whole face into one sore. Having tried every thing else we had any hope from, we began giving your SARSAPARILLA, and applying the bottle of your Cathartic Pills direct. The sore began to heal when we had given the first bottle, and was well when we had finished the second. The child's eyelashes, which had come out, grew again, and he is now as healthy and fair as any other. The whole neighborhood predicted that the child must die."

Syphilis and Mercurial Disease

From Dr. Brown Sloan, of Jefferson, Missouri.

"I find your SARSAPARILLA a more effectual remedy for the secondary symptoms of *Syphilis* and *Syphilitic Rheumatism* than any other remedy. The profession are indebted to you for some of the best medicines we have."

From A. J. French, M. D., an eminent physician of Lawrence, Mass., and a prominent member of the Legislature of Massachusetts.

"DR. AYER. My dear Sir: I have found your SARSAPARILLA an invaluable remedy for Syphilis, both of the *primary* and *secondary* type, and effectual in some cases that were too obstinate to yield to other medicines. I do know what we can employ with more certainty of success, where a powerful alterative is required."

Mr. Chas. S. Van Liew, of New Brunswick, N. J., had suffered severely with Scrofula, which gave him fears of mercury, or mercurial disease, which grew more and more aggravated for years, in spite of every remedy or treatment that came to hand, until the persevering use of AYER'S SARSAPARILLA relieved him. Few cases can be found more inveterate and distressing than his, and it took several dozen bottles to cure him.

Leucorrhœa, Whites, Female Weakness, are generally produced by internal *Scrofulous Ulceration*, and are very often cured by the alterative effect of AYER'S SARSAPARILLA. Other cases require, however, in aid of the SARSAPARILLA, the skilful application of local remedies.

From the well-known and widely-celebrated Dr. Jno. Hamilton, of Charleston, S. C.

"I have found your SARSAPARILLA an excellent alterative in diseases of females. Many cases of Irregular, Leucorrhœal, Menstrual Disease, and broad debility, arising from the scrofulous diathesis, have yielded to it, and there are few that do not, where the effect is properly aided by local treatment."

A lady, unwilling to allow the publication of her name, writes:

"My daughter and myself have been cured of a very debilitating Leucorrhœa, of long standing, by two bottles of your SARSAPARILLA."

Rheumatism, Gout, Liver Complaint, Dyspepsia, Heart Disease, Neuralgia,

when caused by *Scrofula* in the system, are rapidly cured by this EXT. SARSAPARILLA.

AYER'S
CATHARTIC PILLS

possess so many advantages over the other purgatives in the market, and their superior virtues are so universally known, that we need not do more than to assure the public their quality is maintained equal to the best it ever has been, and that they may be depended on to do all that they have ever done.

Prepared by J. C. AYER, M. D., & Co., Lowell, Mass., and sold by

D. R. AMBROSE,
No. 4 Congress Block.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos 7 and 9 BULFINCH STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies which have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and mercurial disease, Impotency, Scrofula, Gonorrhœa, Ulcers, pains and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Strictures, Diseases of the Urinary Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, undfitts the unfortunate individual to business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should before contemplating matrimony, consult a physician of experience, and by at once restored to health and happiness.

Patients who wish to remain under Dr Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. DR. DOW has also for sale the French Capsules, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

April 7—1y 3taw.

CAUTION

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 BULFINCH STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and with unexampled success in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the activity of the medicine reflects no injury to health.

Dr. Dow has no doubt had greater experience in the cure of Diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

In all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Bulfinch street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

☞ Dr. Dow imports and has for sale a new and celebrated FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large capacity Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable—just as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the great est amount of heat from a given amount of coal, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former modes, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off into the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the case can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney one great useless flue to your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without ones going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. When the arch is irregular we can by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.

4th No bad taste arises in the mouth by its use, as the material is as free as a sweet, as when finished the work presents one whole piece.

5th. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

DENTISTRY.

No. 60 CONGRESS STREET,
Portsmouth, Jan. 1st, 1863.

DR. GOODALL,

Would respectfully inform his patrons and the public, (they so had of late many calls to insert teeth upon VULCANIZED RUBBER,) that he has purchased the new VULCANIZER in the market, and is now prepared to do all work upon RUBBER, or the other bases of GOLD and SILVER as formerly, if preferred.

The Rubber has several important advantages, viz.: It is very light and elastic, and consequently perfectly easy to the muscles of the mouth and cheeks. There are no joints or ugly joints to collect food, &c.; consequently they can be worn night and day, and are very easily kept healthy and sweet.

Beside all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.

Any one who is waiting for their permanent teeth to be consolidated, can be perfectly satisfied with the Rubber, as a base. The expense is but a little more than for Silver, and you get the same teeth (the Rubber) that you would pay $60.00 for an upper or lower set on Gold.

In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and the best Dentists too. I will warrant a perfect fit and teeth from the best manufacturer in the country, S. S. White.

ALL OTHER OPERATIONS IN DENTISTRY I will do at the usual rates. I will here mention that my price for EXTRACTION is 25 cents.

I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr OLIVER and Dr. BURNETT for particular success in extracting teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with **Neatness and Dispatch.** All other operations in Dentistry, I will do at the usual rates.

SAMBUCUS TREE, OF PORTUGAL,

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Alterative, highly esteemed by eminent physicians, used in European and American hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended in the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.
PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with dizzines at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.
From ELDER I CRESLEY, *Lee, May* 31, 1841.
DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CRESLEY
☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26o

Those who have taken the volumes as they have been issued, and have most frequently consulted its pages, have been most completely satisfied with it. Says one: "We who have occasion to refer to it daily, can speak of its literary and mechanical execution with entire satisfaction. THE NEW AMERICAN CYCLOPEDIA is correct, full in its information and conveniently arranged for reference; the articles are concise and complete." On the issue of the 16th Volume the price will be raised 50 cents per volume to all who have not been subscribers to the work.

Have you used the Strela Matches?
J. F. SHORES, JR., No. 1 Congress Block, has just received from the manufactory a large lot of
STRELA MATCHES.
These matches are without sulphur and without smell in burning, which adapts them for the Sick Room, the Parlor, or for general use, being nearly as cheap as any other kind of Matches. They are put up in boxes of 150 matches, and are sold at the low price of THREE cents per box, or 12 boxes containing 1800 matches for 25 cents—being "25 for a cent."
Dealers supplied at the manufacturer's price.

SATURDAY, MARCH 7, 1863.

THE REBELLION.

A dispatch from Corinth, Miss., says that on the 22d ult. an expedition which was sent from that place by Gen. Dodge, attacked the rebels at Tuscumbia, capturing 200 prisoners, one piece of artillery, and a large quantity of ammunition, and a provision train, with all the commissary stores.

The rebels have five gunboats of their own up the Red river, besides what they have taken from us, making seven in all.—Some of their boats are models of strength and speed; the Webb makes 14 miles an hour against the current.

The enemy under Van Dorn again advanced toward Franklin, Tenn., Wednesday; the Union force went out six miles and drove them back. The rebels lost 13 killed. The fight was renewed on Thursday morning.

A Murfreesboro' dispatch states that rebel cavalry attacked a forage train from Gen. R. Granger's division, but were repulsed after an hour's fight with a loss of five killed, twelve wounded and two taken prisoners.

The canal between the Mississippi river and Lake Providence is finished, but the water is not yet let in.

The Richmond Examiner has a Savannah dispatch confirming the report of the destruction of the rebel steamer Nashville.

The N. Y. Herald has a letter stating that the rebel steamer Alabama was seen off Cape Isabella Feb. 19, and off Port au Platte, St. Domingo the same evening, after chasing a Spanish vessel.

The rebel official account states that the Indianola was captured only after a serious and hot engagement, and the prize was a great deal damaged. Another dispatch from Gen. Pemberton says she is sunk, her boats and upper works out.

It was rumored at Cairo on the 3d that all of Porter's fleet had run by Vicksburg.

Our cavalry drove the rebels across the Blackwater at Franklin, Va., on Tuesday night, taking some prisoners.

☞ The Post states that the gold excitement in Boston on Thursday was exceedingly lively. Nothing like it has been witnessed since the war began. Elderly gentlemen, wearing stout overcoats and green goggles, who were supposed to have passed the emotional age, got excited in a most remarkable manner; while those of lesser age and warmer blood flew about in the wildest manner. Being on 'Change was to occupy a somewhat dangerous place, so demonstrative were the movements of monied men. When gold goes from 70 to 45, and from 45 to 63, all in three hours, it indicates a rapid style of movement, and is likely to create a stir among dealers in coin, stock and other speculative matters.

☞ Accounts from Chicago state that there is great mortality among the rebel prisoners brought to that place from the Southwest. Ninety-three died within the past week. They were in a wretched condition when they arrived, nearly one thousand being under the surgeon's care. The diseases are those induced by want and exposure in the rebel camps, being principally typhoid fever, pneumonia, and other affections of the lungs and throat. All the surgeons, both Union and Rebel, have their hands full. The hospitals are all crowded, but the barracks are comfortable.

REBELLION RECORD, Part 27, published by G. P. Putnam, New York, has been received. The portraits of Com. Charles S. Boggs, who was recently in this city to assume command of the Sacramento, and of Gen. Lewis Wallace, are finely engraved. Its Editor, Mr. Frank Moore, has been authorized to prepare for the Library of Congress a collection of documents on the rebellion from its commencement. We know no man who could better perform the work.

☞ Ex Marshal Kane of Baltimore was again arrested on Monday, on the charge of getting up a company of men armed with revolvers to oppose the authorities of the United States. After an investigation he was released with the understanding that he shall report to the military provost-marshal whenever required to do so.

☞ The Gloucester Telegraph says the fishermen at Rockport have done a good business this winter. The report is the same from Swampscott. The Newburyport Herald says the fishermen there never found fish more scarce, and have done poorly.—At the price of fish thirty years ago they would not be worth going after.

☞ The statement that the rebel General Forrest is dead is incorrect. He was wounded at Parker's Cross Roads, and compelled to turn over the command to a subordinate officer.

☞ The message of the Governor of New Brunswick to the Legislature states that the river and coast fisheries are threatened at no distant day with extinction.

☞ The destruction of the Jacob Bell caused an advance of about 5 cents a pound in the tea market at New York.

THE BROOKLYN BURGLAR.—Since the arrest of Robert T. Grant, alias Gordon, the notorious burglar who committed so many daring burglaries in Brooklyn, large numbers of persons have visited the jail out of curiosity to see him. On Monday, Michael Franklin, a Federal soldier, orderly in the Confederate service at New Orleans, visited the jail and identified Grant as a notorious burglar, who had created the utmost excitement in that city some two years ago. He was known there by the name of Chas. Gordon, alias Robertson, and for some time moved in the best society, frequenting the race courses, operas and theatres. During this time the authorities of the city were sadly puzzled over a series of the most daring burglaries, the victims being in all cases of the wealthy classes, and moreover, the burglar seemed to have a perfect knowledge of the places in which the jewelry and diamonds were kept in every house he visited. About the month of March, 1861, a private watchman surprised a burglar in the act of carrying off a quantity of costly laces, worth about $15,000, from the store of a Mrs. Turner, on Canal street near Charles street. On firing at him the burglar dropped his plunder and fled, but the next morning he was traced, by the marks of blood on the pavement, to the rooms occupied by Gordon at No. 19 Carondelet street, the headquarters of the cotton brokers, where Gordon was found suffering from a bullet wound in the neck. In his room was found about $18,000 worth of diamonds and jewelry, the greater part of which was identified. The authorities fearing that he was about to die, sent him to the hospital for treatment. In a short time he escaped from there, but a reward of five hundred dollars being offered for him, he was arrested about three days afterwards, and was tried and sentenced to six years' imprisonment in the parish prison, by Judge McCullens. When New Orleans was attacked by Gen. Butler, the prisoners were all let loose by the rebel authorities, and Gordon, in the guise of a Union refugee, made his way to the North.

REBEL ATROCITIES.—Gen. Dodge, at Corinth, Miss., has forwarded to the Headquarters of the Army a statement of some of the base outrages on Union men in Alabama, committed by the rebels. He gives only what he knows to be true, but these instances are sufficient to render the authors of the atrocities detested and abhorred wherever justice and mercy are reverenced.—He states that Abe Canadi and Mr. Mitchell were hung two weeks ago for being Union men. They lived in the Hachlebon settlement, Marion Co., Ala. Mr. Hallwork and his daughter of the same county were both shot for the same cause. The latter was instantly killed; the former is still alive, but will probably die. Peter Lewis and three of his neighbors were hunted down by 100 bloodhounds and captured. The houses of Messrs. Palmer, Welsby, Williams and the Wightmans, and of some 30 others were burned over their heads. The women and children were turned out of doors, and the community was notified that if they allowed them to go into other houses or fed or harbored them in any manner they would be served the same. Mr. Peterson, living at the head of Bull Mountains, was shot. Gen. Dodge is now feeding some hundreds of these families, who, with their women and children, some grey haired men, and even cripples on crutches, were driven out and found their way to his camp through the woods and byways, without food or shelter. All this was done for the simple reason that they were Union men, or that they had brothers or relations in our army. And he has been informed by them that there are still hundreds of loyal men and women in the woods of Alabama waiting for an opportunity to escape.

☞ Gov. Sprague of Rhode Island, on Wednesday took his seat in the United States Senate, vacating the gubernatorial chair. Lieut. Governor Arnold had before vacated his place for a seat in the Senate, so that the executive duties of that State now devolve on Hon. William C. Cozzens, President of the State Senate. It has been reported that Gov Sprague prefers to be the chief of Rhode Island to a member of Senate, and if so, having had the honor of the election and actually of the seat, he may again be a candidate for Governor in April. If not, it will be in his power to decide who shall be his successor. Gov. Sprague is an active, determined man, a true patriot, and has vast wealth. He has gone up rapidly to be Governor, a General in the army, and a Senator. Few men at his age can show such a record.

☞ A distinguished English statesman says in a recent private letter that the reaction in favor of the cause of the Union is so strong in Great Britain that no Cabinet could live an hour which should take steps toward the recognition of the Southern Confederacy.

☞ A Halifax dispatch says: The Vanderbilt was at St. Thomas on the 20th ult., to leave next day on a cruise. The officers of the Florida say they passed the night in company with the Vanderbilt lately.

NOTES OF FORMER DAYS.

Collected and Collated — By UNCLE TOBY.

Revolutionary Letters—New Hampshire in 1776—Pierce Long.—It is a remarkable fact that this eminent actor in our revolutionary struggle is not named in Adams' Annals. Pierce Long was an energetic man, a successful merchant, and an ardent patriot.

The Historical Magazine, in a late number, gives copies of several letters written by prominent men, to Josiah Bartlett of New Hampshire, a member of the Revolutionary Congress; among them is the following from Pierce Long of Portsmouth:—

PORTSMOUTH, July 2d, 1776.

Dear Sir,—I Received your very agreeable favour of the 17th ult. Am Truely sorry to be obliged to join you in Sentiment Respecting the officering our Troops, &c., especially those in Canada. At the same time, am Constrained to say the same Complaint is prevalent at this Metropolis. The unheard of attempts of the Commander of our forces here to Guide our General Court, are not to be parallelled, and the effect they have had supasses History. I'll endeavor to give you a sketch of our proceedings. Soon after we Received the permission from Congress to Raise a Battalion for our protection, we voted to nominate Theophilus Dame, Esq. Coll., David Gilman, Esq. Lt. Coll., and James Hackett, Esq., Major, which gave dissatisfaction to Coll. Gilman and the Troops now here only, (as every one else were exceedingly pleased.) Upon which Petitions were thrown into Court in abundance, one after another from that quarter, which had the desired effect—for the appointment was reconsidered. And before we could proceed any further on that business, the order from you was Received to raise a Battalion for Canada, which we Emmediately went into, and as an Encouragement Voted a Bounty of 20 dollars per man and two months advance wages to each officer, and proceeded to the appointment of the different Commanders, the first of which is Confered on Coll. Wyman, the 2d. Coll. Senter, the 3d. on Major Peabody, who I wish may do honour to themselves and the Colony. I must at the same time (tho' disagreeable) advise you the men are hard to come at, and Returns are dayly making of the Ill success of the Captains in Raising them. I come by the desire of the Court now here, Encouraging those to List who are in the Colony service, though but few Incline, having Engaged at this time 80 only. If no better prospect of succeeding than now appears, I believe the Assembly will order them Draulted. You are not unacquainted with the Scarcity of men in this Colony, about half our number being in the Service already. To Return to Coll. Gilman, (who I believe could do best at Home.) He still thinks he is Entitled to the Command of the forces to be stationed here, and believes he has a sufficiency of friends to get him nominated, and were I not Convinced it would give a General uneasiness to this Town, I should cheerfully acquiesce in the appointment.

I hope the Behaviour of the British Pirates to the French, Dutch, and Spaniards, will beat up a Bust between them Powers. If so, I am convinced it will be an essential service to us. I am much obliged to you for the News paper you Inclosed, and in Return, please to accept of our Last. I wish it contained the disappointment of our Enemies in Every of their attempts.

The Powder we lent the Continental army while before Boston, we are not able to get Back again, though we are much in want of that article, Especially as we now begin to think our frontier settlements are much Exposed. Some of our Court are gone home, who live that way, upon the Intelligence received that our Army are Retreating out of Canada. I, for my part, am not convinced of the Truth of the Report, nor shall be, till it comes better authenticated than it now is, as this we have got is by Deserters only.

The Revered Mr. J. Murry of Booth Bay is now here, who begs leave to present his most Respectful Complements to you, and prays your Interest in Congress for their Extending the Post to County of Lincoln as per their Petition, in doing of which I should esteem a Peticular favour. We have just heard of the Vilanous Designs of our Enemies, in attempting to destroy out Magazine at New York. With the Council of War, it appears to me, that the perpetrators of so Hellish a plan ought Emmediately to Receive their just Demerits. We have a Report from Mistick that a design was formed of destroying that likewise, but were happily discovered (tho' not taken) before their views were put into Execution. It has put us on our guard. The Watch is doubled that keeps our Magazine. I am afraid my Lengthey Letter will tire you. Major Philbrook informed me on Saturday last, your family and friends were all well. I am with Real Esteem, Dear Sir,

Your most humble Servant,

PIERCE LONG.

P. S. My Motive for the Post Riding so far East, is because I am Certain they must be as anxious for news from their friends, as other people. And I am convinced of that People's Sincerity and Heartiness and our Glorious Struggles.

P. LONG.

New York Money Market, Thursday, March, 5.—Gold is quoted at 155 since the Second Board. The excitement on the Gold question exceeds anything known.—The quotation has not been stationary ten minutes together to-day. The public are sellers in small amounts at whatever rate they can get from the brokers.

[Gold, or specie, has sometimes been considered as the standard measure of value. But that standard not only fluctuates, from day to day, but jumps up and down 15 per cent. in one day, and remains unsettled, at sunset. Eggs, or coal, or corn, or labor, or all together, are as good a standard as any. Our Portsmouth currency, small and great, is good, because it will buy a dinner, or a bushel of corn, or a barrel of apples, or a paper.] D. T.

NEW HAMPSHIRE ITEMS.

—— A member of the 2d Regiment, a private, stated at the Manchester reception, that he first enlisted without informing his friends. When he told his mother, who is sixty years old, she said—"I was thinking myself, if I was a man and wasn't quite so old, I would enlist myself."

—— The Manchester American states that an overseer in Nashua has recently been detected in taking large quantities of cloth from the mill.

—— Laconia has four hosiery mills, making 600 dozen pair of hose daily, besides a large quantity of ladies' sontags, hoods, etc., and some very fine cassimeres.

—— Senator Hale resumed his seat in Congress on Thursday, looking still somewhat enfeebled from the effects of his late illness.

☞ An exchange says: "The penalty in Philadelphia for selling poor butter is confiscation—half to go to the clerk the other half to the poor. The clerk acting under the supposition that his wife is poor, gives the latter half to her." Are we to infer from this that the clerk's unfortunate wife is supplied with such butter only as is too "poor" to be sold?

☞ Capt. Charleton Morgan, a brother of the notorious guerrilla Morgan, was recently captured near Lexington, Ky. He earnestly prayed for an exchange, but was reminded of Jeff. Davis' retaliatory order, and informed that he must go to Camp Chase. This affected the weak-minded fellow so that he wept like a child.

☞ A Fortress Monroe dispatch states that on Monday morning last, at an early hour, the Provost Guard captured about $6500 worth of contraband goods at Lombart's Point, on the Elizabeth River. Four of the smugglers were arrested.

☞ 4000 lbs. choice Ohio Picklock Wool sold in New York on Thursday at $1.05; the highest price ever known.

☞ The average monthly receipts of the places of amusement in Paris are $348,000.

☞ Linen manufacturing companies are forming in Pennsylvania.

THE NEW TESTAMENT.—The New Testament is the most incendiary document in the world. I wonder it has not been suppressed by some people. It is all full of fire, capable of exploding every magazine of sophistry, and breaking down every rotten iniquity. Every sentence of it is an instrument. The Declaration of Independence—some people think that John Hancock, and Thomas Jefferson, and Charles Carroll made rather a mistake when they wrote it. God almighty and Paul made no mistake when they said, "Honor all men." There is the Declaration of Independence; "honor all men," degrade, desecrate none. Every divine institution stands there in a single text: "Love thy neighbor as thy self." There spring up all your reform schools, all your hospitals, all your asylums for the poor and afflicted; bleat with that single sentence. Everything that has served heroism is there; the key note of the Pilgrim's trumpet song of the December sea; the force of Luther's warning voice that rocked the church; the inspiration that kindled in the heart of Howard at the side of the prisoner; the whisper of Florence Nightingale as she walked through the wards at Scutari,—everything is contained in that single sentence. And a thousand years, perhaps ten thousand, will not serve to develop the life of the seed corn of God's word and Christ's truth.—*E. H. Chapin.*

Notice to Housekeepers, Rubber Band Carpet Sweeper.

TRY IT! TRY IT!!

It saves Money; it saves Carpets; it saves Furniture; it saves Labor; it is cheaper than Brooms at five cents apiece.

It gathers up all dust, dirt, and loose lint on the carpets, and raises no dust to settle on the furniture, drapery, or ornaments, or to smother, nidle and irritate the lungs.

It does not wear the carpets half so much as brooms or any other sweeper.

It is the only practicable sweeper made, and the only article fit to sweep a carpet.

With our late improvements it gives universal satisfaction to all who use it according to directions. For sale at No. 19 Market Street by

The Bells of the City will be rung one hour, commencing on the arrival of the train, and a salute of fifty guns will be fired. Two of the Bells will ring for ten minutes during the forenoon, when a telegram is received announcing the departure of the train from Concord, soon after which the different bodies who are to take part in the procession are requested to assemble at their respective Halls, when Marshals will be sent to conduct them to their places in the procession.

The storekeepers are requested to suspend business after the signal announcing the departure of the troops from Concord is given, to enable themselves and employees to take part in the celebration.

No carriages will be allowed in the streets where the procession will form, or in the streets near the depot, on the arrival of the train.

Passes within the lines at the depot will be granted to relatives of the soldiers on application to the City Clerk.

The Procession will form on Market Square at the ringing of the bells, right resting on Congress street, and will march to the Concord depot, where the Volunteers will be received. After the reception the Procession will move over the following

☞ At the Republican caucuses on Friday evening, the following gentlemen were nominated for Representatives to General Court:—

Ward 1—Messrs. John H. Bailey, Horton D. Walker, William C. Hatch.

Ward 2—Messrs. Albert L. Jones, Aaron H. Hill, William O. Sides.

Ward 3—Messrs. Ezra A. Stevens, John E. Ham.

☞ John Sise, Esq., Agent of the Hartford Fire Insurance Co., last week paid the amount insured by that company on the dwelling house of Geo. W. Jenness, on Hanover street, recently damaged by fire. It is stated that this company has three times paid for losses on this building. The Ballot speaks in high terms of the prompt manner in which this company pay losses, even before the time of payment becomes due.

☞ The social levee and exhibition at Greenland was a decided success. The declamations, dialogues, and tableaux were of a very high order, and were produced in a very effective manner. We should be pleased to see the same programme carried out in Portsmouth, and we have no doubt that the company would meet with sufficient encouragement to enable them to pay the extra expenses, and realize a handsome surplus. Will not the ladies of Greenland move in this matter? H.

☞ A San Francisco dispatch says the first gunpowder mill erected on the Western coast is nearly ready to commence operations in Santa Cruz county.

☞ Gen. Wool telegraphed from Portland to Mayor Boardman of Newburyport, to meet him in this city, to consult upon needed defences for the mouth of the Merrimac. The Mayor, unable to go, deputized two Aldermen, who met him here on Tuesday. Gen. Wool examined a chart of the coast and the Merrimac, and expressed the opinion that a fortification should be built without delay. He will return to visit Plum Island and examine further into the matter in May.

☞ Mr. Samuel Krause, eldest son of Mr. John J. Krause, sr., of Allentown, Ms., returned home unexpectedly last week from Lima, Peru, in South America, after an absence of twenty-seven years. For the last seventeen years no intelligence whatever had been received from him, and his parents and friends settled down into the belief that he was dead. He returned to this country as Secretary of Legation from the Peruvian Government, and on Saturday left Allentown for Washington.

ANOTHER NEW STOVE!

THE MODEL COOK

FOR WOOD OR COAL.

The *novel*—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the larger oven, for baking; giving an oven nearly 3 feet long! or large enough to take six large plates on the bottom, every article of which will bake evenly at the same time! A check draft is applied to this stove by means of which the consumption of fuel is greatly lessened, and a steady fire can be kept day and night if desired.

THE MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be THE STOVE for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is needed.

We believe the MODEL COOK to be the very best Stove in the Market, and invite every one to examine it whether they wish to purchase or not. It has had a very extensive sale since its introduction. References might be made to more than a hundred families in this city or vicinity who are using the Stove, and give it the highest commendation.

We refer to the following individuals who have purchased the Model Cook:—

David Kimball, Thos. F. Burt, John T. French, Rev. Mr. Davies, Wm. Pettigrew, Capt. John Davis, Jeremiah Haitt, Mrs. Ann T. Perkins, James W. Jarvis, Francis C. Jarvis, Thos. L. VICTOR COAL STOVE.

We offer this beautiful coal burner to the public, with full confidence in its merits.

It was brought into market two years since, and has come rapidly into use.

The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation. The arrangement for dumping the ashes is very fine—no dust need escape into the room—a continuous fire may be kept throughout the winter—the coal all burned, and no clinkers made.

The quantity of fuel used is very small indeed. There is in this stove an economy arrangement for ventilating the room in which it is placed; a feature not possessed by any other parlor stove.

Some of the sizes are provided with an oven and boiling place, making them very desirable for a dining room.

We sold a large number of Victor Stoves in our city last season, and they receive the highest commendation from those who are using them.

BUY CALIFORNIA WINES

They are the Purest!
The Best!
The Cheapest!

The "sunny slopes" of "Los Angelos" have announced to the world that America is a wine-growing country, and as the discovery of gold sent a thrill through the old world, so will the discovery of these Wines startle them again, as it says, "one more link broken which has bound us to Europe," "one more step to independence." Let every man, woman and child who sees Wine, see to it that they buy none other than these.

"The Hock" is a most delicious Wine, and rivals in delicacy its German predecessor.

The "Angelica" and "Muscatel" are melting, luscious and rich, and will take the place of Malaga, Tokay, or other rich Wine.

The Port has a fine flavor and body; and the Port is excellent because it is pure.

Pin Worm Syrup.

Just received Dr. Gould's PIN WORM SYRUP—the only safe, sure and effectual remedy ever offered to the public for the removal of Pin Worms. The above valuable medicine for sale at the Medicine Store of B. HTUCHINGS.

Ayer's SARSAPARILLA,

THE WORLD'S GREAT REMEDY FOR
Scrofula and Scrofulous Diseases.

From Emery Estes, a well-known merchant of Oxford, Maine.

"I have sold large quantities of your SARSAPARILLA, but never yet a bottle which failed of the desired effect and full satisfaction to those who took it. As fast as our people try it, they agree there has been no medicine like it before in our community."

Eruptions, Pimples, Blotches, Pustules, Ulcers, Scores, and all Diseases of the Skin.

From Rev. Robt. Stratton, Bristol, England.

"I only do my duty to you and the public, when I add my testimony to the public publish of the medical virtues of your SARSAPARILLA. My daughter, aged ten, had an afflicting humor in her ears, eyes, and hair for years, which we were unable to cure until we tried your SARSAPARILLA. She has been well for some months."

From Mrs. Jane R. Rice, a well-known and much-esteemed lady of Tamworth, Cape May Co., N. J.

"My daughter has suffered for a year past with a scrofulous eruption, which was very troublesome. Nothing afforded any relief until we tried your SARSAPARILLA, which soon completely cured her."

From Charles P. Gage, Esq., of the widely known Gage, Murray & Co., manufacturers of enamelled papers in Nashua, N. H.

"I had for several years a very troublesome humor in my face, which grew constantly worse until it disfigured my features and became an intolerable affliction. I tried almost every thing a man could of both advice and medicine, but without any relief whatever, until I took your SARSAPARILLA. It immediately made my face worse, as you told me it might for a time; but in a few weeks the new skin began to form under the blotches, and continued until my face was smooth as my body's, and I am without any symptoms of the disease that I once had. I enjoy perfect health, and without a doubt owe it to your SARSAPARILLA."

Erysipelas—General Debility—Purify the Blood.

From Dr. Robt. Souris, Houston St., New York.

"DR. AYER. I seldom fail to remove *Erysipelas* and *Scrofulous Sores* by the persevering use of your SARSAPARILLA, and I have just now cured an attack of *Malignant Erysipelas* with it. No alterative we possess equals the SARSAPARILLA, and I feel justified in "the profession as well as to the people."

From J. E. Johnston, Esq., Wakeman, Ohio.

"For twelve years, I had the yellow Erysipelas on my right arm almost constantly. I tried all the celebrated physicians I could reach, and took hundreds of dollars worth of medicines. The ulcers were so bad that the cords became visible, and the doctors decided that my arm must be amputated. I began taking your SARSAPARILLA. Took two bottles, and some of your PILLS. Together they have cured me. I am now as well and sound as any body. Being in a public place, my case is known to every body in this community, and excites the wonder of all."

From Hon. Henry Monro, M. P. P., of Newcastle, C. W., a leading member of the Canadian Parliament.

"I have used your SARSAPARILLA in my family, for general debility, and in cases of scrofula, with very beneficial results, and feel confidence in commending it to the afflicted."

St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes.

From Harvey Sickler, Esq., the able editor of the Democratic Sentinel, Mount Pleasant, Iowa.

"Our only child, about three years of age, was attacked by pimples on his forehead. They rapidly spread until they formed a leathery scab, which burned, which covered his face, and actually blinded his eyes for some days. A skilful physician applied nitrate of silver, which removed the scab, without any apparent effect. For fifteen days we guarded his hands, lest with them he should tear open the festering and corrupt mass which covered his whole face. Having tried every thing else we had any hope from, we began giving your SARSAPARILLA, and applying the iodide of potassium, as you direct. The sore began to heal when we had given the first bottle, and was well when we had finished the second. The child's eyelashes, which had come out, grew again, and he is now as healthy and fair as any other. The whole neighborhood predicted that the child must die."

Syphilis and Mercurial Disease

From Dr. Hiram Stout, of St. Louis, Missouri.

"I find your SARSAPARILLA a more effectual remedy for the secondary symptoms of *Syphilis* and for syphilitic disease than any other we possess. The profession will be indebted to you for some of the best medicines we have."

From A. J. French, M. D., an eminent physician of Lancaster, Ohio, and a prominent member of the Legislature of Massachusetts.

"DR. AYER. My dear Sir: I have found your SARSAPARILLA an excellent remedy for *Syphilis*, both of the primary and secondary type, and effectual in some cases that were too obstinate to yield to other remedies. I do not know when we can employ with more certainty of success, where a powerful alterative is required."

Mr. Chas. S. Van Liew, of New Brunswick, N. J., had dreadful sores on his legs, caused by the use of mercury, or mercurial disease, which grew worse and more aggravated for years, in spite of every remedy or treatment that could be applied, until he commencing using AYER'S SARSAPARILLA relieved him. Few cases can be found more inveterate and distressing than this, and it took several dozen bottles to cure him.

Leucorrhœa, Whites, Female Weakness,

are generally produced by internal *Scrofulous Corruption*, and are very often cured by the alterative effect of this medicine. In these cases recently, however, in aid of the SARSAPARILLA, the skilful application of local remedies.

From the well-known and widely-celebrated Dr. Jacob Morrill, of Charlestown, Mass.

"I have found your SARSAPARILLA an excellent alterative in diseases of females. Many cases of irregularities, or more properly speaking, female debility, arising from the scrofulous diathesis, have yielded to it, and there are few that do not, when its effect is properly aided by local treatment. *A large sensibility to alum the publication of her name, writes:*

"My daughter and myself have been cured of a very distressing complaint of long standing, by two bottles of your SARSAPARILLA."

Rheumatism, Gout, Liver Complaint, Dyspepsia, Heart Disease, Neuralgia,

when caused by *Scrofula* in the system, are rapidly cured by the EXT. SARSAPARILLA.

AYER'S
CATHARTIC PILLS

possess so many advantages over the other purgatives in the market, and their superior virtues are so universally known, that we need not do more than to assure the public their quality is maintained equal to the best it ever has been, and that they may be depended on to do all that they have ever done.

Prepared by J. C. AYER, M. D., & Co., Lowell, Mass., and sold by

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Strictures, Pains and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Ulcerations, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret or solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy results produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Disarrangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Medicines also for sale the French Capotins, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

April 7—1y 13aw.

CAUTION

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 Endicott St., Boston, continues to be consulted for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppressions, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the care of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. at his office, upon all difficult and complicated diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would ask those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and steam boiler constructed, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air wasted passes through the fire-pot it is used for respiration, the tendency to produce headache so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This difficulty, so common in other furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass down from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the dome can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace can be used with the ordinary number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and they can be kept the entire season without once going out.

They give entire satisfaction wherever used.

We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of suction of the plate can be obtained by it.

3d. When the arch is irregular we can by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the material is non-poisonous to the stomach and would do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easily as a saucer, as when finished the work presents one whole piece.

6th. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*
No. 5 Daniel St., Portsmouth,

Has had four years of practical experience in the use of this material, and will guarantee satisfaction in all cases entrusted to his care.

Portsmouth, Jan. 1, 1863.

DENTISTRY.

No. 60 CONGRESS STREET,
Portsmouth, Jan. 1st, 1863.

DR. GOODALL

Would respectfully inform his patrons and the public, that he has had of late many calls to insert teeth upon VULCANIZED RUBBER, and that he has purchased the best VULCANIZER in the market, and is now prepared to do all work upon RUBBER, on the other hand, as well as GOLD and SILVER as formerly, if preferred.

The Rubber has several important advantages, viz.: It is very light and elastic, and consequently is perfectly easy to the wearer, as also the mouth and cheeks. There are no interstices or open joints to collect food, &c.; consequently they can be worn night and day, and are very easily kept neat and clean.

Beside all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.

Any one who is waiting for their permanent teeth upon METAL BASES, I would be satisfied with the Rubber, as a base. The expense is but a little more than for Silver, and you get the same teeth in blocks that you would pay $60.00 for an upper or lower set on Gold.

In New York and Boston, and throughout the West, Vulcanized Rubber is now almost to the exclusion of the other bases, and by the best Dentists too. I will warrant a perfect fit and teeth from the best manufacturer in the country, S. S. White.

ALL OTHER OPERATIONS IN DENTISTRY I will do at the usual rates. I will here mention that my price for EXTRACTING is 25 cents.

I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr OLIVER and Dr. Insworth, for particulars concerning Vulcanizing Teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with Neatness and Dispatch. Also all other operations in Dentistry, I will do at the usual rates.

☞ Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

☞ ATTENTION, THE WHOLE! ☜
RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.
PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with distress, at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.
From ELDER I. CHESLEY, *Lee, May* 31, 1861.
DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1849, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY
☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26o

MONDAY, MARCH 9, 1863.

THE REBELLION.

Our troops suffered a defeat at Spring Hill, 13 miles south of Franklin, Tenn., on Thursday. On the 4th, five regiments of infantry, one battery, and a cavalry force, under Col. Coburn of the 33d Indiana, advanced to that place; on the 5th they were attacked by greatly superior numbers, and after a desperate contest, with heavy loss on both sides, our troops, their ammunition being exhausted, were defeated, a large part of three regiments being captured.—Our artillery and cavalry were withdrawn. The rebels then withdrew. Gen. Gilbert, who was at Franklin with seven regiments, failed to send reinforcements.

UTAH.—A telegram received at Washington from Brigham Young, says—A meeting was held in the Tabernacle to petition the President to remove Gov. Harding and Judges Waite and Drake, and appoint good men in their places. He adds, "The majority of the Federal officers and gentlemen are acting honorably." From this it appears that the Chief Justice, Kenny, Secretary of State Fuller, and Superintendent of Indian Affairs Dorty, are included in the compliment. Congress has altogether failed to promote by legislation any measure for quieting the disaffection in that territory, leaving the duty to the Executive department.

☞ At the recent great tour days fair in Dowell, Mass., the ladies proposed to furnish refreshments to order, and some old fashioned orders they had, but they promptly supplied them. An ex-lieutenant, however, thought to "break the bank" by calling for bean porridge in a pewter dish, but it was speedily set before him. Then he wanted pumkin pie on a trencher, and the wooden plate with its golden bunlen was at hand. These prompt responses to his wishes led him to believe that it would be unsafe to inquire for second hand pulpits, and he didn't.

A CASE IN POINT.—A great deal is said about the extravagance of the War Department. The Nashville Union, in criticising this fault-finding spirit, calls attention to the fact that the Utah expedition, which consisted of 10,000 men, and lasted only a few months, cost six millions of dollars. At the same rate, the cost of the present war, with nearly a million of men, would up to this time have been *seven billions of dollars.*

☞ A newspaper published at Port Royal, charges two dollars a line for each insertion of an advertisement. The Government Tax Commissioners advertised their Tax sales in it five days, and they charged the government six thousand five hundred dollars. That is an indirect way of making the general government pay for a newspaper in South Carolina.

☞ A St. Louis letter (2d) says a discovery has been made that certain men have been hiring contrabands to take into the interior, ostensibly as laborers, but in reality for the purpose of selling them into bondage. Several arrests have been ordered.

☞ For ten years past the annual return to the Legislature of the Boston, Barre and Gardner Railroad Corporation has been comprised in these words: "The company respectfully represent that they have made no progress toward the construction of said road since their last report."

☞ The Crisis editorial office at Columbus, Ohio, was mobbed on Thursday night by 150 soldiers. The composing rooms, in another building, were undisturbed. Gen. Cooper called out the militia to restore order.

A San Francisco dispatch states that the Equal Rights Expositor, of Tulare county, Cal., long noted for its brazen effrontery in advocating secessionism, and for which it was excluded from the mails, was destroyed by a mob on Thursday.

☞ Commander Sarbori has been ordered to the steam-sloop of war Portsmouth, Lieut. Seldon to the command of the store-ship Falmouth, Paymaster Thornton to the frigate Sabine, Paymaster Dennison to the steam sloop Ticonderoga, and Acting Asst. Surgeons Gifford and Osgood to the Mississippi squadron.

☞ In Nashville, Tenn., a man named Cockrill, owning half a million dollars worth of property, having refused to pay an assessment levied on the disloyal, of one thousand dollars, has been arrested and confined in the penitentiary, where he now crows very small.

☞ Considerable flax will be raised in the counties of California this year, experiments having proved it to be more profitable than raising wheat.

☞ A ball took place recently in Vienna, the proceeds of which are to serve as a fund to buy flowers every year to decorate Beethoven's grave.

NEW HAMPSHIRE ITEMS.

—— On Monday, the 2d inst., the house and barn on the Kelley estate, in the southern part of Derry, were consumed by fire, and 20 tons of hay.

—— The old "Silk Factory" in Newport has recently been purchased by parties who propose to fill it with machinery for the manufacture of flannels.

—— There are about two thousand school districts in this State.

—— The Manchester American says that there have been democratic members of the Amoskeag Veterans, but, taking offence, for one cause or another, they have been stepping out, until a few only of the party remain.

—— Wm. Ladd, a native of Concord, and a prominent merchant of Honolulu, Sandwich Islands, died at the latter place on the 8th ult.

—— At the reception of the Second in Manchester, a horse became frightened, and, clearing himself from the sleigh, excepting the shafts which were flying in the air, he dashed among the people who were assembled there in large numbers. He overturned a sleigh in his course, throwing the occupants out, and after running thro' the regiment, took to the sidewalk,—the women and children fleeing for their lives. He was finally caught and his dangerous course ended. A little girl was somewhat bruised, a woman was knocked down, and several persons were slightly injured by the flying shafts, but none dangerously hurt.

—— Two rabbit hunting parties from Manchester, on Monday, got twenty-seven rabbits in Bedford, within a circle of a mile in diameter.

—— Martin S. Johnson, a native of Charlestown, 16 years of age, employed as a porter in a store in Boston, on Thursday afternoon fell through the scuttles of three stories, and died in about fifteen minutes.

—— The shoe shop of Moses B. Stevens, in Plaistow, was entered on Saturday night last, by a thief who had stolen a horse and sleigh left in a street at Haverhill, Mass., and driven to that town. 21 pairs of partly-made shoes were taken, and about 40 pairs left in the same box. The thief entered the store by one of the windows, the bottom half of which was entirely broken out. A few hours later the horse, wagon, and 19 pairs of the shoes were found in Plaistow, about five miles from the place whence the horse was first taken. The reins were carefully secured, and the enterprise apparently abandoned.

—— A fire at New Hampton on Monday night last destroyed a store owned by R. G. Lewis and occupied by J. R. Pike. Loss $1200; insured for $800. Goods valued at $6500; insured for $4000. Also a shoe shop occupied by J. Hanaford, valued at $200; no insurance. The cause of the fire is unknown.

—— The southern portion of Rockingham county is at present infested by a set of graduates of the State Prison, or by those who ought to be there. Several robberies have recently been committed.

☞ A dispatch from Detroit, Mich., Friday, states that there was a serious riot in that city. A negro who had committed an outrage upon a young white girl was being taken from the Court Room to the Jail under escort of the military, when an attempt to take the negro from the hands of the officers was made by a gang of rowdies.—The crowd was fired upon and one man killed and several wounded. Being foiled in their attempt to get possession of the negro, the mob perpetrated the most horrible outrages upon the colored people residing in the vicinity of the jail. Houses were gutted and burned, and the inmates maltreated; and, in many instances, killed.—All the available military at Detroit were called out, and a regiment in the interior of the State sent for.

☞ The Mass Meeting, on Friday evening, in New York City, of loyal people irrespective of party, was attended by 8000 or 10,000 persons. Mayor Opdyke presided, Gen. Scott being too sick to be present, and speeches were made by James T. Brady, John Van Buren, Dr. Hitchcock, Judge Daly, D. D. Field, Hon. Charles Gould, and others. Expressions of unswerving loyalty were enunciated by the speakers and most vociferously endorsed by the multitude.

☞ The sum of 550,000 francs has been subscribed for the monument to Count Cavour, to be erected in the Piazza San Carlino at Turin.

An idle man thinks he has the right to be affronted if a busy man does not devote to him just as much of his time as he himself has leisure to waste.

☞ 1st Lt. Enoch W. Goss, of this city, has been promoted to Captain of Co. I, 13th regiment. He has been attached to Company K.

☞ They say Gen. Grant means to organize two or three regiments from the colored material about his camp.

☞ Eight hundred and forty-three bales of cotton reached Cincinnati on Monday from Memphis.

[Communication.]

RETROSPECT OF TEN YEARS.—It is suggested that the publication of all of the cabinet officers and some others, in the administrations of Presidents Pierce and Buchanan, may have some interest at the present time to men of all parties, especially as we consider the positions now occupied by many of the men.

In 1857, Franklin Pierce of N. H. was President, David R. Morrison, of Missouri, President Senate; Linn Boyd, Ky., Speaker House; Wm. L. Marcy, N. Y., Sec'y Treasury; James Guthrie, Ky., Sec. Treasury; Robt. M. McClelland, Md., Sec. Interior; James Dobbin, N. C., Sec. Navy; Jefferson Davis, Miss., Sec. War; James Campbell, Penn., P. M. Gen.; Caleb Cushing, Mass., Att'y Gen.

In 1859, James Buchanan, of Penn., was President; John C. Breckinridge, Ky., Vice President; James L. Orr, S. C., Speaker House; Lewis Cass, Mich., Sec'y State; Howell Cobb, Ga., Sec. Treasury; Jacob Thompson, Miss., Sec. Interior; John B. Floyd, Va., Sec. Treasury; Isaac Toucey, Conn., Sec. Navy; Aaron V. Brown, Tenn., P. M. General.

Most of the above named gentlemen are now living; only a very few having deceased.

Gen. Cass, now far advanced in years, evinced his loyalty by resigning his place when the rebellion broke out in the Cabinet, and when President B. fancied he had no right to *coerce* rebels.

Not another one of them has gone so far against the rebels as Gen. C., and most of them have *said nothing* against them. But on the other hand, half a dozen of them are the very foremost leaders of the rebels. Such facts need no comment. U. T.

☞ One of the characteristics of the soirees at the Tuileries is the injunction laid upon all men by the Empress to dance the *cotillon*. Neither age nor profession are exempt. The Emperor laughs heartily at his own and others' awkwardness, but accepts the obligation with good humor.—The new figure—introduced last time only—was called "The Mule of Arragon," and consists in the endeavor to hook the little bell with which each dancer is armed to the dress of the leader: the effect of the jingling and the excitement of the pursuit make this one of the prettiest figures yet invented.

The French Lord Ogleby, in a farce, giving his tailor an order for pantaloons to fit closer than his skin, ends with this warning, "Mind that if I can get them on, I shall not take them." Towards the end of the last century the French Revolution shook, with all other things, the empire of dress. It gave liberty to the limbs of men. It emancipated them from tight clothing, hair powders and pigtails. It banished breeches and buckles, and introduced trousers. Pantaloons lingered for a time, but the steady tendency of the age was as much to looser clothing as to more liberal ideas. Indeed, the two went together, and the trouser was for some time adopted, or opposed and reprobated, as an outward and visible sign of political opinions.

AN INCIDENT IN THE CARS.—In a car on a railroad which runs into New York, a few mornings ago, a scene occurred which will not soon be forgotten by the witnesses of it. A person dressed as a gentleman, speaking to a friend across the car, said:—"Well, I hope the war may last six months longer. If it does I shall have made enough to retire from business. In the last six months I've made a hundred thousand dollars—six months more and I shall have enough."

A lady sat behind the speaker, and necessarily heard his remark; but when he was done she tapped him on the shoulder, and said to him: "Sir, I had two sons—one of them was killed at the battle of Fredericksburg; the other was killed at the battle of Murfreesboro."

She was silent a moment; and so were all around who heard her. Then, overcome by her indignation, she suddenly slapped the speculator, first on one cheek, then on the other, and before the fellow could say a word, the passengers sitting near, who had witnessed the whole affair, seized him, and pushed him hurriedly out of the car, as one not fit to ride with decent people.—*N. Y. Post.*

☞ The Captain of an English steamer arrived at Gibraltar writes as follows: "On the 8th of February I passed the 290 or Alabama—at any rate, a suspicious vessel very like her—steering South. On the 10th heard reports and saw flashes of guns, also the bursting of shells distant about five miles, evidently a contest between two ships. I saw the first flashes at 8 P. M. From 10 to 11.30 the fighting was heavy, and exchange of shots rapid. Could not see the vessels. I cannot give any further information."

☞ Joseph Brown, colored, died at Easton, Md., recently, aged about 110 years.

☞ 30 inches of snow fell at St. Albans, Vt., on the 2d and 3d inst.

☞ There are strong evidences of French sympathy with the Poles.

RECEPTION OF THE 2ND REG'T.

THEIR DEPARTURE.

On the 20th day of June, 1861, the 2nd N. H. Regiment broke up its camp in Portsmouth and started for the seat of war. It then numbered 1048, rank and file, commanded by Col. Gilman Marston. It has participated in fifteen battles, not to mention the skirmishes and reconnaissances in which it has taken a part. It was one of the four regiments of which Gen. Hooker's brigade was first composed, and its record has been one of the brightest and fairest in the Army in Virginia.

THEIR RETURN.

On Saturday last, March 7, 1863, three Companies, D, E and K, returned for a short respite, to our city. Not with full ranks as when twenty months ago they marched forth to do battle for the Union have they come back. Less in numbers they have returned. Many of the brave men who once stood shoulder to shoulder with them, now lie sleeping in soldiers' graves upon the bloody fields of Virginia. But some yet remain; and in patriotism, in devotion to truth and justice and liberty, they are stronger than ever.

Those who returned were received with the greatest enthusiasm by our citizens. At the depot, on the arrival of the train, the friends and relatives of the soldiers were collected in large numbers, and one of those scenes ensued which it is impossible for pen to describe and for hearts not to feel. The expected telegraphic despatch announcing the departure of the train from Concord not having been received, the soldiers rather took our city by surprise; and consequently, half an hour was lost in arranging and hastening forward the procession which was to escort them from the depot. This unavoidable delay was regretted by those having the direction of the arrangements; but it afforded them an opportunity to prove that a procession could be formed and set in motion in much less time than has heretofore been granted.

THE RECEPTION.

The procession consisted of Company C of the Governor's Horse Guards, mounted and in full uniform; the National Guard; several of the engine companies; Odd Fellows and Masons, City Government, members of other regiments, and perhaps other organizations. Music was furnished by the Portsmouth Cornet and a Brass Band. Having taken up the line of march, the veterans of the Second were escorted thro' the principal streets, while the bells rang a merry peal, and the guns thundered forth their welcome. All along the route flags and bunting were displayed; but the falling snow somewhat lessened the pleasures which the soldiers derived from their march.

THE HALL.

Having passed over the prescribed route, the members of the regiment, the officers of the city government and invited guests entered Jefferson Hall. Here the scene was one which must have been doubly pleasing to the way-worn soldiers. The Hall had been tastefully and beautifully trimmed with flags and streamers, under the direction of one whose experience and taste guaranteed a fit performance of the task. On the walls appeared here and there the names of some of the principal battles in which the regiment has participated—Williamsburg, Malvern Hill, and others. Three tables, stretched the entire length of the Hall, were bountifully spread with those things which are good for the eye to look upon, and pleasant to the taste to eat. While here, there and everywhere, were stationed young ladies, ready to respond to the slightest call for "help" from any soldier. For once the ladies were willing to admit that they were all waiting. At the head of the table sat his honor, Mayor Dearborn; on his right, Lieut. Col. Bailey, and on his left Judge Bufford. Capt. Gerrish, of the 1st N. H. Battery; Lieuts. Sides and Patch, of Co. K, Lieuts. Shute and Hayward, of Co. D, and Lieut. Vesper, of Co. E, of the 2d Regt., Capt. I. F. Jenness, of the 17th Regiment, were seated near him.

THE DINNER.

Mayor Dearborn presided. When all were comfortably seated, Judge Bufford welcomed the regiment to the city and to the table in a brief address, assuring them that although they may have seen elsewhere larger crowds, nowhere had they met warmer hearts, or a more sincere welcome than here, where they were known, and where their friends and relatives resided. Lt. Col. Bailey, in behalf of the regiment responded, and expressed the pleasure which it afforded him and the men under his command to return once more to those who were so kind to them when the regiment was being organized; the occasion reminded him more forcibly than ever of the many who had gone out with them, twenty months before, but did not return with them again. Those who did return were tried men and true. They had borne the stars and stripes together on many a field, and it had never been trailed in the dust.

Rev. Mr. Patterson, Chaplain of the day, then invoked the Divine blessing in a fervent and impressive prayer; after which Mr. Bufford, all unused, as he claimed, to give the word of command, (he certainly never gave a pleasanter one,) ordered the soldiers to fall to and spare not. With commendable zeal they complied,—in which prompt response they were emulated by the other gentlemen present. Then resounded all around the clatter of knives and forks, music to the hungry sweeter far than the most delicious strains. The ladies had spread the tables most bounteously, and arranged them most tastily: there was enough and to spare, and their alacrity in anticipating every wish of the soldiers testified that in woman's breast to-day still dwells a high appreciation of heroic endeavor and steadfast endurance in the country's cause. To the ladies of our city rightfully belongs no small share of the credit for the eminently satisfactory manner in which the entire reception was projected and carried through. They deserved and received the thanks of the gentlemen whom they assisted; they won the applause of those who enjoyed the results of their exertions.

Considerable time was consumed in satisfying the cravings of the appetite, and after a while many of the soldiers were allured from the hall by the promise that they should receive the proportion of Uncle Sam's "greenbacks" to which they were most justly entitled, the duties of the Paymaster rendering it necessary that he should attend to this previous to the departure of the train for Concord. The cloth was then, figuratively speaking, removed and the attention of the company was turned to the

THE SENTIMENTS AND THE SPEECHES.

But if the food for the body should have been spoken of so favorbly, in what terms shall we refer to the intellectual feast which followed? Vaguely and imperfectly, necessarily, as our columns are inexorable and though small cannot be vanquished. C. C. Whittemore, Esq., Toastmaster of the occasion, announced the first regular toast, as follows:—

The Second N. H. Regiment—First in the advance and last in the retreat, they have carried the flag of our Union nobly in the post of danger, and given our State a high position in the Nation and the World.

Most appropriately Ex-Gov. Goodwin was called upon to respond. The regiment was organized during his administration, and its brilliant career reflects honor upon him for his care and discrimination in selecting its officers. He referred in eloquent terms to the glorious record of its achievements and to the proud position which it has ever maintained in the Army of the Potomac. He spoke impressively of the duty of all in the North heartily and earnestly to support the Government in this its time of sorest need, and urged that there should be no half-way, soulless response to the calls she makes upon us. A pleasant allusion to the ladies and the strong attraction which the brass button is popularly believed ever to have in their eyes, was received with cheers.

Col. Gilman Marston—identified with the heroes of the Second N. H. Regiment.

William H. Rollins, Esq., in behalf of Col. Marston, responded, deeming it the highest compliment which could be paid to that officer, to mention that he was connected with the 2d N. H. regiment,—its leader on many fields and a sharer in its renown.

The second regular toast was:—

The Citizen Soldier—the child and guardian of our liberty.

Sergt. Enoch G. Adams, of Co. D, responded in a speech which thrilled and agitated his hearers till their feelings found vent in the most tumultuous applause. If to the citizen soldier, he said, is confided the guardianship of our liberties, then there is no doubt that they will be protected. They are true, and loyal and steadfast, and in their hands the temple of liberty will be proudly and securely raised up. High-born men in European countries might pride themselves on their genealogies, but for him the proudest boast would be that he was a soldier of the 2d N. H. regiment, 1st brigade, Gen. Hooker's division. He and his comrades felt grateful for all that was being done for them here at home, yet they felt that they were worthy of everything that could be done for them. They bore in grateful remembrance the prayers which they knew had been continually offered up for them here, and felt that they had acquired new strength and firmer courage from the knowledge that they were so tenderly beloved and watched over. He then urged most strenuously the duty of everyone to support the Government, and the Administration as identified with it. As an example of the most devoted patriotism he instanced LANGDON, and appealed to those present to be ready, like him, to make the greatest sacrifices in behalf of the country. He referred with a soldier's ardor to Gen. Hooker, and rejoiced that he was in command of the Army of the Potomac. He did not wish to give his remarks a political turn, yet he would ask them to vote only for men devoted to the Union, and who would at all times support the soldiers in the field. When he had concluded his remarks, of which we have mentioned only a few points, three hearty cheers were given for General Hooker.

The families of the 2d N. H. regiment—we congratulate them on their relationship to such a gallant band.

Rev. Mr. Waterhouse responded, referring feelingly to the families of those who had fallen, yet reminding them of the high consolation to be derived from the knowledge that the cause in which they had lain down their lives, was a high and holy one.

The wounded—they bear with them testimonials of their noble conduct and of their claims to our respect and gratitude.

Rev. Mr. Eddy, in response, congratulated the soldiers that they had been permitted to return, for such a return would be like sunshine to the wounded man.

The honored dead—we 'reverence their memories, and their names are forever inscribed on the roll of heroes and patriots.

Rev. Mr. Patterson responded, mentioning the dead of Company K by name, and paying an eloquent tribute to each. They had fallen, but nothing that is true, nothing that is noble ever dies; the spirit which animated those noble souls still lived and would live forever.

Gen. Hooker—may he continue to be a terror to all traitors.

Capt. Gerrish, of the 1st N. H. battery, responded most fittingly to this, alluding to the high esteem in which Gen. Hooker is held by the army, he being not only the object of their solicitude but the idol of their hearts. He and Gen. Kearney were instanced as officers who never failed to cooperate with others, whoever might chance to be at the helm.

Gen. Wool—the hero of three wars, the brave and loyal soldier.

Our State—she is proud of her returning jewels.

G. J. Prescott, Esq., responded in an eloquent strain, complimenting our state highly on its proud record in past as in the present war.

Lieut. Col. Bailey was here compelled to withdraw in order to take the cars; nine rousing cheers were given for him.

Hon. W. H. Y. Rackett responded briefly to a toast to the Constitution and the Union; letters from Rear Admiral Storer and Rev. Mr. DeNormandie were read; and after cheers for Col. Marston, the band and the ladies the company dispersed.

The soldiers have received furloughs until Wednesday next, when they will report here.

THE MODEL COOK

FOR WOOD OR COAL.

The novel—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the larger oven, for baking; giving an oven nearly 3 feet long; or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! A check draft is applied to this stove by means of which the consumption of fuel is greatly lessened, and a steady fire can be kept day and night if desired.

THE MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be THE STOVE for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is needed.

We believe the MODEL COOK to be the very best Stove in the Market, and invite every one to examine it whether they wish to purchase or not. It has had a very extensive sale since its introduction. Reference might be made to more than a hundred families in this city or vicinity who are using the Stove, and give it the highest commendation.

We refer to the following individuals who have purchased the Model Cook:—

David Kimball, Thos. F. Burt, John T. French, Rev. Mr. Davies, Wm. Pettigrew, Capt. John Davis, Jeremiah Redit, Mrs. Ann T. Perkins, James W. Jarvis, Francis C. Jarvis, Thos. Tullock, Jacob Wendell, Capt. Jacob Thompson, Gen. J. G. Hadley, O. Melvin Huntress, Jos. D. Akerman, James F. Shones, Wm. C. Newton, Horton D. Walker, Benj. Chesver, John Trundy, Richard L. Lambert, Joseph Stone, John Senter, Wm. Bell, Cyrus Plumer, Freeman Hurd, James M. Locke, Daniel L. Randall, Isaiah Wilson, John E. Roberts—of Portsmouth; Samuel C. Dixon, Daniel I. Pryor, Cushman Pryor, of Trefethen's Island; Geo. N. Dixon, Samuel F. Paul, Elias Remick, Timothy Dame, Eliot; Wm. S. Locke, Benj. Furnald, Mrs. Wm. Locke, Rittery; A. P. Gerrish, Rittery Point; Hon. Clement March, Albert Rinaldi, Stephen M. Weeks, Geo. W. Davis, Greenleaf John Smart, Stratham; Mrs. Reuben P. Jenness, David Jenness, Moses Philbrick, Rye.

VICTOR COAL STOVE.

We offer this beautiful coal burner to the public, with full confidence in its merits.

It was brought into market two years since, and has come rapidly into use.

The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation. The arrangement for dumping the ashes is very fine—no dust need escape into the room—a continuous fire may be kept throughout the winter—the coal all burned, and no clinkers made.

The quantity of fuel used is very small indeed. There is in this stove an excellent arrangement for ventilating the room in which it is placed; a feature not possessed by any other parlor stove.

Some of the sizes are provided with an oven and boiling place, making them very desirable for a dining room.

We sold a large number of Victor Stoves in our city last season, and they receive the highest commendation from those who are using them.

We have also the celebrated McGregor Stove, so well known in the market as to need no commendation.

A great variety of cheaper Stoves for coal and wood—Coal-hods—Patent Coal-sifters.

and Repairing pieces for most of the stoves in use. Job Work attended to with dispatch.

BUY CALIFORNIA WINES

They are the Purest!
The Best!
The Cheapest!

The "sunny slopes" of "Los Angelos" have announced to the world that America is a wine-growing country, and as the discovery of gold sent a thrill through the old world, so will the discovery of these Wines startle them again, as it says, "one more link broken which has bound us to Europe." "one more step to independence." Let every man, woman and child who uses Wine, see to it that they buy none other than these.

"The Hock" is a most delicious Wine, and rivals in delicacy its German predecessor.

The "Angelica" and "Muscatel" are melting, luscious and rich, and will take the place of Malaga, Tokay, or other rich Wine.

The Port has a fine flavor and body; and
The Port is excellent because it is pure.

ILLEGAL VOTING.—The following are the provisions of the N. H. Statute:

If any person at any meeting for the choice of officers, shall give in more than one vote for any officer voted for at such meeting; or if any person under the age of twenty one years, or any alien not naturalized, or any person who is not a legal voter, shall give in any vote for any officer at such meeting; or if any person being under examination as to his qualifications as a voter before the board of selectmen, shall give any false name or answer; he shall be punished by a fine not exceeding thirty dollars for each offence, or may be imprisoned in the common jail not exceeding three months.

THE RISE OF GOLD AND THE DECLINE OF PATRIOTISM.—The Wall street speculators gave another strong puff at the bellows yesterday, and forced gold up to 173. To day the newspapers which these speculators control will indulge in a few more remarks upon our depreciated currency. We sincerely hope that the people will not allow themselves to be deluded by such nonsense. The paper money of the nation has not depreciated a single cent since yesterday or since last month.—The rise in gold is the result of speculation, not of the depreciation of government paper. There is not the slightest necessity for the people to be frightened completly out of their wits because the quotation, "Gold at 173," stares them in the face. The case is bad enough, but not so bad as it seems. Nobody wants to use any gold, except a few persons who are obliged to transmit money to Europe. Why, then, should the country trouble itself about this high premium upon the precious metal!

It is idle to prate to us about the effect of the over issues of paper money—the inflation of the currency. There is no inflation of the currency. You could not scrape together ten millions of dollars in United States bills from all the banks and brokers in this city to-day. A week or two ago the government was unable to obtain three millions of dollars' worth of its own notes. The country can absorb at least a thousand millions of paper currency. In the West the people hail the sight of a Government note as a blessing. They have been swindled by wild cat banks for years. They have very little local currency worth ten cents on the dollar. Only a couple of years ago, notes of hand of responsible parties used to circulate as money in the west, and we have seen these notes fairly covered with the endorsements they had received as they passed from hand to hand.—Government money supercedes this trash, and is gladly welcomed. The premium on gold is caused by no over issue of paper money. It is caused by speculation, like the premium upon silver, and the premium upon nickel cents. Silver is at a discount in Canada, and it would be equally plentiful here did not speculators keep it from the people. Nickel cents are furnished in immense quantities by the U. S. mints at par for United States money. What, then, causes the premium upon nickel? Ask the speculators who buy up these cents in order to compel retail dealers either to pay twenty per cent. premium or to issue shinplasters for all values below half a dime. With plenty of silver in the country—for comparatively none has been exported, and none can be except at a loss—and with plenty of nickel cents issued from the mints, we are without small change. Why? Because the "old clo'" shops in Chatham street are deserted by their owners, who have turned money gamblers, and board small change for the premium. For the same reason gold is at 173, and prices proportionately high.—*N. Y. Herald, Feb. 26.*

Pin Worm Syrup.

Just received Dr. Gould's PIN WORM SYRUP—the only safe, sure and effectual remedy, discovered to the public for the removal of the Worms. The above valuable medicine for sale at the Medicine Store of B. BTUCHINGS.

Ayer's SARSAPARILLA,

THE WORLD'S GREAT REMEDY FOR
Scrofula and Scrofulous Diseases.

From Emory Eder, a well-known merchant of Cincinnati, Ohio.

"I have sold large quantities of your SARSAPARILLA, but never yet one bottle which failed of the desired effect and full satisfaction to those who took it. As fast as our people try it, they agree there has been no medicine like it before in our community."

Eruptions, Pimples, Blotches, Pustules, Ulcers, Sores, and all Diseases of the Skin.

From Rev. Rob. Trotter, Prebend, Stamford, England.

"I only do my duty to you and the public, when I add my testimony to that you publish of the medicinal virtues of your SARSAPARILLA. My daughter, aged ten, had an afflicting humor in her ears, eyes, and hair for years, which we were unable to cure until we tried your SARSAPARILLA. She has been well for some months."

From Mrs. Jane E. Rice, a well-known and much-esteemed lady of Dennisville, Cape May Co., N. J.

"My daughter has suffered for a year past with a scrofulous eruption, which was very troublesome. Nothing afforded any relief until we tried your SARSAPARILLA, which soon completely cured her."

From Charles P. Gage, Esq., of the widely-known Gage, Murray & Co., manufacturers of enamelled papers in Nashua, N. H.

"I had for several years a very troublesome humor in my face, which grew constantly worse until it disfigured my features and became an intolerable affliction. I tried everything I ever heard of that could of both advice and medicine, but without any relief whatever, until I took your SARSAPARILLA. It immediately made my face worse, as you told me it would, for a time, but in a few weeks the new skin began to form under the blotches, and continued until my face is as smooth as any child's and I am without any symptoms of the disease that I know of. I enjoy perfect health, and without a doubt owe it to your SARSAPARILLA."

Erysipelas—General Debility—Purify the Blood.

From Dr. Judd, Scott, Houston St., New York.

"DR. AYER. I seldom fail to remove *Eruptions* and *Scrofulous Sores* by the preservering use of your SARSAPARILLA, and I have also cured an attack of *Malignant Erysipelas* with it. No alterative we possess equals the SARSAPARILLA you have supplied my profession as well as the public."

From J. F. Johnston, Esq., Wickenden, Ohio.

"For twelve years, I had the yellow Erysipelas on my right arm, during which time I tried all the celebrated cures I ever heard of, and took hundreds of dollars worth of medicines. The ulcers were so bad that the cords became visible, and the doctors decided that my arm must be amputated. I began taking your SARSAPARILLA. Took two bottles, and some of your PILLS. Together they have cured me. I am now as well as ever I was in my life. Being in a public place, my case is known to every body in this community, and excites the wonder of all."

From Hon. Henry Moore, M. P. P., of Newcastle, C. W., a leading member of the Canadian Parliament.

"I have used your SARSAPARILLA in my family, for general *debility*, and for *purifying the blood*, with very beneficial results, and feel confidence in commending it to the afflicted."

St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes.

From Henry Sickler, Esq., the able editor of the Tuskhannock Democrat, Pennsylvania.

"Our only child, about two years of age, was attacked by pimples on his forehead. They rapidly spread until they formed a loathsome and virulent sore, which covered his face, and actually blinded his eyes for some days. A skilful physician applied nitrate of silver and other remedies, without any apparent effect. For fifteen days we guarded his hands lest with them he should tear open the festering and corrupt wound which covered his whole face. Having tried every thing else, we had any hope from, we began giving your SARSAPARILLA, and applying the iodide of potash lotion, as you direct. The sore began to heal when we had given the first bottle, and it healed as we had finished the second. The child's eyelashes, which had come out, grew again, and he is now as healthy and fair as any child in the whole neighborhood predicted that the child must die."

Syphilis and Mercurial Disease

From Dr. Hiram Stout, of St. Louis, Missouri.

"I find your SARSAPARILLA is more powerful remedy for the secondary symptoms of *Syphilis* and for syphilitic disease than any other we possess. The profession are indebted to you for some of the best medicines we have."

From A. J. French, M. D., an eminent physician of Lawrence, Mass., who is a prominent member of the Legislature of Massachusetts.

"DR. AYER: My dear Sir: I have found your SARSAPARILLA an excellent remedy for *Syphilis*, both of the primary and secondary types, and effectual in some cases of mercurial rheumatism to yield to other medicine. I do not know what we can employ with more certainty of success, where a powerful alterative is required."

Mr. Chas. S. Van Liew, of New Brunswick, N. J., had dreadful ulcers on his legs, caused by the abuse of mercury, or mercurial rheumatism, which had lasted for years, in spite of every remedy or treatment that could be applied, until the preserving use of AYER'S SARSAPARILLA relieved him. In these cases it proves more inveterate and obstinate than this, and it took several dozen bottles to cure him.

Leucorrhœa, Whites, Female Weakness,

are generally produced by a scrofulous or *Syphilitic* taint, and are very often cured by the alterative effect of this SARSAPARILLA. Some cases require, however, as did of the SARSAPARILLA, the skilful application of local remedies.

From the well-known and widely-celebrated Dr. Jacob Morrell, of Cincinnati.

"I have found your SARSAPARILLA an excellent alterative in diseases of females. Many cases of Irregularity, Leucorrhœa, Internal Ulceration, and local debility, arising from the scrofulous diathesis, have yielded to it, and there are few that do not, when its effect is properly aided by local treatment."

A lady, unwilling to allow the publication of her name, writes:

"My daughter and myself have been cured of a very debilitating Leucorrhœa of long standing, by two bottles of your SARSAPARILLA."

Rheumatism, Gout, Liver Complaint, Dyspepsia, Heart Disease, Neuralgia,

when its cause is Scrofula in the system, are rapidly cured by this Ext. SARSAPARILLA.

AYER'S
CATHARTIC PILLS

are superior to any other cathartic, in many advantages over the other cheap cathartics in the market, and their superior virtues are universally known, that we need not do more than to assure the public their quality is maintained equal to the best it ever has been, and that they may be depended on to do all that they have ever done.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, No. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the greatest facilities for treating the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Recent his treatment, all the horrors of venereal and impure blood, impotency, Scrotula, Gonorrhœa, Ulcers, pain and distress in the Urinary Organs, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Tumors, frightful Swellings, and the long train of horrible symptoms attending these class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which robs the body and mind, unfitting the unfortunate individual to business or society. Some of the sad and melancholy effects produced by early habits of youth, are weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The central effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should before contemplating marriage, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for the, on receiving description of their complaint. The celebrated Dr. Dow's Female Capsules, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

CAUTION

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, continues to be consulted on all diseases peculiar to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, suppression, and other menstrual derangements, are speedily relieved upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that no case need be feared, if the directions are followed, and the afflicted person rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 9 A. M. to 9 P. M. as above, upon all difficult and obscure diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

☞ Dr. Dow imparts and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual, the oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior boiler and sad iron heater combined, by which the odor of burning meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which passes to come with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being confined to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being confined to prevent the escape of heat to the smoke pipe or chimney, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the fuel, thus saving at least 25 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the dome can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace is fitted with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and can be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Gill,	Charles H. Marshall,
Henry F. Wendell,	John Sise, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. When the arch is irregular we can by building out the depression—which can be done to any extent—give the upper PLATE more natural appearance.

4th No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean as easily as a tea saucer, as when finished the work presents one whole piece.

6th While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*
No. 5 Daniel St., Portsmouth,

Has had four years of practical experience in making this material, and will guarantee satisfaction in all cases entrusted to his care.

DENTISTRY.

No. 60 CONGRESS STREET,
Portsmouth, Jan. 1st, 1863.

DR. GOODALL

Would respectfully inform his patrons and the public, that he had of late many calls to insert teeth upon VULCANIZED RUBBERS, that he has purchased the best VULCANIZER in the market, and is now prepared to do all work upon RUBBER, or the other bases of GOLD and SILVER as formerly, if preferred.

The Rubber has several important advantages, viz.: It is very light and elastic, and consequently very comfortable; it fits the mouth, gums and cheeks. There are no insertices or open joints to collect food, &c.; consequently they can be worn night and day, and are very easily kept neat and clean.

Beside all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.

Any one who is waiting for their permanent teeth will, I am confident, be perfectly satisfied with the Rubber, as a base. The expense is but a little more than for Silver; and you get the same teeth (in blocks) that you would pay $60.00 for an upper or lower set on Gold.

In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by the best Dentists too. I will warrant a perfect fit and finish from the best manufacturer in the country, S. S. White.

ALL OTHER OPERATIONS IN DENTISTRY I will do at the usual rates. I will here mention that my process for EXTRACTION is painless.

I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr OLIVER and Dr. DOW, for testimonials as to my extracting teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial sets of Teeth required with Neatness and Dispatch. All other operations in Dentistry, I will do at the usual rates.

SAMBUCUS TREE, OF PORTUGAL,

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and beneficiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its exquisite peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. Swett's PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.
PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of Dr. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.
From ELDER I CHESLEY, *Lee, May* 31, 1841.
DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, MARCH 10, 1863.

THE ELECTION.

New Hampshire elects her Governor, Railroad Commissioner, Legislature, three members of Congress, and many towns their officers, to-day. But although the public exhibit is now to be made up, it is not alone the work of to-day which will show—only the books are to be settled, and the balance struck, for the past year's action and thought of the people.

We, the managers of this Chronicle of events, have no very especial interest in the result—other than that concern which every citizen should and must feel for the general welfare. And we certainly do not fear any result which the sovereign people may decide. We are not among those who ever "despair of the republic," or of republican institutions, come what may; nor can we be made to doubt the ability and right of the people to govern themselves, according to majority rule, which is the basis of all free government. Nor do we believe that any party, nor all parties, have monopolized all the truth and all the decency in the world—nor that "the country will be ruined" by any political action of to-day.

As to the result, we shall use all our efforts to chronicle it to-morrow, in general. Both sides claim success, certainly both can't reach it. But whoever holds the reins of State for the coming year, we shall endeavor to give them a fair and impartial judgment, which our independent standpoint enables us to do. May the best party, the best principles, win!

ERROR CORRECTED.—The Manchester Union Democrat of Feb. 24 contains the the following statement:

"A delegation of Concord politicians recently met Mr. Harriman at Washington; and we are informed that Messrs. Clark and Rollins co-operated with them there, and that he was induced to accept it (the nomination) by the promise of a Brigadier Generalship at an early day."

These statements Mr. Harriman says are "false," and adds:

I have met no delegation of New Hampshire politicians at Washington, or elsewhere.

I have not exchanged a solitary word with either Mr. Clark or Mr. Rollins about obtaining a Brigadier Generalship or any other office.

I have not had "the promise of a Brigadier Generalship at an early day," or at any day.

I have made no trade, bargain or agreement of any kind, with any member of Congress, any New Hampshire politician, or any other man.

I have accepted the nomination for the purpose of aiding at home the great Union cause, for which I have peiled my life in the field, and for no other consideration, cause or reason whatsoever.

☞ Our New Orleans correspondent "Ion" has sent us the Mobile Daily Advertiser and Register, of the 5th, (of which by the way, D. D. Wyatt, formerly of Portsmouth, is one of the proprietors,) in which the following articles are advertised for sale at the prices annexed: "Salt, $16 per bushel; black tea, $11 per lb.; Havana coffee, $3.75 per lb.; russet shoes, $9 per pair; black do., $10 per pair; ladies' gaiters, (English make) $12 to $14 per pair; misses' gaiters, $6.25 to $6.50 per pr.

☞ Nassau advices report that the privateer Retribution had taken and burned the bark Mary Wright, of Portland, the brig Erie, of Camden, Me., and brig Emily Fisher. The crews were taken to Nassau. The Retribution encountered an unknown cruiser in the Carribean sea, which showed fight, killing one person on the privateer, and was sunk with all on board by the Retribution.

☞ The Bangor Whig says that a day or two since while a stage coach was standing in front of the express office, a man with a horse and pung drove up behind the coach, got out and deliberately hitched the horse to the baggage rack of the coach, and went off about his business. In a few moments the driver of the coach mounted the box, not noticing the team hitched behind. Consequently the horse and pung disappeared.

During a solar eclipse, witnessed in Hindostan on the first of January, crowds of people assembled at the Ganges to bathe in its sacred waters. A correspondent estimates the grand total at the almost incredible number of four millions! Such crowds had not been seen in the river for half a century.

☞ Walker, Wise & Co. announce for speedy publication a memoir of the early life of President Lincoln, entitled "The Pioneer boy; and how he became President," by William M. Thayer.

☞ The military succeeded on Friday night in dispersing the rioters at Detroit Mich. Twenty or thirty buildings had been burned.

A dispatch on Monday, however, states that the reports of the loss of life have been greatly exaggerated; only one man is known to have been killed. 35 buildings were destroyed.

THE REBELLION.

Three iron-clads and two mortar boats shelled Fort McAllister on the 3d.

The Chattanooga Rebel of the 7th says Gen. Rosecrans is massing large reinforcements in the counties of Sumner and Wilson, Tenn. The Rebel estimates the entire strength of the Federal army at Murfreesboro' at 50,000, and the reinforcements at 30,000. The other bodies of Union troops under Rosecrans swell the number to nearly 100,000.

The Federal gunboats are making great destruction on Lake Providence.

Advices from Franklin, Tenn., state that our loss is killed and wounded in the fight last week, was about 300. We lost 1000 prisoners. We lost no officers. The rebel loss according to their own statement, was double ours in killed and wounded.

The rebel papers give an account of an exceedingly clever ruse on the part of some one connected with Com'r Porter's force. A flat boat was arranged with smoky fixtures till it resembled a Monitor. This was run by the Vicksburg batteries on Tuesday night, and when the rebels saw it coming towards them, they believed she was really "a terrible monster" and blew the Indianola up. Her guns fell into our hands. The Queen of the West left in such a hurry as to leave part of her crew on shore. A later despatch states that the Indianola was not entirely destroyed, and that our forces are raising her.

A dispatch from Gen. Pemberton, rebel, Mar. 4th, says "the Indianola was not destroyed; they were attempting to raise her. One 11-inch gun was burst; the others were uninjured.

A Washington despatch states that Gen. Burnside having been assigned a command, which he will assume the duties of in a few days, left that city Saturday afternoon for the North.

An expedition from Gen. Hooker's army, under Col. Phelps, captured two important rebel mails, 1000 bushels of corn, 50 mules and horses, with some prisoners, including a Colonel.

The rebels are said to be massing troops up the Rappahannock, to move upon our rear and cut off supplies by way of Aquia Creek. Our troops are being stationed to defeat their attempt.

Capt. Moseley, with his rebel command, made a raid at Fairfax Court House, Va., on Sunday night, and captured the Provost Marshal, patrols, horses, &c., together with Gen. Stoughton and the men detached from his brigade. The commanding officer escaped. All the available cavalry were sent in pursuit.

A New York dispatch states that the Georgia Southern Union has come out in favor of a reconstruction of the old Union. The Atlanta (Ga.) Confederacy thus greets the proposal of the Southern Union: "We advise the editor (Mr. Murray) to go to New England, believing him to be unfriendly to the country in which he lives. In Massachusetts he will be made a hero of—The conservatives whom he loves, and not the Abolitionists whom he affects to despise, will do all this for him. There are fewer Abolitionists in Massachusetts than Reconstructionists in Georgia.

The rebels receive most of their supplies via Texas and Vicksburg, and are said to be apprehensive that the latter'y will be taken.

A Hilton Head correspondent, under date of the 1st, states that the pirate Nashville endeavored, during a fog, to run past the blockaders, but got aground. Com. Worden ran up within 1200 yards of her with the Montauk. Fort McAllister opened a furious fire, but Capt. Worden took no notice of it, leaving the wooden gunboats to reply to that. The fourth shell from the Montauk, a 15-inch, burst in the Nashville, setting her on fire. Another one went through her side into the magazine, and the pirate blew up with a loud explosion.—Another correspondent states that the Montauk, when returning, ran over a torpedo which exploded, lifting the vessel up two feet, but doing no injury except a slight derangement of the machinery. The fire from the fort did no damage. The Nahant and the Patapsco have been sent to test their fighting qualities in Assiban sound; also the Ericson with mortar boats in tow. It is reported that an attempt will be made to finish up the ram Fingal.

The gunboat Florida and iron-clad Nantucket are to go to Charleston at once.

Gen. Butler is spoken of as Provost Marshal General under the Conscription law.

☞ The captured steamer Bermuda, one of the fastest vessels sent from England since the war began, has been purchased by the Navy Department for $120,000. She is a prize to the Mercedita. It was on board this craft that the famous Oreto battery was seized, and the splendid 100-pound gun made for the Great Exhibition in London, subsequently bought by the Confederates. The Bermuda can steam 15 miles an hour, and would easily have got away from the Mercedita had she discovered her. She will soon be converted into an efficient man-of-war and sent after the Alabama.

LETTER FROM KANSAS.

LEAVENWORTH, Feb. 24th.

There is a large proportion of *oxygen* in the air that the citizens of this city inhale. The surrounding atmosphere has, from the founding of the city, been largely charged with the exhilarating gas; but never so much so as since the storm of the rebellion hovered threateningly over us, menacing our united country with the return of "chaos and old night." The people of Kansas and of Leavenworth respire in an atmosphere which braces them up, and makes them keep step to the music of the Union.

The destruction of the Inquirer press is final. Such a print cannot live in this city, simply because the people of Kansas honor the heroic dead who have fallen in defence of a cause which the Inquirer mocked at: because they are resolved to support the living heroes whose hands still grasp firmly our flag on the field, and whom such traitor sheets as the Inquirer denounce because the people of Kansas are for prosecuting this war till the last rebel cries—Hold! enough.

The only pity is that the military authorities did not forestall the righteous indignation of the people, so as to prevent a display of unlegalized power for the suppression of this disloyal sheet. It is of transcendant importance that in the present crisis the loyal millions should be able to feel that there is a strong, a vigorous, a resolute, a self-reliant government to rally under,—a government that will assert its just authority—that is not afraid to strike off the bloody crest of treason wherever it opens its lips to deceive, amidst the trees of our political Eden. It is for the interest of the good cause everywhere that the government show itself able and willing to put down traitors at home. The supporters of our government *now* are not men who feel at ease in a mob; but they are men who would feel gloriously at ease taking position in the serried phalanx of the executors of the law of the land. We desire then that our authorities henceforth be so alert in this business of exterminating disloyal practices, that they shall not grow to the dimensions of an intolerable nuisance.

The moral of this affair of the Inquirer is soon told. The people of Kansas will show treason no mercy. They are for the prosecution of the war. They offer no terms but those which submission to the constitution and the laws would obtain from the generous. They call upon the American people, to the furthest border of Maine, to pledge themselves to their dead—to Lyon, to Winthrop—to Baker—to those gallant men who fell in Baltimore—to those who vainly fell at Fredericksburg—to all the hecatombs of the bitterly mourned warriors who fell with their face to the foe. Kansas will not draw back. Through the smoke of the contest she sees that all is at stake. She will replenish her ranks. She will stamp out home treason with her foot, while she strikes armed rebellion with her sword. She is indomitable, unconquerable for the supremacy of the Constitution.

Tell us not that this war is carried on by violations of the Constitution, ye stickers for the rights and privileges of the rebels! Are you not violating this constitution most grievously, who are helping rebels all you can in their infamous attempt to subvert the Constitution? And will you denounce the act by which the slave property of your friend Jeff. Davis may be confiscated, and speak lovingly of the measures which have been begun in the rebel states to drive Abraham Lincoln from his lawful seat, and the American people from their inheritance? The time for argument has been, but it is past. One common resolution fires the people of Kansas—to move upon the enemy's works, with this battle-cry—"Our country, our dead; victory or death!"

Martin F. Conway, of Lawrence, once represented our people. But one day he arose in Congress, and said concerning the rebellion—"Compromise is inevitable; Conquest is impossible."

When he had delivered himself of those fatal words, Martin F. Conway shrunk down from being the Representative of Kansas, till he stood there for a constituency consisting of himself. PRO PATRIA.

☞ The Gloucester (Mass.) Telegraph states that the schooner Oliver Burnham on her passage from that port to George's, on the 16th ult., lost a man overboard. Every effort was made to save him, but proved unavailing. His name was Robert Mitchell, and came from Kittery, Me. He was about 45 years of age, and leaves a family.

☞ Gen. Hooker is looking after his men in a kind manner, as every General should who wants his men to follow him into battle. He has caused the issue to the men under his command of rations of vegetables. Onions and potatoes are in every camp.—He has also caused ovens to be erected in every division, and soft bread is in every tent on the Rappahannock.

☞ We are indebted to our old friend, John Rogers, Representative from Kittery, for a copy of the Maine Legislative Register for 1863. We notice that he is very properly placed on the Committee on Agriculture.

NEW HAMPSHIRE ITEMS.

—— The Amoskeag Manufacturing Co., of Manchester, sent off on Thursday a second class steam fire engine, named the "Potomac," to the city of Alexandria, Va.

—— The N. H. Second Regiment has been received at Concord and Manchester with great enthusiasm. They have fought bravely ever since Bull Run, where they did not run, it being a New Hampshire trait to fight well.—*Boston Commonwealth.*

—— A correspondent in the 10th Regiment sends the following to the Mirror:—

On the 13th day of December, when the 10th N. H. V. was drawn up in line of battle, and stood at stack arms, a private, John F. Towle, in Capt. Kelley's Co. (D) missed his gun. When the order came to charge upon the rebels, young Towle said, "Captain, what shall I do for a gun?" The captain looking around for a gun, saw an axe lying upon the ground and said: "Here Towle, take this axe and shoulder it, and exchange it for a rebel gun the first chance." Capt. Kelley thought no more about it until after the battle, when young Towle came up to the Captain and said, "I have obeyed your order," presenting a rebel rifle. Young Towle is now a corporal and in line of promotion.

—— The 8th N. H. Regiment, Feb. 16th, had moved to Indian Village, a position south of Baton Rouge. All were in excellent health.

—— The N. Y. Tribune reports that by his illness Senator Hale has lost fifty pounds of flesh, and his hair.

—— Prof. J. N. Putnam, of Dartmouth College has been invited to the professorship of Ecclesiastical History in the Theological Seminary, at Andover, Mass., lately vacated by Prof. Shedd.

—— The farmers in the interior are making extensive preparations for manufacturing maple sugar this Spring.

—— Capt. O. A. Mack, formerly of Westmoreland, who was appointed Colonel of the 6th Regiment, and is a captain in the regular army, was reported killed at the battle of Murfreesboro'. It seems that he is still living. His horse was killed under him, and he received two dangerous wounds.

—— Mr. Page Richardson of Goffstown, was found dead in his bed on Saturday morning. He was about 70 years of age.

☞ At Richmond large quantities of flour were impressed at $17.50 for superfine and $19.50 for extra.

☞ Gold sold in New York on Monday at 1 o'clock, at 155 3-4. In Boston it closed at 154.

Rubber Band Carpet Sweeper.

TRY IT! TRY IT!!

It saves Money; it saves Carpets; it saves Furniture; it saves Labor; it is cheaper than Brooms at five cents apiece!

It gathers up all dust, dirt, and loose lint on the carpets, and raises no dust to settle on the furniture, drapery, or ornaments, or to smother, stifle and irritate the lungs.

It does not wear the carpets half so much as brooms or any other sweeper.

It is the only practicable sweeper made, and the only article fit to sweep a carpet.

With our late improvements it gives universal satisfaction to all who use it according to directions. For sale at No. 15 Market Street by

Local.

☞ On Saturday, soon after the procession entered Vaughan street, a halt was made, and Capt. Wm. O. Sides returned to Company K, the flag which was presented to them, while bearing the name of Goodwin Guards, previous to their departure for the war. It was originally presented by the Sons of Portsmouth, resident in Boston, and has been carefully preserved during the absence of the company at the seat of war. Capt. Sides returned it with a few appropriate remarks.

☞ Capt. M. T. Betton, of Co. K, 13th regiment, writing from Newport News, Va., under date of March 2, states that he had nearly recovered his health after a severe fit of sickness, and hoped to be on duty again the next day. He gratefully speaks in high terms of the kind attentions of the members of his company as well as others, during his sickness.

Lieut. Goss (now captain of Co. I,) he says, "is a splendid soldier, and has not been off duty for a single day,—and is the only officer in the regiment who can say as much.

"The company has been through the winter campaign with the loss of but one man—Edward W. Sides. He was a good soldier, much beloved by his comrades, and did his duty nobly at the battle of Fredericksburg."

☞ Sargt. E. A. Tillon, of Company K, 13th N. H. regiment, returned to this city on Monday evening, having received a furlough on account of sickness.

☞ CARD.—In behalf of the inmates of the Alms House, I most heartily thank those good Samaritans who did not forget the wants of the Poor in the distribution of the twice twelve baskets full, gathered from the tables at Jefferson Hall on the 7th inst.

☞ A man frozen stiff as a log was picked up in the street in Brooklyn, New York, the other morning, and taken into a store while the coroner was sent for.—But when that official arrived, the frozen man roused up and vehemently protested against being "sot upon" by any jury, and the inquest was adjourned sine die.

☞ The Press states that one of the operators in the Telegraph Office at Portland, undertook to show his brother operators some curious experiments on their watches with a horse-shoe magnet. He succeeded to perfection; for in about a minute and a half he spoiled three watches, to the great astonishment and indignation of the owners.

☞ The Lewiston Journal says the Sabbath School has been substituted for one of the sermons, in Mr. Hawe's church, Waterville. Mr. The change is highly acceptable to Mr. Hawe's congregation, and they protess no wish to go back to the old method.—So far from fearing lest their pastor would not earn his salary, since the change was adopted his society has increased his salary $200!

Funeral services at the Newington Meeting House, Thursday, at 2 o'clock, P. M.

MRS. MARY RIDER.—The funeral of this venerable lady was attended from St John's Church on Saturday afternoon, and in the course of the morning services of Sunday, grateful and appropriate mention of her long career of usefulness and benevolence was made by the Rector.

MRS. RIDER has been a member of the Parish since her removal to this country, some 70 years since; and was the oldest person on its list of communicants. The church has lost in her, one of its most devout and faithful members. She was ardent in her attachments to its principles and worship, and she adorned its doctrines by a life which was exemplary and unselfish in an uncommon degree. She was always ready to exert and deny herself for the sake of others. Her charities were systematic and abundant. She always had something for any deserving applicant or any worthy cause, and by a liberal bequest in trust to the Parish, she has provided that annual offerings from her estate shall still be made for these objects which in life were so near her heart. After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Deeds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into any branch of Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber for twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now *pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their case, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

BUY CALIFORNIA WINES

They are the Purest!
The Best!
The Cheapest!

The "sunny slopes" of "Los Angelos" have announced to the world that America is a wine-growing country, and as the discovery of gold sent a thrill through the old world, so will the discovery of these Wines startle them again, as it says, "one more link broken which has bound us to Europe," "one more step to independence." Let every man, woman and child who uses Wine, see to it that they buy none other than these.

"The Rock" is a most delicious Wine, and rivals in delicacy its German predecessor.

The "Angelica" and "Muscatel" are melting, luscious and rich, and will take the place of Malaga, Tokay, or other rich Wine.

The Port has a fine flavor and body; and The Port is excellent because it is pure.

ANOTHER NEW STOVE!

THE MODEL COOK

FOR WOOD OR COAL.

The novel—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the larger oven, for baking; giving an oven nearly 3 feet long; or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! A check draft is applied to this stove by means of which the consumption of fuel is greatly lessened, and a steady fire can be kept day and night if desired.

THE MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be THE STOVE for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is needed.

We believe the MODEL COOK to be the very best Stove in the Market, and invite every one to examine it whether they wish to purchase or not. It has had a very extensive sale since its introduction. Reference might be made to more than a hundred families in this city or vicinity who are using the Stove, and give it the highest commendation.

We refer to the following individuals who have purchased the Model Cook:—

David Kimball, Thos. F. Burt, John T. French, Rev. Mr. Davies, Wm. Pettigrew, Capt. John Davis, Jeremiah Raitt, Mrs Ann T. Perkins, James W. Jarvis, Francis C. Jarvis, Thos. L. Pullock, Jacob Wendell, Capt. Jacob Thompson, Gen. J. G. Hadley, (4) Melvin Hunting, Jos. D. Akerman, James F. Shores, Wm. C. Newton, Horton D. Walker, Benj. Chesver, John Trundy, Richard L. Randall, Geo. Rice, Benj. F. Canney, Benj M. Parker, Charles K. Wiggin, George W. Plumer, Nath'l Dennett, Henry F. Gerrish, John Harrat, Thos Marpby, Capt. Wm. Lambert, Joseph Stiles, John Senter, Wm. Bell, Cyrus Plumer, Freeman Hurd, James M. Locke, Daniel L. Randall, Isaiah Wilson, John E. Roberts—of Portsmouth; Samuel C. Dixon, Daniel L. Tryor, Cashman Pryor, of Treffethen's Island; Geo. N. Dixon, Samuel F. Paul, Elias Semick, Timothy Dame, Eliot, Wm. S. Locke, Benj. Fernald, Mrs. Wm Locke, Kittery; R. F. Gerrish, Kittery Point; Hon. Clement March, Albert Blaisdell, Stephen M. Weeks, Geo. W. Davis, Greenland; John Smart, Stratham; Mrs. Reuben P. Jennese, David Jennese, Moses Philbrick, Rye.

VICTOR COAL STOVE.

We offer this beautiful coal burner to the public, with full confidence in its merits.

It was brought into market two years since, and has come quickly into use.

The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation. The arrangement for distributing the ashes is very fine—no dust need escape into the room—a continuous fire may be kept throughout the winter—the coal will not spill, and no clinkers made.

The quantity of fuel used is very small indeed. There is in this stove an excellent arrangement for ventilating the room in which it is placed; a feature not secured by any other parlor stove.

Some of the sizes are provided with an oven and boiling place, making them very desirable for a dining room.

We sold a large number of Victor Stoves in our city last season, and they receive the highest commendation from those who are using them.

We have also the celebrated McGregor Stove, so well known in the market as to need no commendation.

A great variety of cheaper Stoves for coal and wood—Coal-hods—Patent Coal-sifters.

COAL LININGS,

and Repairing pieces for most of the stoves in use. Job Work attended to with dispatch.

Pin Worm Syrup.

Just received Dr. Gould's PIN WORM SYRUP—the only safe, sure, and effectual remedy ever offered to the public for the removal of Pin Worms. The above valuable medicine for sale at the Medicine Store of B. HUTCHINGS.

The peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of God, who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and those dangerous distempers leave you. With double, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the diseases it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. This it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: **King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses,** and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of *Sarsaparilla*, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S
CHERRY PECTORAL,
The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending the class of diseases, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are weakness of the back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

CAUTION

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all those delicate complaints of the female system, Uleri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new physiological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that no case need despair, if a trial be made under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

CERTAIN CURE
in all cases, or No Charge Made.

Dr. Dow is consulted daily, from 6 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of a competent physician and surgeon should give him a call.

☞ S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it more like old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be controlled day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and healthy, without the damp of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headaches so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some producing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through a fresh supply, which mixes them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal; make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Shaw, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. It from two to six times the amount of suction or adhesion can be obtained by it.

3d. When the arch is irregular we can by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth fastened upon this base can be kept clean and sweet as easy as a saucer, as when finished the work presents one whole piece.

6th. Teeth fastened by it will be better, as we in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*
No. 5 Daniel St., Portsmouth.

Has had four years of practical experience in making this material, and will guarantee satisfaction in all cases entrusted to his care.

Portsmouth, Jan. 1, 1863.

DENTISTRY.

No. 60 CONGRESS STREET,
Portsmouth, Jan. 1st, 1863.

DR. GOODALL

Would repectfully inform his patrons and the public, that he is now prepared to do all kinds of teeth upon VULCANIZED RUBBER, (that he has purchased the best VULCANIZER in the market, and has now perfected his work upon RUBBER, or the other base of GOLD and SILVER as formerly, if preferred.

The Rubber has several important advantages, viz. It is very light and elastic, and consequently is perfectly easy to the muscles of the mouth and cheeks. There are no interstices or open joints to collect food, &c., consequently they can be worn night and day, and are very easily kept neat and clean.

Beside all this, the most accurate fit is obtained, as the Rubber is vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.

Any one who is waiting for their permanent teeth will, I am confident, be perfectly satisfied with the Rubber, as a base. The expense is but a little more than for Silver, and you get the same teeth (in blocks) that you would pay $60.00 for an upper or lower set on Gold.

In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by the best dentists; for it will eventually, perfect fit and teeth from the best manufacturer in the country, S. S. White.

ALL OTHER OPERATIONS IN DENTISTRY I will perform as usual. I will here mention that my price for EXTRACTION is 25 cents.

I take pleasure in referring the public to Dr. TRASK, Dr. PUSHEL, Dr. BOARDMAN, Dr. OLIVER and Dr. BENNETT, for particular success in extracting teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with **Neatness and Dispatch**. All other operations in Dentistry, I will do at the usual rates.

GRACE'S CELEBRATED SALVE,
A SURE RELIEF FOR THE SUFFERER.

This Salve is a vegetable preparation, invented in the 17th century, by DR. WM. GRACE surgeon in King James's army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of the day, and was regarded by all who knew him as a public benefactor.

Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Flesh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.

Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sores
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find this Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much trouble, suffering, and money. All it wants is a fair trial to cure old and inveterate Sores.

☞ ATTENTION, THE WHOLE! ☜
RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, for even months it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla, Syrup, &c. &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWEET'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Sweet's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by its use. I have acted as agent for the sale of it. JOSIAH JENNESS.
PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. SWEET'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. L. LOWD.
From ELDER I. CHESLEY, *Lee, May* 31, 1841.
DR. SWEET: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, MARCH 11, 1863.

NEW-HAMPSHIRE ELECTION, 1863.

By Telegraph to the Republican Club and the Chronicle.

Concord, 9 o'clock P. M.—65 towns give Gilmore 10,490; Eastman, 11,246; Harriman, 1,683.

Concord, 11 o'clock.—Returns from about two thirds of the State indicate that there is no choice of Governor by the people; that the Legislature will be largely Republican; and that the three Republican Members of Congress have been elected, although there is some doubt about the 1st District—Joel Eastman's.

Concord, 12 o'clock.—20 of the 22 towns in Cheshire county give Gilmore 2,978; Eastman, 2,124; and Harriman, 93. The same towns send 19 Rep. representatives to 7 Dem.

Concord, 1:15 A. M.—Returns from 173 towns give Gilmore 24,769; Eastman, 25,533; Harriman, 3,466.

Statehouse office, Concord, 1:45 A. M.—Returns from 175 towns give Gilmore 34,881; Eastman, 25,722; Harriman, 3,773. It is believed that all the Republican Members of Congress are elected, but the majorities in the 1st and 2d districts will be small. The Republicans will have a majority in the Council, Senate, and House of Representatives.

There being no choice of Governor by the people, the election will be thrown into the House, which will, of course, elect Hon. Joseph A. Gilmore, of Concord.

REPRESENTATIVES ELECTED.

Portsmouth.—John H. Bailey, Horton D. Walker, Wm. C. Hatch, Albert L. Jones, Aaron H. Hill, Wm. O. Sides, rep.: Henry F. Wendell, Benj. Odiorne, 2d, dem.

Somersworth.—Edward A. Smith, George W. Burleigh and Arthur L. Noyes, rep.

Newington.—Nathaniel P. Coleman, dem.

Greenland.—Joshua C. Weeks, rep.

Gosport.—Origen S. Caswell, rep.

TOWN MEETINGS.

NEWINGTON.

Thomas G. Furber, *Moderator.*
Isaac Furber, *Town Clerk.*
Frank T. Pickering, Richard P. Hoyt, Amos Dame, *Selectmen*,—all dem.

In *Greenland*, Gilmore had 86, Eastman 75, Harriman 3, for Governor; Marcy for Congress had 76, and Eastman 88: for representatives to Gen. Court, Joshua C. Weeks, rep., had 90, and Albert Blaisdell 73.

In *Gosport*, Origen S. Caswell, rep., was elected to Gen. Court by 16 votes, his opponent having twelve. Geo. Beebe is re-elected town clerk.

REBEL ENCOURAGEMENT OF HOME MANUFACTURES.—A Richmond paper says:

"Governor Vance, of North Carolina, has commenced investigating the conduct of the shoe manufacturers of the State, and in every case where the provisions of the exemption law have been disregarded, the offenders having failed to confine their profits to seventy-five per cent. he has caused the employers and all their workmen to be conscripted. Three of the largest establishments in the State have been closed in consequence of his proceedings, and all hands sent to camps of instruction. The result is a great decline in the price of leather, when manufactured, throughout the State. These things will bear a little looking into in the other States."

☞ The Gardiner, Me., Journal, relates that Mr. George Colburn and his wife, after enjoying a beautiful moonlight skate on Saturday evening, found a nice baby, not their own, upon their door-step, fast asleep. An accompanying note assured the finder that the baby was "as good as the next one." Mr. C. will probably desire that the next one take a different direction.

FLEEING FROM THE DRAFT TO COME.—A dispatch from Toronto, C. W., of the 7th, says: "There have been a number of arrivals from the States of parties escaping the expected conscription. Twenty or thirty arrived in Toronto yesterday."

☞ A dispatch from Salt Lake City, Utah, to the N. Y. Herald, states that a collision between the military and citizens is imminent. Gov. Harding, and Associate Justices Waite and Drake, it is understood, have called upon Col. Connor to arrest Brigham Young, and Councillors Kimball and Wells. The citizens are in arms and are determined to prevent the arrest of their leaders by military force.

☞ Com'r Porter has in his fleet near Vicksburg, the following vessels: the Monitor gunboats Tuscumbia, 5 guns; Chilicothe, 2; iron-clads Benton, 16; Carondelet, 13; Mound City, 13; Louisville, 13; ram Lafayette, 6; Eastport, 10; De Kalb, 13; Cincinnati 13; Pittsburgh, 13; Worden gunboats Conestoga, 9; Tyler, 9; Little Rebel, 2; Lexington, 8; Bragg, 5; Price 4; and twelve light draft "tin clad" boats mounting six guns each.

☞ The returns of the railroad corporations in Massachusetts for 1862 have been printed in a document of 360 pages. The total income of the 52 railroads of the state for the year ending November 30th, 1862, was $9,923,581; the expenses of working $5,448,231, and the net income $3,581,657. The average per cent of dividends was 6,56, and the amount of dividends $2,597,949.

THE HIGH PRICE OF GOLD IN SECESSIA. The Richmond *Dispatch* attributes the high price for gold ($3 in paper for $1 of gold) to the demand from blockade runners, *and foreigners leaving the Confederacy.* Bank notes command a premium of 50 per cent in Richmond.

☞ Municipal elections were held in several cities in Maine, on Monday. In Belfast, the Union candidate for mayor was elected by 100 majority over the Democratic candidate; and the Unionists carried four of the five wards of the city. In Biddeford the Democrats elected their entire ticket—the Mayor by 230 majority. The Democratic majority last year was 200. The majority for Lincoln in 1860 was 213. Lewiston, Augusta and Bangor went Republican. A Bangor dispatch states that town elections in the State, so far as heard from, have gone 80 Union and 31 Democratic.

☞ Resolves have been reported in the Maine Legislature, providing for an amendment of the constitution so as to allow the soldiers to vote, submitting the question to the people at the regular State election, next September. On the 15th of October the Governor and Council are to examine the vote on the question, and if a majority have declared for it, to make proclamation of the fact. The amendment provides that the soldiers shall then vote the first Tuesday of November for Governor, members of Congress and Senators, the vote to be counted with that given in September.

☞ How many of the sparks at which great fires have been kindled, even now enlightening and warming the world, have been struck from the hearts and brains of men counted fools and fanatics in their own generation!—*Patience of Hope.*

☞ Some transfers of real estate in Portland have required on the conveying deeds stamps under the revenue bill to the amount of $60 in cost. The editor of the Argus states that he has seen a deed of property sold, bordered with stamps to that amount. The pictures made a very handsome, but expensive border.

☞ Hon. John F. Potter, ex-member of Congress from Wisconsin, has been appointed Governor of Dakotah. He is the hero of the bowie-knife, which blade he can now use on the Sioux Indians.

☞ The President has nominated Stephen Field of California, a Massachusetts boy, brother of Cyrus W. Field, and ex congressman Goodwin of Maine, to be Associate Justices of the Supreme Court.

P. S. A dispatch, on Monday, stated that he had declined.

☞ The wreck of a steamer, painted black, was seen 24th ult., off Abaco Island, possibly that of the *Florida*, which has not been heard of since the Sonoma chased her into a heavy gale about 100 miles from Abaco.

☞ According to the Atlanta (Ga.) Intelligencer, there is fear at the South that the leaders in the rebellion are getting ready to establish a monarchy, or at least would have no objections to a form of Government allowing them to be kings or lords, the "nobility and gentry."

☞ The riot at Detroit was less murderous than at first reported. Only one life, so far as known, was lost. The negro, whose trial for an outrage on a little white girl, was the occasion of the outbreak, has been sentenced to the State prison for life.

☞ A small party of California Secessionists, including Judge Terry, of Broderick duel memory, left Mazatlan for Texas on the 28th of February.

☞ All extra superfine flour at Petersburg, Va., has been impressed by the rebel Government at $19.50 per barrel, while the market price is $28 to $29.

☞ Higgins' Carpet Factory on 43d street, New York, was burned Saturday night. Loss $30,000.

THE REBELLION.

A Cincinnati dispatch states that the 17th Pennsylvania and the 4th Michigan cavalry, attacked Russell's rebel cavalry at Unionville, 10 miles from Murfreesboro', on Saturday, and cut them to pieces. The rebels lost 50 killed and 80 wounded, all by sabre strokes. Two Captains, three Lieutenants, and fifty-three privates were taken prisoners. All their camp equipage was captured. The Gazette's correspondent says—"Look out for stirring dispatches from this quarter within three days, if the rebels stand their ground."

A dispatch to the Cincinnati Gazette from Franklin, Tenn., says a large force of artillery, infantry and cavalry moved on Monday against the enemy posted at Spring Hill, and a dispatch to the Commercial from Murfreesboro' says a report reached there on the same day that Van Dorn's rebel force had been defeated and a greater portion of them captured.

The N. Y. Herald's Nassau correspondent states that the pirate Retribution arrived in their harbor on the night of Feb. 25. On the night of the 27th, three steamers, intended for the rebel piratical fleet, entered that port within an hour of each other—the Georgiana, brig-rigged iron propeller, recently cleared from an English port, and designed as tender to the pirate Alabama; the Britannia, sidewheel steamer, brig-rig'd and very fast; the iron screw steamer Gertrude, brig-rigged, also very fast.

A Bermuda paper notices the arrival at St. Georges, of the "neutral" steamer Cornubia, from Wilmington, N. C., with a cargo of cotton and tobacco. She reports being hotly chased by four of the U. S. blockading fleet, but escaped by superior speed.

TESTIMONIALS.—A late copy of the Richmond Enquirer, in referring to Hooker and McClellan, uses the following language:

"*At last the savage abolitionists of Massachusetts have the right man in the right place.* Heretofore, they have rather wished the defeat of Lincoln's generals (McClellan and others) on the Potomac, because they seemed to be soldiers, and not thieves or assassins; but, with Hooker, they feel at home; under Hooker, they count upon owning Southern plantations and giving law to Southern vassals. To possess himself of the property of others, a genuine Yankee will, perhaps, even *fight.*"

We congratulate Gen. Hooker upon the soundness of this testimonial in his favor. We hope he may have many more such heaped upon him.—*Spirit of the Times.*

WAR VESSELS FOR THE REBELS.—The Boston Post says it has information from London that five large steamers are in course of construction in the shipyards of the Clyde and the Thames, which, if they do not come into the hands of our government by purchase, will go into those of the rebels. One of the largest (building by Thompson & Co. on the Clyde) is to be wholly encased in malleable steel. She is to have two prows, one within the other, with an air-tight compartment of fifteen feet between them. She is of a peculiar model, designed to be used as a ram, and to present an invulnerable surface to shot, and will have a speed of sixteen knots an hour. The agents of the owners of this and other vessels have become disgusted with the rebels by a visit to the South; the steamers are offered for sale to our government, but if refused, they will be sold to the rebels.

SPECULATION IN CENTS.—While searching a house in Jersey City the other day in pursuit of a suspicious character, the police found two large sacks full of nickel cents, which had undoubtedly been collected with the view of obtaining a large premium for them. It was found necessary to prop up a building in the lower part of New York a few days since, as it was settling at a dangerous rate, and on investigating the cause two huge *tierces* full of nickel cents were found in one of the upper stories.—Their great weight had made the building settle.

☞ Mr. Jacob Stickney, of Newburyport, has been re-appointed Surveyor of lumber for the sixty-fourth consecutive year; and every year he has been qualified and performed the duty.

☞ Rev. Dr. Gannett, of Boston, was, on Monday evening, the victim of one of the abstractive operators—his pocket having been picked of $33 while riding in a horse railroad sleigh. The Post thinks the rogue should be severely sermonized.

☞ An unsuccessful attempt was made to break into the South Reading Bank, Mass., on Friday night. The rogues had partly opened the safes, when they were frightened by the approach of a watchman, leaving their tools behind.

☞ The iron-clads Nantucket and Keokuk, and gunboats Florida, E. B. Hale and Western World sailed from New York on Monday.

☞ Counterfeit bills on the "People's Bank," Derby-Lane, Vt., are in circulation in Lewiston, Me., and vicinity.

☞ Within a short time four newspaper offices, located respectively in Kansas, Iowa, Illinois and Ohio, have been destroyed by mobs.

☞ Secretary Seward has joined the New York Union league. There was no doubt of his loyalty before, but like a temperance man signing the pledge, the example is good.

☞ A gold speculator in New York on Thursday, who jumped in and jumped out at the right time, made a net profit of $100,000 in less than one hour.

☞ The Indiana Legislature adjourned *sine die* on Monday, without passing any appropriation bills.

Rubber Band Carpet Sweeper.

TRY IT! TRY IT!!

It saves Money; it saves Carpets; it saves Furniture; it saves Labor; it is cheaper than Brooms at five cents apiece.

It gathers up all dust, dirt, and loose lint on the carpets, and raises no dust to settle on the furniture, drapery, or ornaments, or to smother, stifle and irritate the lungs.

It does not wear the carpets half so much as brooms or any other sweeper.

It is the only practicable sweeper made, and the only article fit to sweep a carpet.

With our late improvements it gives universal satisfaction to all who use it according to directions. For sale at No. 12 Market Street by

ELECTION IN PORTSMOUTH.

Tuesday was a fine pleasant day, with a delightful winter temperature: the ground was covered with a foot of snow, and the sleighing was very good.

All parties were busy; and had been so for a month previous to the election. The issues were all national, and were generally understood by intelligent and candid men. One party openly avowed the policy of an immediate armistice with the rebels, opposition to the administration and to emancipation, and of calling for an unconditional surrender of the abolitionists:—while the other parties advocated a vigorous prosecution of the war, the support of the administration, and the suppression of the rebellion by any and all the means within reach of the United States.

Great efforts were made, in the way of conventions, lectures, discussions and paper documents, to influence the voters,—and here we have the result.

VOTES FOR REPRESENTATIVE TO CONGRESS.—In 1859, Capt. Marcy had a majority of 259 votes in Portsmouth, over Col. Marston: in 1861 he had 21 majority over the same competitor. This year, 1863, Eastman has 162 majority in the city, over Capt. Marcy.

In 1861, Stark had 7 majority in Portsmouth; in 1862, Gov. Berry had 204 majority here. In 1863 Gilmore has 105 majority, 138 plurality.

On the question,—"Is it expedient to alter the Constitution?" Portsmouth gave 5 Nays,—but no Yeas.

The Republicans were out in large numbers, with the Portsmouth Cornet Band, in the evening, and made congratulatory calls upon the Representatives elect in Wards 1 and 2.

"BUCKLEY'S."—It will be seen that this popular company will appear at the Temple on Saturday and Monday evenings next. They have just given concerts in Portland, and the local papers speak in high terms of their performances.

ACKNOWLEDGEMENT.—Major Farnsworth expresses his thanks to Wm. H. Hackett, Esq., of Portsmouth, for important aid in the discharge of his labors in paying the soldiers of the Second Regiment, who are stationed at that place.—*Manchester American.*

☞ Nehemiah Colby, Esq., formerly of Candia, died of consumption at South Berwick, March 6th. He was a Mail agent upon the Eastern route during Mr. Buchanan's administration. He was about fifty years of age, and was buried with Masonic honors, at Candia, on Monday afternoon.

☞ We are pleased to learn that Sergeant John W. Brewster, of this city, who went out as 3d Corporal of Co. B, Fourth Regiment, has been promoted to 2d Lieutenant.

☞ Schr. Village Maid, of Gosport, Isles of Shoals, 60 tons burthens, has been purchased by Ezra Morrill & Son, of Salisbury, for $1600.

☞ The N. Y. Tribune's Washington correspondent writes: "So seemingly small an incident in the Senate Chamber as Gov. Sprague's filing and indorsing his letters as he read them at his desk, attracted attention on Saturday, and excited comment.—He comes here with the reputation of being as good a business man as there is in New England. Managing an industrial patrimony which has grown to be ten millions, charged with the supervision of great monied corporations, superintending a cotton manufacture which employs 6,000 operatives, he enters Congress with an administrative experience, practical wisdom and a power of rapid and prolonged labor which give promise of a usefulness in the United States Senate which no lawyer has ever exceeded, and but few have equalled."

☞ Gold opened in New York on Tuesday at 161. At 1 o'clock it was quoted at 162, and U. S. Sixes at 101 1-2 and Seven-Thirties at 105 1-4.

☞ The Camp Blunt, Kansas, correspondent of the St. Louis Democrat, under date of the 26th ult., says the Cherokee National Council has just adjourned.—This was the same Council that was coerced into the passing of an ordinance of Secession by the rebel army. Their first act was to repeal it unanimously. They then passed an act depriving of office in the nation, and disqualifying all who continue disloyal to the United States Government. They then passed an act abolishing slavery.

☞ The bill concerning letters of marque and reprisal provides that the President of the U. S. shall be authorized to issue to private armed vessels of the United States commissions or letters of marque and general reprisal in such form as he shall think proper, under the seal of the United States, and make all needful rules and regulations for the government and conduct of such vessels, and for the adjudication and disposal of the prizes and salvages made by them; provided that the authority conferred by this act shall terminate at the end of three years from its passage.

☞ They have caught the first salmon of the season in the Penobscot. The fish was very large and promisingly fat. The event is one of note in the region. It is the barbinger of spring; but "it is not every swallow that makes a spring," is an old adage, especially when it is a swallow of salmon.

THE CEDARS OF LEBANON according to Dr. Hooker, the eminent botanist, do not now exceed four hundred in number, and they have gradually diminished since they were first mentioned by modern writers.—There are none of recent growth, as every young plant as it springs from the seed is browsed down by the goats, so that no young tree has a chance to grow up to take the place of the old ones as they fall. The Newburyport Herald says Dr. Hooker is mistaken in his statement that none of the trees are over five hundred years old, as several of them can be identified as the very ones described by the Crusaders.

☞ In New York, last week, during the excitement occasioned by the fall in gold, one man, who came trotting along under a load of $5000 upon his back, had the felicity to have his bag break, and the gold flew on all sides, and was soon imbedded in the mud. A line was formed for a time by the police to allow the excited man to gather up his scattered treasure. But three of the number could not be found.

BUY CALIFORNIA WINES

They are the Purest!
The Best!
The Cheapest!

The "sunny slopes" of "Los Angelos" have announced to the world that America is a wine-growing country, and as the discovery of gold sent a thrill through the old world, so will the discovery of these Wines startle them again, as it says, "one more link broken which has bound us to Europe," "one more step to independence." Let every man, woman and child who uses Wine, see to it that they buy none other than these.

"The Hock" is a most delicious Wine, and rivals in delicacy its German predecessor.

The "Angelica" and "Muscatel" are melting, luscious and rich, and will take the place of Malaga, Tokay, or other rich Wine.

The Port has a fine flavor and body; and The Port is excellent because it is pure.

ANOTHER NEW STOVE!

THE MODEL COOK

FOR WOOD OR COAL.

The *novel*—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the larger oven, for baking; giving an oven nearly 2 feet long! or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! A check draft is applied to this stove by means of which the consumption of fuel is greatly lessened, and a steady fire can be kept day and night if desired.

THE MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be THE STOVE for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is needed.

We believe the MODEL COOK to be the very best Stove in the Market, and invite every one to examine it whether they wish to purchase or not. It has had a very extensive sale since its introduction. Reference might be made to more than a hundred families in this city or vicinity who are using the Stove, and give it the highest commendation.

We refer to the following individuals who have purchased the Model Cook:—

David Kimball, Thos. F. Burt, John T. French, Rev. Mr. Davies, Wm. Fettigrew, Capt. John Davis, Benjamin Raitt, Mrs. Ann Perkins, James W. Jarvis, Francis C. Jarvis, Thos. L. Tullock, Jacob Wendell, Capt. Jacob Thompson, Gen. J. G. Hadley, st. Melvin Huntress, Jos. D. Akerman, James F. Shores, Wm. C. Newton, Horton D. Walker, Benj. Cheever, John Trundy, Richard L. Hamblin, Geo. Rice, Benj. F. Cannon, Benj M. Parker, Charles A. Wiggin, George W. Plumer, Nath'l Dennett, Henry F. Gerrish, John Harratt, Thos Murphy, Capt. Wm. Lambert, Joseph Stiles, John Senter, Wm. Bell, Cyrus Plumer, Freeman Hird, James M. Locke, Daniel L. Randall, Isaiah Wilson, John E. Roberts—of Portsmouth; Samuel C. Dixon, Daniel F. Pryor, Cushman Pryor, of Teofethen's Island; Geo. N. Dixon, Samuel F. Paul, Elias Remick, Timothy Dame, Elder, Wm. S. Locke, Benj. Furnald, Mrs. Wm. Locke, Kittery; R. F. Gerrish, Kittery Point; Hon. Clement March, Albert Blaisdell, Stephen M. Weeks, Geo. W. Davis, Greenland; John Smart, Stratham; Mrs. Reuben E. Jenness, David Jenness, Moses Philbrick, Rye.

VICTOR COAL STOVE.

We offer this beautiful coal burner to the public, with full confidence in its merits.

It was brought into market two years since, and has come rapidly into use.

The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation. The arrangement for dumping the ashes is very fine—no dust need escape into the room—a continuous fire may be kept throughout the winter—the coal all burned, and no clinkers made.

The quantity of fuel used is very small indeed. There is in this stove an excellent arrangement for ventilating the room in which it is placed; a feature not possessed by any other parlor stove.

Some of the sizes are provided with an oven and boiling place, making them very desirable for a dining room.

We sold a large number of Victor Stoves in our city last season, and they receive the highest commendation from those who are using them.

We have also the celebrated McGregor Stove, so well known in the market as to need no commendation.

A great variety of cheaper Stoves for coal and wood—Coal hods—Patent Coal-sifters.

COAL LININGS,

and Repairing pieces for most of the stoves in use.

Pin Worm Syrup.

Just received Dr. Gould's PIN WORM SYRUP—the only safe, sure and effectual remedy ever offered to the public for the removal of Pin Worms. The above valuable medicine for sale at the Medicine Store of B. HITCHINGS.

The peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The disease it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purifying and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far supe rior to any other remedy yet devised, is known by all who have given it a trial. The list of its cures verifies truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: **King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses,** and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made, when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it heals all diseases, and does greatly shorten the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffering and danger of disease thereby. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lark within the system or burst out on any part of it.

We know the public have been deceived by many compounds of *Sarsaparilla*, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S
CHERRY PECTORAL,
The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting to the unfortunate victims of disease that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, impotency, Scrotula, Gonorrhœa, Ulcers, pain and distress in the region of procreation, inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, Nervous Irritability, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating marriage, consider the effects of experience, and be at once restored to health and happiness.

Persons who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Dr Dow has also for sale the French Female Pills, which have been extensively used, and warranted the best preventive. Order by mail. Three for $1 and a red stamp.

April 7—1y Staw.

CAUTION

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all those painful and dangerous diseases, Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new and philosophic principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that large numbers have been cured in the short time the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 9 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which makes it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and tea iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and will burn continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and pleasantness in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention!

For economy, purity of air, and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, it is economy to produce headache so much complained of in other Furnaces, is entirely obviated.

Efforts have been aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing little more merit than over former methods, while many have proved a total failure. The reason for this is obvious. The principle of the game being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and a very little time, a current of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 25 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the concave can be made to consume the gases of fuel, as they pass off with a large amount of heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting grate is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert K. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. Gums will not shrink from its use, by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easy as a saucer, as when finished it can work preserve one solid piece.

6th. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*

No. 5 Daniel St., Portsmouth,

Has had four years of practical experience in making this material, and will guarantee satisfaction in all cases entrusted to his care.

Portsmouth, Jan. 1, 1863.

DENTISTRY.

No. 60 CONGRESS STREET,
Portsmouth, Jan. 1st, 1863.

DR. GOODALL

Would respectfully inform his patrons and the public, (having had of late many calls to insert teeth upon VULCANIZED RUBBER,) that he will continue to insert them upon VULCANIZED RUBBER, as heretofore, and is now prepared to do all work upon RUBBER, or the other bases of GOLD and SILVER, as formerly, if preferred.

The Rubber has several important advantages, viz.: It is very light and elastic, and consequently is perfectly easy to the muscles of the mouth and cheeks. There are no interstices or open joints to collect food, &c.; consequently they can be worn night and day, and are very easily kept neat and clean.

Beside all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the section of it of course much stronger than is possible in Gold or Silver.

Any one who is waiting for their permanent teeth will I am confident, be perfectly satisfied with the Rubber, as a base. The expense is but a little more than for Silver, and you get the same teeth (in blocks) that you would pay $60.00 for an upper or lower set on Gold.

In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by the best Dentists too. I will warrant a perfect fit and teeth from the best manufacturer in the country, S. S. White.

ALL OTHER OPERATIONS IN DENTISTRY, I will do at the usual rates. I will here mention that my price for EXTRACTION is 25 cents.

I take pleasure in referring the public to Dr. THEADWELL, Dr. BOARDMAN, Dr. OLIVER and Dr. BENNETT, for particular success in extracting Teeth. Teeth extracted without pain, and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with **Neatness and Dispatch.** All other operations in Dentistry, I will do at the usual rates.

GRACE'S CELEBRATED SALVE,

A SURE RELIEF FOR THE SUFFERER.

This Salve is a vegetable preparation, invented in the 17th century, by DR. WM. GRACE surgeon in King James's army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day, and was regarded by all who knew him as a public benefactor.

Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Flesh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.
Grace's Celebrated Salve cures Scurvy.
Grace's Celebrated Salve cures Callouses.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sores
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find the Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box at hand in case of accident, for it will save them much trouble, suffering, and money. All it wants is a fair trial to cure old and inveterate Sores.

ATTENTION, THE WHOLE!
RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians for sarsaparilla, Syrup, &c., but all the obtained no relief until I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. SWETT'S in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it, and I have acted as agent for the sale of it." JOSIAH JENNESS.
PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.
From ELDER I CHESLEY, *Lee, May* 31, 1841.
DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our locality in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY.
☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. SWETT, Portsmouth, N. H., promptly attended to. may26o

New American Cyclopedia.
This most valuable publication will be completed by the issue of the 16th Volume during the present month; forming a complete epitome of human knowledge. Those who have taken the volumes as they have been issued, and have most frequently commented its pages, have been most completely satisfied with it. Says one: "We who have occasion to refer to it daily, can speak of the literary and mechanical execution with entire satisfaction. THE NEW AMERICAN CYCLOPEDIA is correct, full in its information and conveniently arranged for reference; the articles are concise and complete." On the issue of the 16th Volume the price will be raised 50 cents per volume to all who have not been subscribers to the work.

Portsmouth, N. H.

THURSDAY, MARCH 12, 1863.

NEW-HAMPSHIRE ELECTION, 1863.

A Concord dispatch, Wednesday afternoon states that if Eastman, dem., is not in fact elected Governor, he will want only a few hundred votes. His plurality will be from 4000 to 5000. In the 1st Dist. Marcy is probably elected to Congress by from 200 to 300 majority. [Dispatches received in this city claim the election for Eastman. And we learn that returns had been received in Concord at half-past three o'clock from all but 15 towns in the district, in which Eastman had, apparently, 340 maj. The vote for Governor was taken in some of these towns. Should this estimate be correct and the remaining towns go as last year, Eastman would have 295 majority.] The official vote must decide the 2d and 3d districts. The Democrats carry Merrimack, Grafton, Coos, Carroll and Belknap counties; the Republican and Harriman ticket combined, Rockingham, Strafford, Hillsborough, Cheshire and probably Sullivan It is doubtful whether the Democrats have elected 3 of the 5 Councillors. The Republicans will have a large majority in the House as last year; the Senate may stand 6 to 6; perhaps the Republicans and Union party have secured 7 or 8 of the 12 members.

aid that Hatch is elected Senator in the 1st District by a small majority.

THE REBELLION.

A Memphis letter states that the ram Lafayette passed down the river on the night of Feb. 28th, bound to Vicksburg, for Admiral Porter.

A Norfolk letter states that Col. Dodge had just returned from a successful reconnoissance. He marched one hundred and ten miles, visiting Southfield, Chuctatuck and Blackwater Ridge. He met the enemy at Windsor, near the latter point, and drove in their advance upon the main body, and then attacked them on the flank and forced them to retire to the Blackwater. The fight lasted only forty minutes.

There were rumors at Memphis on Tuesday of an engagement at Fort Hudson.

☞ At the last session of the Illinois Legislature the Democrats so amended the charter of Chicago as to turn out of office every member of the Board of Education, and all will have to be elected by the new Mayor and Council. They propose to remove all abolition influences from the schools, which means, of course, all influences opposed to slavery, the slave confederacy, secessionism, &c. It is also intended to remove all New England influences, all New England teachers, all New England books, &c.

☞ Recent rebel papers give the following:—

Gov. Letcher regards the forcible seizure of flour by the rebel military as an oppression, and unlawful, and has referred correspondence on the subject to the Legislature.

Gov. Brown, of Georgia, has issued an order calling out all the militia and officers to proceed to the defense of Savannah.

The Virginia Assembly has transferred all the troops over to the rebel general government. This course is not received with favor, and the Richmond Examiner says it fears few men will be found on the day of transfer.

A recent report of the rebel Secretary of War says that he apprehends no difficulty in obtaining a sufficiency of arms and ammunition, but the question of subsistence is rather an alarming one. The harvests of the past season, he says, have not generally proved propitious, and notwithstanding the much larger breadth of land devoted to the culture of cereals and forage, the product in many extensive districts is below the average.

☞ A resolution has been offered in the Missouri Senate that the two Houses go into joint session for the election of two U. S. Senators on the 16th of March; that the joint session shall only be discharged by that duty, or by concurrent resolutions of the two Houses.

☞ The Skowhegan Farmer says that a kind hearted lady, whose favorite cat received a fatal injury by a fall from a barn scaffold, called in the family physician and had chloroform administered to relieve it from pain and terminate its unhappy life.

☞ In Providence, on Saturday, Chas. Travers, for stealing a copy of the Bulletin from the door of a subscriber, was fined ten dollars and costs.

☞ Rebel accounts states that the steamer Nashville had a cargo of 920 bales of cotton on board when she was destroyed by the Montauk.

☞ General Robert Toombs of Georgia has resigned his commission in the rebel army. He assigns no reason for his resignation.

☞ The report of a rebel advance up the Shenandoah is contradicted by Washington despatches.

DECLINING.—Gold opened in New York on Wednesday at 158 1-2. U. S. Sixes sold at 102 1-2, and Seven Thirties at 105 1-2.

CURIOUS STATISTICS OF WAR.—Gen. Rosecrans, in his report of the battle of Murfreesborough, estimates that of 20,000 rounds of artillery fired by the Unionists 706 hit the enemy; and of 2,000,000 rounds of musketry, 13,832 were effectual. This would show that twenty-seven cannon shots, or one hundred and fifty-five musket shots, were required to hit one man. Averaging the latter at one oz. each, the weight of metal required in bringing down an enemy would be 9 lbs.; while of the former it would require about 225 lbs., or once and a half the weight of the human body. As, however, the proportion killed or dying from wounds would be only about one-fourth of the number put *hors du combat*, the figures given above must be increased to the same degree. It will readily be seen how much more destruction is dealt by the musket than the loud-mouthed cannon, when firing either round shot or shell.

THE TROUBLES IN UTAH.—The agitation in Utah which threatens the peace of Mormondom grows out of the Act of Congress passed in 1862 for the punishment of polygamy, and the boldness of Gov. Harding, the Territorial Governor, in calling the attention of the Utah Legislature to their duties and responsibilities in the matter.—His rebuke of Mormon disloyalty to the Union also caused much irritation. The Mormon presses refused to publish his address to the Legislature, and matters have been growing worse ever since. According to the census of 1860 the population of Utah is only 40,296. This insignificant community is insufferably impudent and factious.

☞ The U. S. Senate in executive session on Tuesday confirmed a large number of nominations,—civil, military and naval. Among them,—Hon. John N. Goodwin, of Maine, to be Chief Justice of the U. S. Court for the Territory of Arizona; Joseph J. Lewis, of Pennsylvania, to be Commissioner of the Internal Revenue, vice Geo. S. Boutwell, resigned; Thomas W. Olcott of New York, to be Comptroller of the Currency; Chief Engineer Benj. F. Isherwood to be Chief of the Bureau of Steam Engineering.

CHEER.

Seek to be patient in distress,
The weariest night at last must close;
Tears are akin to happiness,
The thorn is neighbored by the rose.

The love that keeps the buried flower
Safe from the winter's stormy breath,
Will guard us through each evil hour,
And lead us safe to life, through death.
—*Alice Cary.*

STRAWBERRY BANK IN WINTER.

No one of Portsmouth's absent sons loves the dear old place better than does Benj. P. Shillaber, Esq. And it is equally safe to say, that our people hold none in higher esteem than they do him. Therefore, the following extracts from the humorous account he gave in the Boston Saturday Evening Gazette, of a trip down here last week, will be read here with more than the general interest it will attract anywhere.

It was an idle freak that prompted a run a way to Portsmouth, last Monday, and railroads are so tempting! There is a superstition among sailors, that there are certain spiritual lines connecting friends on land and sea, and when a vessel moves rapidly it is held that those on shore are pulling it along. Railroad lines in a measure represent these, and it is not a very wild idea that friends at the far-off terminus may be making the faithful iron the means of drawing us. At least, after embarking in the Eastern Railroad car, the consciousness of being drawn was distinct and positive; and was not diminished until old Portsmouth was reached—the dear, delightful old place; in verdure clad or in snow blankets, very beautiful and precious to the writer.

There was "something in the wind" I saw as I arrived. The flags were flying at several points, and I learned that Gen. Wool was to arrive in town from Portland in the afternoon; the anniversary of Co. C, Governor's Horse Guards was likewise to take place that evening at the Rockingham House, and I found that I had arrived in the nick of time. A generous fall of snow the night previous had given occasion for the runners, and the streets were merry with the sound of sleigh bells. But, mingler the stir and the glory of a bright sunshine, the great cloud that gloomed the land was over everything—the War. It was the first salutation, it gave tone to every thought, it clung to the people like an incubus, everything was subordinate to it. The flag provoked warlike remark, the General's coming was in direct reference to it, and party politics, which they intensity so in New Hampshire, take their hue from it.

With regard to politics, those who can recall the old time electioneering spirit of the whig and democratic parties, when the whole business of every day and hour was made subservient to party, may imagine the state of things at present existing. The assumed-to-be simon pure Democrats—the Peace party—are very virulent for peace men, scarcely coming up to the apostolic standard of Ladd; while their antagonists, the Republicans, are as much in earnest, repudiating all idea of peace and peace men, so much so as to provoke the remark that if the Prince of Peace were at present to appear, he would be put in Fort Constitution if he dared to breathe the word peace. Between these two, there is another party—the War Democrats, who believe in aiding the administration in every way that will make it efficient in crushing the rebellion, holding that it is a cardinal principle of the true Democracy to adhere to and support the *Government*, whoever represents that government, in the day of peril—not stopping to ask the question if they subscribe to this or that item of their political creed.

Gen. Wool arrived as was expected by the P M train from Portland, and was greeted by a large concourse of people, at least half of whom were ladies. As Dryden says "none but the brave deserve the fair," and the fair, always ready to observe the brave, divided their attention between Gen. Wool and his staff. * * * *

Next morning, learning that the General would visit Fort Constitution—a spot made sacred to the Democracy by the imprisonment therein of the martyr Batchelder by the "tyrant" Lincoln—I embarked in a four-wheeled sleigh for Newcastle, with "Captain Bob," over a road that in summer is unexampled for its beauty, but which in winter is somewhat bleak; a fierce east wind, in the present instance, blowing up from the sea lots of damps for our discomfort. I had heard about carrying coals to Newcastle, but thought from the state of the temperature, that very little could have been carried there lately. Take an egg from the fire and it will cook from what seems memory of the heat to which it has been subjected; so the memory of cold appears to chill one to think of it afterwards by the fire, as it did me. It was a winter experience, however, and worth the dare.

Fort Constitution has seen its best days, and hardly can be called a defence of Portsmouth Harbor; therefore Congress has appropriated some $250,000 for remodelling and building it in a manner suited to these iron-plated times. It is a venerable fort, dating in its present form from 1808, and presents the flavor of "mild decay" It is in charge of Sergeant Davidson—Captain of Volunteers—who has for thirty years been at the post, and now the sole garrison. I found him the same upright, downright, good soldier and gentleman that I knew him twenty five years ago, though a little weather-worn. Though ranking but an ordnance sergeant, he has the bearing of a Major General, as he should have been; and as he gave his two extemporized assistants the order for the salute welcoming Gen. Wool, he did it with the air of a commander.

A stranger entering the Fort at that moment, would have been in doubt which to salute, the veteran General or the veteran Sergeant, who owns Fort Constitution by right of possession. Those guns spoke his praise, and no salute could have been better given, with a force of one hundred men to do it. During the raising of the New Hampshire regiments, Sergeant Davidson did much towards perfecting them in their discipline, in gratitude for which they gave him several valuable presents which he shows with great satisfaction. He was appointed a Captain by Gov. Berry, and designed to go to the war, but the Government, who knew his value where he was, refused permission.

The General, after visiting the Navy Yard, took boat for the Fort, where he arrived about noon, and was welcomed by the Sergeant's honorary salute. After a thorough examination of the old fort, the General and his party took coach for Portsmouth.

The people had earnestly looked for the distinguished visitor, and our advent into their town awakened much interest, and many a face appeared at windows along the route, as if wondering which of us was Wool. While our steed was enjoying the quiet of a shed upon the premises several gathered round, and one asked the question if that was the carriage Gen. Wool came in. The young man appeared serious, but we doubted him a moment afterwards when he attempted to explain to us that a vessel was steered by a rudder in her bows, thinking us persons from the country.

The excavations for the new fort, and those for Fort Mc Clary, on the shore opposite, are all under charge of Lieut. Paine, successor to Gen. Benham, and Mr. Williams informed us that the weather has offered no impediment to the work since November. It is rather a lonely life at the Fort, and Mr. Williams has been monarch of all he surveyed, sharing as far as allowed, the general dignity of garrison, with the veteran Sergeant. It is a beautiful place for summer resort, and undoubtedly will be enlivened with visitors when the weather permits.

Our return was in a pelting snow storm, that shut out landscape and watercape.—I never pass the old toll gate at Newcastle bridge without thinking of the story of George Schaffer, who many years ago lived in Portsmouth. I must tell it as a tribute to his funny memory. Once he had been to Newcastle, gunning, and was coming home with his game bag empty and very weary, when he stopped at the toll house for a moment's rest. Says he to the toll-taker, "There's a fine flock of ducks back here in a pond, what will you let me fire into them for?" "Can't do it," replied the tollman, "I don't want to have my ducks killed." George put his gun into the toll house, and walked back to take another look at the ducks. While he was gone, the tollman, who was a wag, drew the shot from the barrel and then replaced the gun. George returned and renewed the question. "Well," said the tollman, "though you are called a good shot, I don't believe you could hurt them much. Give me a dollar and you may fire." The dollar was paid, and quite a party, who had gathered round, went back to witness George's discomfiture. He raised the gun, fired and killed nine of them. "The d—l!" cried the tollman, in consternation, "how did you do that? I took the charge out of your gun." "Yes," said George, "I supposed you would. I always go double charged."

The much needed accommodation for a new depot will probably be secured to Portsmouth the present spring, as the plans are drawn and the materials ready. Good depots on this admirable road will reflect new credit on its management. This at Portsmouth is much needed.

What capital opportunity is afforded on the cars for the study of character. Conversing with a gentleman on matters general and particular, an individual on the front seat startled us with the question "Which is the prettiest place in this new world?" Summoned thus to give an answer on a matter about which there might be such a diversity of sentiment, we hardly knew what to say, but, finding strength, I attempted to frame a theory of "dearest spots" based on the fact that affections sanctify a scene and make it beautiful; as Holmes says, "Those eyes are fairest all the while, that for us wear the kindest smile;" but he wouldn't admit this—pinning us to a categorical answer: which is the prettiest? I put in a claim for old Portsmouth, but he urged that affection for a place was prejudice. Lynn, he said, beyond a peradventure, was the prettiest place in the new world. He argued warmly that it was the most beautiful because it combined all the elements of beauty—ocean, hill, plain and wood. It was delightful to listen to the eathetic manner in which he urged his point. He had his speciality in poetry, likewise, and Byron was the embodiment of poetical beauty as Lynn was of the physical.

It does one good to break away from the monotonous chain that engirts a sedentary chap, and the chair seems easier and the collar less evident after the recuperative influence of even a momentary wandering in winter. B. P. S.

Scurvy and Scrofulous Eruptions will soon cover the bodies of those brave men who are fighting their country's battles.—Night air, bad food, and drenching rains will make sad havoc with the strongest, therefore let every man supply himself with HOLLOWAY'S OINTMENT, it is a certain cure for every kind of skin disease. Only 25 cts per Pot. 21i

Local.

☞ Our Daily edition, Wednesday morning, was early exhausted—and there was considerable call for papers which we could not supply, although we printed a large number of extra copies for the occasion. The only sure way to get the Chronicle is to subscribe for it regularly—though many folks think it is cheaper to borrow or steal it, or the reading of it. At any rate there are not a few citizens who claim to be among our live business men, and who always know what is in the Chronicle; yet who do not aid in any way to sustain the Daily, though they are fond of fancying that they encourage all laudable home enterprises. Fact, reader—but we hope *you* are not included in that class.

☞ Our thanks to Messrs. A. W. Ham, E. W. Brown, and E. R. Laighton, Ward Clerks in this city, for furnishing prompt and full reports of the votes at their respective polls. And to every Ward Clerk who has previously occupied their places, for similar repeated service to us and the public. Also to the friends who forwarded the reports of various town meetings—Rev. Mr. Beebe, at Gosport, Mr. Gee Pickering at Newington, and we don't know whom else from other places.

☞ The following sums were contributed by ladies, to aid in enlistments for the companies of Capts. Thacher and Betton:

Miss S. E. A. Brown	$25 00
Mrs. J. W. Foster	10 00
Mrs. J. M. Pretlick	10 00
Miss S. H. Foster	10 00
Miss M. E. Brown	10 00
Mrs. J. B Upham	5 00
Mrs. J. F. Shores	5 00
Mrs J. A. Grace	5 00
Mrs. M. H Fisher	5 00

Contributions of smaller sums were also received from

Mrs. E. F. Sise,	Mrs. Halliburton,
Mrs. N. March,	Mrs. Capt Wendell,
Mrs. O. L. Towle,	Mrs J. M Edmonds,
Mrs. J. M. Edmonds,	Mrs. H. C. Gerrish,
Miss F. Laighton,	Mrs. Dr. Treadwell,
Mrs. W. Downie.	

☞ Snow Slides are now the order of the day—so look out or look up where you leave your horses, and take heed to your ways yourself too. Several teams have stampeded about town, but done no harm, we believe; and a tremendous avalanche from Exchange Buildings Wednesday afternoon, struck a lad on the head and almost buried him, but he luckily escaped with a little nose bleeding.

☞ On Monday, Wm. McGrath, the sailor who stabbed the mate of the barque Annie E. Sherwood, at Portland, was again brought before the U. S. Commissioner, and pleading guilty to the charge, was held in the sum of $5,000, to answer at the April term of the Circuit Court.

☞ A Republican and a Democrat got into a dispute on Water street, on election day. One, a cripple, challenged the other to fight, but the challenged party objected to fighting with the cripple, as it would not be on equal terms. Soon after, a second cripple, a Democrat, hobbled along, who on hearing the story, offered to fight cripple No. 1. Both dropped their crutches and pitched in, affording no little "sport" to the bystanders. I.

☞ We understand that Mr. J. H. Billings, who is about to remove from Greenland to Epping, gave a farewell dance to his numerous friends and acquaintances hereabouts, at Aca emy Hall, Greenland, on Wednesday evening.

*GRAND FANCY DRESS BALL!

A Grand Fancy Dress Ball will be given at Union Hall, on Friday evening, March 20, on which occasion all Nations will be represented in full Dancing Costume.—Dancing from 8 o'clock till 3. Music by Gilpatrick's Waltz and Quadrille Band. Tickets 50 cents. Ladies free.

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)
75 State Street, opposite Kilby Street,
BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

BUSINESS NOTICES.

CHAPPED HANDS.—Almost everybody is more or less troubled at this season, with chapped hands. They are very annoying, and often times quite painful. The best remedy we have found—and we have tried many a one—is *Grace's Celebrated Salve.* We have tried this Salve and found it to work to a charm, removing the soreness immediately, and restoring the skin to its wonted smoothness. This salve has a high reputation for its excellence as an application to sores and wounds, and if it operates as well in other cases—and we do not doubt it—as it did in the instance we have referred to, it is really an invaluable remedy and should be in every family.—*Lynn Reporter.*

MADAME ZADOC PORTER'S CURATIVE BALSAM.—"This invaluable Medicine possesses the extraordinary power of relieving immediately Coughs, Colds, Hoarseness, Difficulty of Breathing, and Huskiness.—Such at least we have found."—*N. Y. Herald of Health.*

BETTER THAN PORT.—Speer's Sambucca Wine is better than pure Port, and since the adulteration of the latter must take its place it is pure and really excellent and health-giving.—*Troy Times.*

BUY CALIFORNIA WINES

They are the Purest!
The Best!
The Cheapest!

The "sunny slopes" of "Los Angeles" have announced to the world that America is a wine-growing country, and as the discovery of gold sent a thrill through the old world, so will the discovery of these Wines startle them again, as it says, "one more link broken which has bound us to Europe," "one more step to independence." Let every man, woman and child who loves Wine, see to it that they buy none other than these.

"The Hock" is a most delicious Wine, and rivals in delicacy its German predecessor.

The "Angelica" and "Muscatel" are melting, luscious and rich, and will take the place of Malaga, Tokay, or other rich Wine.

The Port has a fine flavor and body; and The Port is excellent because it is pure.

ANOTHER NEW STOVE!

THE MODEL COOK

FOR WOOD OR COAL.

The *novel*—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a "Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately (or a roaster or (by the removal of a simple plate) in connection with the larger oven, for baking; giving an oven nearly 3 feet long! or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! A check draft is applied to this stove by means of which the consumption of fuel is greatly lessened, and a steady fire can be kept day and night if desired.

THE MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be THE STOVE for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is needed.

We believe the MODEL COOK to be the very best Stove in the Market, and invite every one to examine it whether they wish to purchase or not. It has had a very extensive sale since its introduction. Reference might be made to more than a hundred families in this city and vicinity who are using the Stove, and give it the highest commendation.

We refer to the following individuals who have purchased the Model Cook:—

David Kimball, Thos. F. Burt, John T. French, Rev. Mr. Davies, Wm. Pettigrew, Capt. John Davis, Jeremiah Raitt, Mrs. Ann T. Perkins, James W. Jarvis, Francis C. Jarvis, Thos. L. Tullock, Jacob Wendell, Capt. Jacob Thompson, Gen. J. G. Hadley, G. Melvin Huntress, Jos. D. Akerman, James F. Shores, Wm. C. Newton, Horton D. Walker, Benj. Cheever, John Trundy, Richard L. Randall, Geo. Rice, Benj. F. Caney, Benj M. Parker, Charles A. Wiggin, George W. Plumer, Nath'l Dennett, Henry F. Gerrish, John Harratt, Thos Murphy, Capt. Wm. Lambert, Joseph Stiles, John Seeley, Wm. Burt, Cyrus Plumer, Freeman Hurd, James M. Looke, Daniel L. Randall, Isaiah Wilson, John E. Roberts—of Portsmouth; Samuel C. Dixon, Daniel L. Pryor, Cushman Pryor, of Trefethen's Island; Geo. N. Dixon, Samuel F. Paul, Elias Remick, Timothy Dame, Eliot; Wm. S. Looke, Benj. Fernald, Mrs. Jacob Looke, Kittery; R. F. Gerrish, Kittery Point; Hon. Clement March, Albert Blaisdell, Stephen M. Weeks, Geo. W. Davis, Greenland; John Smart, Stratham; Mrs. Reuben P. Jenness, David Jenness, Moses Philbrick, Rye.

VICTOR COAL STOVE.

We offer this beautiful coal burner to the public, with full confidence in its merits.

It was brought into market two years since, and has come rapidly into use.

The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation. The arrangement for dumping the ashes is very fine—no dust need escape into the room—a continuous fire may be kept throughout the winter—the coal all burned, and no clinkers made.

The quantity of fuel used is very small indeed. There is in this stove an excellent arrangement for ventilating the room in which it is placed; a feature not possessed by any other parlor stove.

Some of the sizes are provided with an oven and boiling place, making them very desirable for a dining room.

We sold a large number of Victor Stoves in our city last season, and they receive the highest commendation from those who are using them.

We have also the celebrated McGregor Stove, so well known in the market as to need no commendation.

A great variety of cheaper Stoves for coal and wood—Coal-hods—Patent Coal-sifters.

COAL LININGS,

and Repairing pieces for most of the stoves in use. Job Work attended to with dispatch.

Morning Chronicle

MISSING.

Not among the suffering wounded,
Not among the peaceful dead;
Not among the prisoners pining:
That we all the message said.

Yet his mother reads it o'er,
Until through her painful tears
Fades the dear name she lavished him
For almost two-and-twenty years.

Round her all is peace and plenty:
Bright and clean the yellow floor,
While the morning glories clinger
All around the kitchen door.

Softly the clock old house cat
Purrs in his patch of sun;
Neatly shines the oaken drawer;
All the morning's work is done.

Through the window comes the fragrance
Of a sweet harvest morn—
Fragrant songs from distant reapers,
And the rustling of the corn.

And the rich breath of the garden,
Where the golden melons lie;
Where the blushing plums are turning
All their red cheeks to the sky.

Sitting there within the sunshine—
Leaning in her easy chair,
With soft lines upon her forehead,
And the silver in her hair.

Blind to sunshine—deaf to fragrance,
On that royal harvest morn;
Thinking, while her heart is weeping,
Of her noble brown-eyed boy.

How he left her in the spring-time,
With his young heart full of fame—
With his clear and ringing footstep—
With his smile and super frame.

How with mien that she were trimming
As he kissed a last "good-bye,"
Yet she heard him whistling gaily,
As he went down the hill.

Missing! Who should be missing?
He would fight until he fell;
And if wounded, killed or prisoner,
Some one there would tell.

Missing. Still a hope to cheer her!
Still triumphant he may come,
With the victor army shouting,
With the clam-or of the drum.

So through all the days of autumn—
In the eve and in the morn;
She will hear his quickening footstep
In the rustling of the corn.

Or she she will hush the household,
While her heart goes leaping high,
Thinking that she hears him whistling
In the pathway through the rye.

Far away, through all the autumn,
In a lonely, lonely glade—
In the green desolation
Where the stars shed made,

With the rust upon his musket—
In the eve and in the morn—
In the year, proof of the leaves
Like her noble-browed first-born.

AMERICAN POSTAGE.—Mr. Pilny Miles has been appointed postal envoy, or representative of the United States Post office to examine into and report upon the details and working of the English penny postal system. A new postal bill was drawn up last year by Mr. Miles and the Hon. Mr. Hutchins, of Ohio, and introduced into Congress, which provided for a uniform postage of two cents (a penny sterling) a money order system, &c., and which was postponed to the present session, and is now under consideration at Washington. The various reductions of postage, and the approaches to uniformity in America have been eminently successful, and this year, for the first time for a long period the department does not have to apply to Congress for appropriations for a deficit. A large party has grown up in America who are pressing for the adoption of the English penny rate, the leader of the movement being Mr. Miles, who commenced the work many years since, in the publication of a pamphlet entitled "Postal Reform." Mr. Hutchins, in a very able and exhaustive speech in Congress on the introduction of the new Postal Bill, said "Sir Rowland Hill has accomplished more for his country than the most renowned of its statesmen and warriors," and added that "Mr. Miles has indomitably and perseveringly endeavored to establish for this country what Rowland Hill accomplished for Great Britain."—*London News.*

"PROVIDENCE!" His operations cannot be disguised by the confusion of this world. In eternal clearness He watches over us, and sooner or later restores everything to eternal order. Paradoxes, violence, crimes, and darkness will always be found on earth, but after this world comes another—the grave—a resurrection! That is the solving of the riddle, the mystery of Providence, and He has already in fact revealed it to us. Has not the Hideout One bled on earth, and died between malefactors? Has He not rise again and made the world subject to Him? Let those who walk in the dark, that path of the Divine One, look on Him and not complain. Let them still praise God, if the hand of the Lord no longer lends their eyes, for Providence lives.—*Miss Bremer.*

"Mass Tom! Mass Tom! Oh, Mass Tom! hows I gwine to get down dis ladder?"

"Long down the way you went up, you blockhead," running up to see what was the matter.

"De same way as I come up, Mass Tom?"

"Yes, confound you! and don't bother me any more."

"Well, I tell most, I must" and down came the little darkey head foremost.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. Dow has now the gratification of presenting the unfortunate with some remedy that never yet, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal taint in the blood, Impotency, Scrotula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Dropsy, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, and unfits the individual for the duties and pleasures of society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dimness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment, can be accommodated with board and lodging at the Doctor's house, free of charge.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Preventive, or Safeguard, the best preventive. Order by mail. Three for $1 and a red stamp.

April 7—1y Staw.

CAUTION

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No. 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all those diseases peculiar to the female system. Irregular Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate and long standing cases, of the female system are soon rejoiced in perfect health.

Dr. Dow has no doubt had greater experience in the care of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, not unwelcomed by superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of a private nature and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who desire the services of an experienced physician and surgeon should give him a call.

☞ S—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the cast-iron bottom being much thicker than other ones use it. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES,

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodeling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used, it cannot be vitiated, and is free from the deadened and much complained of in other Furnaces, in entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some producing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The communications being higher than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke pipe or flue on the top of the cone can be made to consume the gases from the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are as liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without going out, or being touched.

They give entire satisfaction wherever used.

We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world—and would refer them to the following named gentlemen, who have them now in use:

Samuel Clemes, Esq.,	Albert H. Hatch, Esq.,
Aaron H. Tuff,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Teeth on Vulcanized Rubber.

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. It will not injure the teeth, while building up the depressions which can be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not come in contact with it.

5th. Teeth mounted upon this base can be kept clean and sweet as easy as a saucer, as when finished it has the work present one whole piece.

6th. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*

No. 5 Daniel St., Portsmouth,

Has had four years of practical experience in making this material, and will guarantee satisfaction in all cases submitted to his care.

DENTISTRY.

No. 60 CONGRESS STREET,
Portsmouth, Jan. 1st, 1863.

DR. GOODALL

Would respectfully inform his patrons and the public, (having had of late many calls to insert teeth upon VULCANIZED RUBBER,) that he has purchased the best VULCANIZER in the market, and is now prepared to do all work upon RUBBER, or the other bases of GOLD and SILVER combined, if preferred.

The Rubber has several important advantages, viz: It is very light and elastic, and consequently is perfectly easy to the muscles of the mouth. It contains no metallic or other substances or open joints to collect food, &c., consequently they can be worn night and day, and are very easily kept neat and clean.

Beside all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the section is of course much stronger than is plates of Gold or Silver.

Any one who is waiting for their permanent teeth will find Vulcanized RUBBER, combined with the Rubber as a base. The expense is but a little more than for Silver, and you get the same teeth in blocks that you would pay $60.00 for on upper or lower set on Gold.

In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by the best Dentists too. I will warrant a perfect fit and teeth from the best manufacturer in the country, S. S. White.

ALL OTHER OPERATIONS IN DENTISTRY I will do at the usual rates. I will here mention that my price for Extracting Teeth is 25 cents.

I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr. OLIVER and Dr. BENNETT, for particular success in extracting Teeth, and teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with Promptness and Dispatch. All other operations in Dentistry, I will do at the usual rates.

GRACE'S CELEBRATED SALVE
A SURE RELIEF FOR THE SUFFERER.

This Salve is a vegetable preparation, invented in the 17th century, by DR. WM. GRACE, surgeon in King James's army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day, and was regarded by all who knew him as a public benefactor.

Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Flesh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.
Grace's Celebrated Salve cures Scurvy.
Grace's Celebrated Salve cures Callouses.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sore.
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find this Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, cleanses, heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much pain, suffering, and money. All it wants is a fair trial to cure old and inveterate Sores.

The Chronicle.

"Bound to no party—to no sect confined:
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every item fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty, of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address.*

☞ ATTENTION, THE WHOLE! ☜
RYE, N. H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even walking, for weeks at a time; very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH PRESCOTT.
PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with distresses at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.
From ELDER I CHESLEY, *Lee, May* 31, 1841.
DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I extract your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY
☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may269

New American Cyclopedia.
This most valuable publication will be completed by the issue of the 16th Volume during the present month; forming a complete epitome of human knowledge. Those who have taken the volumes as they have been issued, and have most frequently consulted its pages, have been most completely satisfied with it. Says one: "We who have occasion to refer to it daily, can speak of its literary and mechanical execution with entire satisfaction. THE NEW AMERICAN CYCLOPEDIA is correct, full in its information and conveniently arranged for reference; the articles are concise and complete." On the issue of the 16th Volume, the price will be raised 50 cents per volume to all who have not been subscribers to the work.

FRIDAY, MARCH 13, 1863.

NEW-HAMPSHIRE ELECTION.

The Concord Independent Democrat of Thursday morning publishes returns of the votes in this State for Governor from 184 towns, which foot up as follows:—Gilmore, 26,158; Eastman, 28,573; Harriman, 4,167. It also gives a partial list of Representatives-elect: Republicans, 112; Democrats, 68.

A dispatch from Concord, Thursday, states that returns from all but 28 of the 233 cities and towns indicate the following result: Taking last year's vote for those not heard from, and adding 3 per cent. gain, the vote for Governor will stand about as follows: Eastman (Democrat) 32,056; Gilmore (Republican) 28,760; Harriman 4369. Eastman lacks about 800 of a constitutional majority to elect him. His plurality over Gilmore is estimated at 3276.—Eastman's gain from last year is 4524.

For Congress — Daniel Marcy (Democrat) is elected in the First District over Joel Eastman (Republican) by 150 majority.

Edward H. Rollins (Republican) is elected in the Second District by 300 majority over John H. George (Democrat.) Col. George's friends claim that the official returns will reduce it to about 100.

[Returns from towns in the 2d District, received in Concord after this dispatch was sent, bring Mr. Rollins' majority down to so small a figure that it may require the official returns to settle it.]

James W. Patterson (Republican) is elected in the Third District by 350 majority over William Burns (Democrat,) which the official returns may reduce.

The Republicans will have between 60 and 70 majority in the House, and 9 of the 12 Senators.

The Council will probably stand 3 Republicans and 2 Democrats.

THE RELIEF SHIPS.—The relief ship Achilles, from Philadelphia, reached Liverpool on the 22d. The Captain and Chaplain of the George Griswold had been brilliantly feted on board the frigate Majestic in the Mersey. Consul Dudley was among the guests. Capt. Englefield, of the Majestic, proposed a toast to the President of the United States, expressing admiration of his undaunted perseverance. Mr. Dudley responded, eulogizing Mr. Lincoln, and uttering friendly sentiments towards England. A monster meeting at Manchester adopted an address of thanks to America, and presented it to the officers of the George Griswold amid much enthusiasm. Speeches full of sympathy with the North were made.

☞ A Committee of the N. Y. Chamber of Commerce had an interview with the President on Tuesday, at which they urged him to make arrangements forthwith to issue letters of marque and reprisal under the recent act of Congress. A contrary view was subsequently urged by Senators who were prominent in opposition to the passage of the law. They represented to the President the dangers of a foreign war in case he should do what was asked of him. The subject is understood to have been before the Cabinet at a meeting on Tuesday.

☞ The President on Tuesday issued a proclamation, ordering all soldiers absent from their regiments, to return to duty by the 1st of April; by so doing they will be restored to their regiments without punishment, except the loss of pay and allowances since their absence; otherwise they will be arrested and punished as the law provides. All good citizens are called on to oppose the treasonable practice of certain persons enticing and procuring desertion, thus weakening the effective force of the army, and aiding the enemy.

☞ Washington's Birthday was celebrated by a banquet in St. James's Hall, London. In the absence of Consul Morse from illness, Gen. Vanderburg presided. Minister Adams replied to a toast to the Union. Messrs. Cunningham and White, members of Parliament, both spoke in denunciation of slavery as the cause of this war, and in terms of sympathy with the North.

☞ According to a letter in the Portland Argus, the troubles between the white and negro soldiers at Ship Island have been settled by Gen. Banks, who has ordered the two companies of the 13th Maine, located at the Island, to be sent to reinforce Forts Jackson and St. Philip. All the officers of the Maine regiment have been released from arrest.

☞ A child seven years old starved to death in New York the other day. Her father was regularly employed, but drank all his earnings; her mother tried to beg or steal sustenance, but was put in the Tombs and the child perished on a filthy bedtick, in a wet cellar, within sound of ever so many church bells—an innocent victim of intemperance and its kindred vices.

☞ A suit has been commenced in a Court in New York for $500,000 damages for slander.

NEW HAMPSHIRE ITEMS.

—— The U. S. Senate, on Tuesday, confirmed the nomination of Col. Gilman Marston as Brigadier General of Volunteers, the promotion to date from Nov. 29, 1862.

—— An order was received from the War Department, March 1, dismissing Capt. J. Ware Butterfield of Co. D, 12th regiment, from the U. S. service, for leaving his regiment without permission on the 17th of last November, at Warrenton, Va. It will be recollected that, on that occasion, Capt. Butterfield fell into the hands of Stuart's cavalry.

—— There was no choice of Mayor in Concord on Tuesday. Benjamin F. Gale, Esq., lacked 79 votes of an election.

—— Maj. Jordan has retired from the position of Military Commander of the State. He is succeeded by Maj. J. H. Whittlesey, of the regular army.

—— Eight captains of the 8th N. H. Regiment, encamped near New Orleans, have been arrested for permitting their men to appropriate to their own use the fences and such timber as was lying round loose. The arrest was made by a very strict construction of the order making captains responsible for the acts of the men under their command.

PRIZE CASES DECIDED.

At the late term of the U. S. Supreme Court, the great prize question is settled in favor of the United States, and against the rebels and their allies.

The council in the several prize cases heretofore argued were Messrs. Lord, and Edwards of New York and Carlisle of Washington for the claimants, and Representative Sedgwick and Mr. Evarts of New York, Mr. Dana, District Attorney of Massachusetts, and Mr. Eames for the United States. Justice Grier delivered the opinion of the court in the cases.

He said there were certain principles of law which were applicable to all of them. That a blockade *de facto* actually existed by the President's proclamation of the 19th of April, 1861, is an admitted fact, and that the President, as chief executive of the government and Commander-in-Chief of the army and navy, was the person to make such notification is not questioned.

To justify the capture of prizes, a war must exist *de facto*, and the parties to be affected must have knowledge of the use of this mode of coercion.

His Honor Justice Grier remarked: "We are of the opinion that the President had a right, *jure belli*, to proclaim a blockade which neutrals were bound to observe.

The destruction of property is a consequence of war. Money and wealth and the products of agriculture are said to be sinews of war. The laws of nations authorize the cutting of those sinews by capturing property on the high seas. Under our very peculiar constitution citizens not only owe allegiance to the United States, but to the States in which they live. Hence the people acted as States in rising in hostility against the United States, and their right to do so is being decided by the wager of battle. The boundary between the belligerents is marked by bayonets; south of the line is the enemy's territory. The proclamation of the blockade is according to the law of nations. The cargo must share the fate of the vessel in case of violation."

Associate Justice Nelson delivered a dissenting opinion.

Chief Justice Taney and Associates Clifford and Catron joined Judge Nelson in this dissenting opinion.

A decision was prepared, not read, in the case of the people of the State of New York ex rel. the Bank of the Commonwealth, plaintiffs in error, v. the Commissioners of the Taxes and Assessments for the city and county of New York, and the people of the State of New York, ex rel. the Bank of Commerce, plaintiffs in error, v. the Commissioners of Taxes and Assessments for the city and county of New York. It was stated from the bench briefly that these cases came to the Supreme Court on a writ of error.

The judgment of the Court below is reversed in both cases, it not being in the power of a State to tax United States stocks. This is the unanimous opinion of the Supreme Court. The term was then closed.

☞ The Count Gurowski, who is mentioned in the Paris correspondence of the London Times as commanding the largest revolutionary force in Poland, is a brother of Count Adam de Gurowski, formerly of New York, whose book has recently created some sensation.

☞ It is stated that President Lincoln will shortly leave Washington for a trip North, for the purpose of obtaining a short respite from the duties of his office.

THE REBELLION.

The rumor is renewed that the President will soon call out a large force, particularly from those States which have not filled their quotas, so as to keep up the army to the standard of a million of men. A large camp of instruction is to be formed for a hundred thousand men.

The N. Y. Tribune's Washington dispatch states that private letters from London speak with alarm of the fleet being built in England and Scotland for the rebels. Our government is urged to demand in peremptory language that they be forbidden to sail on their errand of destruction to American commerce. A threat of open war is, in the opinion of the writers, a sure and only means of putting an end to these secret hostilities. In high official quarters in Washington, the dispatch says, similar views are entertained.

Port Royal advices to March 8th state that the Monitors are all back from Fort McAllister in good condition. A 10-inch mortar shell struck the deck of the Passaic, but did not go through. The bombardment lasted twenty hours, but the boats could not get near enough to the fort to dismantle it. The distance was about 1400 yards. The iron-clad Catskill arrived on the 3d inst., and is ready for service. The gunboat Quaker City left Port Royal on the 8th for Philadelphia. The Ericsson passed her off Wilmington, she then being in chase of an English propeller, and had boarded her as the Ericsson passed. She was supposed to be a prize. The movement on Charleston had not commenced. The Charleston papers say that both the Indianola and Queen of the West are in good condition.

A private letter states that the pirate Florida was at Barbadoes Feb. 25, taking in coal and provisions.

A dispatch from the Southwest thus disposes of some of the rebel Generals: Gen. Pemberton has been removed from the Department of the Mississippi. Gen. Bragg is his successor and has already assumed command. Gen. Longstreet commands Bragg's old division in Middle Tennessee.—Price has returned from Richmond invested with all the power he asked for, and will go to Missouri. Holmes is to be removed and Hindman sent east of the Mississippi.—Kirby Smith goes to Arkansas.

Bragg has been reinforced by 11 brigades, and Gen. Early has started for him. He has received enough force from Richmond, a Unionist says, to resist any attack by Rosecrans. Another rebel invasion of Kentucky, and an attack on Fort Donelson are threatened. Gen. Granger, a fighting Union General, takes command at Nashville in a day or two.

The N. Y. Times' dispatch states that "it is the general impression at headquarters that the enemy on the Rappahannock is withdrawing large numbers of his forces.—Longstreet is known to have gone. The Charleston Mercury of a late date says that his entire division has left. Some 15,000 of the men passed through Richmond a few days ago, taking the route to the south side of the James."

GEN. DIX ON THE WAR.—That true son of the Granite State and veteran soldier, Gen. Dix, says in a recent letter to a friend in New York:

"I have never doubted the successful termination of the war. I do not doubt it now if we prove true to ourselves. If our people are willing to make the sacrifices necessary to carry it through; if all parties will unite in support of the government of the country; if men and money are furnished as they are needed, we shall triumph and maintain the integrity of the Union. On the other hand, if we are divided among ourselves; if we yield a reluctant support to the war; if we give aid and comfort to the enemy by embarrassing those who are charged with the responsibility of upholding the authority of the government, we shall be lost, and treason will triumph.

I do not anticipate a result so disgraceful to us and so disastrous to all stable government. I look to our people for unshrinking perseverance and for a steady and patriotic support of the war, no matter at what sacrifice of comfort or property or life. I do not expect it to be terminated by any one great success. *I rely on wearing out the insurgents by unyielding firmness.* I earnestly hope, notwithstanding the strong party feeling which exists in our State, that all will be united and will act with renewed vigor on the great question of upholding the Government and the Union against an unholy and treasonable effort to destroy them. If we do not, we shall lose the respect of the whole civilized world, and leave to our children a lasting inheritance of dishonor and shame.

In full confidence that our people will do their duty, I am, truly yours,

JOHN A. DIX.

Archibald Dixon, Esq."

IMPORTANT TO SOLDIERS AND THEIR FRIENDS.—The Protective War Claim Association for New England has proved an entire success, and is doing a vast amount of good. Its object is to protect soldiers and sailors from imposture, and assist them in procuring their claims without delay, and at the least possible cost. The best names in Boston are connected with it, and the advertisement in to-day's paper fully sets forth its advantages and objects.

☞ An "information" has been filed in the Provisional Court for the confiscation of Slidell's property in New Orleans.

TO-DAY AND TO-MORROW.

High hopes that burned like stars sublime,
Go down the heavens of Freedom;
And true hearts perish in the time
We bitterliest need them!
But never sit we down, and say
There's nothing left but sorrow;
We walk the wilderness to-day,
The promised land to-morrow.

Though hearts brood o'er the past, our eyes
With smiling futures glisten!
For, lo! our day bursts up the skies:
Lean out your souls, and listen!
The world rolls Freedom's radiant way,
And ripens with her sorrow;
Keep heart! who bear the cross to-day
Shall wear the crown to-morrow.

—*Gerald Massey.*

☞ Lord Palmerston, in the English House of Commons, denounced strongly the shipment of negroes by France from Egypt to Mexico, and called on France to repair the wrong.

☞ A gentleman who conversed recently with Hon. John Minor Botts, says that, though taking no part in favor of the Federal Government, he is nevertheless a staunch friend of the Union, and lives in hopes of a speedy restoration of its authority all over the land.

☞ To the great gratification of the soldiers of the Army of the Potomac, as we are informed by a despatch from headquarters, Adams' Express has delivered during the last ten days an immense quantity of boxes and bundles to the army, and Gen. Hooker has made ample provisions for the speedy distribution to the various camps of all articles sent through the Express.

☞ The Rhode Island Republican, the Democratic, and the Constitutional Union State and Congressional conventions were held at Providence on Tuesday. The Republicans nominated for Governor, James Y. Smith, of Providence; the Democrats and the Unionists nominated William W. Hoppin, also of Providence.

☞ Tuesday was observed in Montreal as a holiday, in honor of the Prince of Wales' marriage. One hundred guns were fired at morn; there was a parade of the volunteer force and a sham fight in the afternoon; and bonfires and illuminations in the evening.

☞ Mrs. Jane P. Thurston, of Portland, who has advertised an unfailing remedy for the rebellion, for $500, called at the Press office on Tuesday to see if her offer had been accepted.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper therefor."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

To Whom it may concern.

Notice is hereby given that the Undersigned has this day given to his son, JOHN A. GARLAND, of Newington, his time, to act and trade for himself; and that hereafter he shall claim no wages of his earning, nor pay any debts of his contracting.

Notice to Housekeepers.

Rubber Band Carpet Sweeper.

TRY IT! TRY IT!!

It saves Money; it saves Carpets; it saves Furniture; it saves Labor; it is cheaper than Brooms at five cents apiece.

It gathers up all dust, dirt, and loose lint on the carpet, and raises no dust to settle on the furniture, drapery, or ornaments, or to smother, stifle and irritate the lungs.

It does not wear the carpets half so much as brooms or any other sweeper.

It is the only practicable sweeper made, and the only article fit to sweep a carpet.

With our late improvements it gives universal satisfaction to all who use it according to directions. For sale at No. 12 Market Street by

Local.

☞ We learn that Mr. Samuel Shaw, a farmer, who resides on Greenland road near the Plains, was found dead in his barn on Wednesday morning, by a member of his family. He had not previously been seen by them since the afternoon before. Slight bruises were found upon his face, but there is thought to be no doubt that his death was accidental. He was somewhat intemperate. He was forty-two years of age, and leaves a wife and four children.

☞ On Tuesday evening last, the Porter at the Custom House in this city, discovered smoke issuing from the floor, near the fire place, in the Naval Officer and Surveyor's room, and on taking up the flooring it was ascertained that a flooring timber, running along under the hearth, had taken fire, either from the heat in the grate or a defect in the hearth, and was nearly consumed. The fire was extinguished without raising an alarm.

☞ A Washington dispatch states that the U. S. Senate, on Tuesday, confirmed the nomination of William Badger, as Surveyor of Customs for the District of Portsmouth, N. H.

Such is the name as given by the telegraph; possibly there is a slight error,—of a letter or two.

☞ A long, temporary, wooden shed, erected over the iron-clad battery being built at the Portsmouth Navy Yard, was crushed by the great weight of snow on Wednesday night. About three-fourths of the building fell with a crash,—the noise being heard across the river in Newcastle.

☞ A majority of the joint select Committee of the Legislature on the Scientific Survey of Maine have reported in favor of continuing the survey, and appropriating therefor $4000 for the current year. They present in detail the importance of the survey and the advantages realized to the State, especially in the discovery of valuable iron ore and abundant deposits of marble and limestone in Aroostook county, and valuable ores, and feldspar and quartz for pottery and glass manufacture. The minority of the committee report against the continuance of the Survey and the appropriation for the same. They say it will take ten years and cost $50,000 to complete the survey, and in their judgment the benefit is not commensurate with the expense.

☞ The Savannah Republican says:—"There is reliable information that a general Indian war is in contemplation in the Northwest on the opening of the Spring.—The intelligence comes directly from Fort Pierre and the different Indian rendezvous on the Red river of the North, the Platte and upper Missouri."

☞ Consul General Murphy, at Frankfort on the Main, declares he could send to the army in America 35,000 men in ten days if he were authorized to do so. He represents the German States pervaded with enthusiasm for the Union.

☞ A dispatch from Col. Connor, dated Salt Lake City, March 11, says:—

"The dispatch in the N. Y. Herald of the 10th, published in the California papers of this morning, so far as regards my acts and intentions, is false."

☞ The Rebel leaders in Virginia are urging their Confederate Congress to prohibit the planting of tobacco or anything else save corn for the army, under the heaviest penalties. How is it about that ridiculous paper blockade?

☞ A New York critic calls Aldrich the hummingbird of poets—flowers are his allies, perfumes his messengers of wrath.

AN AFRICAN CONSERVATIVE ON THE YANKEES.—A friend relates to us an amusing incident connected with the great celebration of Monday, in this place. An old house servant of one of our very aristocratic rebel families, who hates "Lincolnites" and "poor white trash" as heartily as Jeff. Davis does, was walking slowly along the square as the grand procession was forming. Soldiers were moving about in great numbers, the cavalry galloped to and fro, regiments were forming to the sound of lively music, citizens and visitors thronged the sidewalks, children ran about with banners, and thousands of flags fluttered like fragments of rainbows from the various buildings. The conservative contraband paced slowly along, rolling his distended eyes in all directions, apparently overwhelmed by the exhibition and bustle around him. Approaching our friend, he exclaimed: "My God! What are we Southern folks coming to? Master said a year ago dat de Yankees done going away forever. Now dey is swarming about thicker than locusses. Dey runs dere boats on our river. Dey pressin' all our niggers. Dey livin' in our houses. Dey drivin' our wagons. Dey ringin' our bells. Dey confiscatin' our property. Dey eatin' up our meat and corn. Dey done killed mose all of our men; and 'fore God, I spect dey are gwine to marry all our widders!"

And heaving a deep groan from the bottom of his continental waistcoat, he shook his head in sadness, and passed slowly onward, to the joyful chimes of the church bells, and the soul-stirring strains of "Yankee Doodle" and "The Red, White and Blue."—*Nashville Union.*

☞ Late foreign advices say the Polish question attracts great attention. The insurrectionary movements continue. France takes very decided grounds against intervention; while Prussia is in favor of concessions to the Poles. There were rumors in Paris of an alliance of England, France and Austria, to obtain a solution of the Polish question. The English and French press treat the matter with great gravity.

☞ A dispatch from New York Thursday reports a marked improvement in Government securities—the Sixes selling at 104 and the Seven-thirties at 106. Gold opened at 159 1-2, but afterwards declined to 158 3-4.

☞ A rumor that Commander Renshaw is not dead, was circulating in New Orleans, brought by Galveston prisoners who declared they had seen him in that city.

☞ The London Times announces that Confederate three millions sterling loans had been undertaken by Erlanger & Co., of Paris and Frankfort.

☞ The nomination of Cols. Shepley and Nickerson, of Maine, and Col. Michael Corcoran, of New York, as Brigadier Generals, have been confirmed.

☞ Mrs. Caroline F. Cowan has been appointed Deputy Postmaster at Biddeford, Me., vice Louis O. Cowan, deceased.

☞ Late accounts from Buenos Ayres represent that immense quantities of cotton seed have been sown in that Republic.

☞ Another cavalry battalion has been raised in San Francisco to join a Massachusetts regiment.

☞ Under peremptory orders from the Naval Department, five gunboats left New York on Monday and Tuesday.

☞ The State of Maine now has 5000 men in the military hospitals, suffering from wounds or disease.

☞ Any army soldier hereafter found without the requisite number of cartridges is to be court martialed.

☞ Wanted, the Daily Chronicle of Saturday Feb. 21, and Monday Feb. 23, to complete files.

BUY CALIFORNIA WINES

They are the Purest!
The Best!
The Cheapest!

The "sunny slopes" of "Los Angelos" have announced to the world that America is a wine-growing country, and as the discovery of gold sent a thrill through the old world, so will the discovery of these Wines startle them again, as it says, "one more link broken which has bound us to Europe," "one more step to independence." Let every man, woman and child who uses Wine, see to it that they buy none other than these.

"The Hock" is a most delicious Wine, and rivals in delicacy its German predecessor.

The "Angelica" and "Muscatel" are melting, luscious and rich, and will take the place of Malaga, Tokay, or other rich Wine.

The Port has a fine flavor and body; and The Port is excellent because it is pure.

ANOTHER NEW STOVE!

THE MODEL COOK

FOR WOOD OR COAL.

The novel—the peculiar feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the larger oven, for baking; giving an oven nearly 3 feet long! or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! A check draft is applied to this stove by means of which the consumption of fuel is greatly lessened, and a steady fire can be kept day and night if desired.

THE MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be THE STOVE for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is needed.

We believe the MODEL COOK to be the very best Stove in the Market, and invite every one to examine it whether they wish to purchase or not. It has had a very extensive sale since its introduction. Reference might be made to more than a hundred families in this city or vicinity who are using the Stove, and give it the highest commendation.

We refer to the following individuals who have purchased the Model Cook:—

David Kimball, Thos. F. Burt, John T. French, Rev. Mr. Davies, w m. F. Pettigrew, Capt. John Davis, Jeremiah Ralit, Mrs. Ann T. Perkins, James W. Jarvis, Francis C. Jarvis, Thos. L. Pullock, Jacob Wendell, Capt. Jacob Thompson, Gen. J. G. Hadley, G. Melvin Hunting, Jos. D. Akerman, James F. Shores, Wm. C. Newton, Horton D. Walker, Benj. Chesver, John Trundy, Richard L. Randall, Geo. Rice, Benj. F. Cauney, Benj M. Parker, Charles A. Wiggin, George W. Plumer, Nath'l Dennett, Henry F. Gerrish, John Harrett, Thos Murphy, Capt. Wm. Lambert, Joseph Stiles, John Senter, Wm. Bell, Cyrus Plumer, Freeman Hurd, James M. Locke, Daniel L. Randall, Isaiah Wilson, John E. Roberts—of Portsmouth; Samuel C. Dixon, Daniel I. Tryor, Cushman Pryor, of Treffethen's Island; Geo. N. Dixon, Samuel F. Paul, Elias Remick, Timothy Dame, Eliot; Wm. S. Locke, Benj. Fernald, Mrs. Wm Locke, Kittery; R. F. Gerrish, Kittery Point; Hon. Clement March, Albert Hisldell, Stephen M. Weeks, Geo. W. Davis, Greenland; John Smart, Stratham; Mrs. Reuben P. Jenness, David Jenness, Moses Philbrick, Rye.

VICTOR COAL STOVE.

We offer this beautiful coal burner to the public, with full confidence in its merits.

It was brought into market two years since and has come rapidly into use.

The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation. The arrangement for damping the ashes is very fine—no dust need escape into the room—a continuous fire may be kept throughout the winter—the coal all burned, and no clinkers made.

The quantity of fuel used is very small indeed. There is in this stove an excellent arrangement for ventilating the room in which it is placed; a feature not possessed by any other parlor stove.

Some of the sizes are provided with an oven and boiling place, making them very desirable for a dining room.

We sold a large number of Victor Stoves in our city last season, and they receive the highest commendation from those who are using them.

We have also the celebrated McGregor Stove, so well known in the market as to need no commendation.

A great variety of cheaper Stoves for coal and wood—Coal hods—Patent Coal-sifters.

COAL LININGS,

and Repairing pieces for most of the stoves in use

Pin Worm Syrup.

Just received Dr. Gould's PIN WORM SYRUP—the only safe, sure and effectual remedy ever offered to the public for the removal of Pin Worms. The above valuable medicine for sale at the Medicine Store of B. HUTCHINGS.

The peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With healthy food, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. This it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: **King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses,** and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists' agents wherever they deal, that all may learn the directions for its use, and some of the remarkable cures which it has made even in all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, which is composed of ingredients, some of which exceed the best of *Sarsaparilla* in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of *Sarsaparilla*, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S
CHERRY PECTORAL,
The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his Rooms, No. 7 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of published Author, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since the first introduced them, failed in curing the most Malignant cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Gleet, and nervous debility, the results of procreation, inflammation of the bladder and kidneys, Hydrocele, Abscesses, Humors, originally contracted in youth, and the long train of horrible symptoms attending this class of diseases, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual to business or society. The sad and fatal effects of this, effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the Heart, Dyspepsia, Nervous Irritation, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded, loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms and charges for board moderate.

Medicines sent to all parts of the country, with full directions for their operation, by addressing your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

April 1—1y 13aw.

CAUTION

To Females in Delicate Health.

DR. DOW's Physicians and Surgeons, No. 7 ENDICOTT STREET, Boston, are consulted daily for all diseases incident to the female system, Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. Co-invalids certain to find a home for friendless, and the most obstinate complaints yield under it, and the afflicted persons soon rejoice in perfect health.

Dr. Dow has had much more and greater success in the cure of Diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no competition in the United States.

B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 9 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 9 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unrivaled skill and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon would give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

April 7, 1862—1y 32aw.

Marriage Certificates.

For the use of Clergymen, Justices, and others who perform the ceremony—for sale at the Chronicle Office, by the single, dozen, or hundred copies.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and tea iron heater combined, by which the odor of broiling meats is prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now made, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of the valuable Furnace, would ask those about remodeling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable—and as none of the evil which results from a cold air Depot is used for respiration, the tendency to produce headache so much complained of in other Furnace, is perfectly obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the great amount of heat from a given quantity of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The great objection is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. The objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them and consumes the gases, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cover can be made to consume the gases of the coal as they pass off with a large amount of the heat generated, making the chimney the destroyer of two-thirds of the fuel.

The Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

SOME OF ITS ADVANTAGES.

1st It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion is obtained by it.

3d. When the arch is irregular we can by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.

4th No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easily as a gold plate, as when the work presents one whole piece.

6th While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

DENTISTRY.

No. 60 CONGRESS STREET,
Portsmouth, Jan. 1st, 1863.

DR. GOODALL

Would respectfully inform his patrons and the public, that he has had many calls to insert teeth upon VULCANIZED RUBBER, that he has purchased the best VULCANIZER in the market, and is now prepared to do all work upon RUBBER, or the other bases of GOLD and SILVER as formerly, if preferred.

The Rubber has several important advantages, viz.: It is very light and elastic, and consequently much easier to a tender mouth or tender gums and cheeks. There are no interstices or open joints to collect food, &c., consequently they can be worn night and day, and are very easily kept neat and clean.

Besides all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.

Any one who is waiting months for their permanent teeth will, I am confident, be perfectly satisfied with the Rubber, as a base. The expense is but a little more than for Silver, and I can get the same teeth upon VULCANIZED RUBBER, that I can upper or lower set on Gold.

In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by the best Dentists (so I will warrant a perfect fit and finish from the best manufacturer in the country, S. S. White.

ALL OTHER OPERATIONS IN DENTISTRY I will do at the usual rates. I will here mention that my PATENT FOR EXTRACTION is for sale.

I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr. OLIVER and Dr. PORTER, for particulars regarding extracting Teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth required with Neatness and Dispatch. All other operations in Dentistry, I will do at the usual rates.

☞ Please call and examine specimens of Artificial teeth upon Vulcanized Rubber, Gold and Silver.

GRACE'S CELEBRATED SALVE,
A SURE RELIEF FOR THE SUFFERER.

This Salve is a vegetable preparation, invented in the 17th century, by DR. WM. GRACE, surgeon in King James's army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day, and was regarded by all who knew him as a public benefactor.

Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Flesh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.
Grace's Celebrated Salve cures Scurvy.
Grace's Celebrated Salve cures Callouses.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sores
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find the Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much trouble, suffering, and money. All it wants is a fair trial to cure old and inveterate Sores.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every item fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. This spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address.*

☞ ATTENTION, THE WHOLE! ☜
RYE, N.H., Feb. 26, 1845. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have noted as agent for the sale of it. JOSIAH JENNESS.
PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.
From ELDER I CHESLEY, *Lee, May* 31, 1841.
DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY
☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26o

New American Cyclopedia.
This most valuable publication will be completed by the issue of the 16th Volume during the present month; forming a complete cyclopedia of human knowledge. Those who have taken the volumes as they have been issued, and have most frequently consulted its pages, have been most completely satisfied with it. Says one: "We who have occasion to refer to it daily, can speak of its literary and mechanical execution with entire satisfaction. THE NEW AMERICAN CYCLOPEDIA is correct, full in its information and conveniently arranged for reference; the articles are concise and complete." On the issue of the 16th Volume the price will be raised 50 cents per volume to all who have not been subscribers to the work.

SATURDAY, MARCH 14, 1863.

NEW-HAMPSHIRE ELECTION.

Returns have been received at the Statesman office, Concord, from all but 13 towns in the State, which in 1862 gave Berry 414, Stark 614. Taking that vote, Eastman, dem., lacks about 700 votes of being elected Governor. The whole vote this year is about 66,500. Last year it was 62,000.

For Congress, Marsy has from 50 to 75 majority; Rollins about 300; Patterson about 500.

In the Council the Democrats elect the members in the 2d and 5th Districts; the Republicans in the 1st, 3d and 4th.

The Republicans have the Senators in all but districts Nos. 6, 8 and 12.

The Republican majority in the House of Representatives will be from 45 to 50.

☞ Gold sold in New York, Friday, at 160 1-8 a 160 1-2.

NEW HAMPSHIRE ITEMS.

—— Col. Gilman Marston arrived home in Exeter, on Tuesday morning, and was warmly greeted.

—— The Ballot states that several counterfeit five dollar bills on the Bristol County Bank at Taunton, Mass., well calculated to deceive, were passed in Exeter last week, and several on the Union Bank, of Haverhill, Mass. One of the rogues engaged in passing the spurious notes, was arrested in Kingston.

—— Daniel M. Christie, Esq., is one of the Representatives elect from Dover.

—— Exeter, on Tuesday, voted to pay a sum not exceeding eight dollars per month to the widow or child of any resident of that town who has died or may die in the U. S. army or navy service on account of disability, for a term of not more than two years after such death or discharge. $500 were appropriated for gas lights in the streets, and a committee was appointed to determine the number and position of the lights, &c.

—— A Washington dispatch states that Hon. E. A. Rollins, of Somersworth, has been appointed Cashier of the Internal Revenue Bureau.

—— In South Hampton, Gilman B. Currier, Republican, was chosen Moderator on the first day, and there was no choice in the election of town officers. The State vote stood—Gilmore 48, Harriman 7, Eastman 59. Member of Congress—Republican 54, Democrat 60. On the second day's trial, Gilman B. Currier was chosen Representative; J. C. Evans, G. W. Fitts, David Page, Selectmen, (Dem.)

—— Mr. James Currier, of Hillsborough Bridge, a prominent citizen, died suddenly of heart disease on Tuesday last. He dropped down dead while on his way to town meeting. He was 64 years old.

—— It is stated that at a political meeting in this State before the election some one put pepper on the stove, by which one lady was thrown into so violent a fit of coughing as to cause a rupture of a blood vessel.

—— Jonathan Palmer, Esq., of Kensington, had both bones of his leg fractured a few days since, by a log which suddenly glided down upon him, from the top of a pile, near which he chanced to be standing.

COINCIDENCE OF DREAMS.—A Philadelphia paper stated last week that one of Hawkins' Zouaves saw, in a dream, a scroll in the Heavens on which was inscribed "Peace, April 28, 1863." Nothing very remarkable in this, certainly, but a correspondent at Fort Warren, in Boston harbor, assures the editor of the Boston Journal that the venerable Mr. Wright, a member of Capt. Cabot's artillery company, had the same dream more than four months since, the date being coincident. Lovers of the marvelous will therefore make a note of this, and "see what they shall see."

☞ Dr. R. P. Stevens read a paper before the Geographical and Statistical Society in New York, a few evenings ago, in which he argued that many great changes would gradually take place in this hemisphere, predicting that new land would arise out of the sea, which would result in such a change of climate that Maine and Canada would be as warm as Southern France, while Labrador itself would become fertile. Then Maine won't be "left out in the cold."

☞ A boy named Wm. Hanley, in Roxbury, Mass., on Tuesday afternoon, threw a snow-ball, striking another, Henry Pfaff, when the latter, having a small pine stick in his hand, struck Hanley with it, knocking him down, from the effects of which he died in a few moments. The boy Hanley was eleven years old, and resided with his widowed mother. Pfaff was about 13 years old.

☞ A rebel Lieutenant, captured near Charleston, says that secret negotiations for peace have been progressing for three weeks at Richmond, but the papers are not allowed to allude to the fact or to give particulars. This report is disbelieved at Washington.

THE REBELLION.

A dispatch from Gen. Hooker's army states that the pickets of the enemy along the line on the opposite side of the Rappahannock are one half negroes and one-half white men. The negroes are armed and uniformed the same as the whites.

The N. Y. Herald's special from Rutherford's Creek, near Columbia, Tenn., 11th, states that Van Dorn's whole force retreated toward Shelbyville.

Ninety refugees from the South, who arrived at Washington on Thursday, give deplorable accounts of the destitution of the rebels, and state that there is much suffering in Richmond for actual necessaries of life. It is reported that 23 rebel regiments (10,000) under Anderson, passed through Richmond last Friday for Charleston.

Cairo was much excited on Thursday over reports of the capture of Forts Henry and Donelson.

The Louisville Journal states that Forts Hermann and Henry, on the Tennessee river, were evacuated and destroyed on the 5th, by our troops, as they were liable to be flooded, and not desirable for offensive or defensive operations. Their armaments, stores, &c., were removed to Fort Donelson. It is said that other and stronger works are to be erected in the same vicinity.

A Memphis dispatch gives a report of a fight on the Yazoo River, in which 7000 rebel prisoners and 8 transports were captured.

The loyalists in Northern Alabama are giving the rebels a deal of trouble.

Prize steamer Adele has arrived at Fort Monroe from Key West. Prize steamer Virginia, a barque and a brig, with 27 prize cargoes on board, had sailed from Key West for New York. Steamship Peterhoff had arrived at Key West, having been captured by the Vanderbilt. The iron-clad Nantucket was spoken by the Adele off Currituck on the morning of the 12th.

The N. Y. Times reports that a member of the Cabinet, in the course of conversation recently with a gentleman from Massachusetts, remarked that Gen. Butler would not receive another military command.

☞ Rear Admiral Porter, in a private letter, says that he made, in twelve hours, out of a flat-boat, the "Turreted Monster," of whose exploits below Vicksburg *The Richmond Examiner* makes so much fun. He sent her floating down the Mississippi without a crew or a pilot. As she passed between the rebel batteries they opened on her fiercely, several hundred shots in all being fired. She escaped uninjured, and went on her way down stream triumphantly, the Queen of the West running before her. At last, when she was supposed to have got about twenty-five miles below Vicksburg, a loud explosion was heard, which the Rebel telegrams show to have been "caused by the destruction of the Indianola."

☞ A Washington dispatch says the Government is advised of rebel movements for privateers on the Pacific Ocean. The U. S. Consul (Mr. Allen Francis) at Victoria, Vancouver's Island, writes that an attempt has just been made, but failed, to purchase an English steamer for privateering purposes, under a person named Manly, who had proceeded to San Francisco.

☞ The steam gunboat Quaker City, from Port Royal, arrived at New York on Thursday. On the 9th inst., off Cape Fear, the Quaker City captured the British steamer Douro, after an exciting chase of six hours. The Douro had a cargo of 420 bales of cotton, and was bound from Wilmington, N. C., to Nassau.

☞ A dispatch, of doubtful authenticity, from Salt Lake City, states that on Tuesday U. S. Marshal Gibbs served on Brigham Young, without disturbance, a writ issued by Judge Kinney under the polygamy act of Congress; and that the defendant personally appeared in Court, and upon investigation, was ordered to find bail in the sum of $2000, which was promptly given.

☞ It is stated that some of the Representatives of Foreign nations are communicating with their governments relative to the drafting of foreigners who have declared their intentions to become citizens, having taken out their "first papers."—The law renders them liable to conscription, but they do not like the idea.

☞ It is stated that the Secretary of War has suppressed the Army Register for 1863, the disapproval of some of his nominations by the Senate having caused this step. A revised edition may soon be published.

☞ The Detroit papers say that no deaths have taken place among the negroes attacked by the riotous mob in that city; but one old man will not recover from his injuries. A great many negroes have been arrested with arms in their possession, and it is understood that they are prepared to defend themselves against any concerted attack.

☞ Francis Hill, of Belmont, Mass, committed suicide by drowning, on Wednesday, because slanderous reports, affecting his social position, were in circulation.

NOTES OF FORMER DAYS.

Collected and Collated—By UNCLE TOBY.

We give to-day, two Revolutionary Letters just published in the Historical Magazine,—showing up the difficulties of 1778, in regard to money, pensions, clothing, directions, &c.

George Frost, member of the Continental Congress, to Josiah Bartlett of N. H.

YORKTOWN, Jan'y 31st, 1778.

SIR,—I wrote to the Hon. President on ye 24th Instant, and inclosed him a warrant of ye 23d, from the Treasurer, on Esqr. Gilman for 50,000 Dollars. Hope it will come safe to hand and be duly bond., but if there should not be money in the office to pay the same, you'll be kind enough to inform me as soon as possible, that we may contrive some other way for a supply. Should have been glad to have done it before, but could not persuade the Treasure board to joine in a Report Sooner. A Committee of Congress (Gen. Folsom is one) is at Camp to settle measures for the next Campaign; hope it will be a more Successfull one here than the last. What was the cause, or to whom to lay the charge, I know not, that the Enemy should make such Parade in and out of Philada., when our Continental Army was nigh double to that of the Enemy. It is said that a Council of Officers in the Army has proposed to Genl. Washington to nominate 6 Levt. Genls., said Levt. Genls. to nominate 12 Magr. Gents. and the Magr. Genls. to nominate 54 Brigr. Genls. It is also proposed that all officers in the Army be settled on half pay, that may not be in actual Service on the Conclusion of the war, and that all officers' Widows shall have a pension during their widowhood. We have some advocates in Congress for the pension. Your prudence will Sergest how far to communicate this Intelligence.—Should be glad to have your and our best friends oppinion on the matter. Inclosed You have sundry Resolves of Congress which came from ye press after I had Sealed mine to ye hond. President. We have had lately arrived in North Carolina, 129 bales of Woolings and Linnens for the use of ye Continent or States, which came from France, by the way of the West Indies. Have no public letters, the Vessell (under French coullers) was borded by an English frigat, and was obliged to destroy her English papers, for fear of being taken. A Paragraft of a letter from a Merchant in London, in August, to a Genl. Officer in New York, writes that both public and privet credit is Great sunk; that Bankrupture are frequent, and that they would be more so if they were not supported by the Bank. That Subscriptions in the new loan, which proposes 5 pr. cnt. to the lenders, goes on slowly, and that the Dutch refuse to subscribe anything That bills are already sold at Considerable discount, 2 and 3-8 pr. ct., and that everything there depended on the present Campaign being decisive. As they are disapointed in this, I hope they will be disapointed in all their futer plans, is the Hearty prayer of your most Obt. humble Servt., GEO. FROST.

To Honble. Josiah Bartlett, Esqr.

Nickolas Gilman to Josiah Bartlett.

In Committee of Safety,
EXETER, Oct. 16, 1778.

SIR,—You will receive this by General Whipple, who is appointed to represent this State in Congress for the year. The Committee are informed that you have Expressed your Intention to leave Congress the last of this month. You will find by the Votes of the Council and Assembly of this State, you were chosen to Represent this State for one year after the first day of November next; and as our State cannot have a vote in Congress with a less Number than two members, it is Ernestly Desired (if you cannot tarry longer) that you will be so Kind as to tarry until Esqr. Frost shall arrive, which will probably be in a fortnight after General Whipple.

There has been many Complaints from our officers in the Continental Army, that our Soldiers there are not Cloathed according to the Resolution of Congress, (and) that they have used every argument to Quiet them, for long time past. And lately there is a Petition and Remonstrance from the field officers of the three Battallions belonging to this State, shewing that the men are Quite Impatient, and even tax them with falsehood, for their promises that they should soon receive their Cloathing; that Deserters had become frequent on that account, and that it would be Impossible for them to keep the men in Camp unless immediate attention was paid to Cloathing them according to promise. In consequence of which, the Authority of this State gave an order on the Continental agent to Deliver 1200 Suits of the Continental Cloathing, which was in Store at Portsmouth, to our Board of War, to be by them forwarded to Camp for the use of our Troops, on which the Agent exhibited a resolve of Congress, of May last, forbidding him to Deliver any Cloathing or other Stores, Imported on account of the United States, to the Authority of any State without the Special Order of Congress for that purpose. You are sensible that it is out of the power of this State to Cloath their men, and that there is a great Deficiency somewhere. More than 20,000 Suits of Cloathe has been laying at Portsmouth for a considerable time past, and it is generally said there is plenty of Cloathing now in Different Stores for the whole Army. If that is really the case it's a great pity that they should not be forwarded to Camp.* Doubt not but you will use your Influence in forwarding that matter.

On behalf of the Committee,
I am, Sir,
Your most Obedt. Huml. Servt.,
NICHS GILMAN, Chan. P. T.

To Honble. Josiah Bartlett, Esq.,
Member of Congress,
Philadelphia.

Favoured by Gen'l Whipple.

*Red Tape and the Circumlocution Office seems to have flourished during the Revolutionary War as well as to-day.

THE GHOST IN NEW YORK.

TERRIBLE & ASTOUNDING REVELATIONS.

SAD STORY OF SUFFERING & WRONG IN THE NEW YORK SUNDAY MERCURY of March 15th, will be given the full particulars of the thrilling incidents which have recently occurred in the HAUNTED MANSION in Twenty-seventh street, New York, and the astonishing revelations at length elicited from the CONCLAVE OF PHANTOMS, that have for a month past rendered the locality famous.

THE NOCTURNAL DIARY OF A WELL KNOWN AND DISTINGUISHED MAN OF SCIENCE, WHO SAT UP TWO WHOLE NIGHTS ALONE IN THE HAUNTED ROOM, is given complete, and furnishes an unparallelled picture of the awful and amazing scenes of the TERRIBLE ORDEAL through which the Solitary Watcher passed. The Galvanic plates arranged in the apartment; the electrified polished screen near the fireplace; the musical instruments; the wires connecting with an alarm bell in the servant's room down stairs, and all the other appliances employed in these daring experiments, are so clearly described, that the reader has the scene of these appalling events brought distinctly before him.

The Diary is written ON THE SPOT, and even amid the very scenes it describes; and one who peruses it involuntarily palpitates with all THE INTENSE AGITATION of the writer. His language is an exact transcript of what he really felt while THE TERRIFYING SPECTACLE was going on around him. He opens the Bible at THE 24TH CHAPTER OF ST. MATTHEW, and while he is engaged in reading it, the first MYSTERIOUS SOUNDS are heard in the room; but it is only in the

DEAD HOUR OF NIGHT

that the Ghostly Pageant comes suddenly upon him. AERIAL MUSIC, BEAUTIFUL SHAPES and an UNEARTHLY LIGHT, envelope and surround him. Words are faintly uttered through the music, and in answer to his questions and entreaties

DISTINCT REPLIES ARE MADE!

It is impossible to read the accompanying incidents of this fearfully exciting

MIDNIGHT DRAMA,

as detailed by the writer in the very tremor of his emotions, without feeling

THE BLOOD CURDLE IN ONE'S VEINS

The fading fire; the expiring gaslight; his deadly chill; his attempt to rise; HIS FALL AND SWOON UPON THE FLOOR, WHERE HE REMAINS SENSELESS FOR SOME TIME FROM THE CONTUSION HE RECEIVES, are all told with thrilling force and point. Then the

WONDERFUL SPIRIT TABLEAUX

in which the

INCIDENTS OF THE PERSECUTION AND MURDER

are set forth and made plain to him, form another chapter of amazing interest.

"INNOCENT—UNSUSPECTING—SHE WAS FOULLY MURDERED IN NOVEMBER, 1860."

Such is the leading clause of the

SPIRIT REVELATION

on which the Tableaux hang, and the

STORY OF THE PERSECUTED ORPHAN

forms the theme of the rest.

The Sensations of the Night reach their climax in the appearance on the

GALVANIZED REFLECTOR OF A GROUP OF PHANTOM PHOTOGRAPHS!!!! OR PICTURES OF THE GHOSTS!!!! Including the Woman, the Victim Orphan (never before beheld) the "Carter" Apparition, the Babe and the Old Man!!!!

When the reader reflects that THE NARRATIVE IS REAL and these awful phantoms were seen BY FOUR UNIMPEACHABLE WITNESSES, who rushed to the succor of the narrator when he, at last, was OVERCOME WITH TERROR and RAN FOR HELP, he STANDS DUMB with amazement! But what will be his emotions when he peruses the description of the

HORRIBLE PHANTOM HEAD

reeking with blood and glaring with an EXTRA SUPERNATURAL FIRE!

as it appeared on the night of the 6th inst. No idea can be formed of these fearful scenes without reading the original, in the

NEW YORK SUNDAY MERCURY.

THE PHANTOM RAIDS

elsewhere are also given in full in this number, including the thrilling appearance of THE FIVE POINTS' GHOST, IN TROY, N. Y.

THE NEW YORK SUNDAY MERCURY

also contains all the Theatrical and Musical news of the World, Sporting News, Fire and Military News, and the letters of Orpheus C. Kerr and A Disbanded Volunteer, together with more choice reading matter than can be had in any other New York newspaper, at any price.

THE NEW YORK SUNDAY MERCURY

is now sold everywhere within four hundred miles of New York on the morning of its publication in the city.

Price 6 cents, at every News Depot in America.

with the

CONSERVATIVE KENTUCKY CHAF

and gives all the "sickening details" in his last letter to the

NEW YORK SUNDAY MERCURY

FOR THIS WEEK (March 15).

Furthermore, the versatious Historian of the immortal and strategic Mackerel Brigade recounts, in this same martial epistle, all the soul stirring particulars of a recent great

in which oppressed Ireland had a voice, and used it with Celtic enthusiasm.

also does justice to our gallant navy, which expects shortly to capture Vicksburg, by entering into a beautiful and descriptive account of the naval marvels recently achieved on the tempestuous waters of Duck Lake, by the Mackerel Iron-plated Squadron of that glorious old sea dog,

REAR-ADMIRAL HEAD,

who has caught more striped bass since this distressing war commenced than all the rest of our Chalbaste Navy put together.

These, and other surprising matters, are most truthfully depicted in

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper therefor."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

To Whom it may concern.

Notice is hereby given that the Undersigned has this day given to his son, JOHN A. GARLAND, of Newington, his time, to act and trade for himself; and this, hereafter he shall claim no wages of his earning, nor pay any debts of his contracting.

Notice to Housekeepers.

Rubber Band Carpet Sweeper.

TRY IT! TRY IT!!

It saves Money; it saves Carpets; it saves Furniture; it saves Labor; it is cheaper than Brooms at five cents apiece.

It gathers up all dust, dirt, and loose lint on the carpets, and raises no dust to settle on the furniture, drapery, or ornaments, or to smother, stifle and irritate the lungs.

It does not wear the carpets half so much as brooms or any other sweeper.

It is the only practicable sweeper made, and the only article fit to sweep a carpet.

With our late improvements it gives universal satisfaction to all who use it according to directions. For sale at No. 12 Market Street by

☞ "Buckleys" give their first concert at the Temple this evening. The Portland Press says: "Their entertainments are the the richest and most varied of anything in the Ethiopean line that we have ever witnessed. While they are full of humor and of mirth-provoking comicalities, they are felicitously free from all vulgar allusion, and profane jests, and can scarcely offend the most fastidious. Ethiopian minstrelsy has become one of the institutions of the age, and we feel confident that the Buckleys intend it shall not suffer in reputation in their hands."

☞ Rev. A. J. Patterson will deliver a lecture on the Universalists and Universalism of the Middle Ages, at the Universalist Church, to-morrow (Sunday) evening, if the weather is favorable, at 7 1-2 o'clock.

☞ It will be seen by their advertisement that Ramsey's Minstrels will appear in this city next week, after an absence of three years.

☞ On Friday morning the mercury was one degree below zero.

CAPTAIN COOMBS' WIG.—A writer of old stories in the Newburyport Herald, tells a pleasant story of a wig.

"Barber Newman's shop was in State street, near the corner of Essex street.—Here that venerable old man, Capt. William Coombs, who lived in the large double brick house now standing at the corner of Lime and Water streets, every fine day about 10 o'clock was to be seen entering with his full bottomed wig, and when shaved, Barber Newman put on the one already whitened with powder, standing on a block in the centre of the shop. Captain Coombs wore the last wig of our revolutionary days in our town. There were several brown wigs worn and wigs with curls; but the whitened full bottomed wig, pasted over with lard and then covered with fine flour, was last seen on this venerable man, who, one day seeing a child drowning, reckless of his wig, threw himself into the water and saved the boy's life—an act of heroism of which honorable mention was made by the orator of the day at the next anniversary of the Humane Society of our town, of which Capt. Coombs was the President."

One thing should be added: the Humane Society caused medals to be struck, bearing the figure of an old man jumping from the wharf, with his wig flying off into the river, a sketch from the real scene. Such medals were common in Newburyport 45 years ago, and probably some are now extant. We think Capt. C. was chosen President of the Humane Society, after this act; —but are not positive of this.

☞ On Thursday evening the people of Amesbury Mills village had a great time on the occasion of the completion of the new large factory just erected, upon which a town clock, obtained by subscription, has been placed. The fourth story of the building which was devoted to the levee, was crowded, the number present being estimated at three or four thousand. The proceeds, amounting to some $1,000, were to be devoted to the benefit of the soldiers.

☞ The U. S. Senate in Executive session on Thursday confirmed, among others, the following nominations:—

To be Commodores on the retired list of the Navy—Frederick Engle, John Rudd, Wm. W. McKean, Charles Lowndes, John Marston, Henry A. Adams, Wm. Walker, George F. Pearson, John Pope, Levin M. Powell, Charles Wilkes, Wm. M. Glendy, Hugh R. Purviance.

☞ Le Nord says instructions have been sent by the French Government to the Legation at Rio Janeiro in a sense essentially sympathetic with Brazil in the difficulty with England.

☞ An offer to raise the Monitor—if Government will find her—for $75,000 has been made.

☞ The Cincinnati Gazette announces a movement in that city among the capitalists to organize a bank under the national banking law.

☞ The London Times' Paris correspondent says—"Of the determination of the French Government to interfere in favor of Poland there is no doubt."

☞ Hon. Owen Lovejoy, who has been detained in Washington by severe and dangerous sickness, is convalescent.

☞ The English men-of-war have captured three slavers on the coast of Africa.

BUY CALIFORNIA WINES

They are the Purest!
The Best!
The Cheapest!

The "sunny slopes" of "Los Angelos" have announced to the world that America is a wine-growing country, and as the discovery of gold sent a thrill through the old world, so will the discovery of these Wines startle them again, as it says, "one more link broken which has bound us to Europe," "one more step to independence." Let every man, woman and child who uses Wine, see to it that they buy none other than these.

"The Hock" is a most delicious Wine, and rivals in delicacy its German predecessor.

The "Angelica" and "Muscatel" are melting, luscious and rich, and will take the place of Malaga, Tokay, or other rich Wine.

The Port has a fine flavor and body; and The Port is excellent, because it is pure.

ANOTHER NEW STOVE!

THE MODEL COOK

FOR WOOD OR COAL.

The novel—the peculiar feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the larger oven, for baking; giving an oven nearly 2 feet long; or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time. A check draft is applied to this stove by means of which the consumption of fuel is greatly lessened, and a steady fire can be kept day and night if desired.

THE MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be THE STOVE for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is needed.

We believe the MODEL COOK to be the very best Stove in the Market, and invite every one to examine it whether they wish to purchase or not. It has had a very extensive sale since its introduction. Reference might be made to more than a hundred families in this city or vicinity who are using the Stove, and give it the highest commendation.

We refer to the following individuals who have purchased the Model Cook:—

David Kimball, Thos. F. Burt, John T. French, Rev. Mr. Davies, Wm. Pettigrew, Capt. John Davis, Jeremiah Raitt, Mrs Ann T. Perkins, James W. Jarvis, Francis C. Jarvis, Thos. L. Pullock, Jacob Wendell, Capt. Jacob Thompson, Gen. J. G. Hadley, G. Melvin Huntress, Jos. D. Akerman, James F. Shores, Wm. C. Newton, Horton D. Walker, Benj. Chesver, John Trundy, Richard L. VICTOR COAL STOVE.

We offer this beautiful coal burner to the public, with full confidence in its merits.

It was brought into market two years since and has come rapidly into use.

The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation. The arrangement for dumping the ashes is very great and last need escape into the room—a continuous fire may be kept throughout the winter—the coal all burned, and no clinkers made. The quantity of fuel used is very small indeed. There is in the stove an excellent arrangement for ventilating the room in which it is placed; a feature not possessed by any other parlor stove. Some of the sizes are provided with an oven and boiling place, making them very desirable for a dining room.

We sold a large number of Victor Stoves in our city last season, and they receive the highest commendation from those who are using them.

We have also the celebrated McGregor Stove, so well known in the market as to need no commendation.

A great variety of cheaper Stoves for coal and wood—Coal hods—Patent Coal-sifters.

COAL LININGS,

and Repairing pieces for most of the stoves in use Job Work attended to with dispatch.

Pin Worm Syrup.

Just received Dr. Gould's PIN WORM SYRUP—the only safe, sure and effectual remedy ever offered to the public for the removal of Pin Worms. The above valuable medicine for sale at the Medicine Store of B. HUTCHINGS.

The peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the real offset of him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it occasions. It is a safe and superior to any other remedy yet devised, is known by all who have given it a trial. This it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: **King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses,** and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of *Sarsaparilla* in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this preparation invigorates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of *Sarsaparilla*, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S

CHERRY PECTORAL,

The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Gleet, pain and distress in the regions of procreation, inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors (rightful swellings), and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of these cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual to business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded, loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Dr. Dow makes no charge for the French Capotiss, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

April 7—1y Shaw.

CAUTION

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppressed, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

This Surgeon has had the largest and greater experience in the cure of diseases of women and children, than any other physician in Boston

Females from the country or patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledged go superior in the United States.

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would invite those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little room over former models, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed; this, however, is so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving a half of the 50 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cover can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace can be used with the greater number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used.

We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Teeth on Vulcanized Rubber.

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. Weight is the least objection, as by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easy as a saucer, so when finished the work presents a perfect piece.

6th. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*

No. 5 Daniel St., Portsmouth,

Has had four years of practical experience in making this material, and will guarantee satisfaction in all cases entrusted to his care.

PORTSMOUTH.

DENTISTRY.

No. 60 CONGRESS STREET,
Portsmouth, N. H., Jan. 31, 1863.

DR. GOODALL

Would respectfully inform his patrons and the public, that he had of late many calls to insert teeth upon VULCANIZED RUBBER, that he has purchased the best VULCANIZER in the market, and is now prepared to do all work upon RUBBER, or the other bases of GOLD and SILVER as formerly, if preferred.

The Rubber has several important advantages, viz.: It is very light and elastic, and consequently is perfectly easy to the muscles of the mouth and cheeks. It does not tire or pain, as the joints to collect food, &c.; consequently they can be worn night and day, and are very easily kept neat and clean.

Beside all this, the mostaccurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.

Any one who is waiting for their permanent teeth will, I am confident, be perfectly satisfied with the Rubber as a base. The expense is but a little more than for Silver, and you get the same teeth (no blocks) that you would pay $60.00 for an upper or lower set on Gold.

In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by the best Dentists too. I will warrant a perfect fit and teeth from the best manufacturer in the country, S. S. White.

ALL OTHER OPERATIONS IN DENTISTRY I will do at the usual rates. I will here mention that my price for EXTRACTION is 25 cents.

I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr OLIVER and Dr. DENNETT, for particular success in extracting Teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with **Neatness and Dispatch.** All other operations in Dentistry, I will do at the usual rates.

☞ Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

GRACE'S CELEBRATED SALVE

A SURE RELIEF FOR THE SUFFERER.

This Salve is a vegetable preparation, invented in the 17th century, by DR. WM. GRACE, surgeon in King James's army. Through his agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day, and was regarded by all who knew him as a public benefactor.

Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Flesh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.
Grace's Celebrated Salve cures Scurvy.
Grace's Celebrated Salve cures Callouses.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sores.
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find this Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much trouble, suffering, and money. All it wants is a fair trial to cure old and inveterate Sores.

Love truth, do good, be just and fair with all;
Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party generality. It is a spirit not to be encouraged. Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. ☞ ATTENTION, THE WHOLE! ☜
RYE, N.H., Feb. 28, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even confine her to her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWEET'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JONAS JENNESS.
PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.
From ELDER I. CHESLEY, *Lee, May 31, 1841.*
DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named. ISRAEL CHESLEY
☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26o

Portsmouth, N. H.

MONDAY, MARCH 16, 1863.

THE REBELLION.

Beauregard has revoked all furloughs and recalled all absentees to their posts.

A Fortress Monroe dispatch states that the rebel General Longstreet's headquarters are at Petersburg, Va. He has 18,000 troops 12 miles this side, between there and the Blackwater. It is said they do not intend to make an attack.

It is authoritatively denied that any peace propositions are known by the Government, as asserted by Fernando Wood in his recent speech.

A letter from White Oak Church, Va., states that everything points to a movement of the army. Line officers have been ordered to dispense with all unnecessary luggage. The roads are rapidly improving.

It is reported that Col. Richardson, the noted guerrilla chief, and 400 of his men, were captured at Covington, Tenn., on Monday.

The reports of an important victory on the Yazoo are re-affirmed.

☞ Two important results have followed from the bombardment of Fort McAllister.

1st. That the Monitors have far exceeded all anticipations of their invulnerability to shell or torpedoes, under the most accurate firing, and that full confidence can now be placed in them. 2d. That the officers and men have acquired invaluable (when we consider what use we are to make of these Monitors) practice and skill in handling both guns and boats under such a fire, better than which will never be seen in this war. This itself is worth the taking of the fort, which, gun after gun being dismounted, owed its preservation simply to the tides and narrowness of the river.

In the first instance the Monitors commenced the bombardment at twelve hundred yards, and afterward decreased it to six hundred yards in the last firing, so near, in fact, to the fort, that the rebels were obliged to cut away the parapet to depress their guns sufficiently to bear on the Monitors. At this distance the practice of the rebel artillerists was splendid. Seven consecutive shots passed within the diameter of a foot and a half through the smoke-stack of the Passaic. One shot, a ten-inch, hit within three inches of the muzzle of the fifteen-inch, and during the engagement her turret was hit no less than thirty three times. Not a man was injured in any way during the engagements, on board of the Monitors, and they themselves came out of the conflict as strong and as good as when they went in.

☞ Late European advices show continued, if not increasing, activity on the part of the insurgents in Poland. There had been engagements at various places with varying successes. Gen Klapka had gone to join the insurgents. The veteran Gen. Dembenski had also left Paris for Poland. The total force of the insurgents is estimated at 45,000, but no single corps numbers more than 4000. It is stated that the Emperor of Russia has ordered the authorities of Warsaw to suppress the insurrection at any price within ten days. The latest dispatch, Mar. 1, says the Prussian Chamber of Deputies have carried a resolution in favor of neutrality in Poland by a large majority. It is reported that the Russians have again been severely beaten.

Stealing on a large scale, is no doubt, the order of the day among army contractors, political swindlers and thieving demagogues. Millions, which should have been expended in making the soldiers comfortable, and providing the requisites for efficiency in the army and navy, have been plundered by these monsters whom all men, even those of their own kith and kin, detest. The government has depreciated their existence, and more, their success in the exercise of their pilfering propensities. But it could not help itself. Such consequences always follow in the train of war and always will. With an efficient police about us we cannot keep the burglar from our stores, or the incendiaries from our dwellings; and what shall we expect when thousands, at least far more corrupt than common burglars and incendiaries, apply to the government to furnish such articles or do such services as are needed, who come armed with recommendations and testimonials, which if God were not omniscient we might suppose would admit them to heaven. Governments as well as corporations, whether national, state or municipal, are regarded and treated as "having no souls,"—plunder from them with many is honest gain, and he is shrewdest and wisest who gets the largest share!

There is a peculiarity quite noticeable, just now, which it may not be amiss to refer to. Those prints that are the hardest and most particacious in their denunciations of the present administration and its measures, in times past have been helped most freely from the national treasury. It is no more than reasonable to suppose they feel the change. They are entitled to sympathy.—*Newburyport Herald.*

☞ A letter from on board the gunboat Vanderbilt states that they captured the Peterhoff when ten miles out from St. Thomas, on the 24th ult. She is loaded with arms and ammunition, and commandeered by a British navy officer. She was sent to Key West.

NEW HAMPSHIRE ITEMS.

—— The following is the Statesman's recapitulation of the vote in 216 towns.—The 13 to be heard from, last year gave Berry, 414; Stark, 614. The whole vote last year was 62,500.

	Gilmore.	Eastman.	Harriman.
Rockingham,	4829	4777	594
Strafford,	2777	2597	146
Belknap,	1640	2085	135
Carroll,	1785	2462	35
Merrimack,	2886	4629	1370
Hillsborough,	4225	5476	1270
Cheshire,	2225	2344	103
Sullivan,	1983	2056	229
Grafton,	3767	4679	482
Coos,	901	1149	47
216 towns,	28711	32205	4411

154 Republicans are elected to the House, and 126 Democrats. Towns to hear from are likely to choose 6 Republicans and 14 Democrats. If so the Republican majority in the House will be 50.

—— Col. J. S. Cheney, the Democratic candidate for Railroad Commissioner, is probably elected.

—— There is a vast amount of figuring being done just now in the 1st Congressional District. A dispatch from the Dover Inquirer office, Saturday, states that the majority for Joel Eastman in Strafford county is 314. (For Gilmore and Harriman it is 273.) In Carroll county Eastman run ahead of the combined vote of Gilmore and Harriman, and should the return of Chatham, Jackson and Harts Location come in as last year, the majority will not be ten either way.

RYE TOWN OFFICERS.

Moderator—John C. Philbrick.
Town Clerk—Nathaniel Marden.
Selectmen—James H. Dow, David A. Jenness, Edward Seavey.
Representative—Lewis L. Perkins.

For Governor, there were 52 votes for Gilmore; 12 for Harriman; and 205 for Eastman.

—— The financial condition of the town of Bedford at this time, is remarkably good. There are available means enough in the treasury to liquidate all demands against the town, and still leave $108.96. The town being in so prosperous a condition, it was voted to raise only $1000 for town expenses this year. There are no poor in the town who require any assistance. 86 soldiers have been furnished from the town, being eight more than its quota. At the annual town meeting this year, eleven persons, whose united ages was 927 years, were present and voted. Eight voted for Gilmore and three for Eastman.

—— The following officers have been dismissed the service for being absent without leave:—

Capt. Blake Fowler, 12th N. H. Left the regiment without authority at Warrenton Nov. 12, 1862.

Capt. J. Ware Butterfield, 12th N. H. Left the regiment without authority at Warrenton, Nov. 12, 1862.

1st Lt. W. F. Dame, 12th N. H. Absent without leave since Jan. 26.

—— The death of Lieut. Hiram C. Tuttle, of Co. H, 4th N. H. Regiment, was noticed by the commissioned officers of the regiment, at Beaufort, S. C., on the 3d inst., in a manner which shows that the deceased was highly esteemed by his comrades in arms.

—— On Thursday afternoon as the down train on the Concord Railroad was passing swiftly through Pembroke, a rail was turned out, which threw two cars from the track. The train was speedily stopped, and it was found that no injury had been done, though the passengers were terribly frightened.

—— In Manchester on Friday morning it was 10° below 0.

—— In Concord at 7 o'clock Saturday morning, the thermometer ranged from 13 to 16° below. At Great Falls it was 18° below.

☞ An instance of the daring of negroes in that section is told by a Lake Providence (La.) correspondent of the Philadelphia Inquirer. Recently a black man, after several days' urgent request for a musket and rounds of ammunition, succeeded in securing his wish. He set out in the night, and by morning reached the vicinity of a rebel guard. He crept cautiously forward, but was seen and watched. Suddenly a sharp crack of rifles brought him to his feet. Before him were three rebel soldiers. He instantly brought his musket to his shoulder and fired. One rebel fell dead. The negro, by the time the bewilderment of the other two had passed off, was upon them with uplifted musket, threatening them with its immediate descent unless they surrendered at once. They acquiesced in a hurry. Leaving the dead rebel to the dogs, with the other two in tow, the negro returned to our lines and delivered them to the authorities. Since this exploit the negro has made himself useful in scouting and bringing in information.

☞ Asa F. Souther, who is confined in Plymouth jail awaiting examination for the murder of Gay Richardson, in Hingham, Mass., attempted suicide a few days ago by severing the arteries on the inside of the elbow with a piece of iron.

☞ The British Government's claim against Brazil has been modified one-half.

LETTER FROM NEW YORK.

From our Regular Correspondent.

NEW YORK, March, 11th.

Dear Chronicle:—The greatest attraction of the weeks passing, is the series of Operatic Soirees at the Academy, at which have already been given, "Il Trovatore," "Un Ballo in Maschera," and "Ernani," with the promise of "Troviata," "Norma," and "Dinorah" during the month.

Friday evening, the opening of the season, we had "Trovatore," a much thumbed, but still favorite Opera—given, with some additions to the usual roles, in excellent taste. The season promises to be the most brilliant one this great Metropolis has ever seen. The corps of artists is large, and fresh, the voices rich and vigorous, and the parts assumed with more spirit than was ever displayed by the Italian Operatics.

The imaginary individual, known as the clerk of the weather, who so coolly snowed us up, one day last week, soon thereafter brought out, from behind the clouds, his grand heating institution, whose sicative powers, caused the crystal peaks to vanish one by one, leaving our streets clean again.

Skating at the Park has been but little enjoyed this winter. During only three days has the ice been in condition, and then not of such excellence as to be specially inviting. Your correspondent hasn't tripped a "light fantastic toe" on the ice this year, and at this late day he can only hope that the elements will be more propitious next season. Those having large stocks of skates and sleds still manifest a willingness to receive "greenbacks" in exchange for goods!

A company recently organized for the management of an outside line of steamers to Boston, are in a prosperous condition, with two crafts approaching completion.—The boats are compactly built, with excellent accommodations for passengers and freight. The line will be in operation via Sandy Hook and the coast, about the first of May, and will afford a convenient and agreeable mode of daily communication between the metropolis and its provincial competitor.

Higgins & Co.'s carpet manufactories, 43d St., and North River, were partially consumed on the 8th. The fire is supposed to have caught from the collection of soot and cinders upon the boilers, thus igniting the beams directly above. The flames raged fiercely for several hours, and at one time threatened the destruction of the main building, five stories, five hundred feet long, which would have entailed a loss of over half a million dollars, and thrown nearly two thousand hands out of employment.—Three buildings only were destroyed, all of which will be immediately re-built. Loss about $30,000. Insurance on whole building $250,000, in city companies.

NEWINGTON.

☞ Gen. Rousseau has obtained leave to organize a corps of mounted men equipped like the rebel troops under Morgan and Forrest. The corps will be ten thousand strong, and is intended not only to fight guerrillas in their own style, but to be used in breaking up their lines of communication and harassing their rear.

☞ Mrs. Cynthia Lawrence, of Fairfield, Me., between 70 and 80 years of age, fell through a trap door to the bottom of the cellar, breaking one of her legs in a shocking manner. She was alone at the time, but managed to crawl up the stairs on her hands and one knee. It is feared the injury will prove fatal.

☞ Manchester, Eng., the chief seat of the cotton manufacture, contains 534,513 operatives. There are now 146,927 employed full time, 159,537 at short time, and 228,120 wholly unemployed. Suffering necessarily follows this want of employment.

☞ A convention of the friends of Temperance in Massachusetts is to be held in Tremont Temple, in Boston, on Wednesday, March 18th, to consult together upon measures to check the prevalence of intemperance in that State, and among the soldiers in the army.

☞ In the Chicago Court of Chancery, last week, a bill for foreclosure was issued in a cause of Fernando Wood against the heirs, widow and creditors of the late Stephen A. Douglas. The amount claimed is over eighty thousand dollars, on property near the Illinois Central Railroad works.

☞ A force of 2000 men is to be detailed to man the sea coast defences of New York harbor.

"Well, how do you like the looks of the varmint?" said a "south-wester" to a "down-easter," who was gazing with round-eyed wonder, and evidently for the first time, at a huge alligator, with wide opened jaws, on the muddy banks of the Mississippi. "Wal," replied the Yankee, "he ain't what yeou may call a hansum critter, but he's got a great deal of *openness* when he smiles!"

There is an Irishman employed as a bridge hand out West, on the Central Railroad, who brags of having a time-piece that keeps correct time. He was heard to remark a few mornings since, upon pulling out his watch, "If the sun ain't over that hill in a minnet and a half, he will be late."

TIRED.

Jesus, I have a little song
I often sing to thee—
Forgive me if it seemeth wrong;
Ah! stoop thou down to me!

Bend very low, I am so small,
A little humble thing,
That hardly dares to frame at all
The words I wish to sing.

It is: I am a lonely child,
In all this great, great world;
No haven where, when storms are wild,
My torn sails may be furled;

No shelter for the tired head—
No sung rest, warm and wide,
Where I can nestle, free of dread,
While rough winds beat outside!

And all the time this earth looks drear,
Thy Heavens are so fair—
But few I think would miss me here.
And many want me there;

Therefore the little song I sing,
At work time, or at play—
O, let thy white winged angels ring
My sweet call Home some day.

Rubber Band Carpet Sweeper.

TRY IT! TRY IT!!

It saves Money; it saves Carpets; it saves Furniture; it saves Labor; it is cheaper than Brooms at five cents apiece.

It gathers up all dust, dirt, and loose lint on the carpets, and raises no dust to settle on the furniture, drapery, or ornaments, or to smother, stifle and irritate the lungs.

It does not wear the carpets half so much as brooms or any other sweeper.

It is the only practicable sweeper made, and the only article fit to sweep a carpet.

With our late improvements it gives universal satisfaction to all who use it according to directions. For sale at No. 19 Market Street by

Local.

☞ Saturday morning, Mar. 14, was unusually cold, for the season, the mercury in different parts of the city being from 6 to 10 degrees below zero. There was no wind, but the air was sharp, and icy. The recent heavy falls of snow, and the cold weather seem to go far to prove that after all, "winter never rots in the sky," as as many men, wise or otherwise, have from time immemorial insisted. But it must be admitted that this year it has come rather late in the season. From present indications there will shall have more and better sleighing in March than during all the winter months.

The steam or vapor on the river between the hours of 6 and 7, A. M., was so dense as to occasion the workmen much difficulty in reaching the Navy Yard. It was impossible to discern an object a boat's length ahead, and some after rowing for half an hour or more, found themselves at the same point from which they started.—One boat made Noble's Island three times before reaching the Yard; another crew landed on the lower side of Pierce's Island, and after shaping their course for the Yard, as they supposed, brought up at the very wharf from which they started, and gave up the attempt. It would have been an amusing sight to one standing upon some eminence commanding a view of the river, if the fog could have suddenly lifted, to have witnessed the diversity of courses these boats were pursuing. As it happened, however, no accident occurred, all those who reached the Yard arriving there in safety. A correspondent suggests that it might be a wise plan to blow a horn or ring a bell at the Yard on such occasions.

A CARD.—At 5 o'clock of the morning of Feb. 4th, the dwelling house of the Porter of the Navy Yard was discovered on fire, and in a very short time the family were hurried from all the comforts of home, out in an atmosphere the thermometer indicated 14° below 0.

A disastrous sight that—the toil and savings of many years blazing high in the air, only to be strewn in ashes at their feet, thus throwing those who were, by their own exertions, hitherto independent, destitute and homeless on the compassion of the community.

Simultaneously, however, with the knowledge of the fire, arrived friends with needed articles, and every tangible proof thought or mercy; nothing could surpass the attention of the families of the officers of the Yard, and the refinement and delicacy of manner in their bestowal, while citizens of Portsmouth, Kittery and Greenland offered their homes and the contents of their presses and pantries freely.

Days, after the disaster, of freezing cold, did not prevent ladies from issuing out of their luxurious homes in behalf of the distressed family, and deep and lasting is the gratitude which prompts this public acknowledgement of those deeds, which furnished help to those ready to perish, while their words of hope and consolation were like wine and oil to the recipients.

Grateful and public mention is made of the following sums of money received:

Feb. 4th. From marine officers and privates, through Col. Ward Marston, commanding, the sum of $57.25
Officers of the Yard and workmen, 173.00
Citizens of Portsmouth, 150.00

EDWARD N. ANDERSON.
March 10, 1863.

☞ Buckley's Serenaders give their last concert in this city, this evening. Their burlesque opera of Lucretia Borgia, on Saturday evening, was excellent.

☞ The Tribune's Washington dispatch states that the Navy Department will issue proposals, to be answered within 30 days, for monster sea-going iron-clads — their mast, boats and rigging to be of iron, their burthen eight thousand tons, the draft twenty-one feet. They are to carry ten guns in casemates, weighing twenty-five tons without the carriages, and are to be worked by ten pairs of engines. The nine new monitors, which are in process of construction, and will probably be ready two or three months after the time at which they were promised, are to be made considerably longer than those now afloat, and will have twice their speed.

☞ The Queen of the Wave, a British steamer, captured in attempting to run into Charleston, is a valuable prize. Her cargo consists chiefly of ammunition.

☞ Gen. Montgomery, Military Commander at Philadelphia, having been ordered to Cairo, Lieut. Col. Whipple, U. S. A., assumes command.

☞ The N. Y. Express states that Sec. Chase, who is in that city, was on Saturday offered one hundred millions in gold by European parties.

☞ News has been received in St. Louis that the guerrilla Porter died at Batesville, Ark., on Friday of last week. He was wounded in the fight at Hartsville.

☞ It is stated that the Confederate loan has all been freely taken in the continental markets.

☞ Yesterday (Sunday) was the anniversary of Gen. Jackson's birthday.

☞ Fast Day in Massachusetts, Thursday, April 2d.

☞ The U. S. Senate adjourned *sine die* on Saturday.

PROPOSING A CONVENTION.—A Richmond correspondent of the Mobile Register, proposes a convention for the adjustment of affairs. This writer denies the possibility of a re-construction of the old Union, but favors a close commercial league with the Northwest, and argues in favor of an attempt to secure it even before the South secures its independence. Speaking of the obstacles in the way of such a convention, he says:

"All the politicians who have been made famous in this revolution, and the Generals who have sprung from obscurity to lofty positions by the accidents of war, and all the greedy cormorants who now prey upon the public, will oppose this or any proposition looking to peace. We shall have a dismal howl about 'State Rights,' and all conceivable appeals will be made to the prejudices of the people to prevent any action by the Government looking to peace; but there is an imperative necessity for action in the direction contemplated; otherwise, our Congressmen are all fools and our Generals all liars. Hopeless ruin awaits both the Northwest and the South."

☞ On Friday afternoon, a woman, while riding in one of the South Boston coaches, discovered a strange hand in her pocket, and turning upon its owner seized him valiantly, and also held him till a policeman was procured. He had nearly abstracted her portmonnaie.

☞ The Paris correspondent of the Daily News announces that the French Government has received most embarrassing news from Mexico. Gen. Forey despairs of taking Puebla without a much greater army, and calls for reinforcements.

☞ John Hay, the President's Assistant Private Secretary, has accepted a position upon Major-Gen. Hunter's Staff, and will immediately leave for South Carolina.

☞ See yon fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

BUY CALIFORNIA WINES

They are the Purest!
The Best!
The Cheapest!

The "sunny slopes" of "Los Angelos" have announced to the world that America is a wine-growing country, and as the discovery of gold sent a thrill through the old world, so will the discovery of these Wines startle them again, as it says, "one more link broken which has bound us to Europe," "one more step to Independence." Let every man, woman and child who uses Wine, see to it that they buy none other than these.

"The Hock" is a most delicious Wine, and rivals in delicacy its German predecessor.

The "Angelica" and "Muscatel" are melting, luscious and rich, and will take the place of Malaga, Tokay, or other rich Wine.

The Port has a fine flavor and body; and The Port is excellent because it is pure.

ANOTHER NEW STOVE!

THE MODEL COOK

FOR WOOD OR COAL.

The *novel*—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the larger oven, for baking; giving an oven nearly 3 feet long; or large enough to take six large plates on the bottom, every part of which will bake equally at the same time! A check draft is applied to this stove by means of which the consumption of fuel is greatly lessened, and a steady fire can be kept day and night if desired.

THE MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be very convenient for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is needed.

We believe the MODEL COOK to be the very best Stove in the Market, and invite every one to examine it whether they wish to purchase or not. It has had a very extensive sale since its introduction. Reference might be made to more than a hundred families in this city or vicinity who are using the Stove, and give it the highest commendation.

We refer to the following individuals who have purchased the Model Cook:—

David Kimball, Thos. F. Burt, John T. French, Rev. Mr. Davies, Wm. Hodgdon, Capt. John Davis, Jeremiah Exitt, Mrs. Ann T. Perkins, James W. Jarvis, Francis C. Jarvis, Thos. L. Tullock, Jacob Wendell, Capt. Jacob Thompson, Gen. J. G. Hadley, G. Melvin Huntress, Jos. D. Ackerman, James F. Shores, Wm. C. Newton, Horton D. Walker, Benj. Cheever, John Trundy, Richard L. Handall, Geo. Rice, Benj. F. Cauley, Benj M. Parker, Charles A. Wiggin, George W. Plumer, Nath'l Dennett, Henry F. Gerrish, John Harratt, Thos. Murphy, Capt. Wm. Laubert, Joseph Stiles, John Senter, Wm. Bell, Cyrus Plumer, Freeman Hurd, James M. Locke, Daniel L. Randall, Isaiah Wilson, Jos. E. Roberts—of Portsmouth; Samuel C. Dixon, Daniel I. Pryor, Cushman Pryor, of Freethen's Island, Geo. A. Dixon, Samuel H. Paul, Elias Remick, Timothy Dame, Eliot; Wm. S. Locke, Benj. Fernald, Mrs. Wm Locke, Kittery; R. F. Gerrish, Kittery Point; Hon. Clement March, Albert Blaisdell, Stephen M. Weeks, Geo. W. Davis, Greenland; John Smart, Stratham, Mrs. Reuben P. Jenness, David Jenness, Moses Philbrick, Rye.

VICTOR COAL STOVE.

We offer this beautiful coal burner to the public, with full confidence in its merits.

It was brought into market two years since and has come rapidly into use.

The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation. The arrangement for dumping the ashes is very fine—no dust need escape into the room—a continuous fire may be kept throughout the winter—the ashes pan holds a bushel, and is easily made.

The quantity of fuel used is very small indeed. There is in this stove an excellent arrangement for ventilating the room in which it is placed; a feature not possessed by any other parlor stove.

Some of the sizes are provided with an oven and boiling place, making them very desirable for a dining room.

We sold a large number of Victor Stoves in our city last season, and they receive the highest commendation from those who are using them.

We have also the celebrated McGregor Stove, so well known in the market as to need no commendation.

A great variety of cheaper Stoves for coal and wood—Coal hods—Patent Coal-sifters.

COAL LININGS,

and Repairing pieces for most of the stoves in use. Job Work attended to with dispatch.

SAMBUCUS FREE OF PORTUGAL,

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints

Excel'nt Wine for Females.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs—relieves Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or compound, but is a pure Wine, made from the Juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medicinal properties superior to any other Wine in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is free from the peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Assist'nt U. S. Patent Office, Washington, D.C.

73 State Street, opposite Kilby Street,

BOSTON,

After an extensive practice of upwards of twelve years, continued in some 7 places in the United States, and in the Patent Office, at Washington, Foreign Patents, Caveats, Specifications, Deeds, Assignments, and all Papers or Drawings for Patents, executed on the shortest notice, with moderate charges. Inventions made into American or Foreign works, to determine the validity or utility of patents or inventions—and if found valid, or meritorious, to secure the same. Copies of the claims of any Patent furnished by remitting one Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but perhaps it possesses more advantages, facility of arrangement, &c. It not is necessarily superior to any which can be offered them elsewhere, but it is believed to be, at present, most worthy of public patronage.

IF YOU WANT THE BEST SERVICE, AND ADVANTAGES AND ABILITY, he would add that he shows, owns, or believes, and can prove, that at no other office of the kind are the charges for Patents so low, or so moderate.

The immense practice of the advertiser during twenty years past, has enabled him to accumulate a full collection of specifications and official decisions relative to patents.

These, besides the extensive library of legal and mechanical works, and the advantage of patents granted in the United States, Europe, Canada, Nova Scotia, and Mexico, make Boston a superior resort for inventors.

All business, by a journey to Washington, to procure a Patent, or to make trial of great delay there, are here relied upon.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and assiduous practitioners with whom I have had official intercourse."

CHARLES MASON,
Late Commissioner of Patents.

"I have a hesitation in assuring inventors that they cannot employ a person more competent and conscientious, and more capable of putting their applications in form to secure to them the rights and favorable consideration of the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

During the last month, the subscriber, in course of his large practice, made or only rejected applications for FIFTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never yet been before introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Recently his treatment, all the horrors of venereal and impure blood, impotency, Scrotula, Gonorrhœa, Gleets, pain and distress in the regions of procreation, Inflammation of the Bladder and Urinary organs, Abscesses, Humors, Orchitis, Swellings, and the long train of horrible symptoms attending this class of diseases, are made to become harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, rendering the victim incapable for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, Shyness, timidity, &c., are among the evils produced. Such persons should before contemplating marriage, consult the Doctor, and have the mind at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Dr. Dow has also for sale the French Capsules, which are superior to any other. Order by mail. Three for $1 and a red stamp.

April 5—1y eow.

CAUTION

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all those diseases peculiar to the female constitution, Uterine or falling of the Womb, Fluor Albus, Suppression, and other menstrual disarrangements, are cured by the new Hygienic Treatment, without exposure or relief guaranteed in a few days. So invariably certain is the new mode of treatment, that cases of long standing yield under it, in a few weeks, and those, once relieved, never relapse.

Dr. Dow has no doubt had greater experience in the cure of Diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of a private nature, which, having by his unrivalled attendance and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. How to obtain the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imparts and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the exception of the cost of a large copper Reservoir for hot water, also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be fed(unused) day and night for weeks together, thus saving the expense of re kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as testified to by families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

MAGEE PARLOR STOVE,

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of the valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable,—and as none of the air which comes in contact with the fire-pots used enter respiration, the tendency to produce headache so much complained of in other furnaces, is entirely obviated.

The attention of many of the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and in so doing, the escape of heat to the chimney pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former models, while many have proved a total failure. Throughout the whole of this Furnace the combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed; this objection so common in other furnaces, is obviated.

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pots, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the fuel in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the dome can be made to pass off the gases, the contents of which are with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and elbows, the receptacle of heat, which are liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coals entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and can be kept the entire season without once going out.

They give entire satisfaction wherever used.

We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert H. Hatch, Esq.,
Aaron Hill,	Charles H. Meadum,
Henry F. Wendell,	John Sise, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st It is stronger and lighter than any known material.

2d. From two to six times the amount of suction can be obtained than on Gold Plate.

3d. When the arch is properly made by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.

4th No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet, and free from odor, when finished in the work presents one whole piece.

6th While in all ways it is better, yet in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*

No. 5 Daniel St. Portsmouth,

Has had four years of practical experience in making this material, and will guarantee satisfaction in all cases entrusted to his care.

Portsmouth, Jan. 1, 1863.

DENTISTRY.

No. 60 CONGRESS STREET,
Portsmouth, Jan. 1st, 1863.

DR. GOODALL

Would respectfully inform his patrons and the public, that he has of late many calls to insert teeth on his VULCANIZED RUBBER, that he has purchased the best VULCANIZER in the market, and is now prepared to do all work up in RUBBER, or the other bases of GOLD and SILVER as formerly, is preferred.

The Rubber has several important advantages, viz: It is very light and elastic, and consequently easy to the mouth; it is impervious to the mouth and cheeks. There are no interstices or open joints to collect food, &c., consequently they are kept sweet and clean, and are very easily kept neat and clean.

Beside all this, the most accurate fit is obtained, as the Rubber is Vulcanized, effectly upon the plaster model, and the section is of course much stronger than in plates of Gold or Silver.

Any one who is wearing a set of artificial teeth, which I am considered be perfectly satisfied with the Rubber, as a base. The expense is but a little more than for Silver, and you get the same set (in blocks) that you would pay $100.00 for an upper or lower set on Gold.

In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by the best Dentists too. I will warrant a perfect fit and teeth from the best manufacturer in the country.

S. S. White.

ALL OTHER OPERATIONS IN DENTISTRY I will do at the usual rates. I will here mention that I do REPAIRING for Extracting 25 cents.

I take pleasure in referring the public to Dr. TREADWELL, Dr. HOARDMAN, Dr OLIVER and DR BARRETT, for particular skill in inserting teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial sets of Teeth replaced. Nuisances and Dispatch All other operations in Dentistry, I will do at the usual rates.

GRACE'S CELEBRATED SALVE

A SURE RELIEF FOR THE SUFFERER.

This Salve is a vegetable preparation, invented in the 17th century, by Dr. Wm. Grace, surgeon in King James's army. Through agency he cured thousands of most serious sores and wounds that baffled the skill of the eminent physicians of his day, and was regarded by all who knew him as a public benefactor.

Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Flesh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.
Grace's Celebrated Salve cures Scurvy.
Grace's Celebrated Salve cures Callouses.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sore.
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find this Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much trouble, suffering, and money. All it wants is a fair trial to cure old and inveterate Sores.

☞ ATTENTION, THE WHOLE! ☜
RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—sometimes so bad that she had to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.
PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of Dr. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I am in good health. M. LOWD.
From ELDER I. CURSLEY, *Lee, May 31, 1841.*
DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health, can go to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISAAC CURSLEY.
☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26o

TUESDAY, MARCH 17, 1863.

THE REBELLION.

Gen. Hunter, at Port Royal, has issued an order to his troops, promising them active service at once. Another order drafts all able-bodied negroes for garrison duty, except those employed by Quartermasters and other officers, to be commanded by Gen. Saxton. Gen. Naglee has been relieved, and Gen. Terry succeeds him.

A report has reached Gen. Rosecrans that the rebels have evacuated Vicksburg, having previously sent their stores and war materials into the interior. Other advices from Vicksburg report all quiet. The river is very high and the backwater had broken through the levee, filling the canal and rendering work upon it impossible.

A Memphis despatch confirms the reported surprise and capture of a portion of Richardson's guerrilla force near Covington, Tenn. Their camp was destroyed. Gen. Looney's camp at Wesley was also surprised by Col. Lee, and a large portion of his force captured, together with Gen. Looney, Maj. Sanford, Capt. Bright and Lieut. Williams.

Our cavalry report 12,000 rebels within 28 miles of Fort Donelson. They are reported to be well armed.

Information received at Washington indicates that the rebels have a considerable force of cavalry, artillery and infantry in the Shenandoah valley. Lee's army has not been materially weakened, but has been industriously employed in erecting defensive works at Fredericksburg.

A special despatch from Washington to the N. Y. Mercury says: "Gen. Hooker will be ready to move in about a week. It is rumored that he will march on Richmond by the way of Urbana, on the Lower Rappahannock."

The War Department is actively employed in arranging the necessary machinery for the coming conscription.

Com. Porter states that the Indianola was really destroyed by the rebels, while under the effects of their scare from the Quaker Monitor. The Vicksburg Whig of the 5th says she was blown to atoms: not even a gun was saved.

Gen. Halleck has authorized Gen. Rosecrans rigidly to enforce all the laws and usages of war upon rebels in his department.

Maj. Gen. Stahl has been placed in command of the entire force of cavalry in front of Washington.

The colored troops from Port Royal were at Fernandina, Fla., Mar. 8. They would probably go up the St. Johns river, and, striking towards Lake City, would lay hands on such colored individuals as had been permitted to remain. Arms and equipments for 5000 men were taken with the expedition.

The Cincinnati Gazette's Vicksburg dispatch says the Yazoo Pass Expedition has captured 26 steamboats, 18 of which were destroyed. The gunboats have arrived above Haynes' Bluff, and would soon commence the attack on Vicksburg. It was supposed that the greater part of the rebel force would go to Chattanooga and endeavor to overwhelm Gen. Rosecrans. Gen. McClernand's troops were compelled to embark for Milliken's Bend, sixteen miles above Vicksburg, owing to high water.—The recent operations at Lake Providence and elsewhere resulted in inundating more than 100 miles of Louisiana property, destroying millions of dollars worth of property. The guerrillas were completely drowned out.

On the evening of the 9th, an unknown steamer came into Savannah harbor, fired two guns and left before the guns of the fortification could be brought to bear on her.

REBEL RAID IN KENTUCKY.—The Cincinnati Times has information which it considers reliable, that the rebels are preparing to make another effort to seize and hold Kentucky and invade the Northern States. The forces for this work are said to be organizing in East Tennessee, and will move as soon as the weather and the roads will permit. The inclement season is nearly over, and the roads will soon be in such condition as to permit a movement from East Tennessee into Kentucky.

The Times animadverts with great severity of language on the lack of necessary vigilance and discipline in the army of Kentucky; says that the immunity enjoyed by traitors serves more than anything else to encourage the rebels, and demands that there be a change, and that speedily, unless the panic of last year is to be enacted over again.

☞ Gold opened in New York on Monday morning at 156 3-8. At 1 o'clock gold was quoted at 155 1-2, U. S. Sixes at 103 and Seven Thirties at 106. After the Board, gold sold at 153.

☞ The iron-clad Keokuk arrived at Fortress Monroe on Friday.

☞ Daily Chronicle of Monday, March 9—wanted.

THE CONSCRIPTION ACT.—The Boston Post takes ground against Fernando Wood, and with John Van Buren, upon this measure to replenish the ranks of the army, as will be seen by the following comments:

In the crisis that is upon the country there is one plain path of duty, namely: to obey the laws of the land, whether we like all their provisions or not. Inside of this is safety as well as duty; outside of it is anarchy. This principle applies to the Conscription act just become a law. It is obligatory on all until it is repealed or decided inoperative by the proper tribunals. Good citizens, however they may deplore the necessity, or object to some of its features, are bound to obey it, and of course refrain from action tending to defeat it.

The St. Louis Republican's correspondent states that "Gen. Grant is gradually surrounding Vicksburg, and present appearances indicate that it will be evacuated within four weeks at furthest. From the first it has only been a matter of time with Gen. Grant. He works the matter cautiously and well; surely, though slowly, bringing his immense advantages to counteract the rebels' studied defense. No officer possesses more thoroughly the good will of his soldiers, or has shown clearer judgment than the General in this affair. Careful of his men and skillful in handling them, his success bars promises to be greater than anywhere before. Deserters say the rebels are throwing up strong works at Columbus, Ga., and it is probable in evacuating they will retreat there."

GOVERNMENT SECURITIES.—The unanimous decision of the Supreme Court of the United States that the public Stocks and Bonds of the Federal Government cannot be taxed by the States, or by any county, city, or other corporation or municipality acting under State authority, is so comprehensive and conclusive, as to settle the question beyond all future litigation. This opinion of the Supreme tribunal was not unexpected, but it is not the less timely and important for the investment of private capital, bank and insurance capital, and all trust funds, in the Public funded stocks of the United States, paying their interest exclusively in gold coin. In addition to the plighted faith of the Government to the promptand uniform payment of interest in gold coin, Congress has provided and pledged a fixed and certain source of revenue, receivable exclusively in gold coin from the Customs Duties on our import trade.

☞ There was a great gathering on Saturday evening at the New York Academy of Music to ratify the proceedings of the late Cooper Institute meeting. Secretaries Chase and Welles were present, and the speakers were Gen. Cochrane, James T. Brady, (who presided,) Ex-Gov. Wright, of Indiana; Governor Johnson, of Tennessee; and Gen. Wetmore. The plan for the organization of a loyal Union league was adopted with enthusiasm. Gen. Scott was chosen president, and the list of Vice Presidents and Executive Committee includes many most prominent citizens.

☞ In relation to the clause of the new Conscription Law which includes in its provisions foreigners who have announced an intention of becoming citizens, the New York Albion, apparently by authority, says:

"That this is an innovation, many of our readers are aware, but they are mistaken in supposing that their own home Governments will trouble themselves about the matter."

☞ Advices from the City of Mexico to the 19th of February state that no immediate attact on Puebla was then anticipated. 34,000 Mexican soldiers were there, while 50,000 were in the neighborhood of the City of Mexico, and the fortifications of the latter city were being greatly strengthened. The arsenal was engaged night and day manufacturing the best rifled cannon and other implements of war. The troops are generally well armed and equipped and apparently capable of making a formidable resistance to the French.

☞ A Mr. Pierson of Hull, England, a millionaire, and one of the magnates of his section, thought to add to his splendid fortune by running our blockade. Some of his first ventures were successful, but the subsequent capture of several of his richly laden vessels made him a bankrupt, and now he is so reduced that his servants see him for their wages, and all his estates, fine furniture, equipages, &c., have been put to the hammer to satisfy the claims of his creditors.

☞ The Boston Herald states that the Naval Court Martial now sitting at the Navy Yard in Charlestown, have found Acting Master Pettingill, of the U. S. steamer Western World, guilty of inciting a mutinous assemblage on board that vessel, and sentenced him to six months' hard labor in the State Prison, to forfeit all pay due him, and to be dismissed from the service. Pettingill is now undergoing sentence.

☞ The new territory of Idaho is regarded as the most beautiful portion of the great northwest. The name Idaho means, it is said, in Indian, the "gem of the Mountains."

☞ To-day, (St. Patrick's day,) will be celebrated in Boston, Salem, and other cities, with more than usual ceremony.

NEW-HAMPSHIRE ITEMS.

—— Oliver Godfrey, Esq., of Hampton, slaughtered a pig a few weeks since, only six months old, that weighed, all dressed, 360 lbs.

—— The New Hampshire 3d, Col. John H. Jackson, was at Port Royal 26th ult., in a highly favorable sanitary condition. Only one member of the 3d, a private, has died since Dec. 5, and it had but thirty on the sick list. Maj. Josiah J. Pimpton, laid up three months with bilious malaria fever, arrived home in Milford 3d inst. on sick leave. Six hundred and fifty odd were fit for duty 26th ult., beside twenty or more detailed for special duty.

—— Maj. J. H. Whitney, U. S. Army, now stationed at Concord, is the officer designated in this State for soldiers absent from duty without leave, to report themselves on or before the first of April, according to the proclamation of the President.

—— A lady slipped and fell in the street in Manchester on Friday evening, fracturing her left leg very badly in two places, between the knee and ancle.

—— The picker of the Norway Plain Manufacturing Company, at Rochester, situated between their two brick mills, was burnt last Saturday evening. The fire originated in or near a patent dryer. The Telegraph reports this to be the second picker belonging to that company that has been burned within the past week. Insured in the Liverpool, London and other offices.

—— The Exeter News Letter states that a man in Brentwood froze his mouth so "bad" that he "could neither open nor shut it," till a physician came to his assistance. It does not state the relative position of the lips at the time of freezing.

—— The vote of Concord this year, as compared with that of 1862, is somewhat curious. Last year, Stark, for Governor, had 812, and the Republican and Union tickets combined, 1241. The majority against the Democrats was, therefore, 429. This year Eastman has 918, and Gilmore and Harriman 1347; majority against the Democrats 429.

—— Concord will again try on the 30th to elect a Mayor.

☞ In Cincinnati dwell two families in one house,—Patrick Lyon and Hans Heidelbock, and as it happened on the same fortuitous night, three "well-springs of pleasure" appeared, of which Patrick claimed the majority. But the foolish old nurse wished to contemplate the relative beauty of the cherubs, and the three became hopelessly mixed. But the mother wit of the Irishman solved the difficulty. He was entitled to two of the children anyhow, and two he would take, and if either of them when grown up should talk Dutch he would repudiate its paternity and lay claim to the third. The Dutchman coincided with the idea, and clasped to his bosom the remaining child, resolved to watch for the first indication of the brogue that might change his paternal love to unmitigated disgust.

☞ Gerritt Smith, so long known for his radical anti-slavery views, has published a speech in which he insists that "the rebellion must be put down, and that *all hands* must help put it down." Republicans, Democrats and Abolitionists, waiving all differences and giving up all party feeling on other points, must, on this point, "become one party." He admits that the Abolitionists, by their talking and writing, did much to annoy the South, but that neither this nor anything else justified the rebellion.

☞ Mr. Hayden, of Bath, has very little reverence for relics and things of antiquity. In the Maine Legislature the other day he said, by the way of a hit at the Popham celebration and similar exhumations of the past, that for his own part he would not give more than $6 a cord for the whole of Noah's Ark, if it could be found in a state of preservation, and that mainly for ascertaining how well the timber had been preserved.

☞ U. S. Commissioner G. L. Woodbury, of Boston, has decided that a husband may open a *wife's* letters, on the ground that husband and wife are one. The wife did not see it; but then she should remember that the rule will allow her to open her husband's letters.

A LARGE FAMILY.—A man named Jesse Harbor, of Champaign county, Ohio, recently dead, was the father of thirty-one children, the youngest of whom is about two years old. He has managed to give all who have arrived at maturity an outfit of eighty acres of land.

☞ A dispatch says the approach to Vicksburg from Yazoo, westward, and to the rear of the besieged city is easy, both by rail and wagon roads, and the country is rolling. Yazoo is the key to Vicksburg. When Yazoo falls, Vicksburg falls. The result of the movement, if such it be, will soon become a matter of history. But there are events very likely to delay.

☞ Great Union meetings have recently been held in Philadelphia, Newark, Salem and other cities, and Union Leagues are being organized all over the North.

IMMORTELLES.

KINDNESS.

There's no dearth of kindness
In this world of ours;
Only in our blindness
Take we thorns for flowers!
Cherish God's best giving,
Life were not worth living,
Were it not for Love. —Maxey.

ANGEL GUESTS.

In vain shall thou, or any, call
The spirits from their golden day,
Except like them, thou too canst say
My spirit is at peace with all.

They haunt the silence of the breast,
Imagination calm and fair,
The memory like a cloudless air,
The conscience as a sea at rest:

But when the heart is full of din,
And doubt beside the portal waits,
They can but listen at the gates,
And hear the household jar within. —Bonnyson.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The Judge required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper thereto."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

To Whom it may concern.

Notice is hereby given that the Undersigned has this day given to his son, JOHN A. GARLAND, of Newington, his time, to act and trade for himself; and that hereafter he shall claim no wages of his earning, nor pay any debts of his contracting.

LEVI GARLAND.

Notice to Housekeepers.

Rubber Band Carpet Sweeper.

TRY IT! TRY IT!!

It saves Money; it saves Carpets; it saves Furniture; it saves Labor; it is cheaper than Brooms at five cents apiece.

It gathers up all dust, dirt, and loose lint on the carpets, and raises no dust to settle on the furniture, papers, or ornaments, or to smother, stifle and irritate the lungs.

It does not wear the carpets half so much as brooms or any other sweeper.

It is the only practicable sweeper made, and the only article fit to sweep a carpet.

With our late improvements it gives universal satisfaction to all who use it according to directions. For sale at No. 12 Market Street by

Particularly recommended to delicate persons requiring a gentle stimulant. Sold by all Grocers, Druggists, Hotels and Saloons P. H. DRAKE & CO., 202 Broadway, New York.

For sale in Portsmouth by THACHER and PRESTON.

Local.

☞ Letters received in this city from Concord, on Monday, from Democratic sources, claim that the election of Hon. Daniel Marcy as Representative to Congress, was placed beyond further question.

☞ Wm. Bodge, Esq., has been appointed Surveyor of Customs for the District of Portsmouth, in place of Gen. Josiah G. Hadley.

☞ The New Bedford Standard notes the following contrasts: A sleigh with jingling bells passed down Union street this morning, and at the same time a lady passed along with a sunshade over her head.—But a greater contrast may be recorded as occurring a few days ago, a lady riding in a sleigh with a *muff* in one hand and a sunshade in the other.

☞ The Government, it is reported, contemplates the establishment at Washington, or at Annapolis, of a camp of instruction for 100,000 men—an indication of a purpose to give vitality to the Conscription Law.

☞ A letter from Florence, Ala., to the Mobile Register, says that Wayne county is full of renegades styling themselves Union men. They have been joined by many deserters from the Southern army, and have become more formidable than ever.

☞ From indications, the California emigration to Oregon, Washington, Idaho and British Columbia, this year, will exceed that of last, while the rush for Washoe, Humboldt, Russ river, State Range, Colorado and the north western states of Mexico promises to be unprecedented.

☞ By order of Gen. Schenck, all the music publishers and dealers in Baltimore, have discontinued the publication or sale of "Southern or Secession Music." All pictures of Confederate Generals and statesmen have been seized, and the dealers therein are prohibited from selling any more.

☞ An oil refinery in Buffalo has been confiscated, with its contents, for an attempt of the proprietors to evade the tax under the United States Tax law. The value of the property is about $18,000.

☞ A writer in Fraser's Magazine, says: "We have heard one who had bad large experience in the temperance cause, declare that he never yet had known a reformed female drunkard, though he could point to multitudes of men who had been rescued."

☞ Since the first of January, 1863, Pounds, Shillings, and Pence have given place to Dollars and Cents in Vancouver Island.

☞ On the evening of February 27th, the end of a large warehouse near Walker's Point Bridge, Milwaukee, burst through with a tremendous crash, precipitating over 20,000 bushels of wheat into the river.

☞ A man convicted in Portland of stealing a pair of gloves from the person of another, at a Promenade Concert, has been sentenced to one year in the State Prison.

☞ A newspaper correspondent states that a third commission as Rear Admiral has been sent to Com. Charles Stewart, of "Constitution" fame, but it is supposed that he will return it to the Navy Department, as he has two other commissions of like character. He has taken deep offence at the action of the board of naval officers of 1854, which put him on the "retired list."

☞ The N. Y. Tribune's dispatch states that Isaac V. Fowler has not been pardoned, and will not be, if the President listens to the representations of the Attorney-General, who has given the case a careful consideration.

☞ Two young girls within the last few days have stolen a great number of books from the Dana School, in Cambridge, which have since been found in various stores in the city, where they were sold for trifling amounts.

☞ The Charleston, S. C., Courier takes the following rather sombre view of the prospects of secession. Charleston is no doubt a very good point just now for making such a review of circumstances as this:

"The continuance of this contest involves increased suffering. The evils that follow in the train of this calamitous visitation grow more direful every day. Other hearts than those now aching with anxiety and bleeding with bereavement are rent with grief, and the friend who sympathized with some afflicted one yesterday, to-day weep bitter tears over his own sorrow. The iron is driven deeper, and our burden become more and more heavy. And though more than eighteen months have passed away since the strife was begun, the end seems more distant than it appeared to be a twelvemonth since. Hope after hope has gone out in darkness, and expectations we had fondly cherished have turned out to be miserable delusions. So often have we been disappointed and deceived that now our faith rejects every promise and turns away from every sign. Our foe is active and determined, and powerful as ever he was, and the agent that was to compel foreign nations to intervene and put an end to this wicked and infamous contest has not been potent enough to accomplish that end."

☞ It is reported that the friends of Isaac V. Fowler, the defaulting Postmaster of New York, have been successful in arranging his affairs at Washington, and that at no distant day he will again be a resident of New York.

Persons often lack courage to appear as good as they really are, but there have been some marked cases of the very opposite.

☞ Charles F. Brown of Boston has obtained a verdict of $7500 damages against Euclid Chadsey, President of the Farmers' Bank of Wickford, R. I., for an arrest on a false charge of bank robbery.

Dean Swift said with much truth, "It is useless to attempt to reason a man out of a thing he was never reasoned into."

☞ The N. Bedford Mercury learns that the Insurance offices of that city have decided to take no new risks on Atlantic whalers, nor on wholeships bound to the Pacific, which intend to cruise in the Atlantic.

Every day is a little life, and our whole life is a day repeated.

☞ Paul Morphy has been beaten lately in Paris by M. de Riviere, one of the best French chess players, in three games out of five.

☞ The duty on dogs in England last year amounted to £196,527; and on game certificates to £140,984.

☞ Potatoes are now selling for 35 cents a bushel, with a downward tendency, "down east."

☞ $600,000 have so far been recovered from the wreck of the steamer Golden Gate.

☞ The area of Utah is about equal to the area of the New-England States, New-York and New Jersey.

☞ Dr. C. McCross, of Kittery, has been appointed Assistant Surgeon of the Maine 27th regiment.

☞ Peterson's Magazine for March is an excellent number. The price of this Ladies' Magazine is but two dollars per year.

BUY CALIFORNIA WINES

They are the Purest!

The Best!

The Cheapest!

The "sunny slopes" of "Los Angelos" have announced to the world that America is a wine-growing country, and as the discovery of gold, sent a thrill through the old world, so will the discovery of these Wines startle them again, as it says, "one more link broken which has bound us to Europe!" "one more step to independence." Let every man, woman and child who uses Wine, see to it that they buy none other than these.

"The Hock" is a most delicious Wine, and rivals in delicacy its German predecessor.

The "Angelica" and "Muscatel" are melting, luscious and rich, and will take the place of Malaga, Tokay, or other rich Wine.

The Port has a fine flavor and body; and The Port is excellent because it is pure.

ANOTHER NEW STOVE!

THE MODEL COOK

FOR WOOD OR COAL.

The *novel*—the *peculiar* feature in the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the larger oven, for baking; giving an oven nearly 3 feet long; or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! A check draft is applied to this stove by means of which the consumption of fuel is greatly lessened, and a steady fire can be kept day and night if desired.

THE MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be THE STOVE for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is needed.

We believe the MODEL COOK to be the very best Stove in the Market, and invite every one to examine it whether they wish to purchase or not. It has had a very extensive sale since its introduction. Reference might be made to more than a hundred families in this city or vicinity who are using the Stove, and give it the highest commendation.

We refer to the following individuals who have purchased the Model Cook:—

David Kimball, Thos. F. Burt, John T. French, Rev. Mr. Davies, Wm. Pettigrew, Capt. John Davis, Jeremiah Rand, Mrs. Ann T. Perkins, James W. Jarvis, Francis C. Jarvis, Thos. L. Tullock, Jacob Wendell, Capt. Jacob Thompson, Gen. J. G. Hadley, Jt. Melvin Huntress, Jos. D. Akerman, James F. Shores, Wm. C. Newton, Horton D. Walker, Benj. Cheever, John Trundy, Richard L. VICTOR COAL STOVE.

We offer this beautiful coal burner to the public, with full confidence in its merits.

It was brought into market two years since and has come rapidly into use.

The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation. The arrangement for dumping the ashes is very fine—no dust need escape into the room—a continuous fire may be kept throughout the winter—it can be all burned, and no clinkers made.

The quantity of fuel used is very small indeed. There is in this stove an excellent arrangement for ventilating the room in which it is placed; a feature not possessed by any other parlor stove.

Some of the sizes are provided with an oven and boiling place, making them very desirable for a dining room.

We sold a large number of Victor Stoves in our city last season, and they receive the highest commendation from those who are using them.

We have also the celebrated McGregor Stove, so well known in the market as to need no commendation.

A great variety of cheaper Stoves for coal and wood—Coal hods—Patent Coal-sifters.

Pin Worm Syrup.

Just received Dr Gould's PIN WORM SYRUP—the only safe, sure and effectual remedy ever offered to the public for the removal of Pin Worms. The above valuable medicine for sale at the Medicine Store of B. BTUCHINGS.

The peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and those dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. This it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: **King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and**, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of *Sarsaparilla*, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S
CHERRY PECTORAL,
The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies which have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal such as Gravel, Impotency, Scrofula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, Rightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and Limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, Misanthropy, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Preventive, warranted to be best preventive. Order by mail. Three for $1 and a red stamp.

April 7—1y 3aw.

CAUTION

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all those painful and dangerous diseases of female system arising from Obstruction, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that no other consultation complaints yield under it, and the affected may be assured of speedy relief.

Dr. Dow has no doubt had greater experience in the cure of Diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, asks only evidence of his superior skill in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, but from his long experience and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the work more finish usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and and iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top the most large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely done in the ash pit. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any Stove. Hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The economizing means being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the proportion of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the dome can be made to consume the gases, for the reason, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 20 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best furnace in the world.—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known metal.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. It improves the health, as it can be built up by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easy as a saucer, or when finished look as well upon it as upon the whole piece.

6th. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

DENTISTRY.

No. 60 CONGRESS STREET.
Portsmouth, Jan. 1st, 1863.

DR. GOODALL

Would respectfully inform his patrons and the public, that he has had of late many calls to insert teeth upon VULCANIZED RUBBER, that he has discussed the merits of VULCANITE in the market, and is now prepared to do all work upon RUBBER, or the other bases of GOLD and SILVER, as preferred by patrons.

The Rubber has several important advantages, viz.: It is very light and elastic, and consequently is perfectly easy to the muscles of the mouth and cheeks. There are no projecting edges or joints to collect food, &c.; consequently they can be worn night and day, and are very easily kept neat and clean.

Beside all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.

Any one who is waiting for their permanent teeth until I am confident, be perfectly satisfied with the Rubber, as a base. The expence is but a little more than for Silver, and you get the same teeth in choice that you would pay $60.00 for an upper or lower set on Gold.

In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by the best Dentists too. I will warrant a perfect fit and teeth upon the best manufacturer in the country, S. S. S. White.

ALL OTHER OPERATIONS IN DENTISTRY I will do at the usual rates. I will here mention that my price for EXTRACTING is 25 cents.

I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr. GLIVER and Dr. HERSEY, for particular success in extracting teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with **Neatness and Dispatch.** All other operations in Dentistry, I will do at the usual rates.

GRACE'S CELEBRATED SALVE,
A SURE RELIEF FOR THE SUFFERER.

This Salve is a vegetable preparation, invented in the 17th century, by DR. WM. GRACE surgeon in King James's army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day, and was regarded by all who knew him as a public benefactor.

Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Fresh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.
Grace's Celebrated Salve cures Scurvy.
Grace's Celebrated Salve cures Callouses.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sores
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find this Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case accident, for it will save them much trouble suffering, and money. All it wants is a fair trial to cure old and inveterate Sores.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
75 State Street, opposite Kilby Street,
BOSTON,
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Advice of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL! AS THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person more competent, and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sureof having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. **R. H. EDDY.**

WEDNESDAY, MARCH 18, 1863.

THE REBELLION.

On Saturday, apparently authentic accounts were received that the rebel Gens. Jones, Hampton and others, with 10,000 men, including a large proportion of cavalry and artillery, had come as far north as Strasburg on a movement towards Winchester; but Gen. Milroy, with a heavy force, was unable to find any trace of them, in a two days' rapid march.

A dispatch from Admiral Porter, dated before Vicksburg, Mar. 7, says he had just heard the signal agreed upon between himself and Com. Smith, who commands the naval portion of the Yazoo expedition, to be fired by the latter as soon as he succeeded in getting into the Yazoo river, six nine minute guns and three guns afterwards in quick succession.

A letter from Baton Rouge states that the rebels hover around our pickets there. An infernal machine had been picked up on the river and found to contain 150 pounds of powder.

Government officials on Monday seized at San Francisco, just as she was ready to sail "for Mexico," the fast barque Chapman, having on board 20 well armed secessionists, and 6 brass Dahlgrens. More arrests are likely to follow. The barque arrived lately from New York. The prisoners confess that a full complement of men were to be obtained at a rendezvous on the coast. They hoped to capture the steamer Oregon, while en route for Mazatlan, transfer a portion of their own crew, and then use the Oregon to help capture the two California treasure steamers before the alarm reached San Francisco.

Gen. Hooker's army is pronounced to be in a remarkably fine condition.

Gen. Sigel, it is said, will at once return to his old command, the difficulties having been arranged.

On the 8th our troops were marching towards Port Hudson, and Gens. Banks and Grover had started for Baton Rouge.

Mr. Conrad, of Louisiana, has introduced in the rebel Congress a resolution looking to peace.

Gen. Rosecrans reports that our cavalry under Col. Minty, while on a reconnoissance, drove the rebel cavalry wherever they met them, took one of their camps, 17 wagons, 42 mules, and 174 prisoners.

The pirate Florida coaled at Barbadoes March 24th, leaving on the 25th. Admiral Wilkes knew of her whereabouts before he left St Thomas.

NEW HAMPSHIRE ITEMS.

—— The singers of North Hampton and vicinity gave an Old Folks' Concert at the Congregational Church on Monday evening March 16, under the direction of Mr. Towle. The house was well filled with an appreciative audience, who listened with much pleasure to the programme of well selected songs, duets, quartettes and choruses, which were rendered in an effective manner. E.

—— About midnight on Saturday the police found an intoxicated woman in the street in Manchester. Being unable to walk she was carried to the station house, when it was discovered that she had dislocated her ancle, and the attempt to walk had bruised and mutilated the limb in a shocking manner, the sharp bone cutting through the flesh and a thick stocking.

—— The 5th Regiment has a bill of $1700 against the Government for "company savings," accruing from surplus rations. This is only for five months ending August, 1862. The amount from that time to March 1st will probably figure up $1500 more. Col. Cross is making every effort to obtain the money from the commissary department to pay over to the regiment. To have a full understanding in the matter it will be necessary to state that each soldier is entitled to a certain amount of rations, and when the whole of this is not drawn, the value of the balance is payable in cash, which goes into the company funds and is disbursed for the use of the men in the company, expended chiefly for such eatables as the government does not supply.

—— For six consecutive mornings, at the close of last week and the beginning of this, the thermometer at Manchester has ranged from 8 to 17° below 0.

—— Up in Hampstead the other day the following call for a "caucus" was posted:

1863. DEMOCRATIC CORCUS.

the Democrates of Hamstead requested to meet at the schoolhouse in dist. No. 1 on Wensday March the forth to choose Canidates for the coming election March the 10

Per order, } town committee.

—— Washington specials report that Col. Cross, of the 5th N. H. Regiment, will soon be promoted to a Brigadiership.

☞ A Mobile dispatch reports that our troops had gone up the Tennessee river to Florence, Ala., with gunboats; and 500 cavalry had landed and were destroying all in their route through Franklin, Lawrence and Marion counties, toward Aberdeen, Miss.

EDITORIAL JOTTINGS.

A few days in Boston last week, gave us considerable matter of interest to ourselves, and perhaps to some readers. We had the pleasure of riding up with Conductor Cram, who has run on the Eastern Road for almost twenty-five years, and we believe is the "oldest" conductor on any railroad in this vicinity—always excepting Sandy Marden, who never "conducted" anything but a stage and his express, and never rides in the cars when he can help it. Mr. Towle conducted our train (it was *not* a "special") down on Monday morning, and though he doesn't yet sport a gold presentation badge, and we presume cannot have run for a quarter of a century,—still he deserves to be called one of the gold medal conductors, and we hope will live a thousand years, and never cast less shadow than now—and may no "shadow" e'er cloud his cheerful brow. [This notice is entirely gratuitous and voluntary, or rather involuntary—a simple tribute to a right down good fellow, in passing.] The new depot of the Eastern Road, in Boston, is an ornament to that end, as ours in Portsmouth will be to this, when it is built, next summer.

At the Boston Museum, Thursday night, the play was "Mrs. Walthrop's Boarders," a capital comedy, which ended in all hands getting married—where a good many comedies in *real* life end, and tragedies begin. It was well put on the stage, as everything at this popular house is, under direction of Mr. Keach. A farce followed, "Dunduckety's Picnic," in which Warren and Miss Orton made fun enough, but Dunduckety never got to his picnic. We believe in the laughing philosophers, and growing experience confirms us in the opinion that they who contribute to the innocent mirth and amusement of mankind, are among the greatest benefactors of the race. So we would bid higher for Warren of the Museum, than him of Bunker Hill—tho' both "acted well their parts," and it is "there all the honor lies."

Friday night was the opera of Robert the Devil, at "the Boston," and a splendid performance it was, to an immense audience. We think no opera has been more enjoyable this season, but have no time to particularize on the varied excellencies of the performance. Mr. Grau, who is not to be re-*lied* upon, as to his arrangements,—although one of the most successful managers,—again promised the Daughter of the Regiment, with Miss Kellogg, for Tuesday evening, and says this is "positively" his last week. We shall see—but these Italian opera impresarjous are a very uncertain race, as well as their performers.

Saturday afternoon, we had the pleasure of a seat behind the fast grey horse of our old friend Mr. R. D. Allen, head salesman of Allen & Paine—"on the road to Brighton." And a gay road it was too, and has been all along lately, and a lively drive was that at the side of Rufe, who tools well his gallant little nag, which it takes a good many ob'ems to beat, and only a few of the very best can do it! That's so every time.—Rufe has lately taken a mate, not for his horse, but for himself—and shows, with the usual discretion of his kin, that he appreciates eastern stock. They are all keen at a bargain, and we told him that he had cheated the other party to his match; but then, people as well as horses, seemingly unlike, often work well in double harness. We will wish the new couple a long and pleasant journey, and that neither may break or tire, till the end. All this from our slashing sleigh ride.

At Brighton we met our genial and cordial Br. Bailey, of the Boston Herald, and other pleasant company. It is worth a journey thither to see the multitudes of teams of all sorts which crowd the smooth roads, in such sleighing as we have had. How they cut, and dodge, and race,—run away, and smash up! We were told that a loose team, the other day, ran against and stove more or less, twenty-one sleighs! But we got home safe—thanks to friend Allen's good horsemanship.

Pianos are very scarce and high, both new and second-hand—and it is said that our British neighbors, North and East, during the dull-music and lively-exchange times of the last two years, have cleared the market of them. Hallet, Davis & Co., for instance, who usually keep a large stock on hand, cannot now fill their orders for their new short seven-octave piano, which is an exquisite instrument for home use. And so of all the first-class dealers—and there is really a very small stock of pianos in Boston, and prices ruling higher.

Church's great painting, "Under Niagara," is exhibiting at the Atheneum,—but we would as soon attempt to "criticise" the almighty cataract itself. But we are more than ever sure that mountains or other immensities, can be better appreciated by pigmies perched below, rather than above them. An hour may be passed most pleasantly, admiring the fine collection of paintings and engravings always on free exhibition at the elegant store of Sowle & Jenks Summer street.

Sunday night was the Oratorio of Elijah, by the Handel & Haydn Society, with the assistance of Mme. Guerrabella, Miss Houston, Mrs. Carey, and Messrs. Castle and Rudolphsen, Soloists. Carl Zerrahn swung the baton, effectually as is his wont, and Mr. Lang was the organist. The Music Hall was full, and the performances very fine. The oratorio is to be repeated next Sunday evening. Mr. Rudolphsen, bass, was hardly up to the part of Elijah, lacking power and dramatic fire. Mr. Castle, tenor, is one of the best singers we ever heard, but not at all powerful—and is it not a little singular that in all Boston, tenors are so scarce that New York had to be drawn on for this occasion? What precious beings tenor singers must be!—Madame Guerrabella did not do so well as we expected, but this is said to be her first attempt at oratorio singing. Miss Houston, one of Boston's most admired church singers, and soprano at the Old South, richly merited a part of the applause which was showered on all the other soloists, but Guerrabella doubtless is handsomer, and a pretty face, &c., has great influence in such cases. Mrs. Carey, also, performed her part well; but alas must be scarce in Boston, too, if she is the best the old Handel & Haydn can procure.

On Sunday afternoon, we visited the old South Church—where the pastor, Rev. Dr. Blagden, preaches in the morning, and a young man supplies for his colleague, (Rev. Mr. Manning, who is at the war,) in the afternoon. This stranger gave a discourse on future punishment, which our old friend Chase of Whitefield, would term "the real suckatush," and which a member of the old North Church in Portsmouth, who was there, remarked to us as we came out, would not be approved at all in *that* pulpit! So we go—or so go the theologians, who differ as widely as the politicians. Perhaps we shall all *know*, by and by, who is right—meantime,

"Hurrah, hurrah, keep the motion,
Every man to his own notion!"

Yours, as ever, charitably, F.

☞ A terribly tragic affair occurred at Columbus, Ky., on the 8th inst., at the Columbus House. A man by the name of Rodgers, who was elected a member of Congress from the Memphis district, but on some account was refused a seat, in a sudden fit of insanity, as is supposed, commenced an attack upon a Lieutenant while in his bed. The landlord, hearing the disturbance, rushed in, when Rodgers attacked him with a knife, stabbing him in a terrible manner. The landlord's wife, hearing her husband's cries for help, came running in, and was immediately attacked by the madman, and gashed in a manner which renders her recovery impossible. During the affray, the Lieutenant received a pistol shot, which it is feared will prove mortal. The guard here rushed in and fired upon the unfortunate man, who attempted his work of murder upon them. He finally fell dead, being shot with five bullets, and run through with two bayonets. The landlord, his wife, and the Lieutenant are now lying at the point of death: the two former, it is thought, cannot survive.

☞ On Monday last as one of the guests at the Wirtz House, Pittsburgh, was endeavoring to extinguish a carbon oil lamp, he upset it in some way or other, causing an explosion which soon set the apartment in a blaze, and in a few minutes the entire upper story was on fire. The house was filled with guests, and the excitement for a time was fearful. In one room there were several asleep at the time the fire broke out, three of whom were burned to death. One of the victims was about 80 years of age. The other victims were two soldiers who could not be identified.

☞ Congress by an act passed March 3d, expressly exempted from the necessity for using Internal Revenue stamps of any description, all papers of whatever nature requisite in applying for pensions. Previously there was an internal revenue tax required to be paid on some of them.

☞ At a serious riot at Oil Springs, Canada West, on Saturday night, the whites organized a force, marched to the quarters of the negroes, ordered them away, destroyed their property and burned their houses. The negroes fled to the woods. Three rioters were captured, and several wounded.

☞ At Louisville last week a hogshead of the new crop of tobacco was sold at the extraordinary price of one hundred and eighteen dollars per one hundred pounds, the hogshead bringing $1604 80.

☞ A New York dispatch says:

There are alarming reports from St. Domingo. The people of the districts of Guayulion and Montecheysti have risen under Gen. Lucas. Troops have been sent from Puerto Rico and Santiago de Cuba, and two battalions were about leaving Havana. Several vessels of war have been ordered there. There bids fair to be considerable trouble to the Spanish protectors of St. Domingo.

☞ Governor Cannon of Delaware has just issued an important proclamation on the subject of illegal arrests, ignoring State rights altogether and placing the Federal above them. The proclamation was called forth by the passage of an act in the Assembly to prevent illegal arrests.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper therein."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

Notice to Housekeepers,

Rubber Band Carpet Sweeper.

TRY IT! TRY IT!!

It saves Money; it saves Carpets; it saves Furniture; it saves Labor; it is cheaper than Brooms at five cents apiece.

It gathers up all dust, dirt, and loose lint on the carpets, and raises no dust to settle on the furniture, drapery, or ornaments, or to smother, stifle and irritate the lungs.

It does not wear the carpets half so much as brooms or any other sweeper.

It is the only practicable sweeper made, and the only article fit to sweep a carpet.

With our late improvements it gives universal satisfaction to all who use it according to directions. For sale at No. 13 Market Street by

THE HORSE!

Free lecture on the Horse and his diseases; the cause, symptoms and location of all the diseases that the horse is liable to in this climate, and a positive cure of heaves and cribbing. Mr. Fancher has been experimenting with the different diseases that the horse is liable to in this country, for twenty six years, and has been very successful in discovering valuable remedies.—Also on digestion,—he claims that horses generally are fed from five to fifteen dollars' worth of grain yearly, more than they can digest. Gentlemen owning private horses will find the lecture very valuable to them. Will lecture at Rechabite Hall, Portsmouth, Wednesday evening, March 18th. To commence at half past 7 o'clock. Admission free 1t*

OPERA IN PORTSMOUTH.

We are requested to state that the entire Grand Italian Opera Company of Mr. Grau, which closes this week its highly successful season at the Boston Theatre, will appear at the Temple in this city on Monday evening next, in portions of the opera of Don Pasquale and Lucia di Lammermoor.

☞ Everybody has heard of Rumsey's Minstrels, but all have not heard them perform. To-night you have a chance—and their concerts are not excelled by any other troupe, if report says true.

☞ A hack was overturned on Monday evening in a by-street near the Creek, and one of the passengers, a lady from Providence, Rhode Island, who had arrived in this city in the afternoon train, broke her leg. An infant, and a child 7 or 8 years of age, who were also in the hack, were uninjured. The accident occurred, we understand, while the driver, a boy, was endeavoring to extricate his horses from a snow bank.

☞ We are informed by a reliable Democrat that he has returns from every town in District No. 1, which show that Hon. Daniel Marcy is elected Representative to Congress by 100 majority. A salute of artillery is to be fired, and other honorable notice taken of the event, on Thursday evening.

☞ The side-wheel steamer Patuxet will be launched at the Portsmouth Navy Yard on Thursday (19th) at half past 11 o'clock, A. M.

☞ Messrs. John H. Broughton and Edward J. Moulton, a committee from the Board of Aldermen, left this city on Monday noon, to contract for a carriage for the Hook and Ladder Co. The Committee spent Tuesday in New York, and were home again on Wednesday morning. Considering that the journey was made at the city's expense, this is thought to be the *fastest time* on record that was ever made by an Alderman on public service. The new carriage has long been needed, and when it arrives will be kept in a new building to be erected on the city's land, near the Court House. The new carriage will doubtless be constructed on the plan suggested by Chief Engineer Moran in his recent report to the Mayor and Aldermen. *Cor. Ballot.*

GOOD NEWS TO THE AFFLICTED.—A bill, which was posted about town on Tuesday, contained the following statement: "Persons having clocks inconvenient to remove, repaired at the house without extra charge."

☞ The annual town meeting was held in Kittery on Monday last, and the following town officers—all republicans, were elected:

Moderator—John Wentworth.
Town Clerk—D. P. Hutchings.
Selectmen—John Wentworth, Chas. Duncan, Washington Paul.
Treasurer and Collector—Thos. Hurd.
Town Agent—Oliver Cutts.

The Democrats threw 200 votes; and the Republicans 242. Rep. majority 42.

At the election in York, March 10, the Democratic candidates were elected.

AN ERROR.—The N. Y. Tribune, speaking of the New Hampshire election, says:

"There can be no doubt that at least nine-tenths of the votes for Harriman were cast by Republicans, as the rest were by War Democrats."

Though the Tribune may not doubt it, yet the facts are not so. A number of former Republicans were frightened by the taxes and conscription laws, and so voted for Mr. Eastman to be Governor,—but they were overbalanced by the war democrats who voted for Harriman. Some Republicans voted for him too,—but not nine-tenths of his vote, nor anything like it. Probably not one-half. U. T.

☞ On Saturday evening the Poles of New York city held a spirited meeting, at which they expressed their profound sympathy with their brethren in arms against the Russians, in their struggle for national independence. Arrangements were made for a future mass meeting, at which men of every nationality having sympathy with Poland may be present.

☞ Gold opened in New York on Tuesday at 155 and closed at 154 3-4.

☞ The Committee on the Conduct of the War have, it is understood, closed their testimony, and in about two weeks will make their report.

☞ There is a bill before the Canadian Parliament which contemplates the abolition of public executions, owing to the demoralizing influence they exert upon the community.

☞ Hon. Schuyler Colfax, representative in Congress from the Ninth District of Indiana, has sent his share of the mileage plunder to the sick and wounded soldiers.

☞ Mr. W. W. Hoppen declines the nomination for Governor by the Rhode Island Democratic and Constitutional Conventions.

☞ The expedition to colonize persons of color has been indefinitely postponed by the President.

☞ Texas advices state that one of the five Texans captured by the rebels from the steamer Cambria, had been handed over by the rebel military authorities to the mob, who hung him. Another, known as Nicaragua Smith, was shot.

☞ More than $200,000 have been subscribed to the stock of the Atlantic Telegraph Company by merchants and bankers of New York.

☞ The National Intelligencer has a semi authoritative announcement that the relations existing between Secretary Seward and M. Mercier are of the most cordial character.

☞ It is stated that Gen. Stoughton, who has just been captured at Fairfax, is but a little over 23 years of age.

☞ Some individuals in the Philadelphia Corn Exchange have subscribed $2000 for the Lancashire weavers.

☞ See you fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

BUY CALIFORNIA WINES

They are the Purest!
The Best!
The Cheapest!

The "sunny slopes" of "Los Angelos" have announced to the world that America is a wine-growing country, and as the discovery of gold sent a thrill through the old world, so will the discovery of these Wines startle them again, as it says, "one more link broken which has bound us to Europe," "one more step to independence." Let every man, woman and child who uses Wine, see to it that they buy none other than these.

"The Hock" is a most delicious Wine, and rivals in delicacy its German predecessor.

The "Angelica" and "Muscatel" are melting, luscious and rich, and will take the place of Malaga, Tokay, or other rich Wine.

The Port has a fine flavor and body; and The Port is excellent because it is pure.

ANOTHER NEW STOVE!

THE MODEL COOK

FOR WOOD OR COAL.

The *novel*—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the larger oven, for baking; giving an oven nearly 3 feet long! or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! A check draft is applied to this stove by means of which the consumption of fuel is greatly lessened, and a steady fire can be kept day and night if desired.

THE MODEL COOK is adapted equally well for wood and coal, summer and winter. It will be found to be THE STOVE for farmers, mechanics or professional men; for boarding houses or private families—in fact for every place where a good stove is needed.

We believe the MODEL COOK to be the very best Stove in the Market, and invite every one to examine it whether they wish to purchase or not. It has had a very extensive sale since its introduction. Reference might be made to more than a hundred families in this city or vicinity who are using the Stove, and give it the highest commendation.

We refer to the following individuals who have purchased the Model Cook:—

David Kimball, Thos. F. Burt, John T. French, Rev. Mr. Davies, Wm. Pettigrew, Capt. John Davis, Jeremiah Raitt, Mrs. Ann T. Perkins, James W. Jarvis, Francis C. Jarvis, Thos. L. Tullock, Jacob Wendell, Capt. Jacob Thompson, Gen. J. G. Hadley, G. Melvin Huntress, Jos. D. Akerman, James F. Shores, Wm. C. Newton, Horton D. Walker, Benj. Chesver, John Trundy, Richard L. Randall, Geo. Rice, Benj. F. Canney, Benj M. Parker, Charles A. Wiggin, George W. Plumer, Nath'l Dennett, Henry F. Gerrish, John Harratt, Thos Murphy, Capt. Wm. Lambert, Joseph Stiles, John Senter, Wm. Bell, Cyrus Plumer, Freeman Hurd, James M. Locke, Daniel L. Randall, Isaiah Wilson, John E. Roberts—of Portsmouth; Samuel C. Dixon, Daniel I. Fryer, Cushman Fryer, of Treffethen's Island; Geo. N. Dixon, Samuel F. Paul, Elias Remick, Timothy Dame, Eliot; Wm. S. Locke, Benj. Fernald, Mrs. Wm. Locke, Kittery; R. F. Gerrish, Kittery Point; Hon. Clement March, Albert Blaisdell, Stephen M. Weeks, Geo. W. Davis, Greenland; John Smart, Stratham; Mrs. Reuben F. Jenness, David Jenness, Moses Philbrick, Rye.

VICTOR COAL STOVE.

We offer this beautiful coal burner to the public, with full confidence in its merits.

It was brought into market two years since and has come rapidly into use.

The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation. The arrangement for dumping the ashes is very fine—no dust need escape into the room—a continuous fire may be kept throughout the winter—the coal all burned, and no clinkers made.

The quantity of fuel used is very small indeed. There is in this stove an excellent arrangement for ventilating the room in which it is placed; a feature not possessed by any other parlor stove.

Some of the sizes are provided with an oven, and boiling place, making them very desirable for a dining room.

We sold a large number of Victor Stoves in our city last season, and they receive the highest commendation from those who are using them.

We have also the celebrated McGregor Stove, so well known in the market as to need no commendation.

A great variety of cheaper Stoves for coal and wood—Coal-hods—Patent Coal-sifters.

COAL LININGS,

and Repairing pieces for most of the stoves in use. Job Work attended to with dispatch.

Ayer's SARSAPARILLA,

THE WORLD'S GREAT REMEDY FOR
Scrofula and Scrofulous Diseases.

From Emery Eden, a well-known merchant of Orford, Maine.

"I have sold large quantities of your SARSAPARILLA, but never yet one bottle which failed of the desired effect and full satisfaction to those who took it. As long as I can get your SARSAPARILLA, it has been no medicine like it before in our community."

Eruptions, Pimples, Blotches, Pustules, Ulcers, Sores, and all Diseases of the Skin.

From Rev. Robt. Stratton, Bristol, England.

"I only do my duty to you and the public, when I add this testimony to the wonderful curative and medicinal virtues of your SARSAPARILLA. My daughter, aged ten, had an afflicting humor in her ears, eyes, and hair for years, which we were unable to cure until we tried your SARSAPARILLA. She has been well for some months."

From Mrs. James E. Bloss, of a well-known and much-esteemed lady of Dunkinsville, Cape May Co., N. J.

"My daughter has suffered for a year past with a scrofulous eruption, which was very troublesome. Nothing afforded any relief until we tried Ayer's SARSAPARILLA, which soon completely cured her."

From Charles P. Gage, Esq., of the widely-known firm of Gage, Morrow & Co., manufacturers of enamelled papers in Nashua, N. H.

"I had for several years a very troublesome humor in my face, which grew constantly worse until it disfigured my features and became an intolerable affliction. I tried almost every thing a man well off with advice and medicines, but without any relief whatever, until I took your SARSAPARILLA. It immediately made my face worse, as you told me it might for a time; but in a few weeks the new skin began to form under the old one, which continued until my face is as smooth as any body's, and I am without any symptoms of the disease that I know of. I enjoy perfect health, and without a doubt owe it to your SARSAPARILLA."

Erysipelas—General Debility—Purify the Blood.

From Dr. Robt. Strain, Houston St., New York.

"DR. AYER: I seldom fail to remove *Erysipelas* and *Scrofulous Sores* by the persevering use of your SARSAPARILLA, and I have just now cured an attack of *Malignant Erysipelas* with it. We should be very sorry if we possess equals the SARSAPARILLA you have supplied to the profession as well as to the people."

From J. E. Johnston, Esq., Wadsworth, Ohio.

"For twelve years I suffered with Erysipelas on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollars worth of medicine, but the sores were so bad that the cords became visible, and the doctors decided that my arm must be amputated. I began taking your SARSAPARILLA, and the first bottle, and some of your PILLS. Together they have cured me. I am now as well and sound as any body. Being a public place, my case is known to every body in this community, and excites the wonder of all."

From Hon. Henry Monro, M. P. P., of Newcastle, C. E., a leading member of the Canadian Parliament.

"I have used your SARSAPARILLA in my family, for general debility, and for purifying the blood, with very beneficial results, and feel confidence in commending it to the afflicted."

St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes.

From Harvey Stickney, Esq., the able editor of the Pauldingville Democrat, Pennsylvania.

"Our only child, about three years of age, was attacked with the Erysipelas, in spite of the care, spared until they forced a loathsome and virulent sore, which covered his face, and actually blinded his eyes for some days. We tried the nitrate of silver and other remedies, without any apparent effect. For fifteen days we guarded his hands, lest with them he should tear his burning and suffering flesh, which covered his whole face. Having tried every thing else we had any hope from, we began using your SARSAPARILLA and applying the iodide of potash lotion, as you direct. The sore began to heal when we had given the first bottle, and it was well when we had finished the second. The child's eyelashes, which had come out, grew again, and he is now as healthy and fair as any child. The whole neighborhood predicted that the child must die."

Syphilis and Mercurial Disease

From Dr. Hiram Sheet, of St. Louis, Missouri.

"I find your SARSAPARILLA a more efficacious remedy for the secondary and tertiary stages of and for syphilitic disease than any other we possess. The profession are indebted to you for some of the best medicines we have."

From J. J. Fussell, M. D., an eminent physician of Lawrence, Mass., who is a prominent member of the Legislature of Massachusetts.

"Dr. Ayer: My dear Sir, I have found your SARSAPARILLA an excellent remedy for *Syphilis*, both of the primary and secondary type, and effectual in cases where other medicines had failed to produce other remedies. I do not know what we can employ with more certainty of success, where a powerful alterative is required."

Mr. Chas. S. Van Vliet, of New Brunswick, N. J., had dreadful sores on his legs, caused by the abuse of mercury, or *mercurial disease*, which grew more and more aggravated, notwithstanding as spite of the remedy or treatment that could be applied, until the persevering use of AYER'S SARSAPARILLA relieved him. The sores soon began to heal, instead of disclosing than this, and it took several dozen bottles to cure him.

Leucorrhœa, Whites, Female Weakness, are generally produced by internal *Scrofulous Humors*, and invariably yield to the alterative effect of this SARSAPARILLA. Some cases require, however, in all of the SARSAPARILLA, the skillful application of local remedies.

From the well-known and widely-celebrated Dr. Jacob Morrell, of Cincinnati.

"I have found your SARSAPARILLA an excellent alterative in diseases of females. Many cases of Irregularity, Leucorrhœa, Internal Ulceration, and local debility, arising from the scrofulous diathesis, have yielded to it, and there are few that do not, when its effect is properly aided by local treatment."

A lady, unwilling to close the publication of her name, writes:

"My daughter and myself have been cured of a very debilitating Leucorrhœa of long standing, by two bottles of your SARSAPARILLA."

Rheumatism, Gout, Liver Complaint, Dyspepsia, Heart Disease, Neuralgia.

When caused by *Scrofula* in the system, are rapidly cured by this EXT. SARSAPARILLA.

AYER'S
CATHARTIC PILLS

possess so many advantages over the other purgatives in the market, and their superior virtues are so universally known, that we need not do more than to assure the public their quality is maintained equal to the best it ever has been; and that they may be depended on to do all that they have ever done.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with some aids that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Strictures, Secretal, Gonorrhœa, Ulcers, pains and distresses in the regions of procreation, inflammation of the Bladder and Kidneys, Weakness, Sleeplessness, Restlessness, Dropsical Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self-distrust, gloomy, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Lozenges, warranted the best preventive. Order by mail. Three for $1 and a red stamp.
April 7—1y Saw.

CAUTION

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief given in a few days. So now invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the patient is restored to health and happiness.

Dr. Dow has no doubt had greater experience in the care of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private and Delicate Female Complaints, acknowledges no superior in the United States.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall Stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is now added a very superior broiler and iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who now are using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, more and in a pleasanter manner than the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the contributors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some taking or more little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The communicating gases being lighter than the air, pass off into the smoke pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of unconsumed heat, leaving the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. When the arch is irregular we can by building out the depressions with gum, so adapt to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth set upon this base can be kept clean and sweet as easy as a saucer, as when finished the work presents one whole piece.

6th. While it looks far better, save in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*
No. 5 Daniel St., Portsmouth,

Has had four years of practical experience in making this material, and will guarantee satisfaction in all cases entrusted to his care.

DENTISTRY.

No. 60 CONGRESS STREET,
Portsmouth, Jan. 1st, 1863.

DR. GOODALL

Would respectfully inform his patrons and the public, (having had a large number of cases inserted upon VULCANIZED RUBBER,) that he has purchased the best VULCANIZER in the market, and is now prepared to do all work upon RUBBER, or the other bases of GOLD and SILVER as formerly, if preferred.

The Rubber has several important advantages, viz.: it is very light and elastic, and consequently is perfectly easy to the muscles of the mouth and cheeks. There are no interstices or open joints to collect food, &c.; consequently they can be worn night and day, and are very easily kept neat and clean.

Beside all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.

Any one who is waiting for their permanent teeth will, I am confident, be perfectly satisfied with the Rubber, as a base. The expense is but a little more than for Silver, and you get the same teeth (in blocks) that you would pay $60.00 for an upper or lower set on Gold.

In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by the best Dentists too. I will warrant a perfect fit and teeth from the best manufacturer in the country, S. S. White.

ORAL OVERS OPERATIONS IN DENTISTRY I will do at the usual rates. I will here mention that my price for EXTRACTION is 25 cents.

I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr. OLIVER, and Dr. BENNETT, for particular success in extracting Teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with **Neatness and Dispatch**. All other operations in Dentistry, I will do at the usual rates.

SAMBUCUS TREE, OF PORTUGAL,

Excellent Wine for Females.

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific. Highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weakly and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)
75 State Street, opposite Kilby Street,
BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their application in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unanimous proof of great talent and ability on the part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most careful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents, **R. H. EDDY.**

THURSDAY, MARCH 19, 1863.

THE REBELLION.

The N. Y. Times' dispatch says General Burnside will leave at once to take command of his new department. The Tribune's dispatch says Gen. Fremont left Washington for New York on Tuesday night, his interview with the Sec. of War having proved unsatisfactory.

A gentleman from Texas, reports the rebels in that State in a most deplorable condition; while the Union men openly denounce the Confederacy, and a large party are trying to raise the Lone Star flag.

From sources usually well informed in regard to Southern news, it is learned that the rebels concede the capture of Yazoo City by the Federal forces.

A. P. Crittenden, a prominent lawyer in San Francisco, has been arrested for complicity in fitting out the privateer J. M. Chapman. Efficient measures are being taken at San Francisco towards providing armed vessels for the harbor and coast defenses.

Col. James B. Fry, Asst. Adj. General, has been detailed as Provost Marshal General of the United States, in pursuance of the provisions of the Conscription bill.

NAVAL.—As a compliment to the Irish sailors in the service, by special desire of the Secretary of the Navy, side-wheel steamer Shamrock was launched at the Brooklyn Navy Yard at an early hour on Tuesday forenoon, "St. Patrick's day in the morning." Her dimensions are:—length between perpendiculars 240 feet, length over all 242 feet, moulded breadth 34 feet 4 inches; depth of hold 12 feet.

In consequence of the seizure by the rebels of a U. S. naval signal book, a revised code of signals is said to have been made and sent to every U. S. man-of-war in commission. It is not contraband to state that our signal system is such that a very trifling alteration can change the entire meaning of all signs of communication. No embarrassment has as yet been occasioned to our officers by the acquaintance of the rebel officers with our code of signals.

The iron-clad Nantucket has arrived safely off Charleston bar, in tow of the gunboat Florida.

☞ The probabilities are said to be very strong that the President will heed the suggestions of the New York merchants, and consent to issue letters of marque for one privateer, 'as an experiment. There is understood to be much division of feeling among the Cabinet as to the propriety of this step, and many of the most influential friends of the Administration have been active during the past week in opposing it. There are, however, parties in New York so anxious to try the hand of private enterprise in capturing the rebel pirates, that a refusal of their demands, after the large vote of Congress granting such letters, would cause much dissatisfaction.

☞ There was a mass meeting of Methodists in John Street Church, New York, on Monday afternoon, to consider the subject of lay representation. Eloquent addresses in favor of lay representation were made by Bishop Simpson, Senator Wright of Indiana, Rev. Mr. Hatfield, Rev. Mr. Dublin and others. Strongly worded resolutions, urging the speedy adoption of a system of lay representation were passed unanimously, and a convention of Methodist laymen called for May 13, in New York city. The action of the meeting was entirely harmonious.

☞ The St. Louis Republican says a boy not over five years of age was recently arrested in that city for being disorderly.—He was at the time drunk, and was smoking a chalk pipe with a stem about an inch long, the fumes of which were strong enough to poison an anaconda. He swears, chews tobacco, drinks beer and whiskey, has been several times drunk, and was very importunate for a "drink" while at the station house; he waltzes and "fig," and gave a specimen of his terpsichorean accomplishment.

☞ The Washington Star states that the thunder and lightning which occurred in that vicinity on Sunday evening, flustered the telegraph operators amazingly.—They found themselves unable to pass communications between Union Mills, Fairfax Station, Fairfax Court House, &c., and forthwith charged the difficulty upon imaginary rebels cutting the wires, rather than to the true cause, the state of the atmosphere. Their consequent reports to headquarters caused a very general summons to readiness for active movements of all its troops, which were responded to with such alacrity as to demonstrate that they are in a very commendable state of readiness for any emergency.

☞ A Mr. Folley, an industrious working man, was killed at Dorchester, Mass., on Monday. He was engaged in removing a barn when it fell upon him, killing him instantly.

NEW-HAMPSHIRE ITEMS.

—— We are indebted to Mrs. I. Perley, of Concord, Corresponding Secretary of the N. H. Soldiers' Aid Society, for her report for the year 1862. This Society, having its headquarters at Concord, is doing much good, and should be sustained by the people of the State. During the year the number of towns in correspondence with the Society increased from 57 to 87. With the exception of a single box of stores sent to a regiment which had in the meantime changed its position, all articles sent by the Society have been received by the parties to whom they were directed.

—— The Patriot has returns from the whole State, excepting Pittsburg and Hart's Location. Those places last year gave 40 votes for Stark and 52 for others. Not reckoning these towns, the vote is,—for Eastman, 32,756; Gilmore, 28,980; Harriman, 4,438. Majority against Eastman, 622.

—— The Patriot admits that Hon. E. H. Rollins, Republican, is elected in the 2nd district by about 250 majority. The Governor vote is 353 against the Democracy; but the towns from which returns for members of Congress have been received, give Col. George a relative gain of about 100. James W. Patterson, Republican, is elected in the 3d district by about 250 majority. The majority against the Democrats on Governor in the district, is 317; but Mr. Burns gains on that vote about 65 votes.

—— In consequence of Maj. Farnsworth's connection with the army, and his inability to give personal attention to the duties, the editorial and publishing control of the Manchester American has gone into the hands of Messrs. Gage, Moore & Co., who have leased the establishment. The new proprietors profess their unflinching determination to support the government.

—— John Whitcomb, Esq., of Hancock, died Feb. 23d, at the age of 78 years. He was an excellent and highly respected citizen, and the first and only postmaster for that town. He held that office for more than fifty years.

—— Miss Elizabeth A. Richardson, of Manchester, has been appointed copyist in the War Department at Washington, at a salary of $600 a year.

—— Prof. Varney, of Dartmouth College, having received an appointment under the Government at Washington, has resigned the Professorship of Mathematics. The vacancy is supplied by Charles H. Boyd, of the class of 1858. He was popular as Tutor in 1859—60.

—— There are now connected with the Academic and Scientific departments of Dartmouth College, about 250 students.

—— The Canterbury Shakers have sold the whole of their new crop on the sheeps' back at 75 cents per pound.

☞ The following paragraph, obtained at the Bureau of Internal Revenue, is communicated in a dispatch from Washington:

"It would seem to be a reasonable construction of section 6th of the act of March 3d, amendatory of the Excise Law, that promissory notes not exceeding 33 days, including the grace days, should bear a one cent stamp; exceeding 33 days and not exceeding 63 days, including the grace days, two cents; exceeding 63 days and not exceeding 93 days, three cents. Consequently, a note at 63 days, including the grace days, would possess a legal value by having a two-cent stamp affixed thereto. The same rule will apply to notes having a longer time to run."

☞ During the bombardment of Fort McAllister, a 15 inch shell thrown by a mortar, dropped on the deck of the Monitor, and in the light of an experiment nothing could have pleased the admiral or the officers of the ship better. It buried itself to the depth of four inches only, and bursting did no harm; but what was a little singular, one piece of the exploded shell remained in the cavity, and by the force of the explosion, spun round in that indentation for five or ten minutes.

HOW HE GOT WORK UP.—In Salem a few nights ago, a young man left his bed and descended to the dining room, where he opened the register to the air-light stove, and pulling a chair near the stove, which by this time had become hot, braced his knees against it. This sudden start brought him somewhat to his senses and he returned to his chamber. In the morning he was surprised to find a burn upon each knee, as large as a half-dollar used to be.

European complications thicken and grow ugly. We are sorry for poor Europe—she is never easy in her mind long at a time—but there are some reasons why loyal Americans don't feel so sad about it as they might under other circumstances. When people of an active turn of mind, like English and French politicians, have business of their own to attend to, they are less likely to meddle with other folks' affairs.—Which is lucky.—*Boston Post.*

☞ An extended course of extremely valuable lectures is to be commenced without delay at Harvard College. Among the lecturers are President Hill, and Profs. Agassiz, Lowell, and Pierce. Students and officers of the University, graduates of any college, and teachers of public schools are to be admitted free;—others on the payment of $5, each term.

A SAD CASE of degradation and misery came before a court in Boston Saturday forenoon, viz.: a woman as a common drunkard, who, ten years ago, was the wife of a man who was treasurer of a rich corporation, living in style, surrounded with all the luxuries of life, and visited by the wealthy and fashionable citizens of Boston and Salem. But the husband lived beyond his means, and the community was startled to hear that he was a defaulter to a very large amount to the corporation. His wife stood by him in the hour of adversity, and he managed to get clear of the charges against him without being sent to prison.—But in a few short months he was arrested for robbing the mails, and is now serving out a term of imprisonment in the Connecticut State Prison.

During her husband's trial she stood by him, and spent her last dollar in his behalf. Finally, her home was made desolate, and her elegant house and furniture were taken from her. Those who had formerly sought her society and her levees, shunned her.—The broken-hearted woman took strong drink, (miserable solace) and has become a wretched sot. The papers do not publish the woman's name, but the whole country knows the story, and the name is no secret. Her case was a sad one, as to poverty, mortified pride, and disappointed hope, all by her husband's crimes,—and she, by a remedy far worse than the disease, made it sadder still,—for thus she committed moral suicide.

☞ The foreign papers have a touching incident about Poland. A little boy was standing at the door of his mother's house, when he saw the Russians fire a volley on the insurgents. "Mother," cried the boy, "the Holy Virgin protects our friends, for I saw none of them fall." A Russian officer rode up and said—"See if the Holy Virgin will protect you," at the same time blowing out the boy's brains with a pistol.

☞ The Buell Court of Inquiry, sitting at Cincinnati, has been interrupted in its proceedings by a difference among some of the members as to the admissability of portion of the evidence. Gens. Wallace and Ord have gone to Washington to consult with parties there upon the subject.

☞ The rebel Gov. Brown, of Georgia, does not seem to have made much by secession, if we may credit the following from his late Message:

The abolition government at Washington—from which we seceded on account of its disregard for the violation of State rights—has shown itself more attached to the rights of States, and more careful not to violate them, than our own government, which had its very origin in this great doctrine.

☞ George Warner a private in the Third Ohio Cavalry who had deserted, was arrested last week by the Provost Marshal. Before taking the train for Columbus, he asked permission to visit an eating house. When he had advanced about ten steps, he turned about, drew a pistol, and placing it at his heart, discharged it, killing himself instantly.

☞ London papers complain of the great increase of bankruptcy in England. Nine thousand this year against about two thous and in former years. The increase is attributed to the "American War," which, being interpreted, means that English speculators in attempting to make money by aiding the rebels, have lost it instead.

☞ The Portland Transcript boasts of receiving the first May flower of the season, on Wednesday, Mar. 11th.

☞ 800 paroled soldiers, en route for Chicago, demolished the office of the Jefferson Anti-war sheet at Richmond, Ind., and at Indianapolis threatened the Sentinel. The military were placed on guard to prevent a disturbance.

☞ The Hagerstown (Md.) Free Press has been suppressed by order of Maj. Gen. Schenck, and its editor, Mr. A. J. Boyd, sent beyond the Federal lines.

☞ The Catholics have secured the passage of a bill by the Canada Parliament by which the population of that faith in Upper Canada will have separate schools for the education of their children.

☞ The Secretary of the Treasury is increasing to a considerable extent the naval department of his branch of the service.

☞ The Mayor of Detroit has offered a reward of one hundred dollars a head for the conviction of the rioters who were engaged in the late negro disturbance in that city.

☞ Forney advocates stump speaking in the army to cheer the soldiers. Good food and prompt pay would be more acceptable.

☞ Gen. Lockwood, commanding the eastern shore of Maryland, has adopted efficient means to prevent communication with the South.

☞ The Postmaster General has authorized Postmasters to frank letters of Collectors and Assessors of Internal Revenue.

☞ Fast Day in Connecticut—Friday, April 3d.

THE GOBBLED UP STOUGHTONS.—Of the "General Stoughton," *ci-devant*, but a few month ago Lieut. Stoughton, who was lately "gobbled" by the rebels near Fairfax and with regard to whose case the President is said to have declared that he did not so much mind the loss of the Brigadier, as of the horses of the cavalry he commanded,—of this Stoughton the Boston Courier remarks that he is a young man, about 23 years of age, and of great personal beauty, wearing a most killing mustache. A great part of his time has been spent in the fashionable coteries in Washington. A short time since one of his less fortunate friends asked him how he had obtained such a promotion. "Ah, my dear fellow," said the General, twisting his elegant oval eye brows, "it was done by the giyurls at Washington!"—*Portland Advertiser.*

☞ Fraser, who murdered his wife and two children in Buffalo, and then set fire to his house, is dodging the officers of justice like a hunted wolf. He was seen at Wales Centre, Cayuga county, on Thursday morning. When the keeper of the Wales Centre House opened his doors Fraser was pacing up and down in the horse-shed. He was given something to eat and departed, since which time he has not been traced.

☞ The sum of $3600 has been sent to the Sanitary Commission for the benefit of sick and wounded soldiers, by Americans in Chili.

☞ Gold opened in New York on Wednesday at 154 1-2. At 1 o'clock it had declined to 153 3-4.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may select the paper therefor."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

Notice to Housekeepers.

Rubber Band Carpet Sweeper.

TRY IT! TRY IT!!

It saves Money; it saves Carpets; it saves Furniture; it saves Labor; it is cheaper than Brooms at five cents apiece.

It gathers up all dust, dirt, and loose lint on the carpets, and raises no dust to settle on the furniture, drapery, or ornaments, or to smother, stifle and irritate the lungs.

It does not wear the carpets half so much as brooms or any other sweeper.

It is the only practicable sweeper made, and the only article fit to sweep a carpet.

With our late improvements it gives universal satisfaction to all who use it according to directions. For sale at No. 12 Market Street by

THE HORSE.—Dr. O. H. P. Fancher gave a free lecture at Rechabite Hall, on Wednesday evening, on the Horse and his diseases. Dr. Fancher has been engaged nearly all his life in the capture, training and management of horses, from the wild horse of the Mexican prairie to the domestic animal in city stables. He claims that he has met with uniform success during the past twenty-five years, having made the breaking and training of horses a legitimate business, and not practiced it merely for the purpose of giving public exhibitions. Being the first to reduce the business to a practical science, he was pursuing it, when he met in 1854, at Circleville, Ohio, Mr. John S. Rarey, who asked his advice relative to the propriety of making a business of lecturing and experimenting throughout the country. The success which Mr. Rarey, acting upon his advice, has met with since then, in this country and abroad, is well known.

From long and thorough study of the noble animal, Dr. Fancher has been able to obtain most extraordinary control over even the most vicious, and that two, without worrying, frightening or tiring them into submission. He has published a book of remedies for all the ills that horse flesh is heir to, and has the full endorsement of men in New York city, and elsewhere, who are well acquainted with his methods, and fully competent to decide in regard to their merits.

His lecture on Wednesday evening was confined chiefly to the pathology, physiology and anatomy of the horse, and was highly edifying to all those who are interested in the raising and keeping of healthy animals.

Dr. Fancher will remain at the Franklin House in this city to-day (Thursday) where he may be consulted by owners of horses who wish to obtain his work, or information in regard to the best methods of feeding, &c.,

THE OPERA.—The advertisement in this morning's Chronicle promises the music-loving portion of our citizens a rich treat on Monday evening next, when Mr. Grau's entire Italian Opera Company from Boston will perform at the Temple. Their success in that city has been decided and complete, as our readers are already well aware: and many of our citizens have made special trips thither to witness their fine performances. Each member of the company has a high reputation, and in rendering their several parts they perhaps stand unexcelled in the operatic world. Their appearance in this city will afford our citizens an opportunity to enjoy an entertainment of a far higher character than was ever before given here. We trust that the number of those who attend will be large, that it may be an evidence that we have among us many who appreciate and enjoy the finest music most skillfully rendered.

☞ Rumsey's Minstrels appear at the Temple again this evening. Seldom do our people have an opportunity to hear such fine musicians, or enjoy so rich a musical entertainment. Rumsey on the banjo, Deverell on the flute, Brockway on the violin, Gaynor in comedy, and Jules Stratton in a sentimental piece, are all excellent. They had a good house last night and give their last performance this evening.

☞ A special meeting of the City Council was held on Tuesday evening. In the Common Council the appropriation bill was passed and sent up for concurrence. Amount appropriated $71,967.22.

Also, a bill was passed and sent up, providing for a city loan of $25,207.67.

The Board of Aldermen, in concurrence, passed the latter bill. The appropriation bill was referred.

☞ The funeral of Mr. Thomas B. Parks, late of Capt. Betton's company in the 13th regiment, took place on Wednesday afternoon, the funeral services being held at the Pearl St. Chapel. He was buried under arms,—a number of returned soldiers of our New Hampshire regiments paying this mark of respect to the memory of their comrade.

☞ The Concord Patriot states that the Governor vote of the 1st Congressional district except Hart's Location, gives 38 Democratic majority. In all but 15 towns, Mr. Marcy gains 51 on that vote.

☞ The side-wheel steamer Patuxet will be launched at the Portsmouth Navy Yard on Thursday (19th) at half past 11 o'clock, if the necessary arrangements can be perfected; if not it will be deferred until Friday.

☞ Lt. Col. Bailey, of the 24 N. H. Regiment, and Maj. Jacob I. Storer, of the 13th, have been in town during the present week.

☞ A session of the U. S. District Court was held in this city on Tuesday, Judge Harvey presiding.

☞ Daily Chronicle of Monday, March 9—wanted.

☞ The following is the route of the Democratic Procession this evening in honor of the election of Hon. Daniel Marcy to Congress. Persons along the route are requested to illuminate their houses.

The Procession will form on Market Square at 7 o'clock, and march through Market, up Deer and North to Prospect street: countermarch down North, through Vaughan, Congress, Anthony, Austin, Middle, Court, Pleasant, South, Mt. Vernon, South School, Water, State to Market Sq., when the collation will take place in Jefferson Hall. Per Order.

☞ An East Tennessee hunter has collected about five hundred men in the mountains, who can pick a squirrel off the top of the tallest oak with their long rifles, and is ambuscading the rebel cavalry at all points, and wiping out whole squads of them with astonishing celerity.

☞ A sheep purchaser in Vermont, who purported to be O. B. Clark, from Quincy, Ill., has swindled the banks in that State out of $23,500 by means of forged drafts, and escaped with his plunder.

☞ The Rhode Island Democratic State Committee has nominated Acting Governor Wm. C. Cozzens, of Newport, for Governor, and Henry Butler, of Warwick, for Lieut. Governor.

☞ A fire in Brooklyn, on Tuesday was produced by an explosion of a quantity of powder, which the Irish inmates of the house were endeavoring to dry by the stove. Five persons were badly burned.

☞ See yon fair maiden in another column, picking Sambuci Grapes' for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

BUY CALIFORNIA WINES

They are the Purest!
The Best!
The Cheapest!

The "sunny slopes" of "Los Angelos" have announced to the world that America is a wine-growing country, and as the discovery of gold sent a thrill through the old world, so will the discovery of these Wines startle them again, as it says, "one more link broken which has bound us to Europe," "one more step to independence." Let every man, woman and child who uses Wine, see to it that they buy none other than these.

"The Hock" is a most delicious Wine, and rivals in delicacy its German predecessor.

The "Angelica" and "Muscatel" are melting, luscious and rich, and will take the place of Malaga, Tokay, or other rich Wine.

The Port has a fine flavor and body; and The Port is excellent because it is pure.

ANOTHER NEW STOVE!

THE MODEL COOK

FOR WOOD OR COAL.

The novel—the peculiar feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the larger oven for baking; giving an oven nearly a foot long; or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! A check draft is applied to this stove by means of which the consumption of fuel is greatly lessened, and a steady fire can be kept day and night if desired.

We refer to the following individuals who have purchased the Model Cook:—

David Kimball, Thos. F. Burt, John T. French, Rev. Mr. Davies, Wm. Pettigrew, Capt. John Davis, Jeremiah Raitt, Mrs. Ann T. Perkins, James W. Jarvis, Francis C. Jarvis, Thos. L. Pullock, Jacob Wendell, Capt. Jacob Thompson, Gen. J. G. Hadley, G. Melvin Huntress, Jos. D. Akerman, James F. Shores, Wm. C. Newton, Horton D. Walker, Benj. Cheever, John Trundy, Richard L. Rawlins, Geo. Rice, Benj. F. Cheney, Benj M. Parker, Charles A. Wiggin, George W. Plumer, Nath'l Dennett, Henry F. Gerrish, John Harrett, Thos Murphy, Capt. Wm. Lambert, Joseph Stiles, John Senter, Wm. Bell, Cyrus Plumer, Freeman Hurd, James M. Locke, Daniel L. Rawlins, Isaiah Wilson, John E. Rollerts—of Portsmouth; Samuel C. Dixon, Daniel I. Pryor, Cushman Pryor, of Trefethen's Island; Geo. N. Dixon, Samuel F. Paul, Elias Remick, Timothy Dame, Elliot; Wm. S. Lane, Benj. Fernald, Mrs. Wm. Locke, Kittery; R. F. Gerrish, Kittery Point; Hon. HALEY, MORSE & BOYDEN'S

PATENT SELF-ADJUSTING

CLOTHES WRINGER.

The following are twelve good reasons why every family should have a Wringer:—

1st It will save time, which is money.
2d. It will save strength, which cannot be bought.
3d. It will save the Clothes, which cost money.
4th. Any man, boy or girl, can use it, who could not wring clothes by hand.
5th. It helps to wash the clothes, and by running them a few times through the Machine, out of hot suds, it will clean them as well as half the washing machines in use.
6th. It removes the water by direct pressure on the cloth, instead of the usual twist, which must strain and injure the fabric.
7th. Window Curtains passed through it will wring smooth and square, thus avoiding a source of vexation arising from the usual mode of twisting them out of shape.
8th. Woolen goods may be wrung out of hot water without injury to the rubber, or the least tendency to tailing the cloth.
9th. Clothes passed through it will dry in half the time usually required when wrung by hand.
10th. It can be set on any common tub or barrel; and moved from one to another in a minute.
11th. It does its work in less than one-fourth the time required by hand, and a great deal better.
12th. It helps to make the washing day more pleasant.

This Wringer has had immense sale in this city and vicinity, and a year's trial has proved its many excellent qualities.

It is now one the "domestic institutions." No family should be without it. Try one; if not satisfactory, the money will be refunded.

Just received Dr. Gould's PIN WORM SYRUP—the only safe, sure, and effectual remedy ever offered to the public for the removal of Pin Worms. The above valuable medicine for sale at the Medicine Store of B. HUTCHINGS.

Ayer's SARSAPARILLA,

THE WORLD'S GREAT REMEDY FOR
Scrofula and Scrofulous Diseases.

From Emery Eden, a well-known merchant of Oxford, Maine.

"I have sold large quantities of your SARSAPARILLA, but never yet one bottle which failed of the desired effect and full satisfaction to those who took it. As fast as our people try it, they agree there has been no medicine like it before in our community."

Eruptions, Pimples, Blotches, Pustules, Ulcers, Sores, and all Diseases of the Skin.

From Rev. Robt. Stratton, Bristol, England.

"I only do my duty to you and the public, when I add my testimony to the wonderful cures and medicinal virtues of your SARSAPARILLA. My daughter, aged ten, had an afflicting humor in her ears, eyes, and hair, for which we were unable to cure until we tried your SARSAPARILLA. She has been well for some months."

From Mrs. Jane E. Rice, a well-known and much-esteemed lady of Philadelphia, Penn., Aug. May 7th, 1857.

"My daughter has suffered for a year past with a scrofulous eruption, which was very troublesome. Nothing affected it, and it was not until we tried SARSAPARILLA, which she completely cured her."

From Charles P. Gage, Esq., of the widely-known firm of Gage, Morrey & Co., manufacturers of essential oils, Nashua, N. H.

"I had for several years a very troublesome humor in my face, which grew constantly worse until it disfigured my features to a degree that was inexpressibly painful. I tried almost every thing a man could of both advice and medicine, but without any relief whatever, until I took your SARSAPARILLA. It immediately made my face worse, as you told me it might for a time; but in a few weeks the new skin began to form, and the humor was all entirely cured, and my face is as smooth as any body's, and I am without any symptoms of the disease that I know of, to any person that knows me, and without a doubt owe it to your SARSAPARILLA."

Erysipelas—General Debility—Purity the Blood.

From Dr. Robt. Swain, Houston St., New York.

"DR. AYER: I seldom fail to remove *Scrofulous* and *Scrofulous Sores* by the persevering use of your SARSAPARILLA, and I have just now cured an attack of *Malignant Erysipelas* with it. No alterative compounds equals the SARSAPARILLA you have supplied to the profession as well as to the people."

From J. E. Johnston, Esq., Wakeman, Ohio.

"For twelve years, I had the Erysipelas broaks on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollars worth of medicine. The sikers were so bad that the cords became visible, and the doctors decided that my arm must be amputated. I began taking your SARSAPARILLA. Took two bottles, and some of your PILLS. Together they have cured me. I am now as well and sound as my body. Being in a public place, my case is known to every body in this community, and excites the wonder of all."

From Hon. Henry Moore, M. P. P., of Newcastle, C. W., a leading member of the Canadian Parliament.

"I have used your SARSAPARILLA in my family, for general *debility*, and for *purifying the blood*, with very beneficial results, and feel confidence in commending it to the afflicted."

St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes.

From Harvey Wilson, Esq., Justice of the Peace of the Twelfth Ward of Pittsburgh, Pennsylvania.

"Our only child, about three years of age, was attacked by pimples on the face, which in a fortnight spread until they formed a loathsome and virulent sore, which covered his face, and actually blinded his eyes for nearly a week. We tried a variety of nitrate of silver and other remedies, without any apparent effect. For fifteen days we guarded his hands, lest he tear the flesh from his face, scattering and carrying wounds which covered his whole face. Having tried every thing else we had any faith from, we began giving your SARSAPARILLA and applying the bottle of potash lotion, as you direct. The sore began to heal when we had given the first bottle, and was well when we had finished the second. The flesh came on which had been torn out, grew again, and he is now as healthy and fair as any child. The whole neighborhood predicted that the child must die."

Syphilis and Mercurial Disease

From Dr. Hinton Shortt, of St. Louis, Missouri.

"I find your SARSAPARILLA a more efficacious remedy for the secondary symptoms of *Syphilis*, and for syphilitic disease than any other *two* sources. The profession are indebted to you for some of the best remedies we have."

From A. J. French, M. D., an eminent physician of Lawrence, Mass., who is a prominent member of the Legislature of Massachusetts.

"DR. AYER: Dear Sir—I have found your SARSAPARILLA an excellent remedy for *Syphilis*, both of the primary and secondary type, and effectual in cases resembling *Mercurial Disease* brought to other remedies. I do not know what we can employ with more certainty of success, where a powerful alterative is required."

Mr. Chas. S. Van Liew, of New Brunswick, N. J., had dreadful sores on his legs, caused by the abuse of mercury, *of mercurial disease*, which grew more and more aggravated, despite the use of every remedy or treatment that could be applied, until the persevering use of AYER'S SARSAPARILLA relieved him. No cause can be found more thoroughly mercurial distressing than this, and it took several dozen bottles to cure him.

Leucorrhœa, Whites, Female Weakness,

are generally produced by internal *Scrofulous Corruption*, and very often yield to the alterative effect of this SARSAPARILLA. Some cases require, however, in aid of the SARSAPARILLA, the skilful application of local remedies.

From the well-known and widely-celebrated Dr. Jacob Morrell, of Cincinnati.

"I have found your SARSAPARILLA an excellent alterative in cases of female weakness, Menstrual Irregularity, Leucorrhœa, Internal Ulceration, and local debility, arising from the scrofulous diathesis, have published it, and shall do so, wherever I find it, when its effect is properly aided by local treatment."

A lady, unwilling to allow the publication of her name, writes:

"My daughter and myself have been cured of a very debilitating Leucorrhœa of long standing, by two bottles of your SARSAPARILLA."

Rheumatism, Gout, Liver Complaints, Dyspepsia, Heart Disease, Neuralgia,

when caused by *Scrofula* in the system, are rapidly cured by this EXT. SARSAPARILLA.

AYER'S
CATHARTIC PILLS

possess so many advantages over the other purgatives in the market, and their superior virtues are so universally known, that we need not do more than to assure the public their quality is maintained equal to the best it ever has been, and that they may be depended on to do all that they have ever done.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that never failed to cure, and which, if used as directed, have failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and secondary blood, Impotency, Scrofula, Gonorrhœa, Ulcers, pains and distress in the regions of procreation, inflammation of the bladder and kidneys, Gravel, Dropsy, Stricture, Pain in Urination, Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases of nocturnal or secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the Head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The heart becomes affected, the mind is made to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. DOW's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving decent pay or at your cases. Dr. Dow has also for sale the FRENCH Capsules, warranted the best preventive. Order by mail, enclosing for $1 and a red stamp.

CAUTION

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No. 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or Falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and a speedy relief secured in a few days. We have invariably certain is the new mode of treatment, the t most obstinate complaints yield under it, and the affliction is soon restored to perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

S. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. DOW is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unrivaled extraordinary success in these cases, gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plates, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and seal iron heater combined, by which the odor of broiling meats is prevented from coming into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling out of the ashes is entirely dispensed with. The fire is regulated in the same manner as the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of rekindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable, without any part of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while others have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 50 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Stock and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. When the arch is irregular we can by building out the depressions—which can be done in any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as any other, as a cancer, when finished the work presents one whole piece.

6th. While in all ways it is better, save in a few peculiar cases, it is more cheaper than Gold.

DENTISTRY.

No. 60 CONGRESS STREET,
Portsmouth, Jan. 1st, 1863.

DR. GOODALL

Would respectfully inform his patrons and the public that he has lately added to his stock of teeth upon VULCANIZED RUBBER, that he has purchased the best VULCANIZER in the market, and is now prepared to do all work upon RUBBER, or the other bases of GOLD and SILVER as formerly, if preferred.

The Rubber has several important advantages, viz.: It is lighter, more durable, and consequently is perfectly easy to the muscles of the mouth and cheeks. There are no interstices or open crevices to collect food, and consequently they can be worn night and day, and are very easily kept most and clean.

Besides all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.

Any one who is waiting for the permanent teeth will, I am confident, be perfectly satisfied with the Rubber, as a base. The expense is but a little more than for Silver, and you get the same teeth (in blocks) that you would pay $60.00 for an upper or lower set on Gold.

In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by the best Dentists too. I will warrant a perfect fit and teeth from the best manufacturer in the country, S. S. White.

ALL OTHER OPERATIONS IN DENTISTRY I will do the best manner. I will here mention that my price for EXTRACTION is 25 cents.

I take pleasure in referring the public to Dr. TRAFTON, Dr. BOARMAN, Dr. QUINN and Dr. BENNETT, for particular success in extracting teeth. Teeth extracted without pain and with perfect safety, with Nitrous Oxide, provided to their natural wilderness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with Neatness and Dispatch. All other operations in Dentistry, I will do at the usual rates.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
75 State Street, opposite Kilby Street,
BOSTON,
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person more competent and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. **R. H. EDDY.**

FRIDAY, MARCH 20, 1863.

THE REBELLION.

A cavalry reconnoissance on Wednesday, under Gen. Averill, forced a passage across the Rappahannock in the face of a determined resistance by rebel sharpshooters (who were covered by rifle-pits, &c.,) and charged the rebels in their entrenchments, killing and capturing nearly the entire force, besides securing a large number of horses picketed near by. They then encountered the rebel cavalry, under Stuart and Fitz Hugh Lee, and repulsed and charged them with fatal effect, using sabres only in the conflict. The battle lasted five hours, and was a series of charges and hand to hand conflicts, resulting in the falling back of the enemy, behind an entrenched battery. The forces were about 2000 on each side. Among the prisoners is a Major, a cousin of the traitor John C. Breckinridge. The enemy's loss was severe, reaching probably to 200, as their wounded were found everywhere. Our own loss will not exceed 50 in killed and wounded.

The rebels have erected formidable batteries at Galveston, mounted with the guns taken from the Harriet Lane and Westfield. It is not probable that our fleet, as at present constituted, will undertake anything against the city.

Advices, via Cairo, 13th, state that the report of the capture of Yazoo City is premature. The report of the capture of rebel transports is also disputed.

On Friday last the gunboat Chillicothe of the Yazoo expedition encountered a rebel battery. The fight lasted all day. The Chillicothe received 64 shots, and was damaged seriously.

The pirate Florida has again been heard from; she chased a bark into St. Thomas, where the authorities detained her 24 hours after the sailing of the bark.

There was a rumor at Hilton Head, 13th, that the negro expedition into Florida and Georgia had been captured. It was commanded by Colonels Higginson and Montgomery. The report is not credited.

A Fortress Monroe dispatch states that there was fighting on the Blackwater on Tuesday; and that the rebels attacked Newbern last Friday and were defeated.—The Richmond papers of the 17th say that on the 14th Admiral Farragut attacked Port Hudson and was repulsed. The Mississippi was burnt. Admiral Farragut went down the river in his flagship, which was disabled. The land force did not join in the attack.

Gen. Dix sends a report of the Port Hudson affair from the Richmond papers, which states that while the Mississippi was sunk, another vessel succeeded in passing the batteries, and is now between Port Hudson and Vicksburg.

The Richmond Whig, of the 18th, says the bombardment of Port Hudson commenced on the 14th. At 12 o'clock P. M. a desperate engagement took place, our forces attempting to pass the batteries under cover of the darkness. The firing was terrific. One gunboat passed in a damaged condition. The sloop-of-war Mississippi was burnt to the water's edge in front of the batteries; one large vessel was riddled, a third crippled and the rest driven back.—The Whig claims that the rebel victory was complete, and that they sustained no loss.

The battle on the Blackwater, on Tuesday, was commenced by our troops, who attacked the enemy's entrenchments opposite Franklin. When the informant left the fight had lasted for an hour; two cavalry charges had been made by our troops, and the enemy's reinforcements were coming up. There was a strong force of rebel infantry there.

A later dispatch states that our troops failed to carry the rebel breastworks. Our loss was 17 wounded and missing. We took 10 prisoners.

The Louisville Journal editorially recommends that that city be fortified immediately.

Deserters state that four weeks ago an attempt by Buchanan to attack our fleet off Mobile with four steamers and a ram, was frustrated by one of his vessels running on a snag. A letter from the U. S. steamer Susquehannah, off Mobile, says the rebels attempted to reach her recently with a submarine torpedo, but failed, as it sunk.

The N. Y. Tribune learns from Havana that arrangements have been made for a meeting of the pirates Alabama, Florida and Harriet Lane, with a view to a combined attack on the steamer from Aspinwall with the California gold.

Rebel accounts say: Fort Pemberton, at the mouth of the Tallahatchie river, was bombarded on the 13th, by which they lost some valuable gunners and a few others.—Four brigades under Gen. Rosecrans, endeavored to hem in Van Dorn, just across Duck river, on the 13th, but after a fight of some hours he escaped. Another ironclad arrived off Charleston on the 14th; and another British steamer has run the blockade. The British steamer Brittania, from Glasgow, arrived at Wilmington on the 15th, and the steamer Gertrude, from Greenwich, arrived on the 16th. Helena, Miss., was attacked in the rear on the 9th. Heavy firing was heard there on the 13th. Gen. D. H. Hill is advancing on Newbern, N. C., and has captured "a Yankee and a buffalo."

THE UNION LEAGUE.—Burleigh, the New York correspondent of the Boston Journal, says, March 17:—

The loyalty of New York is now fully aroused. It has never been more so since the fall of Sumter. The deep and outspoken sentiment is, let the war now go on till the last rebel is shot. The Union League, made up of men who have not at any time been radical, has had the happy effect to concentrate the great mass of the people, and the call to sustain the government at all costs and in all ways, has called out enthusiasm to an unbounded degree. The —— have been hit on the head, and have slunk away in dismay. The great Union demonstration on Saturday night was worthy of our city.

On Monday night Gov. Wright, John Van Buren and James T. Brady attended an immense Union meeting at the Academy of Music in Brooklyn. The Mayor, who has not done much toward sustaining the war, presided, and made an address of the true tone. The hope of the people is growing stronger. Confidence in the Government is rising. The loyalty of the North is coming forth, swelling like the incoming waves, sweeping all before it. An unconditional support of the Government till the rebellion is crushed is the united sentiment of the people.

THE GOLD SPECULATION.—The New York Times in its money article dated Monday evening refers to the indications which the bank returns present as to gold speculation as follows:

"The loans upon gold coin have been called in to the extent of about three and a half millions. The coin itself could not have been sold to this market without doubling the depreciation or loss to the speculative bidders. They have preferred to make the loss on exchange, in which they also speculate heavily, and so the three and a half millions have been shipped to Europe. Of this sum nearly two-thirds is out of the Park and Union Banks. They probably hold over three millions more, of which they have no real control, as part of their general condition, and some of their neighbors are in a similar category. The public will heartily rejoice to see the operation of last week repeated until the specie average in the banks is thoroughly purged of this gambling iniquity. We have reason to believe that the Associated Banks in this city control only $24,000,000. Last week they reported $39,705,000. To-day $36,110,000. There is yet over twelve millions on special deposit, and a good part of the sum loaned upon, to be liquidated or otherwise disposed of, before the false showing on the bank returns is done away with."

☞ A singular story is told by an English paper. It seems that a vessel was chartered to go from Swansea, England, to Cobijah, on the western coast of South America, and left on the 12th of April last. Everything proceeded well until rounding Cape Horn, when for seven successive days the master and men contended with the elements, but the ship made no progress.—The captain solemnly declared that when the storm was at its height, God appeared to him in the form of a man, and told him that if the ship proceeded any futher the vessel and all hands would be lost. Though the officers endeavored to convince him of the impossibility of such an occurrence, the captain immediately gave orders to "bout ship," and proceeded back to England.—The ship now lies at Newport, with the same cargo which she shipped in Swansea, having proceeded many thousand miles on a fruitless voyage.

☞ A pair of horses attached to one of the East Boston omnibuses got frightened on Wednesday noon and ran into the dock from the People's Ferry. The animals were drowned. The driver was quietly taking a lunch in the neighborhood, and returned to find his whole establishment submerged in briny waters. Several passengers in the omnibus escaped by jumping out before it went overboard.

☞ On Saturday night, a man named Gayon made an unprovoked attack upon T J. Norris of the U. S. gunboat Sabine, in a drinking-shop, in New York. He nearly severed three of Norris's fingers from his left hand at the first pass, and afterward stabbed him about the throat and face, digging out his victim's right eye. The assassin was taken to the Tombs, and the victim to the Hospital.

☞ A new literary paper is soon to be started in Portland, called the "Casco Bay Gem",—a name, the first two words of which, at least, give promise that it will be conducted with spirit. The Portland Transcript is one of the best literary papers in the country.

☞ While English journals indulge in severe criticisms on the letter of Mr. Seward, declining the peace propositions of the French Government, it is noticeable that nothing in the way of unfriendly comment from official or unofficial sources has reached our Government from France.

☞ NOTHING IS IT.—It is wholy untrue that Gen. Tom Thumb has been appointed a Major General. His name cannot be found in the full directory recently put through the Senate. Tom says he has something better at home that commands all his time.—*Boston Post.*

☞ In Broome County, N. Y., a few days since, Eliza J. Outrison got judgment for a thousand dollars against Eugene B. Nash for not marrying her as he had agreed.

☞ Secretary Chase says his recent visit to New York was both agreeable and satisfactory.

ILLINOIS CORRESPONDENCE.

A CORRESPONDENT'S FAREWELL.

NORTHERN ILLINOIS, Jan. 2.

Dear Gazette:—A melancholy feeling comes over me as I lay down your last No. for 1862, after having, as usual, perused the whole, saving the *Immortelles*, and notices of Portsmouth assemblies of various kidds for enjoyment. From what you say of cutting off dead heads, I suppose I am not to see another number. I am sorry for that, and were you publishing in Chicago that event would not occur while my money lasted. Your Daily would be just what I would like.

I cannot say that I deserve your paper. What I write is worth more to the public than they estimate it at: to you it is worth exactly what the public it hold to be. In a little cottage so surrounded by woods that there is no house in sight; with no road passing my door, my vocation is not to pick up news. Here all alone I fight battles on my own book. Good books and bad strind about an equal chance in this world, and my main endeavor is to persuade purchasers to "get the best" of the kind they spend their money for. I have rather tonght shy of show books, but when they come to hand I have tried to give them their desserts.—But it is hard killing some of them. One mail brought me for instance a re-publication of the Science of Things Familiar, by a Rev. Dr. Brewer, of England. It was filled with questions all beginning with *Why*, and answers all leading off with the word *Because*. If well executed it would have borne the same relation to sciences as a heap of stones, mortar, prostrate pillars and capitals reversed, might to the Temple of Diana, from whence they were quarried. But the collector of these fragments knew no one science, and his mixture filled the mind with worse than mere rubbish where solid masonry should rise. I spent hours in killing that book, and took my pay in jovial laughs with scientific friends over marked passages. At this day two editions of Familiar Science, one by Francis, of New York, and the other by Peterson, of Philadelphia, are used in some highly respectable schools, as the easiest thing to help pupils to show off.

Nor is it always easy to help a good book. On the 28th of February, 1861, you published my opinion on Colton's $1.20 Atlas. It was not without its censure, but declared it far ahead of anything else attainable by the masses. Since that time our nation has become more deeply interested in maps than ever before. Thousands have paid their $6 for what is worth but half as much as this atlas. Maps are hung on the walls of half the houses I enter. And in nearly two years now, I have never met a copy of this atlas in any family where I had no agency in introducing it. Do not imagine me speculating in the book: I have indeed sold it, but always at the precise price for which I bought it. I have sold a good many books, and good ones only, in my day, but I never made a dime's profit. That is not my way of getting a living.

There is another book I feel like *puffing* just now. It is Cruden's Concordance of the Bible. It is a wonder and a shame that people can get along so comfortably without a Concordance; and I know of no other good one on sale. There are two editions of this, equally good for finding passages in the Bible, but one has definitions of *Ephod, Teraphim, Faith, Sin*, &c., &c., in it. The cheaper form is published by the American Tract Society for $1. To the Bible student it is worth a half bushel of good theological books. There can be no safer or surer expositor than a full concordance.

Just one other good book that is almost unknown, I will mention now. It is *Patriarchy*: by President John Harris. It throws more light on the philosophy of the family relation than all the books I have ever read. Nobody else tells us so well why large families are naturally happier than small ones. The theory of beginning and training a family are all laid out, but in such a way as to stand to ordinary works of this kind in some such relation as *Geometry* does to *land-surveying*.

But the aim of the author was quite different from that of giving good advice. Patriarchy is the last work in a series interrupted by the death of Dr. Harris. Their aim was to show the character of God as manifested in creation. The *Pre-Adamite Earth* showed what of the Creator's character could be drawn from the laws of Matter and of the Animal and Vegetable Kingdoms. *Man Primeval* based its arguments on the constitution of the human mind and the relations of man to matter—to the vegetable and animal world, and to God. In Patriarchy, the Wisdom, Goodness, Holiness, Justice of God are shown in his constitution of the Family and of Patriarchal Government. Other works were to follow, probing to the bottom the constitution of Nations.

But it is fair to warn the purchaser that these works are abstruse to the last degree, and as hard to read as a well written book possibly could be. It would be a happy state of the human mind in which such works could become truly popular. But like Butler's Analogy, they have, in the discipline of the mind, a value independent of the information they convey. It would require an abler pen than mine to draw a just parallel between the two. But there can be no doubt that the reading of this day is too superficial. Glitter and tinsel are seized with eagerness, while granitic blocks of solid massive thought, such as Gould & Lincoln have given us in "Patriarchy," and attract few purchasers and fewer readers. Men that call themselves men ought to be ashamed of a reluctance to hard reading—especially farmers and mechanics, whose busy hands demand not the constant working of the mind to direct them.

I. F. H.

[NOTE.—A real contributor of valuable matter is not a deadhead, any more than a real editor is an idler. Such contributors as write to promote their selfish emolument or elevation to office, ought to pay for the insertion of their articles.—U. T.]

☞ The New York papers state that the sons of Old Ireland took possession of the city on Tuesday. The sky was obscured by green flags and the Stars and Stripes. Paper representatives of the same glorious banners fluttered together from every Irishman's cart, bedecked every Irishman's window, and were waved by every Irishman's child. In a word, the day seemed like an Irish Fourth of July. At one of the banquets in honor of the day, a letter was read from Gen. McClellan, proposing as a sentiment—

"The memory of the brave Irishmen who have sacrificed their lives for their adopted country in the present war. May their surviving comrades, foreign born and native, never lay aside their arms until the rebellion is crushed and the unity of the nation restored."

☞ A gentleman in New York city having occasion to advertise recently for a cook received among other applications, a note from a "young lady" of the profession, having enclosed her *carte de visite*, and stating her salary.

☞ The mails outgoing from Washington average over one hundred thousand letters per day.

Rubber Band Carpet Sweeper.

TRY IT! TRY IT!!

It saves Money; it saves Carpets; it saves Furniture; it saves Labor; it is cheaper than Brooms at five cents apiece.

It gathers up all dust, dirt, and loose lint on the carpets, and raises no dust to settle on the furniture, drapery, or ornaments, or to smother, side and irritate the lungs.

It does not wear the carpets half so much as brooms of any other sweeper.

It is the only practicable sweeper made, and the only article fit to sweep a carpet.

With our late improvements it gives universal satisfaction to all who use it according to directions. For sale at No. 12 Market Street by

Local.

IN BOARD OF ALDERMEN, on Thursday evening, the Appropriation bill was passed in concurrence. The annual report of the committee of School District No. 1 was received, and so much of it as relates to a new school house was referred to a special committee. The reports of the several school committees were ordered to be printed.

The following persons were appointed watchmen—John G. Tibbetts, Samuel A. Spinney, George Burt, Reuben Rand, Jr., Daniel D. Cate, James O. Evans, Oliver Dennett, and Ira Teague.

William B. Colley and Emery A. Dresser were appointed Assistant Marshals.

☞ The Democrats of this city and vicinity celebrated on Thursday evening the election of Hon. Daniel Marcy to Congress, with a success probably entirely satisfactory to the participants. There was a procession, lengthy and enthusiastic, with music, torch-lights, flags, and banners; the dwellings of many prominent members of the party were brilliantly illuminated; a huge bon-fire threw its lurid light across Market Square; and at the close a free collation at Jefferson Hall was highly enjoyed by those who had undergone the long march.

Meanwhile, the Republicans seemed to have acquired new hope during the day, many prominent members of that party confidently claiming that Joel Eastman is elected, and the less sanguine insisting that the official count alone can decide the matter.

OPERA.—Signor De Vivo, the agent of the Italian Opera, was here on Wednesday for the purpose of perfecting the necessary arrangements for the forth-coming of the operatic performance, at the Temple, next week. The company comprises three Prima Donnas, two Tenors, one Baritone, one Basso and a Pianist Conductor. It is a combination of musical talent such as we have never before had in this city.

☞ Hon. Joseph A. Gilmore, of Concord, the Republican candidate for Governor, was in town on Thursday.

☞ The side-wheel steamer Patuxet was launched at the Portsmouth Navy Yard on Thursday morning.

NEW HAMPSHIRE ITEMS.

—— Governor Berry has appointed Thursday, April 16th, to be observed as a day of Public Fasting and Prayer in this State.

—— As far as heard from, there have been elected to the House of Representatives 185 Republicans and 139 Democrats. All the towns in the State are heard from, except Marlow, Clarksville, Carroll and Pittsburg. If these have elected Representatives, they will stand 1 Republican to 3 Democrats. So that the House will be composed of 185 Republicans and 142 Democrats—Republican majority 45.

—— A subscription has been started for a fund to establish and sustain a Democratic daily paper in Manchester.

—— A lady, 81 years of age, died in Concord on the 9th, who commenced reading the Scriptures in course when she was but seven years old. Up to the time of her death, she had read the Bible entirely through seventy-four times, and was nearly two-thirds through it for the seventy-fifth time.

—— Col. Cross, of the 5th N. H. regiment, has offered to raise a brigade, outside of the conscription, for service in Arizona. A Washington dispatch states that from his familiarity with that country he will probably be made its military commander.

—— An amateur club, known as the Corps Dramatique of Exeter, gave a performance at the Town Hall on Monday evening, for the benefit of the sick and wounded soldiers.

—— The 3d Division, 9th Army Corps including the 10th and 11th N. H. regiments, Cols. Donobue and Stevens, left Newport News last week for Suffolk, Va.

LETTERS OF MARQUE.—The New York Tribune makes the following suggestion to those merchants who are in favor of the issue of Letters of Marque. In Mr Sumner's admirable speech on the subject in the Senate, the same sensible and practical position is taken.

Why should our Government now resort to the issue of Letters of Marque? The rebels have no commerce to prey upon; and how are Letters of Marque to be employed against the British pirates now flying the Confederate flag? If our merchants choose to fit out swift, well-armed steamers to run down and capture those pirates, very well; but let them take the sea as national vessels, and let the Government regard them as volunteer additions to its Navy.—We trust that our Chamber of Commerce will see the wisdom of giving the efforts of our merchants this shape. We see not why all possible good may not be secured, all apprehended evil averted, by taking this course.

☞ The amount of money taken from letters at the "Dead Letter Office" will, it is estimated, amount to $80,000 the present year.

☞ $11,000 were collected in one church in New York recently for foreign missions.

☞ It is said by gentlemen acquainted with Utah affairs, that the arrest of Brigham Young by Judge Kinney, was an arrangement agreed upon by the two to test the constitutionality of the anti polygamy law, and to create the impression that there is no resistance to judicial process in that Territory.

☞ The sum of $10,000 in gold was appropriated by a clerk in New York on Wednesday, who had been entrusted with the money to be delivered in Wall street.

☞ All accounts agree in reporting great destitution and distress in Northern Alabama and Georgia. The rebel army is starving the entire population.

☞ The Bangor Whig learns that on Saturday morning last, at Lincoln, the mercury fell to 38 degrees below zero. It was 32 in Mattawamkeag, and 23 in Bangor.

BEATING TIME.—A dispatch sent from the American Telegraph Office in Portland to Washington, D. C., on Wednesday at 9.25 A. M., was received in Washington at 9.15 A. M.

☞ Umbrellas are property! The amended internal revenue law provides that they shall be taxed three per cent.

☞ See you fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

MARRIAGES.

BUY CALIFORNIA WINES

They are the Purest!
The Best!
The Cheapest!

The "sunny slopes" of "Los Angelos" have announced to the world that America is a wine-growing country, and as the discovery of gold sent a thrill through the old world, so will the discovery of these Wines startle them again, as it says, "one more link broken which has bound us to Europe," "one more step to independence." Let every man, woman and child who uses Wine, see to it that they buy none other than these.

"The Hock" is a most delicious Wine, and rivals in delicacy its German predecessor.

The "Angelica" and "Muscatel" are melting, luscious and rich, and will take the place of Malaga, Tokay, or other rich Wine.

The Port has a fine flavor and body; and The Port is excellent because it is pure.

ANOTHER NEW STOVE!

THE MODEL COOK

FOR WOOD OR COAL.

The second the popular feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the larger oven, for baking, giving an oven nearly 3 feet long; or large enough to take six large Plates on the bottom, every part of which will bake evenly at the same time! A check draft is applied to this stove by means of which the consumption of fuel is greatly lessened, and a steady fire can be kept day and night if desired.

We refer to the following individuals who have purchased the Model Cook:—

David Kimball, Thos. F. Burt, John T. French, Rev. Mr. Davies, rem. Pettigrew, Capt. John Davis, Jeremiah Raitt, Mrs Ann T. Perkins, James W. Jarvis, Francis C Jarvis, Thos. L. Tullock, Jacob Wendell, Capt. Jacob Thompson, Gen. J. G. Hatley, C. Melvin Hundreds, Jos. D. Akerman, James F. Shores, Wm. C. Newton, Horton D. Walker, Benj. HALEY, MORSE & BOYDEN'S

PATENT SELF-ADJUSTING

CLOTHES WRINGER.

The following are twelve good reasons why every family should have a Wringer:—

1st. It will save time, which is money.
2d. It will save strength, which cannot be bought.
3d. It will save the Clothes, which cost money.
4th. Any man, boy or girl, can use it, who could not wring clothes by hand.
5th. It helps to wash the clothes, and by running them a few times through the Machine, out of hot suds, it will clean them as well as half the washing machines in use.
6th. It removes the water by direct pressure on the cloth, instead of the usual twist, which must strain and injure the fabric.
7th. Window Curtains passed through it will wring smooth and square, thus avoiding a source of vexation arising from the usual mode of twisting them out of shape.
8th. Woolen goods may be wrung out of hot water without injury to the rubber, or the least tendency to felting the cloth.
9th. Clothes passed through it will dry in half the time usually required when wrung by hand.
10th. It can be used on any common tub or barrel; and moved from one to another in a minute.
11th. It does the work in less than one-fourth the time required by hand, and a great deal better.
12th. It helps to make the washing day more pleasant.

This Wringer has had immense sale in this city and vicinity, and a year's trial has proved its many excellent qualities.

It is now one of the "domestic institutions." No family should be without it. Try one; if not satisfactory, the money will be refunded.

Ayer's SARSAPARILLA,

THE WORLD'S GREAT REMEDY FOR
Scrofula and Scrofulous Diseases.

From Emery Eldridge, a well-known merchant of Orford, Maine.

"I have sold large quantities of your SARSAPARILLA, but never yet one bottle which failed of the desired effect and full satisfaction to those who took it. As fast as our people try it, they agree there has been no medicine like it before in our community."

Eruptions, Pimples, Blotches, Pustules, Ulcers, Sores, and all Diseases of the Skin.

From Rev. Robt. Stradling, Bristol, England.

"I only do my duty to you and the public, when I add my testimony to that you publish of the medicinal virtues of your SARSAPARILLA. My daughter, ten, had an affecting humor in her ears, eyes, and hair for years, which we were unable to cure until we tried your SARSAPARILLA. She has been well for some months."

From Mrs. Jane R. Rice, a well-known and much-esteemed lady of Dansville, Cape May Co., N. J.

"My daughter has suffered for a year past with a scrofulous eruption, which was very troublesome. Nothing afforded any relief until we tried your SARSAPARILLA, which soon completely cured her."

From Charles P. Crane, Esq., of the widely-known firm of Crane, Murray & Co., manufacturers of enamelled paper in Nashua, N. H.

"I had for several years a very troublesome humor in my face, which grew constantly worse until it disfigured my features and became an intolerable affliction. I tried everything a man could of both advice and medicine, but without any relief whatever, until I took your SARSAPARILLA. It immediately made my face worse, so much so that it might for a time; but in a few weeks the new skin began to form under the blotches, and continued until my face is as smooth as any baby's, and I am without any symptoms of the disease that I know of. I enjoy perfect health, and without a doubt owe it to your SARSAPARILLA."

Erysipelas—General Debility—Purify the Blood.

From Dr. Robt. Sawin, Houston St., New York.

"DR. AYER. I seldom fail to remove *Erysipelas* and *Scrofulous Sores* by the persevering use of your SARSAPARILLA, and I have just now cured an attack of *Malignant Erysipelas* with it. No alterative we possess equals the SARSAPARILLA you have supplied to the profession as well as to the people."

From J. R. Johnston, Esq., Wahoma, Ohio.

"Positive years, I had the yellow Erysipelas on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollars worth of medicine. The ulcers were so bad that the cords became visible, and the Doctors decided that my arm must be amputated. I began taking your SARSAPARILLA. Took two bottles, and some of your PILLS. Together they have cured me. I am now as well and sound as any body. Being in a public place, my case is known to every body in this community, and excites the wonder of all."

From Hon. Henry Munro, M. P. P., of Newcastle, C. W., a leading member of the Canadian Parliament.

"I have used your SARSAPARILLA in my family, for general debility, and for purifying the blood, with beneficial results, and I feel confidence in recommending it to the afflicted."

St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes.

From Aeneas Sickler, Esq., the able editor of the Tuckahoe Democrat, Pennsylvania.

"Our only child, when about two years of age, was attacked by pimples on his forehead. They rapidly spread until they formed a loathsome and virulent sore, which covered his face, and totally closed his eyes for some days. A skilful physician applied nitrate of silver and other remedies, without any apparent effect. For fifteen days we guarded his hands, lest with them he should tear open the festering and corrupt wound which covered his whole face. Having tried every thing we knew of, and hope from, we began giving your SARSAPARILLA, and applying the iodide of potash lotion, as you direct. The sore began to heal before we had given the first bottle, and was well when we had finished the second. The child's eyelashes, which had come out, grew again, and he is now as healthy and fair as any other. The whole neighborhood predicted that the child must die."

Syphilis and Mercurial Disease

From Dr. Hewes Steed, of St. Louis, Missouri.

"I find your SARSAPARILLA a more effectual remedy for the secondary symptoms of *Syphilis* and for syphilitic disease than any other we possess. The profession are indebted to you for some of the best medicines we have."

From A. J. French, M. D., an eminent physician of Lowell, Mass., who is a prominent member of the Massachusetts Legislature.

"DR. AYER. My dear Sir: I have found your SARSAPARILLA an excellent remedy for *Syphilis*, both of the primary and secondary types, and effected a cure in some cases that were too obstinate to yield to other remedies. I do not know what we can employ with more certainty of success, where a powerful alterative is required."

Mr. Chas. Ewer, of New Brunswick, N. J., has suffered severely from the secondary symptoms of mercury, or *mercurial disease*, which grew more and more aggravated for years, in spite of every remedy or treatment that could be applied, until, by persevering use of Ayer's SARSAPARILLA relieved him. Few cases can be found more inveterate and distressing than this, and it took several dozen bottles to cure him.

Leucorrhœa, Whites, Female Weakness, are generally produced by internal *Scrofulous Ulceration*, and are very often cured by the alterative effect of this SARSAPARILLA. Some of the most decisive cures, in aid of the SARSAPARILLA, the skilful application of local remedies.

From the well-known and widely-celebrated Dr. Jacob Worcester, of Chelmsford, Mass.

"I have found your SARSAPARILLA an excellent alterative in diseases of females. Many cases of irregularity, Leucorrhœa, Interstitial Ulceration, and local debility, arising from the scrofulous diathesis, have yielded to it, and there are few that do not, when the effect is properly aided by local treatment. *A large, unwilling to allow the publication of her name, writes:*

"My daughter and myself have been cured of a very debilitating Leucorrhœa of long standing, by two bottles of your SARSAPARILLA."

Rheumatism, Gout, Liver Complaint, Dyspepsia, Heart Disease, Neuralgia,

when caused by *Scrofula* in the system, are rapidly cured by this EXT. SARSAPARILLA.

AYER'S CATHARTIC PILLS

possess so many advantages over the other purgatives in the market, and their superior virtues are so universally known, that we need not do more than to assure the public their quality is maintained equal to the best they have been, and that they may be depended on to do all that they have ever done.

Prepared by J. C. AYER, M. D., & Co., Lowell, Mass., and sold by

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his rooms, No. 7 and 9 BLACKSTONE STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unimpeachable extent, Dr. D has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to effect a speedy and perfect cure of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Lymphatic Tumors, Gleets and Gonorrhœa, Stricture of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, Frightful Ulcerations of the Throat and Nostrils, Pimples, Blotches, Ulcerations, Pains in the Limbs, &c., &c., are some interesting this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the consideration of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual to business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for using, or receiving description of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and three stamp.

April 1—1y Staw.

CAUTION

To Females in Delicate Health.

Mrs. DOW, Physician and Surgeon, 7 & 9 BLACKSTONE STREET, Boston, is consulted daily for all diseases incident to the female system. Pelsalpus Uteri, or Falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So firmly certain is the Doctress of the efficacy of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt her great her experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four cent stamps, or they will not be answered.

Office Hours from 9 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charge! Made.

Dr. Dow is consulted daily, from 9 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and 3 cent stamp.

Marriage Certificates.

For the use of Clergymen, Justices, and others who perform the Ceremony—for sale at this office. Neatly printed, by the single, dozen, or hundred copies

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stove, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats is prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify and speak of them in the highest terms of praise

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this very valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable—and at none of the air which is once in the room is the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the great est amount of heat from the given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over those in ordinary use, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The fine or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off into the chimney, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, leaving the chimney and heating the air of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used.

We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Siss, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. When the arch is irregular we can by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easy as a saucer, as when finished the work presents one whole piece.

6th While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*

No. 5 Daniel St., Portsmouth,

Has had four years of practical experience in making this material, and will guarantee satisfaction in all cases entrusted to his care.

DENTISTRY.

No. 60 CONGRESS STREET,
Portsmouth, Jan. 1st, 1863.

DR. GOODALL

Would respectfully inform his patrons and the public, that he has had for sale sets of teeth upon VULCANIZED RUBBER, that he has purchased the best VULCANIZER in the market, and is now prepared to do all work upon RUBBER, or the other bases of GOLD and SILVER as formerly, if preferred.

The Rubber has several important advantages, viz.: It is very light and durable, and comfortably perfectly easy to the muscles of the mouth and cheeks. There are no insterstices or open joints to collect food and decompose, and consequently they can be worn night and day, and are very easily kept neat and clean.

Beside all this, the mostaccurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the suction is of course much stronger than plates of Gold or Silver.

Any one who is waiting for their permanent teeth will I am confident, be perfectly satisfied with the Rubber. Its base, The expense is but a little more than for silver, and you get the same teeth (in blocks) that you would pay $60.00 for an upper or lower set on Gold.

In Philadelphia and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by, the best dentists too. I will warrant a perfect fit and teeth from the best manufacturer in the country, S. S. White.

ALL OTHER OPERATIONS IN DENTISTRY I will do at the usual rates. I will here mention that my price for EXTRACTING is 25 cents.

I take pleasure in referring the public to Dr. TREADWELL, Dr. HORKMAN, Dr. OLIVER and Dr. BENNETT, for particular success in extracting teeth. Teeth extracted, without pain and with perfect safety, with Ether. Teeth polished to any natural whiteness, without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention. All whole and parts of Sets of Teeth repaired with Neatness and Dispatch. All other operations in Dentistry, I will do at the usual rates.

Please call and examine specimens of Artificial teeth upon Vulcanized Rubber, Gold and Silver.
